FAST TRAINS INTO OMAHA.

Grand Island Affected by Reductions in the Union Pacific Shops—The Strike of 1884—Notes and Personal.

Important to Omaha.

CHICAGO, May 2.—[Special Telegram to The Bee.]—The Burlington, Northwestern, Rock Island and St. Paul roads made an unsuccessful attempt to-day, to agree on the running time of trains to Omaha, connecting with the Union Pacific fast Denver train.

As a result of the disagreement, it is thought, all the lines will cut out of train as the Kansas City roads have done. A good judge claims that there is only enough business to make one fast train only.

Grand Island's Danger.

Yesterday a committee of citizens from Grand Island, consisting of Councilman Ufer and Messrs. W. R. McAllister and William Geddes, arrived in this city. Their intention is to confer with the management of the Union Pacific road regarding the recent reduction of the force of mechanics in the shops of the company at that place.

These shops, the committee claims, were erected ten years ago, and \$75,000 were voted for the purpose by the city. The committee further claims that it was understood at the time that employment would be given to between 200 and 400 men. So far from complying with its agreement, the company it has never employed more than 125 men, while at the present time the number of mechanics in the shops has been reduced to fifteen and twenty.

The committee claims that many of the discharged men are householders in Grand Island, who cannot move away without much difficulty, and that many of the families would be a great injury to the city, especially in view of the fact that the bonus for the shops was paid with the guarantee of continued employment.

ENORMOUS CONSOLIDATION OF ROADS.

CHICAGO, May 2.—[Special Telegram to The Bee.]—The rumor relative to the consolidation of roads east of the Missouri river to the Vanderbilt, Gould, Pennsylvania, Baltimore and Ohio systems was revived to-day. It was positively asserted that feelers had been sent out to a number of lines to learn their sentiment in regard to the matter.

No feeler had been sent to the Alton, but the general manager Chappel said: "The tendency is undoubtedly toward consolidation. It is the natural working out of the interstate competition. Of course it could not mean special provision for the weak roads and they are now in a measure ignored by the larger roads, where they could before compete on equal or differential rates."

TRANSPORTATION WITH STOCK CARS.

CHICAGO, May 2.—[Special Telegram to The Bee.]—The Illinois lines agreed to-day to put into effect the rules of the Western Freight association relative to the transportation given with live stock shipments. The rules are: One man one way with one car, one man one way with two or three cars, two men both ways with four to eight cars and three men both ways with seven or more cars.

RAILROAD NOTES.

W. P. Durko, assistant auditor of the B. & M., has been given charge of the clerical forces and matters connected with the auditing department, vice H. S. Wiggins, who has been transferred to the auditing department of the assistant treasurer. This was done in order that Durko might have direct supervision of the clerical force.

The Union Pacific put a large force of men to work to-day repairing trucks in the switch yards at this place.

Mrs. J. M. Barr, wife of Superintendent Barr of the Wyoming division of the Union Pacific, arrived in Omaha to-day, and departed for a future home at Cheyenne.

Benjamin Barrows, of the literary bureau of the Union Pacific, returned from the west yesterday. T. W. Jeffries and party passed through Omaha, west bound, in a private car. Assistant General Agent Smith, of the B. & M., is in Lincoln.

A LACERATED FROG.

Tom Donnelly is a chop-house clerk at 101 1/2 North Sixth street, who has been making a handsome time by selling a yellowish liquid, 15 cents worth of which was warranted to make ten gallons of imitation milk that could not be distinguished from the genuine. It is said that a great many of the milkmen, chop-houses and restaurants in the city have been using the compound and a few of it reached police headquarters. A warrant has been sworn out for Donnelly's arrest, and the police are looking for him.

GRANTED PERMISSION TO EXTEND.

The board of public works was presented with a little document yesterday afternoon. It came from the district court, and was a petition for an injunction, secured by the Omaha and Lincoln street railway company, forbidding the board from giving permission to the motor line to lay its tracks north on Thirtieth street from the intersection of Commercial street. Both companies are aiming to reach the Fort by this line, but the motor line's tracks are to be extended to the west side of Commercial street to Cassius street, several blocks south of Commercial.

Buffalo Express: Saracum is a dangerous weapon, but, like other dangerous weapons, it is very useful on occasion. A Main street car was lagging along at the rate of a mile an hour, and the conductor was sparring with himself over the question of seeing. At the same time he persistently left the door open to the great annoyance of the shivering passengers.
