He Protested.

"John, you should doff your hat in the presence of ladies in a public elevator," exclaimed a blushing bride of but a few months, as she left a large office building in this city, in company with her leige lord.

But John thought differently, and was bold enough to say so. He protested against the custom, which he characterized as one begotten chiefly of affectation and ignorance. "Do you expect a man to uncover his head in a street car in the presence of ladies!" he contended. "No. And can you see any distinction between a street car and an elevator car in your claim for a better expression of respect for the fair creatures! I don't think you can. While I allow no man to out do me exhibititious of deference to the presence ladies, I really think it is going a little to far to rule that a gentleman shall doff his hat always in a public conveyance in com-pany with ladies. In that case a man entering an omnibus, en route to the depot, would be expected to ride bare-headed for a mile, just to answer the behests of etiquette! Ex

"Not at all, a theater is an entirely differ ont thing. So is a hotel elevator. Ladies enter the latter bonnetless and hatless on the way to and from the dining room, and the use is in charge of a host, which implies that he undertakes to furnish his guests a temporary home, partaking somewhat of the nature of a private house. This being the case, it is eminently proper that a gentleman should uncover his head in a hotei elevator, just as he should under the roof of any host. The last of the historic entertainments which have studded the ten months or the closing scholastic year at Park place, occurred last night. It was a summing up of the work of the preceeding "literaries," or more properly, a chapter of things omitted.

Thus was rounded off what, if put together would form a most instructive volume of historical essays. The introductory dealt with a subject

which could not fail to possess interest for any one, but for us of another branch of the great Teutonic family, it has the additional charm that it is the history of our blood relations. It is a pleasant thing to hear recorded that these old Frankish invaders were humane conquerors; that they re-spected women with chivalric cour-tesy; that their prisoners of war were treated as guests, or hospes, and that to this fact we owe our significant word "boshitality" "The essay on the The essay on the word "hospitality." The essay on the Nerovingians showed how the foundation of many modern institutions was laid during that period of which comparatively little is known; above all, how European independ-ence cast its first enduring roots during the reigns of the much despised "sluggard

kings." The third essay was a painstaking justificatiou of a much-maligned character. Unhappy Poland, too, had a hearing, and a very fair presentation of her grievances, if we may judge from the arguments of Miss Shelley in her favor. With a nice discrimination of cause and effect, the young essayist traced the blotting out of Poland from the list of nations to the treaty of Westphalia. Other cause, no doubt, precipitated this unfortunate result, but this was the primal one. Miss Babcock's "Retrospective and Valedictory" was a beau-tiful tribute to the class and to the work ac-

One of the very jolliest and most enjoyable social events last week was the complimentary banquet given, Tuesday night, at the Millard hotel, by the Apollo club to its president, Mr. Charles D. Besides the guest of the evening, thirty-six gentleman sat at the table, and for nearly half a night made nierry with story, song and speechmaking. Nat M. Preceding the attack upon boiled Haddock, tenderloin of beef with mushrooms, grilled English jacksnipe, straw-berries and cream, cake and other good things, this appropriate sentiment, taken from "Julius Cæsar," was proposed :
