

THE DAILY BEE.

TERMS OF SUBSCRIPTION. Daily (Morning Edition) including SUNDAY... Published Every Morning.

THE DAILY BEE. Sworn Statement of Circulation. State of Nebraska, ss. George H. Tschuck, secretary of The Bee Publishing Company...

Sworn to before me and subscribed to in my presence this 27th day of April, A. D. 1890. N. F. Ellis, Notary Public.

PATRIOTISM and George Washington rule this day. THE gas is escaping out of the Oklahoma boom and the dupes are returning home.

ALTHOUGH the New York legislature has passed a ballot reform bill, ballot reform will be as far off as ever in the Empire state.

THE proclamation of Mayor Hancock calling upon our citizens to suspend their daily recreations in order to celebrate the centennial of Washington's inauguration should meet with a hearty response.

THE SUNDAY BEE showed conclusively that cottages are in demand in Omaha at good rentals, and that flats are growing in disfavor and remain tenanted.

THE proclamation of Mayor Hancock calling upon our citizens to suspend their daily recreations in order to celebrate the centennial of Washington's inauguration should meet with a hearty response.

THE sidewalk inspector draws the sum of twelve hundred and fifty dollars a year. The condumium is, what service does he render for this pay.

OMAHA still keeps up the force of maintaining a best house at an annual expense approximating nine hundred dollars. There has not been as much as the shadow of a patient at this place for years, but for all that a tax-eater is paid by the city for warming his chair.

JAY GOULD was refused permission by New York City's aldermen to convert a big slice of the Battery into a "loop" for his elevated railroad.

SUBURBAN towns will appreciate THE BEE's efforts to "encourage" them such train service as will enable their townspeople to leave home early in the day, transact business in Omaha at midday, and return home in the evening.

THE people of the interior of Iowa are naturally indignant at the action of the railroads in substituting mixed trains and irregular service for regular passenger trains on their branch lines.

THE DAY WE CELEBRATE. To-day is for history as well as for sentiment. While we draw freely upon the fountains of patriotism and of national pride, in contemplating the moral and material greatness of our country, it will assist to a fuller and higher appreciation of what has been accomplished in a hundred years of constitutional government in the United States to recur to some of the conditions of the country when Washington was inaugurated in New York city on April 30, 1789.

It will be interesting to note the circumstances which led to Washington being inaugurated in New York and to the occurrence of that event on April 30 instead of March 4, the date fixed for the establishment of the new government.

THE lead pipe market is demoralized owing to the light now going on between the factories in St. Louis and Cincinnati. Local manufacturers are attempting to hold prices stiff under the protection of the agreement made between manufacturers, by which prices were not to be cut in places where factories were operated; but outside jobbers have dropped into Omaha and quoted prices away below trust figures.

It is manifestly the duty of the board of county commissioners to fully protect the county in the matter of the appointment of a superintendent of construction of the county hospital, and while the objection raised on Saturday to the conditions under which Mr. Coots was appointed does not appear to have great force, still it is well enough that the matter was referred for further consideration.

THE great gathering of the militia of the states at New York to-day will be taken advantage of by the war department to obtain information regarding the condition and discipline of this citizen soldiery, and other matters of interest, an officer having been detailed to watch the movements of the militia and report the results of his observations.

THE inconsistency of meat inspection bills is well illustrated in the measure now pending in the legislature of Missouri. If passed its operations will be restricted to cities of five thousand or over.

EUROPEAN cities have a way of bringing strikes to a close that may well be adopted when the occasion warrants. The recent street car strike at Vienna was terminated by the municipal authorities deciding that the street railway company should forfeit its twenty-five thousand dollar security and pay five thousand dollars penalty daily until travel was resumed.

THE people of Idaho are not at all discouraged in their clamor for statehood by the fact that the population of the territory is considerably short of the number necessary to choose a representative to congress. It is proposed to hold a constitutional convention and go through the forms of state, making, trusting to congress and to luck to do the rest.

GOVERNOR COOPER, of Colorado, wants a convention of leading men of that state to take steps to see to it that the west gets her share of appropriations in the fifty-first congress.

UPON the very best of authority it may be stated that Richard, one of the county commissioners, is himself again. The Omaha excursionists from all reports have the deadwood on the Black Hills.

THE prohibition law is being broken up in the Pacific Northwest. The city council of Denver has enacted a Sunday closing ordinance. The mayor is pledged to enforce the law.

THE Laramie glassworks have been sold to F. L. Scribner for \$24,000. It is reported that the plant will be put in operation at an early day.

THE city council of Denver has enacted a Sunday closing ordinance. The mayor is pledged to enforce the law.

THE worst features about dangerous soaps is the damage done before their injurious effects are detected. The injury done to clothing by the use of poor soap is often greater than the actual wear.

There are many white soaps, each represented to be "just as good as the Ivory," they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine.
