SPENCERIAN PENS. Mr. Mount Says he will not Furnish Them to Clerks.

It is understood that Commissioner Anderson, will renew his fight on County Clerk Roche to-day. Auditor Evans have completed the report of will hi investigation into stationery accounts, which will be presented to the board. This report is said to be about a yard long and among other things will show that writing pens have been purchased at \$1.50 per box, when the contract awarded on bids fixes the maximum price at 75 cents per box. Mr. Roche, however, explaining the matter says the

however, explaining the matter says the contract calls for the Falcon and Estabrook style of pens, which Treasurer Bolln and Clerk Moores re-fuse to use. They order the Spencerian, and won't have any other kind, and the clerk must therefore get them what they want. The Spencerian costs \$1.50 a box. Commissioner O'Keeffe says he would like to know why the finance committee sits around wearing out chairs, and Mr. Mount is determined that the judges, clerks and every body else shall use the stationary fur-nished them by the board. The hospital controversy is again engross-

hished them by the board. The hospital controversy is again engross-ing attention, and the commissioners have renewed their wail of woo against Architect Myers. He ordered the steam nines placed in a trench which. Ing the Coots report unsigned. He ordered the steam pipes placed in a trench, which, the board claim, is entirely impracticable. They have telegraphed him that the pipes must be hung with fall enough to allow the water to run off. The boilers will also have to be lowered about seven feet, which will necessitate underpinning the walls in the boiler room. boiler room

MAIL TO THE BLUFFS.

It May Yet be Carried Upon the Motor Cars.

The Omaha and Council motor company is anxious now to carry the mails between the two cities. A proposition for the privilege has, it is understood, been made to the postoffice authorities here, and will be laid be-fore the postmaster-general at Washington. Locally, the idea seems to meet with favor-able consideration. The mails passing be-tween the towns, could then, it is claimed. be delivered every hour, if necessary, whereas, by the present arrangement, with carting back and forth between postoffice and depot a letter sent from an Omalia mer-chant to one in the Bluffs cannot reach its designation in less than three hours. Furthermore, a change of this kind would do away with wagons, the line pass-fing the postoffice in each place. The change would virtually establish a special delivery service between the two cities and thus greatly facilitate the trans-action of important business. In some of the office authorities here, and will be laid be-

offices to the main office.

T. Granger Stewart, M. D., F. R. S. E., ordinary physician to H. M., the queen, in Scotland, professor of prac-tice of physic in the University of Edinburgh, writes: "The arteries are selerosed and atheromatous in the advanced stages of the inflammatory and in the cirrhotic, but not so small in the waxy disease. In that affection the small vessels in other parts are frequently the seat of waxy degeneration. From this it will be seen that in the three forms of kidney disease, classed as Bright's disease, the arteries suffer

frequency of apoplexy and paralysis, and as clearly demonstrates that the only preventive of these disastrous ruptures of the blood vessels is the the kidneys in a healthy condition.

Ought to Don a Tie. Brad Slaughter never wears a neck-tie. His style, therefore, is not appreciated by les of Judge Dundy's court, and ac cordingly, a petition was filed with his honor praying for an order compelling the marshal to top off his expansive white shirt with some kind of neck-wear. The signers of the petition recommended all styles, shades, cuts and colors of the "Four-in-Hand" pattern, and adiirn that they will not be content until the gentleman with a sanguinary name dresses up. They go so far as to threaten united opposition to his becoming qualified as United States marshal unless he complies with their demand. Judge Dundy refused to take the matter under serious advisement.

action of important business. In some of the large eastern cities, notably Baltimore, the mails are carried on street cars from sub-

ARCHITECTS' ASSOCIATIONS.

Those of the United States Are to Be Consolidated.

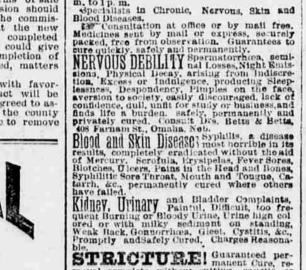

Sidney Smith returned Thursday, from Chicago, where he had been attending a meeting of the board of directors of the Western Architects, of which he is chairman. The board met, at this time, simultaacously with a meeting of the directors of the American Architects' institute in New York, and the two boards opened and counted the sealed ballots for and against the consolidation of all associations of architects of the United States. In the vote of the Western association there were but three votes, out of a total 375, cast against the consolidation, but in the American institute there were but three votes over the required two thirds ma-jority cust for the consolidation. But these were sufficient to accomplish the desired end. Immediate steps will be taken by the two boards in joint session for calling the first national convention. The place at which this is to be held has not here fixed upon.

Hascall's Poor House.

Councilman Isaac Hascall, who purchased the county poor house and a portion of. the addition upon which it stands, at auction some time ago, held a conference yesterday with the county commissioners, and agreed to allow the county to remain in possession os the property until January 1, 1890, for the consideration of \$1 and the building. When he purchased the property the terms of sale he purchased the property the terms of sale of the contract were that possession should have been given May 7 last. The commis-sioners at the time believed that the new county hospital would have been completed by that date, and that the county could give up the poor house, but as the completion of the new hospital has been delayed, matters did not progress as anticipated.

Mr. Hascall's proposition met with favor-able consideration, and a contract will be entered into. Mr. Hascall also agreed to as-sums all the liabilities which the county may incur by reason of its failure to remove the poor house.
