THE SPECULATIVE MARKETS.

All Over the Country They Opened Soft and Lower.

THE CASH MARKET HARDENS.

July Wheat Holding Up in Chicago-Unfavorable Reports From Winter Wheat Districts-Pork Held Considerably Higher.

CHICAGO PRODUCE MARKETS.

CHICAGO, May 7 .- [Special Telegram to THE BEE. | - The signal service bulletin, this morning, gave information of general light rains throughout the northwest, but not enough, as yet, to do much good. As Pillsburg wired, later in the day, "Our low barometer is bringing us more wind than water." Private advices mentioned rain at many points in Dakota and Minnesota, but very few selling orders accompanied these dispatches. Usually this is the fault found with bull news about the crops, they seldom bring buying orders. But in this case it is the bears who are cautious. They report rain, but do not act as though they thought there had been rain enough. Nevertheless, the local market, and, for that matter, the markets all over the country opened soft and lower. July wheat started in at 78%c, and soid off to 77%c. This was %@%c below yesterday's closing range. The crowd was disposed to help the decline along, but the market was supported, and, in the neryous state existing, caution was the governing sentiment. It did not take much buying to start prices up again, and values soon got back to nearly where they were yesterday, especially long rutures. May and June were strong on the understanding that buyers were standing around ready to take everything in sight at the slightest evidence on the part of holders to treat with them. As the day wore away the cash end of the market continued to harden, while late futures remained about stationary. The closing quotation for May was 83c; for June, 821/c, and for July, 78%(@781/c. As compared with yesterday, this shows a gain of pared with yesterday, this shows a gain of 14c in May, 4c in June and a loss of 4c in July. After first decline, July worked up to 78%c, which point was reached several times during the session. Most of the business done was below 78½c, however, and it was not on a large scale. In fact it was exceedingly light in volume most of the morning. The eyes of the traders were lifted to the skies, as it were, and if the expectations of rain are not verified to a greater extent than rain are not verified to a greater extent than they have been, so far, operators will begin to take to their "cyclone cellars." The un-favorable crop and weather news is not confavorable crop and weather news is not confined to the northwest. The winter wheat districts are sending out bad reports of drouth and of discolored wheat fields. This discoloration may be the result of dry weather, or bugs, or both. Continued heavy shipments and firmer feeling in foreign markets, with dry weather generally prevailing, were in favor of the strength here, and the decrease of 752,000 bushels in the quantity on occan passage also contributed to support the market. There was no activity, however, in the speculative branch of business, which was principally of a local scalping character. Inspection rea local scalping character. Inspection returns now show a continued improvement in grading, as will appear from a reference to the quantities given above. The market ruled steadily firm all day, with occasional symptoms of uneasiness among the shorts, but not decided enough to advance prices much. At the close the market was from ½

to 14c higher than it closed yesterday.
Oats were less active than yesterday, although a fair to aggregate business was rethough a fair to aggregate business was re-corded. The feeling was easier in the main, especially in new crop delivery, which sold $\frac{1}{4}(@_{-3}^{3})_{c}$ lower. A prominent operator who has been buying recently was, to-day, a sel-ler and the reports of rain in the northwest helped to depress prices. May sold down to $\frac{1}{2}(@_{-2}^{3})_{c}^{3}$, and July touched $\frac{1}{2}(a_{-2}^{3})_{c}^{3}$, after opening steady at $\frac{1}{2}(a_{-2}^{3})_{c}^{3}$, though there was a final small improvement from bottom prices. final small improvement from bottom prices. Considerable May was sold in exchange for July at %c premium for the latter. The reccipts were liberal and the estimates for to-morrow, only moderate, while the outward movement continues large with more than 3:0,000 bushels withdrawn from store during the past two days. Oats to go to store sold at 22%c, or about %c lower.

In provisions, yesterday's advance move-ment was continued. Fortunately for the bull interest, the receipts of hogs fell considerably short of the number predicted, and, as there was no particular desire to sell, the product ruled higher, without creat-ing any particular stir. The upward move-ment was also remarkably steady, and at the adjournment pork showed a net appreciation for the day of 20c, lard of 5@714c and short

CHICAGO LIVE STOCK MARKET.

CHICAGO. May 7 .- | Special Telegram to THE BRE. !- CATTLE .- Business was slow, and, while a few choice light cattle sold at strong prices, heavy and common cattle were very slow of sale, and, in some cases, were quoted lower. A decline in the London cattle market, yesterday, equal to \$7.00@9.60 per head, dampened the ardor of exporters. The general demand for heavy cattle was very weak, and there were also many thin and common cattle sold 5@10c lower; and, at a late hour, there were many lots which could not be sold at 10c decline. Choice to extra beeves, \$4.15@4.50; medium to good steers, 1350 to 1500 lbs, \$3.80@4.10; 1200 to 1350 lbs, \$3.60@3.90; 950 to 1200 lbs, \$3.40@3.50; stockers and feeders, \$2.50@ 3.60; cows, bulls and mixed, \$1.75@3.40; bulk, \$2.40@3.00; Texas grass steers, \$2.60@ \$3.25; corn-fed, \$3.00@3.65. Hogs—Trade developed both activity and

strength to-day, the pens being cleared at an early hour, at figures 5c and 10c nigher than the quotations current yesterday. Of late light hogs have not varied much in price, while heavy and medium weights were more or less neglected and lower. To day the upturn was principally with heavy and desirable mixed. The northwest division sales show stronger advance than in any other di-vision of the yards, Burlington being the lowest. In a general way, heavy hogs and good mixed commanded 5c and 10c more than could have been obtained yesterday, while light sorts sold with barely 5 cents improvelight sorts sold with barely 5 cents improvement. Sales of stags and culls were at \$2.50 to \$4.00; rough to fair packing grades, \$4.55 to \$4.65, mostly at \$4.60; good to choice packing qualities \$4.65 to \$4.60½, and shipping shapes of heavy and butchers', \$4.65 to \$4.70. Light mixed, \$4.65 to \$4.72½; heavy mixed, \$4.60 to \$4.67½; York light sorts, or averages around 170 or 180 lbs, \$4.75 to \$4.80; and strong weight, light or angular shapes, of 220 lbs, down to \$4.70. Packers competed with eastern shippers for some of the best hogs on sale and paid, in many cases, outside prices.

FINANCIAL.

NEW YORK, May 7 .- [Special Telegram to THE BRE. !- STOCKS-Operations in stocks were quite active the first haif hour this morning. This did not result in any sharp turn in values, however, and prices for a time kept within narrow limits. There was not that general strength in the list noticed at the close Monday. London prices came irregular and prices here were rugged, with only & or % difference from last night. The two leading stocks were Atchison and New England. The principal action during the hour was an advance of 1/4 per cent in Manitoba to 103, I in Atchison to 49%, and I in New England to 45. Northern Pacific preferred sold % higher and Oregon Transcontinental 14 per cent better, while Louisville & Nashville lost 1/4 per cent. Chicago Gas was neglected and Grangers were dull and little changed. The hour to 12 o'clock was very dull, while the firm tone continued. St. Paul, Missouri Pacific, and Reading were more active than early, the last named yielding slightly. At noon prices were, on the whole, a triffe better than at the opening. The closing hours of the session in stocks was marked by weakness, with general unleading in a few securities. The best prices

of the day were those recorded before noon, and at the close nearly all the active shares showed more or less loss from the closing figures Monday. Burlington sold off to 97%, a net loss of 16 per cent. New England was sold freely, losing nearly all the early advance, closing but 14 per cent better for the day at 44%. Atchison went overboard and closed at 44 %, or 1 per cent net loss. The other losses for the day were 3/4 each in Louisville and Rock Island and % per cent in Union Pacific and Reading. The total

OMARA LIVE STOCK. Cattle.

Tuesday, May 7, 1889.
The demand was the best for light and they little cattle which sold stronger, while other grades went at about steady prices. The packers and shippers bought quite freely and the market was fairly active. A bunch of cattle was weighed up at \$4.10 which was a part of the bunch sold in the country last week, some of which were weighed up yesterday. The bulk of the steers sold at \$3.60 (£3.90). There were no especially new features in the market for butchers' stock, which was in light supply and good demand and sold at firm prices. The cows sold at a range of \$2.00@3.25, but mostly at \$2.70@ 3.00. A few stockers and feeders changed hands, but there were not enough good natives on sale to cut much figure in the trade. pretty decent little stockers brought

There was an improvement in the demand for hogs and prices advanced a shade to 5c. Choice light hogs and butchers' weights sold at \$4.40 and the packers bought the heavy and mixed loads readily at \$4.32\gamma(@4.37\gamma). An early clearance was effected, the hogs being all sold and weighed up

two loads of light lambs only fair, and two loads of good native Nebraska sheep. The demand continues good with the supply short and the packers say they are willing to pay such p ices that no one can afford to ship by here. The sheep which averaged 81 pounds sold at \$4.60.
