No hearses are seen in Johnstown. Relatives recognize their dead, secure coffins, get them carried the best way they can to the morgues, then to the graveyards. A prayer, some tears, and a few more of the dead thousands are buried in mother earth. A frequent visitor to these horrible places is David John Lewis. This is the first opening of the narrow little valley through which the Conemaugh dashes like a mill race. From the fleids of mud to-day many bodies have been taken. The searchers find many of the bodies by means of hands or pieces of clothing sticking through the mud. They carry long sticks with which they prod the soil.

The Westmoreland county commissioners yesterday purchased an acre of ground on the side of the mountains and converted it into a cemetery. A gang of laborers were at work all day digging trenches.

The scenes at the cemetery to-night were depressing, and the sympathetic torches of laborers looked from across the fields like so many jack-o-lanterns, luring their victims on to destruction.

It is proposed to make this race from June 24th to the 29th. This will assuredly be the great-est and most interesting bicicle race that has sver taken place in Omaha, or any other sity, for that matter. That it will be an un and up race, and for the money back of each rider, it is only necessary to say that there is the most intense feeling existing between the backers of the various contestants, as has been evidenced by the several knock downs and lawsuits that have arisen out of the preliminaries. In this the patrons of the colm will have a chance to witness a be chase for plood from start to finish.

He continued by saying he was in a saloon one afternoon with King and Fairsaloon one afternoon with King and Fair-burn when a strange man entered and took King aside. Woodruff said the man had a big roll of money, and that he gave some to King and more to Fairburn. They went out together and the strange man left them at the door. After he had gone Woodruff said he asked King who it was, and he said: "That's the great lawyer, Alexander Sulli-van."

Captain Schaak added, in reply to a juror's question, that the next day after Woodruff had been indicted for horse stealing he sent

word he would not talk any more.

The Daily News says this evening that Woodruff this morning declared: "I ain't going to get the worst of it, although there are people trying to give it to me. I ain't an Irish Catholic, and I suppose the Irish will try to give me the worst of it, but they had better look out. Captain Schaak was susponded from duty, to-night, by Chief Hubbard for alleged dereliction in the Cronin case. The action was taken after Schaack's examination before the coroner's jury, and is announced to be based upon Schaak's neglect to summon persons other than Mrs. Conklin to identify the famous white horse rig, and for not inquring into the whereabouts of Detectives Coughin and Whalen the night of May 4. Thirteenth Street Taxpayers Advertise Their Wrongs.

OMAHA, June 4-To the Editor of THE BEE: The long suffering citizens on the east side of South Thirteenth street are getting desperate. Four years ago, they were put under a heavy tax for paving the street. They bore the expense willingly, expecting that at last justice would be done them; that the ordinances requiring sidewalks to be laid on paved streets, would be put into effect on that street also, and that the east side of it would enjoy equal benefits with the west side. Alas for the blasted hopes! Four years have passed and the west side of Thirteenth street has enjoyed the monopoly of travel and of business because of the great mjustice being done to the east side by a violation of the ordinance, and the refusal to order a uniform and favorable sidewalk order a uniform and favorable sidewalk on that side. Again and again we have petitioned the council for relief, for simple justice. But in vain. Finally, it seemed, that justice, tardy as it may have been will be done to us. Ten days ago, The Ber announced, that the sidewalk was ordered, and would be laid in fifteen days. But now, we understand, that the old foggles, who stand in the way of all progress, who do not improve their property, do not make any investment, but grumble and croak against every improvegrumble and croak against every improve-ment and against high tases, are combining in a last grand effort to prevent the much-needed improvement and will petition the council to-night to postpone the laying of the sidewalk.

will the council do it! Will it listen Now will the council do it! Will it listen to the wishes of croakers, who would have caused the city of Omaha to remain a village if it were within their power, or will it listen to the wishes of live citizens, who have invested all, and is some cases more than all, in improvements which are now unprofitable! Will the council discourage improvements Will the council discourage improvements and encourage old-fogryism! Will the council persist in wronging the live citizens to favor a few croakers! Will it continue to pile taxes on us and prevent the possibility of earning enough to pay them? Will it dare to ruin us to humor the drones of our busy city? We hope not. We trust not. We hope that there are enough men in the council to prevent the continuation of this injustice. But if there are not, we will want to know why. Aquaintance Breeds Contempt. Jounstown, June 4 .- I notice that the secretary of the South Park Fishing club ered with mud, it is taken to the ante-room of the school, where it is placed under a hydrant and the muck and slime: washed off. The clothes are ripped open and the attendant scarches the pockets for valuables or papers that would lead to identification. Four men lift the corpse on a rude table and there it is thoroughly washed and embalming fluid injected, then, with the other bodies, the corpse lies in a large room until it is identified or becomes offensive. In the latter case it is hurried to the large grave, the grave that will hereafter said, yesterday, that the club had filed an indemnity bond, as claimed by a citizen of Ebensburg, and that complaints had never been made about the safety of the dam by any of Johnstown's citizens. He is undoubtedly correct as to the bond, but it is misleading as to the second part of his statements. There is no shadow of doubt but that the citizens of Cambela county frequently complained, and at the time the dam was constructed a very vigorous effort was made to put a stop to the work. It is true, the leader of this movement was not a citizen of Johnstown, but he was and is a large mine owner in Cambria county. His mine adjoins the reservoir prop-He related to me Saturday the story of his labors in his effort to protect the lives and property in that vailey. He called on the sheriff of Cambria county and body a decent burial.

A wealthy young Philadelphian named Ogle recently became engaged to a Johnstown iady, Miss Carrie Diehl. They were to be weaded in the middle of June, and both parties were preparing for the ceremony. The lover heard of the terrible flood, but, told him it was his duty to apply to the court for an injunction. The sheriff promised to give the matter his attention, but instead of going before the court, he went to the Cambria irom company for consultation. Au employe was sent up to make inspection, and as his re-

"She was visiting in the valley when the flood came," was the mouraful reply, then he beckoned the young man to enter the chamber of death. A moment later Ogle was of by the citizens of Altoona as a hackneyed subject. The rumor of the expected break was prevalent early in the day, but the citi-zens remarked that the humor was a familiar incident of the annual freshets. incident of the annual freshets. It was the old classic story, "wolf, wolf."

They gave up the first floors to the water and retired up stairs to wait until the river should recede, as they had done often before, scouting the oft-told story of the breaking of the reservoir. The reader will note the remarkable conflict between that shale and clay story of the mine owner, referred to above, and the published statement of General Moorehead, who had charge of conabove, and the published statement of Gen-eral Moorehead, who had charge of con-struction, that the masonry was solid gran-nte and limestone and was believed to be en-during as the pyramids of Egypt. The awful disaster would seem to confirm the allegation of the use of unfit materials in construction. A conductor who was at Conemaugh on the fateful day claims to have run through the cars and told the passengers to run to the mountains. The passengers who survive are anxious to make the acquaintance of that are anxious to make the acquaintance of that conductor. They certainly neither saw him nor heard him. His intention may have been good, but the good deed was omitted. When the passengers reached the mountainside they found there two conductors in beautiful white caps. Their manner was calm, and their clothing unspotted. I asked one of them why he did not notify the passengers of the breaking of the dam. He replied in some confusion that he had no time. His companion made report to his superior, which report was carried over the mountain by a passenger that night, but there was nothing in it to indicate that any of the passengers were any of his concern. of the passengers were any of his concern. He reported the loss of two trains. In strik-ing contrast to the neglect of duty of these conductors, it is pleasant to note the manly conduct of others. First—always first— mentioned should be the locomotive engineer and fireman, whose bravery and devotion were so conspicuous. A brakeman riding deadhead, whose name can not be recalled, rendered splendid ser-vice in rescuing a woman and children at the risk of his own life.

I. H. Klein claims the distinction of being the only New Yorker in Johnstown who escaped the flood, and the honor of having rescued or assisted to rescue sixty persons. His base of operations was the Morchant's hotel, and his plan, to lift persons from the windows of houses swimming by. Among those he saved were Rev. The Situation at Williamsport HARRISBURG, June 4.-Mayor Foresman of Williamsport, telegraphed Governor

Beaver to-day: "The boom has been cleaned of logs from the principal yards along the river front, and manufactured lumber has been swept away. The houses of the people nearest the river have been carried away with all they possessed. Thousands of people are home-less and without anything but the ciothes upon their backs. Many of our people are in absolute want for the necessities of life At a meeting of the business men, called yesterday, \$7,000 was raised. Dead animals and all kinds of filth are strewed upon the and all kinds of filth are strewed upon the streets, and grave fears of an epidemic are entertained. It is impossible to estimate the loss and damage to the different kinds of property. Five million dollars is a low estimate of the loss on lumber alone. Other losses are loss on lumber alone. Other losses are larger. The surrounding country suffered just as badly. Booms, bridges and villages have been swept away, and the loss of life has been considerable. A thousand military tents will afford the greatest possible relief to our people, who are now without shelter."

Governor Beaver replied to Mayor Foreman in substance as follows:

"Will reach you with help as soon as Mont-gomery bridge can be crossed. I am loading cars here with flour and groceries; notwith standing the pressure of our own stricker people. Put your unemployed men to work n removing the debris and in cleaning you in removing the debris and in cleaning your city. I will furnish means for paying them reasonable wages. The country is respond-ing nobly, and the address sent out last night will give a better idea of the situation, so that I have no fear of any lack of means for furnishing all needed help."

Fixing Up the Lines. PHILADELPHIA, June 4.—Superintendent Pettit, of the Pennsylvania road, made his way to the edge of the city of Lock Haven this morning and ascertained there was no suffering. Only one person is known to have been drowned at Lock Haven, but severa lives are reported lost at Mill Hall, about four miles from Lock Haven. The through mails delayed at Altoona were started over mountains to Pittsburg at 8 the mountains to Pittsburg at 8 o'clock this morning. One hundred and thirty-two passengers accompanied them. They go to Edensburg via Cresson by railroad, and from Edensburg to Blairsville they will travel over mountain roads in wagons, and at the latter place they will take the train for Pittsborg. It is thought more than likely that many of those caught in Altoona have made tiet way on their own responsibility to some place, where they could board a train to Pittsburg. The wires to Altoona and Williamsport are working very badly on account of the rain which is falling, and only the most meagre dispatches can be sent and received. All gaps in the proposed temporary route All gaps in the proposed temporary route from Harrisburg to Altoona have been closed with the exception of the big bridge at Montgomery, where the water is still too high and swift to work successfully. It is now thought the line will be made good by Wednesday morning:

Sending Pontoons for Bridges. WASHINGTON, June 4.—Secretary Proctor was at the white house early this morning and remained there some time in conference with the president in regard to measures for the relief of the Johnstown sufferers. While there a telegram was received from Governor Beaver at Harrisburg, asking government would forward if the pontoons for the immediate construction of bridges across the Conemaugh river. Beaver also stated that at present the peo-ple were more in need of clothing and food than money. In accordance with the request for pontoons, Secretary Proctor this morn-ing telegraphed to the officers in command at West Point and Willett's Point to arrange at once to meet that want, saying that means of transportation to Johnstown would be

At a meeting to devise means of aiding the sufferers by the flood at Johnstown and

vicinity, held here this afternoon, President Harrison, Private Secretary Halford, Postmaster General Wanamsker, Secretary Noble and many representatives of the busi-ness and social life of Washington were present. President Harrison was elected chairman, and after a short speech by him, in explanation of the object of the meeting, a large sum of money was subscribed.

Deeds of Heroism Jounstown, Pa., June 4.-The story of the Conemaugh is not without its deeds of heroism. Edward C. Will is a foundryman of Cambria, aged twenty-seven, whom no one ever suspected of possessing more than ordinary courage. When the flood was at its height and people were floating down the rushing torrent by hundreds, Will rushed to his boat and, senseless to the pleadings of his wife and relatives, shoved his frail craft into the current. Pushing rapidly alongside a roof upon which a woman and two children were kneeling, he skillfully lifted the terrified creatures into his boat and shot across the current back to the bank. Young Will repeated his perilous journey seven times, until twenty-two lives bad been saved. Next day, when most of Johnstown was still under water, Will ascended the stream to the desolate city and again dis-tinguished himself by many acts of heroism and endurance. Among the heroes that these strange scenes developed he is only one of many

Thinks the Loss Will Be 20,000. CHICAGO, June 4.-Frank B. Felt and Sid ney McCloud, both of this city, were in Johnstown on the fatal Friday when it was burned beneath the waters of the deadly reservoir. They returned to this city this evening and Felt was in to-night and modestly told of the heroic part which himself and friend took on that day.

Mr. Felt, judging from the number of people
whom he saw around Johnstown, immediately after the flood, says he would not be
at all surprised if the list of drowned would, when completed, number 20,000 names. In one house in Kernville seven bodies of adults were discovered, and floating about on the water in the same room was a cradle in which lay a baby, alive. The fire at the stone bridge, it seems, was not the only one. The Catholic church and convent took fire and fell. It is believed about one hundred people jost their lives there.

Safe at Altoona. ALTOONA, Pa., June 4 .- Among the persons at Altoona and who desire that their friends be informed of their safety, are the following Mrs. S. Barfay, of Minneapolis. Mrs. M. J. Blaisdall, Pelican Rapids,

Many Passengers Were Drowned. JOHNSTOWN, Pa., June 4.—It is now defi-nitely settled that at least from twenty to forty people were lost on the two sections of the day express that left Pittsburg at 8a. m., Friday and the Johnstown accommodation that was just ahead to leave Johnstown that afternoon. It is believed that at least eleven of the people lost from the train were Pittsburgers, but it is impossible to get any names. The railroad company has some of the names of the missing passengers, but re-fuses positively to give them out until they are certain that the people have been

Chicago & Northwestern Ry." RABBI BENSON'S FAREWELL.

He Takes Formal Leave of His Old Congregation.

The Jewish "Feast of Weeks," or "She buoth," as it is called, commenced last even ing at sundown, and lasts until this evening. This is one of the three main Jewish feasts, and was celebrated with proper ceremonies at the synagogue last night. It was decided not to take up a collection for the Johnstown flood sufferers until to-day, when a subscrip-tion paper will be circulated.

Rabbi Benson took advantage of the occa-

sion to deliver his formal farewell to the congregation. He spoke of the mission of the reformed rabbi, declaring that his work is not a destructive, but constructive one. The speaker also dwelt on the fact that many people are driven to infidelity by lack of practical discourses. The rabbi's work for the past three years was reviewed, and the address closed with an eloquent farewell

The Supreme Court. DES MOINES, IA., June 4.- | Special Telegram to THE BEE.]-The supreme court rendered two decisions, to-day, of more than common interest. The first was the case of Justice Garrett against Polk county. He brought action to recover over eight hundred fees in liquor cases, in which warrants were issued and searches made but no liquor found. The direct Issue was whether the county was liable for fees whenever constables might make searches and find nothing. The supreme court says yes; and the fees must be paid.

The second was that of the Mills Publish-

ing company, of this city, against the executive council to compel it to award it a contract for publishing the supreme court retract for publishing the supreme court reports, and enjoin the Stevens company, of Missouri, from doing the work. The Mills company had put in the lowest bid, but it was 12:42 p. m. when their bid was in, and the bids were to close at 12 m. Mills & Co. raised the point that it was 12 o'clock until it was 1. The supreme court decided that the sut is virtually constant the state, and therefore can not be against the state, and therefore can not be maintained irrespective of the point named. The following additional decisions were

The Prohibs at Work. MASON CITY, In., June 4 .- [Special Telegram to THE BEE. |-Mason City is one of the larger cities of Iowa where the prohibitory law may be said to be working sucessfully, but the prohibitionists are not yet fully satisfied. Every druggist in the city has published notices, asking that a permit be granted them for the sale of liquor. The W. C. T. U. has issued a lengthy appeal to the court and citizens of the city against granting them, and the following petition will also be put in circulation:
"To John C. Sherwin, judge of the district

court of Cerro Gordo county: Believing that the necessities of the residents of Mason City do not require the granting of many permits, and believing that the sale of intoxcants could be more carefully guarded and controlled by reducing the number of licensed drug stores, we respectfully ask that you grant but one permit for the incorporated town of Mason City." This petition will undoubtedly create nuch interest, but it is thought that it will

be extensively signed. Perry Did Use Natural Gas. PERRY, Ia., June 4.- [Special Telegram to THE BEE. ]-A man named Hoyle, from Hastings, Neb., has been here for six weeks, as a representative of some large eastern firm, urging the citizens of Perry to pipe the natural gas that was discovered near Dawson, six miles west of here, to this city. Experts say that it is the best well west of Pennsylvania. The citizens were inclined to Pennsylvania. The citizens were inclined to disbelieve this gentleman, and some considered him a fakir. He has nad men working on the wells for weeks. This evening a committee appointed to the city council, accompanied by 500 excursionists, went to Dawson to investigate and see for themselves. Five wells were burning. One threw a flame lifty feet high, which illuminated the country for miles.

# Catarrh

IS a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous malady. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla - the best of all blood purifiers. The sooner you begin the better; delay is dangerous.

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physi-cians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this troublesome complaint and com-pletely restored my health."—Jesse M. Boggs, Holman's Mills, N. C.

Boggs, Holman's Mills, N. C.

"When Ayer's Sarsaparilla was recommended to me for catarrh, I was inclined to doubt its efficacy. Having tried so many remedies, with little benefit, I had no faith that anything would cure me. I became emaciated from loss of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend urged me to try Ayer's Barsaparilla, and referred me to persons whom it had cured of catarrh. After taking haif a dozen bottles of this medicine, I am convinced that the only sure way of treating this obstinate disease is through the blood."
