THE KELLEY SHOOTING TRIAL.

Souler and Born Rest Their Defense on an Alibi.

NUMEROUS SOCIETY MEETINGS.

The Indian School Boys Can Play Ball—An Unusually Long List of Accidents—A Hastings Boom—Crops and Crimes.

The Prisoner Sobbed Aloud. MADISON, Neb., May 15.—[Special Telegram to THE BEE.]—The evidence in the case of Souler and Born is all in the defense is an alibi. Two eye witnesses of the shooting have testified that they saw the assault upon Kelley, and that the defendants are not the men who committed it. About two witnesses have testified to the whereabouts of the defendants from half past 3 until 5 o'clock on the afternoon of the shooting. Kelley and Born were both placed on the stand by the defense to testify in their own behalf. Souler's testimony was taken through an interpreter, as he knows nothing of the English language. The witnesses were all subjected to a rigid cross-examination by the state, but their testimony remained unshaken. A very touching episode occurred during the testimony of Souler, who is a brother of Caroline Souler, the dead girl. When Mr. Allen, the attorney for the defense, produced her photograph for the purpose of identifying it, Souler gave way to his grief and sobbed aloud. It was some time before he could control his feelings and proceed with the evidence. The general opinion, to-night, is that the defense have made a strong case.

A PLEA FOR THE BONDS.

AMUEL REES TELLS WHY THEY SHOULD BE VOTED. OMAHA, May 14, 1888.—To the Editor of THE BEE: As there is danger of the citizens of Omaha not taking sufficient interest in the bond election to secure the issue of the bonds, the writer has deemed it wise to call attention to the matter. The reasons why the bonds should be voted are as follows: There is prevalent among the people an idea that the board of education is disposed to be extravagant in the expenditures for school purposes; but, whether so or not, is not a question at issue. The only question is: Are the proposed buildings necessary? That the people may judge wisely, I have thought of the following facts: The present school buildings and state, a few facts as I follow: 1. For a site in the vicinity of Lathrop and Twenty-fourth streets, \$3,000 is required. This property was recently contracted for last year, but has been held in a vacant state containing three rooms with an attendance of about one hundred and forty pupils. 2. For a site in the vicinity of Gibson, \$2,500. These two sites are in the same condition as the one at Lathrop and Twenty-fourth streets. 3. For a site in the vicinity of Dupont Place, \$5,000. In regard to this site, I would say that there is now a building at Dupont Place, which is a fine school building, and there is a demand for more room. The present site is too contracted for present and future needs. It is a fine site, and the farther west and purchase a large site with the expectation of getting in the future a large building, should be necessary. 4. For a site in the vicinity of a school site, \$10,000. With this it is proposed to purchase ground on one side of the other of the present school site, and to erect a sixteen-room building upon which to erect a sixteen-room building. 5. For enlargement of the Hickory school site, \$10,000. This site is a fine school site, which was contracted for by the old board, and the members of the present board from the locality of the present school site. The present site is a fine school site, and the farther west and purchase a large site with the expectation of getting in the future a large building, should be necessary. 6. For a site in the vicinity of a school site, \$10,000. With this it is proposed to purchase ground on one side of the other of the present school site, and to erect a sixteen-room building upon which to erect a sixteen-room building. 7. For a site in the vicinity of a school site, \$10,000. With this it is proposed to purchase ground on one side of the other of the present school site, and to erect a sixteen-room building upon which to erect a sixteen-room building. 8. With this it is proposed to purchase ground on one side of the other of the present school site, and to erect a sixteen-room building upon which to erect a sixteen-room building. 10. With this it is proposed to purchase ground on one side of the other of the present school site, and to erect a sixteen-room building upon which to erect a sixteen-room building. 11. With this it is proposed to purchase ground on one side of the other of the present school site, and to erect a sixteen-room building upon which to erect a sixteen-room building. 13.
