Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pains, cures colds, and is the best remedy for diarrhoea. See a bottle.

## PECULIAR BIDS.

They are Likely to Cost the Kansas Company \$2,000.

President Jenkins, of the Kansas Paving and Construction company, notified Chairman Balcombe, of the board of public works, Monday that the company would not fill its contract to lay sandstone paving and curbing upon certain streets.

The company claims that its inability to do so is due to the failure of the Union Pacific company to fulfill a contract whereby the former was to be furnished sandstone \$1.62 and curbing at 40 cents per lineal foot. Mr. Jenkins claimed that instead of doing this, the railroad company demanded 50 cents for curbing and \$1.85 for paving, and thereby rendered it impossible for them to fulfill the contract without great loss to themselves. In view of these facts, he asked that the contract be canceled and the company's certified checks for the sum of \$2,000 now in the hands of the chairman of the board, be returned to him.

This company was also awarded the contract for laying the vitrified brick pavement, and yesterday afternoon Mr. Jenkins declared that he would fill the contract but he had failed to file his bond at 1:30, and this contract was also cancelled.

Hugh Murphy dropped into the room of the board of public works, and managed to do considerable talking within a very few minutes. "The only thing the board can do," said he as he tilted his hat a little farther over his right eye, "is to throw the bid aside, declaring the bidder irresponsible, reject all other bids and readvertise. They haven't got the law with them in this, but it's the best thing they can do to keep themselves out of a hole. If they go to work letting the contract to the next lowest bidder they will find themselves in the hole, as I am the only contractor who has a certified check still in the hands of the board, except, of course, the Kansas company. If they should go to work and give the contract to the next lowest bidder and he should decline to sign, there would be \$1,000 for the board to put up, and it might run that way throughout the list. I am the next lowest bidder for vitrified brick and could make the board by main force to grant me a contract, but I doubt the policy of doing so."

D. Woodworth was also seen. "The truth of the matter is," said he, "that the Kansas company did not get figures from the Union Pacific folks until after they had submitted their bid. They made a contract for stone with an irresponsible party and this is the result. I could have told them that they could never fill the contract at the figures they offered. I think the only thing for the board to do is to let all contracts to the next lowest bidder. If they readvertise property owners will keep the pavement, and the higher next time, the irresponsible low bidders having fallen out."

Forrestal's Assignment.

James Forrestal, of St. Paul, to whom the board of public works awarded the contract for paving certain streets and alleys with Sioux Falls granite at \$2.37 per square yard, has assigned his contract to J. E. Riley & Co., and returned to the Saulty city.

There are three men in Omaha who, it is said, would like to see Mr. Forrestal. They are John Ennis, W. R. Johnson and J. M. Neidy, whom Forrestal hired to circulate petitions among property owners requesting the board of public works to order Sioux Falls granite on their streets. These men have not received the stipend Mr. Forrestal agreed to pay them for their work, and therefore they protest.

Forrestal wrote a letter to Secretary Wapich, of the board, notifying him of the assignment of the contract and stating that if any of these solicitors inquired for him to send them to Riley & Co., Riley refused to have anything to do with them. The men say they will petition the council not to approve the assignment until they are paid.

Driving Spikes in the Pavement.

Through the request of the superintendent of buildings, the chief of police has instructed his officers to see that no housemovers drive iron pins in the asphalt or cedar block pavements. They made a violation of section 115 of ordinance 1,773.

The Tenth Street Viaduct. The board of public works refused to discontinue the work of paving Tenth street near the B. & M. tracks upon the representations of the company's attorney that a viaduct would be built there. They wanted a guarantee of the genuineness of the promises. The company will appeal the matter to the city council to-night.

Two great enemies—Hood's Sarsaparilla and impure blood. The latter is utterly defeated by the peculiar medicine.

Notice. The Adams Express company, which reaches direct all points in the flooded district of Pennsylvania, will most cheerfully forward free all money or merchandise for the relief of the sufferers that may be offered.

C. W. CATHCART, Agent.

MRS. O. F. DAVIS' WILL.

Her Death Leads to the Distribution of Her Husband's Property.

The will of the late Mrs. O. F. Davis has been filed for probate. Mr. T. A. Creigh has been appointed executor. The estate consists of a number of personal articles belonging to the deceased which she has bestowed upon many of her friends.

The deceased lady had a life interest in the estate of her husband, which was valued at about \$150,000. Now that she is dead, the estate will be divided among the relatives as follows: three fifteenths to Major Davis, of Wahoo; E. R. Davis, Chicago, and the five children of a deceased sister; two-fifteenths go to the board of home missions of the Presbyterian church; two-fifteenths also to the board of foreign missions and two fifteenths to the First Presbyterian church of this city in trust to be divided among new and feeble organizations of that denomination in this city. These interests have been asked for the appointment of Messrs. P. L. Perrine and T. A. Creigh as executors.

The Pennsylvania Washout.

Railroad officials have received notice from the Pennsylvania road to the effect that, owing to the recent rains at Johnstown and the washouts along its line, the road east of Pittsburgh was closed to traffic, and that passengers could not be ticketed over the Pennsylvania farther than Pittsburgh.
