LAMPS,

## THE ASSESSED VALUATION.

It Has Been Illegally Changed By the County Commissioners.

A DECISION BY JUDGE WAKELEY.

Opinions of Attorneys on Judge Dundy's Ruling Relative to Jury Pass Holders-Federal and County Courts.

District Court. Judge Wakeley has given a decision in the two cases of Switzler and Straight vs the board of county commissioners, relative to changing the assessed valuation.

The board of equalization raised the valuation on two lots owned by Mr. Switzler from \$3,200, as fixed by the assessors, to \$4,500 and compelled him to pay \$100 more taxes than he would have been required to pay under the original appraisement. The valuation of Straight's lots was increased \$6,000, thus making his excess in taxes \$300.

The commissioners approved this action.

but Switzler and Straight contested in the Judge Wakeley held that there are only two rules under which the board can equalize assessments. One of these is by wards and townships, which they can regulate on their own motion, that is if they find that the valuation is too high in one ward and too low in another. They may lower the one on a general scale and raise the other. The second class includes specific property and the judge's ruling is that, to make any change in the assessor's valuation, the board must file a written complaint against the owner and enter into a formal treatment of the case This opinion, of course, gave Switzler and Straight a victory. The court ordered that the action of the board against their lots be set aside. It is generally conceded that the decision establishes a new condition of things, and will probably have the effect of making many thousands of dollars difference in the valuation on Douglas county

real estate and the amount of taxes collected.

Judge Hopewell issued a restraining order in the application of Arthur S. Potter, an injunction against Mayor Broatch, St. A. D. Balcombe, as chairman of the board of public works, and Michael Lee, president of the city council, restraining them from paving an alley in the block bounded by St. Mary's grenue, Twenty-sixth, Half Howard and Twenty-fifth streets. The hearing is set for next Saturday. next Saturday. An amended petition in the \$1,000 damage

real estate and the amount of taxes collected

suit of Edward S. Stout against the Union Pacific railway company, was filed yester-day in the district court. The plaintiff claims that he bought a "scalper's" ticket at Denver and was ejected from the train. The following transcripts in cases from justice courts were filed in the district court justice courts were nied in the district court yesterday: State vs Wilhelm Burch, for assault; Orchard vs Junior Order of Ameri-can Mechanics; Sevey vs Muldoon et al; Felker vs King, Jones vs Lefeber; Blake vs

United States Court.

The case of Lois Pickett against the Model Steam laundry, for \$5,000 damages, alleged to have been sustained by getting he hand injured in one of the mangles of that place, came up yesterday. Miss Pickett resides in Seward, Ia., but two years ago was an employe at the laundry at a salary of \$6 a week. On the 9th of November, 1887, she met with the accident above alluded to, by which she lost one finger of the right hand. The grounds for the claim for dam-

ages is neglect upon the part of the laundry people in running the machinery. In the contempt case against Treasurer Arterburn and Sheriff Rogers, of Chase county, for levying on property in the hands of a United States officer, the defeadants were assessed the costs of arrest and the pringing them here to court, but the assess-ment of fines and punishment was held in beyance for several days. L. F. Crofoot, of this city, was admitted

to practice in the United States court.

The grand jury is busily engaged in investigating the alleged mail robbery case against ex-Postmaster Cowell and wife, of Halsey, this state. There is a large array of witnesses in attendance, and the matter is being rigidly inquired into.

The County Court. William Drummond entered suit yesterday in the county court yesterday to recover \$420 from William E. Gratton. The indebtedness is cinimed to be due on a promissory

appointed executors of the estate of Daniel Sullivan, deceased. James Creighton and J. J. O'Connor were The following judgments were rendered

yesterday: Daniel Burr vs William F. Men-ing et al, for \$263.15; William Spencer vs James McGucken, for defendant.

Jury Pass Holders. The ruling made by Judge Dundy that

the possession of a pass does not disqualify any man from acting as a juror in the trial of railroad cases, has furnished the lawyers an interesting subject to discuss. A large majority of the members of the county bar take exceptions to his honor's ruling and openly declare that it is a dangerous one. Warren Switzler said that he pre

Mr. Warren Switzier said that he pre-sumed the matter was discretionary with the court, though, in his opinion, the knowledge that a juror holds a pass, ought to be sufficient ground to challenge him for cause. Circumstances however, he said, often change the case. In western states, where railroads are liberal with their favors, it would be a difficult matter in the United States court to get jurors enough if all the pass-holders were disquali-

General Cowin said he would certainly ap-peal a case to the United States supreme court if the amount involved reached \$5,000, and take his chances of having a verdic against pass-holders reversed. "Our supreme court has already decided,"

chimed in Mr. Keller, "that it is a misde-meanor for an attorney, while engaged in the trial of a case, to be seen taking a drink with a juror, or inviting him out either to dine or ride with him. It, therefore, strikes me that a pass is strong enough objection to the presence of a man holding it serving as a juror in the trial of any case wherein a rail road company is one party to the suit."

Many of the recognized authorities in civil as well as military circles say, The malarial disease is most danger ous in that the kidneys are most liable to break down." Such men as Dacosta, Atkinson and Pepper, professors in our leading medical schools, and Soldaton, Surgeon General in the Russian army, Woodward, Surgeon General in our American army, speak of malaria as a direct complication of chronic Bright's disease. The kidneys must be kept free from disease and the poisonous germs of malaria; they must act normally in cleansing the blood, for 65 gallons of it passes through them every hour. Peo-ple in malarial localities recover from both the cause and effect of malaria using Warner's Safe Cure. Every either kidney disease or malaria, should use Warner's Safe Cure as a precautionary measure.

Board of Public Works. The board of public works yesterday

approved the bond of C. H. Pritchett, under contract to do certain grading.

A permit was granted the motor company to build three miles of track from Seventeenth and Clarke streets to Twenty-second, from Twenty-second to Charles and from Sixteenth and Spencer to Thirty-second.

Eight Workmen Injured. PITTSBURG, May 16 .- A wreck on Pittsburg, Virginia & Charleston railroad, near Ormsby, a supurb of this city, this morning, resulted in the injury of eight workmen, three of them probably fatally.

For a disordered liver try Bescham's Pills.

A SECRET SESSION.

The Stockyards Officials Hold a Pro vate Confab.

The version of John A. McShane of the South Omaha stockyards deal as published in a morning paper was given under somewhat peculiar circumstances. It was reported yesterday that John F. Boyd was equally surprised with a great many others when THE BEE come into his possession last evening. He repaired to the residence of William A. Paxton where he had not been long before Mr. McShane put in an ap-

pearance. When a reporter of one of the papers publishing a contradiction interviewed McShane, Mr. Boyd was present and Mr. McShane's reply was most likely warped to suit the "guests." However, a private conference was held at Paxton's residence, Wednesday night, but the theme of discussion could not be learned. Mr. Boyd stated to a friend, yesterday, that, while it was news to him, he was of the opinion that the report in Tur. Bre was not yery that the report in THE BEE was not very wide of the mark. Others, who seem to be cognizant of the situation, claim that THE

BEE did not overdraw the matter.

Hon. William A. Paxton was seen in reference to the report that Mr. E. Dickenson would be offered the presidency of the South Omaha Stock Yards company. He said that the report had probably become current by reason of a consultation which was held recently between a few of the leading stockholders, at which a proposition was discussed looking to the appointment of a man qualified to conduct the business of the company in the absence of either Mr. McShane or Mr. Paxton.

"The business has grown to such enormous proportions," said Mr. Paxton. "that we have been compelled to give most of our personal attention to it, which has resulted in neglect of other highly important per-sonal interests. Further, Mr. McShane and myself have necessarily to be absent a con-siderable portion of the time, which makes it almost imperative that a man be secured who is in every way qualified by superior judgment and executive ability to properly manage the business. In the conference aiunded to, Mr. Dickinson's name, together with those of three prominent railway officials of this city, was mentioned, but as for a proposition being made to any of them, we are just as far away from a conclusion as to the man to be selected as we were a year ago."

THE ORPHAN' HOME.

Rev. L. B. Payne, Agent and Trustee of the Orphan's Home at Macon, Ga,, Writes a Letter Dated February 5th, 1889.

"I have been using Swift's Specific with the children of the orphan's home under my charge with the best results. I began its use between nine and ten years ago, and have seen many remarkable results.

Quite a number of the children had constitutional blood diseases resulting from the sins of the parents, and every one of these children were cured of the horrible taint by

the use of S. S. S. There have also been scores of children in the institution whose systems (they having been mostly without the benefits of parental care) were enervated by dirt-eating and other foul practices. Everyone of these children have taken S. S. S., and all have been signally benefitted by it. All have been cured who have taken enough of it. We have also two inmates of the home, subject to painful recurring attacks of erysipelas. Neither one improved under the treatment usual for the disease. When all other medicines were discarded and they took S When all other S. S. the cure in each case was quick and permanent, for they have been well for five years and there has been no return of the disease. I could tell much more of the re markable cures of blood disease by S. S. S. for I have seen it used and know its value.

L. B. Payne.

A BIG DEAL.

The Union Pacine Reaching Out for More Leased Track.

An important deal is being considered by the Union and Northern Pacific roads. It is a lease by the former of 150 miles of road, the property of the latter. This action has grown out of the dispute regarding Puget Sound traffic. About ten years ago, before the Union Paific had acquired control of the Oregon Railway & Navigation system, the Northern

Pacific obtained a lease of the track belong ing to that system between Walnut Junction and Portland. The Northern Pacific has and Portland. The Northern Pacific has another, but a circuitous line, to the north of this, which is a coast outlet. To run over this requires twelve hours more time than are required via the Union Pacific line. To reach Pugot Sound the Union Pacific is compelled to use 150 miles of track of the Northern Pacific, which is that portion between Portland and Olymitation. is that portion between Portland and Olympia and Tacoma. In this way, both lines have access to the Puget sound points; but, according to reports, neither has been satisfied with them. Some time ago, the Union Pacific, which is lessee of the Navigation line, made a proposition to the Northern Pa-cuic for the cancellation of the present and the entering into of a joint lease of both companies. This subject was under considera-tion for some time, but the request by the former was more than the latter cared to grant, in consequence, the deal has fallen through. Following this, came the issue on Puget sound traffic, which is now an im portant issue before the railway world. The action of the Northern Pacific is regarded as final and the collapse of the association is consequently anticipated. In view of this fact, the Union Pacific has concluded to lease that section of the Northern Pacific between Portland and Tacoma, which will give them a continuous and easy line to

This was decided upon Wednesday and will Puget Sound points. e the object of the visit of Vice President Holcomb, General Attorney Thurston, and Messrs. Kimball and Millard, to that point

It is also stated that the Union Pacific will endeavor to have the track lease of the Northern Pacific between Wallace Junction and Portland cancelled. In the event of the deal being consummated, that company will open up a general western department at Olympia or Portland, on an extensive scale.

Will Stand No Reduction.

Considerable has been said of late concern tousiderable has been said of lace concerning the attitude of the various railroads toward the Brotherhood of Locomotive Engineers. Reports have been rife that certain western roads were conspiring to boycott the brotherhood men, but as yet no proof of this alleged fact has been adduced. A telegram in The Bre of yesterday, from Chicago, concerning the matter, was shown a member of the brotherhood. He read it over carefully, and said: "This may be true, so far as the action of the railroads is concerned; but, let me say that the engmeers will stand no reduction in wages, There is not a day that we step into the cab of our engines that our lives are not imperiled, and from unavoidable circumstances too. But this is not connected with our Chicago, concerning the matter, was shown a imperiled, and from unavocations to see, too. But this is not connected with our demand that no reduction be made. We have no easy duty to perform in the capacity of engineers. We are paid but moderate wages for our service, although it is a continual drain upon a man's system to occupy an engineer's cab. He works hard, bas long hours and must be an adopt in the business. I have read of reports concerning the pros-pect of another outbreak, but I am ignorant pect of another outbreak, but I am ignorant of any action having been taken in the prem-ises. An engineer told me that the Milwau-kee road had the subject under considera-tion, but I think the road is sufficiently fa-miliar with the result of the Burlington strike to cause it to meditate before follow-ing its avanual." ing its example."

Dickinson Declines.

There was much rejoicing at Union Pacifiheadquarters over the telegram in THE BER from Sioux City announcing that Assistant General Manager Dickinson had declined the position of general manager tendered him by the South Omaha Stock Yards company.

THE EPISCOPALIAN COUNCIL.

Proceedings of Yesterday's Sessions at Trinity Oatheiral.

THE BISHOP'S APPOINTMENTS.

Additional Communicants Added to the Roll-The Affairs of the Church in a Most Grati fying Condition.

The Sessions at Trinity. Yesterday's session in the Episcopal council opened with morning prayer in the cathedral, which was largely attended by the clergy and laity. The council reconvened in business session at 10 o'clock, nearly all the

delegates being present. The priest in charge of St. Phillip's mission for colored people announced W. R. Gamble as the representative of the mission in the council. Mr. Gamble was admitted to the convention, finally disposing of the

Dr. Zahner offered a resolution that, here after, priests should only report such communicants from his parish as have partaken of the sacrament within the past two years, and that such as had not so received should be suspended unless they should show a sufficient excuse.

Williams offered as an amendment that it shall be declared the duty of all com-municants to attend communion at least three times a year, and that, if they should not attend at all, suspension should follow unless satisfactory reasons for the failure should be given.

The committee of christian education re-

ported through its chairman. The work in this direction being done at Brownell hall and the church school in Plattsmouth was highly commended. The committee on the state of the church, reported that they found that nine new churches had been built during the year and many other improvements made. Additional communicants had been added to the roll and the church affairs were in a most gratifying condition. A vote of thanks was given Mr. Pearson for his ac-ceptable fulfillment of the duties of registrar. The bishop made the following appoint-

Rev. W. O. Pearson, registra Zahuer, honorary resident canon of the ca-thedral; Rev. W. T. Whitmarsh, honorary canon of the cathedral from the northern district; Rev. R. C. Talbot, honorary canon from the southern district. These appointments were confirmed and the council adourned until 2 o'clock.

The members at their session yesterday afternoon had a deadlock over the selection of deputies to the general convention to be held in New York The work of selecting the deputies lasted from 2 o'clock until 6:30, during which time the meeting greatly resembled a ward caucus before a city election. After about twenty ballots the following deputies and alternates were

Deputies, Rev. Dean Gardner, Dr. Zahnner, Rev. Robert Scott, and Rev. John Hewitt of the clergy, and J. M. Woolworth, J. E. Smith, O. M. Carter and S. D. Barkalow of the lay. The clergy alternates chosen are Rev. Canon Doherty, Rev. A. A. Morrison, Rev. G. W. Flowers and Rev. W. T. Whitmarsh. The lay alternates are H. H. Meday, Phillip Polter, C. S. Montgomery and A. C. There was quite a contest, too, over the

election of the standing committee of the liocese, resulting in the following being Dean Gardner, Rev. H. B. Burgess and Canon Doherty, of the clergy, and Laymen J. M. Woolworth, H. G. Clark and H. W. Yates.

The legislative committee made a report ecommending an amendment to Canon XIV. which provides for the collection from each parish at the rate of \$1 for each communicant for the contingent expenses of the diocese. The amendment provides for the assessment of an amount necessary by the council for its expenses to be apportioned among the parishes by the standing committee. After onsiderable discussion the report went over to the evening meeting, when it was recom-

mended for a year.

The proposed addition of a new cauon, requiring communicants to receive communion three times a year, and fixing ex-pulsion as a punishment for a failure to receive the communion for two years, evoked discussion that became heated at times. The proposed canon was tabled, but was finally referred to the general convention as

a suggestion for needed legislation.

The committee on religious instruction in the army presented a report, which was adopted, recommending an increase of the adopted, recommending an increase of the number of army chaplains and an appropriation by congress for the erection of soldiers' chapels at various army posts. Mr. A. P. Hopkins was unanimously re-

elected treasurer of the diocese.

Bishop Worthington appointed Rev. Robert Scott and Rev. W. T. Whitmarsh rural deans of the South and North Platte convocation districts.

The report of the committee on church ex-

tension makes an excellent showing of the work that is being done through the state. A \$30,000 church is being built at Lincoln, a \$35,000 cathedral at Beatrice, and a \$17,000 church at Grand Island. In addition to this, churches are being erected at Wilbur, Wy-more, DeWitt, Geneva, Odell, Chadron, Broken Bow, Loup City and Cody. The council adjourned at 10 o'clock last

The Gate City. CHAMBERLAIN, S. D., May 17 .- [Special to THE BEE. |-Pilgrims to the promised land of the Sioux reservation are coming more and more every day, and Chamberlain, the coming capital of South Dakota, is going to be a city before the old-timers realize what has happened. The new-comers here are at once captivated by the beauty of the town and the surrounding country, while its markable position as the gateway to the Sioux reservation is causing an influx of eastern capital that surprises even old-time The demand for real estate is unboomers. The demand for real estate is unprecedented, and it is already settled that
Chamberlain is to be a "city of homes," for
residence property is in great demand, the
fine plat known as the Lincoln Park addition
leading the market. The popularity of investment in this addition is largely due to
the wisdom of the managers in offering the
property on lipscal terms, and at prices that vestment in this addition is largely due to the wisdom of the managers in offering the property on liberal terms, and at prices that insure a profitable investment. The build-ing of the St. Paul bridge at this point, will involve an expenditure of over \$1,000,000 in Chamberlain, and will be alone a great bene fit to the town, both in bringing capital and labor here.

Will you suffer with dyspepsia and liver complaint? Shiloh's Vitalizer is guaranteed to cure you.

The City Council. Councilmen Lowry and Wheeler engaged in a heated discussion at last night's meeting of the council on the question of the approval of Phelan's contract for grading certain streets. In the contract was in cluded the grading of Sixth street between Pierce and Hickory. Mr. Lowry favored it, and Mr. Wheeler objected to the grading of that thoroughfare on account of lack of funds. The matter was finally referred to the committee on grading.

A resolution was introduced, instructing

the committee on public buildings to secure the board of trade rooms in which to hold

future sessions of the council. If the hall is procured, the police court will be removed to the present council chamber. This move will be made in order to facilitate police justice matters. The present quarters are in-Considerable routine business was trans-acted.

MASTERS WIPING JOINTS. Plumber's Bosses Succeed Journey

men on the New Bee Building. Three non-union plumbers from St. Paul and other cities, were put to work by the Hussey-Day company, yesterday, upon the new BEE building, and, as a result, all the union plasterers and bricklayers in the building, sixteen in number, and a marble cutter left their work and marched out of the building, refusing to do another stroke of work until the non-union plumbers were discharged. Members of the plumbers' union appeared on the scene and succeeded in persuading one of the non-union men to eave work, but the other two refused to do The journeymen of the union are watching

the building and all the depots closely, and declare that no man shall go to work there until this matter is settled. Those men who were not engaged watching The Ben building and the depots were scattered in squads along Douglas street, discussing the question. Mike Conway, president of the union, speaking to a newspaper reporter, said that all he had to say was that the journeymen would make the bosses sick by Monday or

Tuesday.

At 1 o'clock J. J. Hannigan, Graham Park,
Dennis Fitzpatrick, Frank Bellamy and J.
Rēed, all master plumbers, took their kits
and went to work on The Bee building, in the places of the strikers. The journeymen threatened in the morning that, if any of the master plumbers went work, all union mem employed about the building would be called off. A number of the strikers stood around

guying the bosses at work, but no attention vas paid to them. "Tinners, plasterers, painters and members of all kinds of trade organizations have been to see us and offer us financial aid," said President Conway, of the Journeymer Plumbers' union, as he came out of the meeting at the G. A. R. hali last night.

"What have you done?" was asked.
"We have decided not to go back to work until the masters pay us for the time we have been out. We have a number of men at work and more will go at it soon. The masters have sent east for men and we've sent east to stop them. We will come out

TRIED TO WRECK A TRAIN. A Fortunate Discovery Prevents An

Appalling Accident. GREENFIELD, Mass., May 16 .- A dastardly attempt was made last night to wreck the west-bound passenger train on the Fitchburg railroad, a short distance below Shelburne Falls. Shortly before the train left that station, at 10:54 last night, a track walker found a pile of ties and sleepers piled on the track at a sharp curve. He attempted to remove the obstructions and was vigorously stoned by some unknown person. He ran track in time. If the obstructions had not been discovered a terrible accident, attended with loss of life, would have resulted.

The Two Trusts Consolidate.

NEW YORK, May 16 .- | Special Telegram o THE BEE. |-The American Meat company, which was recently reorganized, and of which ex-Senator Warner Miller is president, has agreed upon terms with the officers of the American Cattle trust, by which the wo corporations will work in harmony, director of the American Meat company said practically merge the two concerns into one, and would be most advantageous to both. He said that the deal involved the payment of five millions, or an equivalent in securi ties, but as the contract had not been reduced to writing and signed, he de give any further information as to the

Schuyler's Social Sensation. SCHUYLER, Neb., May 16 .- [Special to THE Ber 1-Schuyler has had a genuine sensation in the last few days, caused by the exposure of a social scandal that has caused the complete ruin of two happy families. Several weeks ago Mr. A., a highly respected citizen, was led to believe that his wife was unduly intimate with Will G. McPherson, traveling salesman for Richardson, Boynton & Co., of Chicago, who resides here. McPherson's father recently died, and Mr. A. and wife being intimate friends of the family, went there to assist. In the middle of the night Mr. A. went into the room where the body lay and found his wife and young McPherson in a compromising position. He said nothing but proceeded to investigate.

A few days after he told his wife that he was going to a vestry meeting that evening and would not be back until 10 o'clock. He went out, but returned in a few moments and told his wife that he did not feel well, and would remain at home. In a few mo ments there was a gentle knock at the back door. He quickly opened it, and there stood McPherson, who became confused and refused to enter, and quickly disappeared in the darkness. He then charged his wife with infidelity, and she broke down and con-

Mr. A. then procured an attorney, took her written confession, stated that her relations with erson antedated three years. McPherson The attorney drew up a deed conveying to her husband what property he had deeded to her, and she sigued it and last Saturday morning she took the early morning train for Chicago. It now develops that for a long time the neighbors had suspected something wrong on account of McPherson's frequent visits when Mr. A. was away. Proceedings for a divorce have already been begun. What makes the matter more aggravating is

What makes the matter more aggravating is the fact that McPherson was an intimate friend of Mr. A. [41]

McPherson has a loyely wife and two children. He has left home and his whereabouts are at present unknown. Should he venture to return to Schuyler he will be promptly arrested. Mr. A. was a kind and affectionate husband and their home life had always been harmonious. He was building a commodious residence in the southern part commodious residence in the southern part of the city, which is about half completed. Public indignation is intense, and McPher-son is likely to meet with a warm reception

Two Thousand Men Strike. PITTSBURG, May 16 .- Two thousand employes of the lap-weld and butt-weld departments of the National Steel Works company, at McKeesport, Pa., struck to-day for an advance of ten per cent in wages. The employes of the galvanizing and rolling departments threaten to join the strikers. About six thousand men are employed by
