

The best residence addition in Omaha, its conditions and surroundings make it a most desirable place to live. If you have not seen Dundee Place within the past month or so, call at our office any time and we will cheerfully show you the property.

Remember there are no cheap buildings. Every house must cost at least \$2,500. We sell on easy terms, and if you desire we will contract to build a house of your own planning. We can have it built cheaper than you can. Why? Because our contractors buy in large quantities, and can therefore make better terms. We give customers the benefit of this advantage.

Do not buy or build without first seeing what we have and what we can do. You can own your own home in five years, for a very little more than you would pay for rent, and at the same time have the advantage of increase in value.

New houses are being started in Dundee Place every few days, and the owners hardly wait for their houses to be completed before moving into their new quarters. Price of ground \$25.00 per front foot no less than 100 feet sold, terms one-third cash, balance 1, 2 and 3 years, or to suit purchaser. Building loans made if desired.

We have advertised the clauses inserted in all our deeds of conveyance frequently. Many that have been interested in selecting an elegant home site have read them, and others who have become more interested of late, wish to know just what the conditions are. Below we quote them again:

First: The said premises shall be occupied and used for residence purposes exclusively for a period of at least fifteen years from the date hereof and for no other purpose whatever.

Second: No residence or dwelling house or other building shall at any time within said period of fifteen years be erected or kept, wholly or partly, on any lot hereby conveyed, within twenty-five feet of any street line bordering on such lot.

Third: No residence or dwelling house shall be erected or kept on said lot or lots hereby conveyed, at any time within said period of fifteen years, costing less than twenty-five hundred (\$2,500) dollars, exclusive of other buildings and improvements on said lot or lots.

Fourth: The premises hereby conveyed shall never during said period of fifteen years be used for any immoral or illegal business or occupation; nor shall any spirituous or malt liquors be sold or bartered away on said premises during said period of fifteen years. Call at our office for any particulars.

The Patrick Land Company,

SOLE OWNERS OF DUNDEE PLACE,

Room 25 Chamber of Commerce.

W. H. CRAIG, President.

N. D. ALLEN, Vice-President.

W. K. KURTZ, General Manager

TWO ROADS TO ETERNITY.

Hemp and Bullets Translate a Stranger Into a Hideous Angel.

SHOT AND HUNG TO A LIMB.

The Ghastly Spectre Which for Two Months Has Been Sheltered in a Deep and Lonely Ravine Near Irvington.

By Rope and Bullet.

August Davis, a farmer, while walking through the woods about half a mile northeast of Irvington Sunday looking for a bee tree, was horrified by coming suddenly upon an unknown man hanging from a limb of a large tree in a ravine between the Elkhorn Valley and the Omaha roads.

On the ground he discovered a six-barrel revolver with two chambers empty and the others loaded. Closer inspection revealed an ugly-looking bullet-hole in the man's forehead. These circumstances indicated that he must have first tied a rope around his neck, climbed up and fastened the other end of the rope to the limb. He then shot himself and dropped. The height of the limb keeping him above ground.

The body is said to be very badly decayed and may have been hanging some weeks. Mr. Davis hastened to Irvington and made known what he had seen.

William Miller, agent of the Elkhorn road, and several other men went back to the woods with him and verified his story. The man's pockets were searched for something which would enable them to identify him but nothing could be found.

The victim is described as being about five feet nine inches tall, heavily built, and of dark complexion, though the face is so badly decomposed as to render it impossible of identification. The hair on his head has commenced to fall off. He wore a blue-colored coat and vest, brown overalls, black slouch hat and heavy, coarse plowing shoes.

The cause of the suicide is a great mystery and has created considerable excitement in the neighborhood. If the man took his own life, he selected an isolated spot for the purpose of delaying his discovery as long as possible.

From all information that can be gathered there is no evidence about the scene on which to base a theory of lynching.

Coroner Drexel visited the scene and returned at 2 o'clock. He cut the body down and held an inquest, which resulted in a verdict that an unknown man had committed suicide by shooting and hanging.

The coroner thinks the deed must have been done two months ago. The body was buried at Irvington yesterday afternoon.

That Tired Feeling

All sorts nearly every one in the spring. The system having become accustomed to the bracing air of winter, is weakened by the warm days of the changing season, and readily yields to attacks of disease. Hood's Sarsaparilla is just the medicine needed. It tones and builds up every part of the body, and also expels all impurities from the blood. Try it this season.

TO DAKOTA

Clark Favors the Project For the Missouri Pacific.

tance, and the territory which would be opened up would be very valuable. You might say that Dakota is local to Omaha.

As to the extension of the Missouri Pacific to that point, I can say nothing definite or formal has been accomplished. I would like to have the road extended to that point, but nothing further than that can be said.

Mr. Clark stated that he was on private business concerning his road. He held a conference with the officials of the Elkhorn this afternoon, when joint track arrangements between the two companies at Lincoln were considered.

Dr. George L. Miller, who was among the prominent cars, who waited upon Mr. Clark, stated that, among other matters the Dakota project was mentioned. It was reported that Dr. Miller headed a committee that waited upon Mr. Clark relative to the Dakota line, but the doctor denied having accompanied any committee for that or any other purpose.

Reducing Engineers' Wages. An engineer stated that the management of the Union Pacific has given notice to the effect that wages of the engineers in charge of switch engines at the transfer will be reduced from \$3.50 to \$3.00 per day. This reduction will equalize the wages with those in this city.

Engineers have taken no steps regarding the cut. A meeting of the local branch of the Brotherhood of Locomotive Engineers will be held in this city June 2, at which time the matter will be considered. It is said that \$3.50 is above the scale paid by other roads at the transfer.

A Line to the Sound. General Attorney Thurston of the Union Pacific, who has just returned from the west states that the lease of the Northern Pacific line between Portland and Olympia by the Union Pacific has about been effected. He also says that when he returned from Boston, recently, he brought with him President Adams' opinion on the matter. The minor arrangements for a track lease, however, were completed a short time ago, and the mission of J. S. Cameron in New York was to close the final arrangements.

Messrs. Holcomb and Kimball are at Portland fixing up the matters connected with the change at that point. Mr. Thurston said that the probability the deal would be consummated in a few days and the Union Pacific would then have a direct communication line to Puget Sound points.

Notes For Publication. Name: B. Clecker; residence: Elm street, Dallas, Texas; occupation, barber; sentence which was served in the penitentiary three or four years ago; could not talk loud enough or plain enough to be understood by my wife and family. In the effort to drink water or coffee it would come out of my nose. My tonsils were eaten away by the ulcer. I took a great many remedies. Potash and mercury mixtures greatly impaired my digestion. I finally abandoned all other treatment and began Swift's Specific, and a few bottles cured me sound and well. This was several years ago, and have had no sign of any return of the disease.

Two bottles of Swift's Specific cured me of a bad condition of my blood, from which I had suffered for 18 months. I had blotches and sores all over my face and neck. Some S. S. S. is much better than potash and mercury mixtures, and I recommend it above all blood remedies.

Dr. J. C. CONROY, Homeland, Va. Treatise on Blood and Skin Diseases mailed free.

The Swift Specific Co., Drawer 3, Atlanta, Ga. Bloody Belles.

Judge Shea applied at the police headquarters to get the murderous looking dirk with which Walter Edwards, the initiate, stabbed his wife seven times on October 15. The attorney also inquired for the bloody dress taken off the woman after the assault.

Both are to be used in evidence. Mr. Shea says the defense has resorted to every means to have the indictment quashed. Important witnesses he claims, have been spirited away and the influence of relatives of Mrs. Edwards has been sought to secure a dismissal of the case.

Platt's Chloride a True Disinfectant. An odorless liquid, very cheap and efficient.

HASCALL'S WHAT IS IT.

The County Commissioners Will Be Re-elected in Four House Transfer. The article in THE BEE regarding the unwarranted giving away of the county poor house to L. S. Hascall has aroused the commissioners to a realization of what the property owners in that vicinity call an outrage.

It was rumored that Hascall had been approached to donate the lots on which the building stands as also the building itself, to the masonic fraternity to be used as a home for aged masons and the widows and orphans of members of that organization.

This project is earnestly opposed by many Masons, who say that it would be an insult to quarter dependent Masons in an old hulk which had been for years the home of poverty and misery.

If the scheme of giving the building to the county is carried out, the commissioners will be enjoined, and steps in that direction, it is claimed, will be taken the moment the papers are made out.

Speaking on this subject, a well known citizen and taxpayer said: "For twenty years the old brick poor-house at the county farm has been the resort of the lame, the blind, and the outcast. The poor of all conditions have found shelter there. The walls and floors are covered with fragments of wood. It has served its purpose, and the purchasers of lots in this Douglas addition expect the county commissioners to live up to their agreement, and when the present county hospital is completed to move into it and raze to the ground the old one."

"All kinds of rumors are afloat in regard to the disposition of the old house. The masons, it is said, want it for a hospital, and it is given out that the city will buy it for a city hospital. The county commissioners should lease the lots from Hascall for six months and, at the expiration of that time, move the building off according to agreement. If these propositions are disregarded, the purchasers of lots in Douglas addition will go back on all contracts, and Douglas county will be loser."

Another View. Mr. Mahoney says there seems to be a misunderstanding regarding the report that certain parties purchased lots with an understanding that the buildings were to be removed. "There is no contract or agreement to that effect on record. Some say that at the time the lots were sold the building was announced, it while others who claim to have been present say he did not. He asserts that the commissioners are not breaking faith with anybody in making their agreement with Hascall. No complaints have as yet been filed. The mortgage mentioned is given as security for back payments on the three or four lots purchased by Hascall. Whether he will remove the buildings after January 1 or not remains to be seen."

Building Permits. The following permits were issued by Building Inspector Watlook yesterday: L. F. Kurtz, two one and one-half story frame dwellings, Madison, near Twentieth, 2,000; Mrs. Sarah Hone, two one-story model brick tenements, Eighteenth, near Vinland, 7,000; J. Y. Craig, two-story frame dwelling, Sanders, near Garfield, 1,500; L. E. Nelson, two-story frame dwelling, 11-12-13 South Eleventh, 7,000; C. M. Heston, one-story frame dwelling, Eighteenth and Clark, 2,000; M. O. Maul, one-story frame dwelling, near E. D. CONROY, near E. D. CONROY, 700.

Eight permits, aggregating \$13,500. COUNTERFEITING ANGSTURA. Chicago Dealers Heavily Fined For Making Bogus Goods.

On the 10th of May, in the criminal court of Chicago, Judge Shepard, Charles Hasterlik and Ignatz Newman, doing business under the style of Chicago Cased Liqueur company, were convicted of manufacturing a fraudulent Angstura Bitters, purporting to be the genuine goods made by Dr. F. G. H. Siegert, and Hiljos, of Trinidad, British West Indies.

The evidence was of the clearest kind, and the jury, five minutes after receiving instructions, returned a verdict of guilty and inflicted on the prisoners the extreme penalty of the law.

Return of the Fishers. Messrs. Webster, Pundt, Schoepfling, Tate, Pease, Smith and Hull, who left Saturday evening in a Northwestern special car for Onawa Iowa, have returned to Omaha on a special trip, but a small catch. The weather was too cool and Onawa lake too rough until after sun down, when all the fish were caught.

PERJURY AND FRAUD.

The United States court room presented quite an animated appearance. It was filled with well known lawyers, jurymen and witnesses. Among the visiting attorneys were Congressman E. H. Morrill, of Hiawatha, Kan., and General W. W. Guthrie, of Atchison.

Business opened with an arraignment of W. J. McGilgan, Ben O'Neill and William Barry, indicted for perjury. McGilgan was general manager of the Harlem Cattle company, O'Neill secretary and Barry foreman of the ranch. After their property had been thrown into the hands of a receiver, to satisfy claims held against it by the Kit Carter estate company they undertook to make away with the records and through fraudulent means secured possession of a lot of the stock. In this they were assisted, it is claimed by George Gleason, John McAuliff, Joseph McAuliff, Florence McAuliff, John Hughes, Frank King and Joseph Murphy, who are under indictment by the grand jury for conspiring against the receiver by removing the Harlem company brands from the stock. The whole producing class is in a state of commotion. The case is attracting considerable attention.

CITY HALL WORKING PLANS.

It Will Require Six Weeks to Prepare Them.

ADVERTISING FOR PROPOSALS.

Fowler & Beindorf Making Haste to Get the Building Under Way and Thus Defeat Obstructionists.

SIX WEEKS MORE.

A reporter called on Fowler & Beindorf, the architects, for the purpose of ascertaining the period of time it would require them to prepare their specifications for the new city hall. In reply to the query, Mr. Beindorf said: "It will take us in the neighborhood of six weeks."

"How long for the basement plans alone?" "Not more than ten days."

"And the second, third and fourth floors, respectively?" "That I see no need of answering, as we would not give a separate plan only for the basement alone."

"How much is the bond?" "Fifty thousand dollars."

"What is it necessary to do before bids can be advertised for?" "When we complete our work. We will make three sets of drawings, one to send out of town for specialties, marble and ornamental work, one for the clerks office and one for ourselves. This will consume probably two weeks."

"By whom are the specifications approved?" "The city council, of course."

"Are they in favor of receiving specifications for one floor at a time or for the whole at once?" "The entire structure complete. That is the only way they would receive them and the only way we would offer them. The idea is to obviate any possibility of further shenanigan, so that obstructionists will have no more opportunities to delay the work upon the building."

City Attorney Webster said: "The bond provides that the building shall be erected at a cost not to exceed \$350,000, nothing more or less. The specifications must all be made out, and be here in their entirety, otherwise there would be no point in taking a bond."

"Who is to determine whether the specifications are such as to enable the building to be erected at once?" "The specifications are merely an itemized description of the material and quantities to go into the building, so there can be no possibility of cutting down for the benefit of architects or builders. These will be fully examined after the plans are approved by the council, and compared with the original drawings sent in competition, and if they find that they are in strict conformity with those plans, they must adopt them."

Catarth Cured.

A clergyman, after years of suffering from that loathsome disease, Catarth, and vainly trying every known remedy, at last found a recipe which completely cured him. Any sufferer from this dreadful disease send in self-addressed stamped envelope to Prof. J. A. Lawrence, 88 Warren St., New York city, will receive the recipe free of charge.

Return of the Fishers.

Messrs. Webster, Pundt, Schoepfling, Tate, Pease, Smith and Hull, who left Saturday evening in a Northwestern special car for Onawa Iowa, have returned to Omaha on a special trip, but a small catch. The weather was too cool and Onawa lake too rough until after sun down, when all the fish were caught.

THE RAILWAY TIME TABLES.

It Figure in an Interminable Case in the U. S. Court.

The United States court room presented quite an animated appearance. It was filled with well known lawyers, jurymen and witnesses. Among the visiting attorneys were Congressman E. H. Morrill, of Hiawatha, Kan., and General W. W. Guthrie, of Atchison.

Business opened with an arraignment of W. J. McGilgan, Ben O'Neill and William Barry, indicted for perjury. McGilgan was general manager of the Harlem Cattle company, O'Neill secretary and Barry foreman of the ranch. After their property had been thrown into the hands of a receiver, to satisfy claims held against it by the Kit Carter estate company they undertook to make away with the records and through fraudulent means secured possession of a lot of the stock. In this they were assisted, it is claimed by George Gleason, John McAuliff, Joseph McAuliff, John Hughes, Frank King and Joseph Murphy, who are under indictment by the grand jury for conspiring against the receiver by removing the Harlem company brands from the stock. The whole producing class is in a state of commotion. The case is attracting considerable attention.

Mr. L. J. Pala, a labor agitator among Bohemians for upwards of twenty years, held a lecture under the auspices of the Bohemian assembly, K. of L. Sunday afternoon at National hall, upon "The Labor Question and the Necessity of Organization."

Nearly three hundred people assembled to listen to the distinguished speaker and followed his remarks with greatest interest. Mr. Pala argued that the present system, brought about by invention of machinery, steam and electricity, tends to an unequal distribution of earnings. According to the last census, 48,900,000 of workers and their dependents get only five-eighths, while the remaining 3,000,000 of people get three-eighths of all the earnings. The workman, who is a laboring man, artisan or farmer, gets only a share of his earnings in the shape of wages or return. The whole producing class is producing more than it receives in return, and consequently is unable to buy and consume all that is produced. As a consequence we have overproduction and financial crises. All classes of people, he claimed, were equally interested in the prevention of financial disasters and the following consequent stagnation, and, therefore, ought to be interested, also, in solving the labor question.

The only remedy, the speaker claimed, was reduction of working hours, which would have the effect of harmonizing the production and consumption. The only road to reach it, was organization. The speaker strongly urged everybody to join the trade and labor organizations, but warned all to shun the deluded followers of Most.

Is endorsed by physicians throughout the country. Michalovitch's Hungarian Blackberry Juice.

Seth F. Winch states in a petition, filed in the district court, that some time ago he sold lot 9, block 4, Albright's sub-division, to Zeph Bowan, but as the payments have not been made according to agreement, he asks the court for a foreclosure of the mortgage.

The same plaintiff, Seth F. Winch, has begun suit against the same defendant sub-division, also for \$223 and \$183.39, money lent to the defendant. If the property is not forfeited the plaintiff wants to be adjudged the legal owner of the house and property.

Julia H. York began proceedings for divorce, yesterday, against John R. York. The complaint alleges that they were married in Wisconsin on December 10, 1883, and lived together until February 22, 1885, when he deserted her, and she has been forced to live on her own earnings since that time. She now asks absolute separation.

Pears' soap secures a beautiful complexion.

ORGANIZED LABOR.

Mr. Pala Recommends it and Opposes the Principles of Most.

Mr. L. J. Pala, a labor agitator among Bohemians for upwards of twenty years, held a lecture under the auspices of the Bohemian assembly, K. of L. Sunday afternoon at National hall, upon "The Labor Question and the Necessity of Organization."

Nearly three hundred people assembled to listen to the distinguished speaker and followed his remarks with greatest interest. Mr. Pala argued that the present system, brought about by invention of machinery, steam and electricity, tends to an unequal distribution of earnings. According to the last census, 48,900,000 of workers and their dependents get only five-eighths, while the remaining 3,000,000 of people get three-eighths of all the earnings. The workman, who is a laboring man, artisan or farmer, gets only a share of his earnings in the shape of wages or return. The whole producing class is producing more than it receives in return, and consequently is unable to buy and consume all that is produced. As a consequence we have overproduction and financial crises. All classes of people, he claimed, were equally interested in the prevention of financial disasters and the following consequent stagnation, and, therefore, ought to be interested, also, in solving the labor question.

The only remedy, the speaker claimed, was reduction of working hours, which would have the effect of harmonizing the production and consumption. The only road to reach it, was organization. The speaker strongly urged everybody to join the trade and labor organizations, but warned all to shun the deluded followers of Most.
