EXPORT TRADE REPORTED LARGE

Nothing Much Doing in Corn and Prices Varying Little—A Dullness in Oats—Provisions Rule Firmer—Cattle Fair.

CHICAGO PRODUCE MARKETS.

CHICAGO, June 5.—[Special Telegram to THE BEE.]—Wheat did better, to-day, for a variety of reasons. The local features were bullish. A fair degree of activity prevails in the cash market, and Milwaukee reports the working of 75,000 bushels for direct export. Clearances from all the lake ports indicate genuine business, and New York advices reflect considerable activity in the export trade at the seaboard. From the southwest there are, however, advices of a continuation of generally favorable harvest conditions, though a few showers in southeastern Kansas are reported. One of the private wire houses have a cable to the effect that it was raining copiously in Russia. This piece of news was received when July was 76¼c. The market broke to 75⅝c on it, but it declined to stay, and was not long working above 76c again. July wheat opened at 75⅛c, advanced to 76¼c, worked ⅛c back, 76⅝c, regained lost ground and went to 76¾c, very little being done at the outside, however. The price started back rather sharply several times, and the market acted as though it wanted to settle at 76c, but the buying fever was on, and rallies were as sharp and frequent as the feverish down turns. The operations in the pit were on a large scale, and for once the shorts and the eleventh-hour bull scalpers were not the only buyers. There was good buying by commission merchants, and the generality of local operators, and the market had a stronger and firmer undertone than it has shown in many weeks. And firmness is not confined to Chicago. It ruled to a marked degree in every market in the country with the possible exception of Minneapolis. St. Louis is at last on an even keel with Chicago and Toledo. New York and many other points usually led Chicago in the up-turn. There were no notable individual transactions in the market, but a generally increasing interest in the market is being manifested. June wheat had quite a little boom here to-day. It opened at 76c, advanced to 77⅜c, reacted to 77c, and closed at 77⅜c. September ranged at 74¼@75¼c, and closed at 75¼c. December was active. It opened at 76c, sold up to 77¼c, and closed at 76¾c. The closing range indicates a gain of 1⅛c in June as compared with yesterday; 1⅛c in July, ⅜c in September, and 1c in December.

It was altogether a tame and featureless corn market, and closed up in the nerveless manner which was its main characteristic all day. The price changes were trifling, and were, as far as there were any, in favor of bulls, July, August and September gaining 1-16c over yesterday's closing figures. The small receipt of corn, compared with the outpouring of a week ago, was the principal cause of the firmer feeling. The export clearances, also, from the Atlantic were encouraging in their magnitude, while the withdrawals from store were also heavy. The strength in wheat helped to stiffen the views of holders and work upon the fears of the shorts, but there was no activity in business. There was a good deal of changing of deals between July and September, the local speculators looking for these months to sell at the same price before long.

Oats were duller than for several days previously and the speculative prices were confined within a ¼c, range, ruling practically steady to firm. There was moderate changing of this month to July and September at differences of ⅜c to ½c, and ⅝c respectively, while new business was light. The posted receipts were less than expected, by 45 cars, but the weather was favorable for the new crop, and the reserve stocks of old are still liberal. June sold at 21⅜@22c, touching 21⅝c, with next month at 22¼@22⅝c, and September around 22⅜c. No. 2, to go to store, sold at 21⅛@21⅜c.

In provisions there was a little more stir and interest. There was no great change in the general situation, but the buying of short ribs and lard by brokers, said to be operating for a couple of large houses, created considerable uneasiness. Wright, it was claimed, covered over 500,000 lbs of short ribs, and this action induced other shorts to follow suit in the same articles. Some short lard was also bought in, but in pork there was no trading possessing significance. In point of actual activity, pork, in fact, was the slowest line from the start. The underlying feeling was somewhat nervous, though the fluctuations in prices, all around, were confined to quite a narrow range. The day's prices, however, were higher than yesterday's. For pork and short ribs the closings showed an actual advance of 12½c to 15c, and for lard of 2½c to 5c.

CHICAGO LIVE STOCK MARKET.

CHICAGO, June 5.—[Special Telegram to THE BEE.]—CATTLE.—To-day's receipts consisted of about 7,000 natives and 3,000 Texans. The native steer market opened strong, and 5@10c higher; and all cattle selling above $4.00 maintained this advance, but ordinary grades, or such that came in contact with Texas, dropped as soon as it became known that the run of range stock would prove larger than at first estimated, and while prices for no class of native dressed beef and shipping steers developed any material weakness, sales were not as satisfactory as the early ones. Good native cows and heifers sold again strong, but thin native canning grades moved very unsatisfactory, at the recent low figures. The Texas market ruled 10c lower on canning grades, but steady for better qualities, such as are taken by the dried beef trade. Both the supply and demand of stockers and feeders was light, and the volume of business transacted was nominal. Choice beeves, $4.40@4.65; medium to good steers, 1,350 to 1,500 lbs., $3.90@4.30; 1,200 1,350 lbs., $3.80@4.20; 950 to 1,200 lbs. $3.65@3.70; stockers anu feeders, $2.50@3.40; cows, bulls and mixed, lower, $1.80@3.30; bulk, $2.20@2.80; Texas cattle 5c to 10c lower, $1.80@3.10.

HOGS—The trade was opened by the speculators and shippers, who paid for a short time about steady at yesterday's prices, but business lacked competition, and as the shippers had light orders the packers took the advantage and quickly had values 5c lower. The opening sales were largely around $4.37½@4.40 for the best packing and shipping lots, and up to $4.45 for choice light mixed. Later, pretty good packing sold at $4.30, and shipping sorts of butchers' and heavy at $4.35. The best price sellers could get for sorted light was $4.50, and they were forced to allow buyers to sort any kind of shape or weight they wanted. The closing figures for what are known as York light sort were $4.45.

FINANCIAL.

NEW YORK, June 5.—[Special Telegram to THE BEE.]—STOCKS—The stock market opened firm and continued strong the first hour to-day, although business was light. The first prices were ¼ to ⅜ per cent over the close of last night. Among the grangers Burlington was particularly strong, while Northwestern and Rock Island opened a fraction lower, but soon moved up to better than last night's figures. Before noon Burlington touched 103¾ and Louisville 70⅜, a gain of 1 per cent each over the close. Chicago Gas trusts went up a point to 50¾; Lead trusts, a point to 29⅜, and Sugar trusts moved up over two points to 105⅝. At noon, St. Paul and Rock Island showed ¼ per cent gain over last night at 73¾ and 99 respectively. About midday the market was quiet and dull, but the best figures were maintained. The strength in stocks was somewhat remarkable during the closing hours. The prospect of settlement of the rate troubles in the northwest and of differences existing among the Kansas City lines helped the grangers all around. Burlington went to 104¼, a gain of 1¼ per cent; Northwestern to 113¾, a gain of ⅝ per cent; Atchison to 46⅛, a gain of over a point; St. Paul was up 1⅝ per cent to 75, and Rock Island up 1½ per cent at par; Chicago Gas moved up to 60¾, or nearly two points over last night. The other trust sharps closed firm, but not at the best figures.

OMAHA LIVE STOCK.

Cattle.

Wednesday, June 5.

To-day's run consisted of about 1,000 head, largely natives, of very fair average quality. The market opened active, at an advance of 10@15c, and the yards were soon cleared. The beef and shipping steers sold at a range of $3.50@4.15, but largely at $3.85@4.00. Butchers' stock was stronger and the market active. Cows sold at $2.00@3.35, and bulls at $2.05@3.00. Some stock changed hands at $3.00@3.10.

Hogs.

Supplies proved liberal, but the demand being good, sellers were able to obtain a little more money for their holdings. The market was strong to 5c higher, and fairly active at the advance. The pens were cleared at an early hour at prices ranging from $4.00 to $4.15.

Sheep.

There were no sheep in the market, although two loads were received, but they were consigned direct to Swift & Co.
