A Fire Proof Shutter.

Mr. Gustave Andreen, the safe manufacturer, has invented a patent fire proof window shutter that promises to be a valuable protection to buildings. The device is an from shutter, which works on rollers and sides on the face of the wall. It can be closed in case of a fire by the plying of a stream of water upon a cup-like catch attached to the shutter. Superintendent Whit-lock pronounces the invention a success, and will test it in public shortly.

Poppleton May Object.

The council committee on public property and buildings made a report last night and recommended that an election to vote \$60,000 worth of bonds, with which to purchase the exposition building to be used as a city market, be held. The report was adopted, and it is supposed that some action will be taken soon, but no time has been fixed yet for holding the proposed election. It is presumed, however, that the question will be submitted within ninety days. There are doubts whether anything can or will be done until Mr. Poppleton decides whether or not he will allow the ground to be used for a market.

No New Appropriation. Some misapprehension seems to have arisen regarding the report made by Superintendent John F. Coots, of the county nospital work, last Saturday. An impression has gone out that his estimates contemplate an expenditure of \$26,000 for changes and corrections, over and above the contract price. This is not the case. Mr. Coots was instructed to ascertain just what it would cost to complete the building, making allowances in his report for all extra outlays, and 226,000 is the sum he returned. This much, and more, is still due the contractors on their award. It may be, however, that as the work progresses Mr. Coots will discover faults requiring to be corrected, but no one contemplates that any new appropriation

Prohibited From Selling Poor Brick. Building Inspector Whitlock has been issuing notices to the various manufacturers of brick in Omaha, instructing them not to sell to any contractor or builder, or to anyone, to be used for building, any poorly burned or shell brick. The building ordinance strictly prohibits such sale and pro-vides a penalty for each violation of the or-dinance. "Nearly all of the brickmakers and dealers sell this inferior quality of brick," said Mr. Whitlock, "and I am going to see that the sale is stopped. We have enough watching to do now whenever work is commenced on a building without keeping a lockout for poor material. The ordinance prohibits brick manufacturers from keeping prohibits brick manufacturers from account inferior brick for sale, and we can watch them at the yards better than we can at the

ARRIVED AT AN UNDERSTANDING Navigation and Puget Sound

Controversy Adjudicated. It is announced on good authority that the threatened war between the Union and Northern Pacific over the Puget Sound beat him. The tough was fined \$7.50. He traffic, and also over the control of the Oregon Railway & Navigation, has been averted and that in the adjudication of the matter the former road obtained valuable conces sions. General Manager Kimbail, of the Union Pacific, who has just returned from the disputed territory, declined to express himself when questioned. It was learned, however, that the Union Pacific had not only maintained its rights to Puget Sound traffic,

over the Northern Pacific from Portland to Mr. Thurston, attorney of the Upion Pa-cific, who has been engaged for some time in drafting terms upon which the lease was

in drafting terms upon which the lease was effected, left for Portland with the documents, where he will submit the terms to contracting partles for their approval.

As to the result of the coming annual election of the Oregon Railway and Navigation company, it was learned that in all probability, the Villard faction will vote a majority of the stock, but that no effort would be made by the Northern Pacific toward abrogating the lease of the former company, by the Oregon Short line, the latter being a creation of the Union Pacific. Unless something entirely unexpected should arise, the officials of the Union Pacific anticipate no further trouble with the Northern Pacific on this subject.

#### CANADIAN PACIFIC'S RULE.

How it Disarranged Cuts on Rates in This Country.

The 40 per cent cut in western rates instituted by the Burlington & Northern has up set almost every railway organization, and a railway war is expected. General Traffic Manager Mullen, of the Union Pacific, when questioned as to the probable outcome of the reduction said: "There is no telling where it will stop. The cut made by the Burlington & Northern will force the St. Paul lines to make a corresponding rate. Then, the Iowa lines will have to make the same rates to Omaha and the Kansas City lines the same to Kansas City, which means the demoralization of freight rates between the Missouri river and Chicago, and there is nothing certain of it being confined in that territory. It may also involve the roads in the trans-Missouri asso-ciation. What is the cause of the trouble! ciation. What is the cause of the trouble! Why, the principal disturbing element is the Canadian Pacific, and I might say that it alone is to blame. If that road would maintain its rates, nothing of the kind would happen. But it is a corporation independent of our commercial and railway laws, and consequently any movement of this kind can be made at the discretion of its officers. It is a matter to be regretted that a foreign corporation should be allowed to manipulate in this way, and one thing plainly suggests itself, and that is

that the United States government must legislate so as to subject the Canadian Pacific to our commercial laws and regulations or disaster will follow in the event of non-legis-lation in that direction. Laws can be enacted which would control this road. Railroads can not be maintained at a loss, no more than any other industry or enterprise, and if the breach between the railway regulations of the United States and those of Canada is not closed the result will be very serious."

Union Pacific Mortgages. The Union Pacific filed twelve chattel mortgages with the county clerk yesterday in favor of the American Loan & Trust com pany. The security is given on certain rolling stock which has been received from the St. Charles car company, the Michigan car company, New York locomotive works, Pullman Palace car company, Barney & Smith manufacturing company, and the Pittsburg Locomotive & Car works.

Second Class Sleepers.

The Burlington has decided to run second class Pullman sleepers between Chicago and Denver. No announcement of the new de parture has as yet been made, but to-day several second-hand Puliman sleepers were brought in from Chicago, and upon inquiry it was learned that they were soon to be used as mentioned.

Kimball Returns. Thomas L. Kimball, general manager of

the Union Pacific, has returned from an extended tour of inspection of the western portion of the Union Pacific system, together with its proprietary lines. He states that everything was found very satisfactory. As to the outlook for a heavy yield in crops, he stated that in the grain beit in Nebraska crops foreshadow a bountiful harvest.

Railroad Notes. Assistant General Manager Dickinson, of the Union Pacific, went west yesterday.

Superintendent Ressegue, of the Nebraska division of the Union Pacific, accompanied by Trainmaster Baxter, went west yesterday. Superintendent Thompson and Trainmaster English, of the Burlington at Lincoln, are in Engine 566, of the Union Pacific, has been

#### THE NEW SUTRERLAND.

C. T. Taylor is to Rebuild it on Larger Scale.

The Sutherland hotel at Sutherland, Florida, which was entirely destroyed by fire several months ago, is to be rebuilt on a grander and larger scale.

The structure was erected by a syndicate of Omahaus and run by Martin Dunham. Several Omaha ladies and gentlemen who were stopping in the hotel at the time nar-rowly escaped with their lives.

The proposed structure will cost \$50,000. It will comprise two buildings, one containing 30 and the other 130 rooms. It will be owned by C. T. Taylor, who puts all the money into the enterprise except such as he may obtain from the sale of 500 lots which are located in the Sutherland syndicate property. The proceeds required is \$10,060 which is to come out of the first sale. If no sale takes place the syndicate offers no money. As the property is considered desirable, it is not thought much difficulty will be experienced in disposing of the land.

The names of all the members of the company o pany have been secured to the deal with the excention of Dr. Richardson, of St. Louis, E. R. Davis, Litchfield, Ia., and Mr. Thayer, Salida, Colo., which will be obtained in a

## THE MAGNITUDE

Of our late purchases has somewhat startled our competitors and they are wondering what we are going to do with the goods. The fact is, this backward sea. son is having a depressing effect on the woolen and clothing market. Manufacturers find themselves overstocked and demoralized, and accept almost any offers that are made to clear out their seasonable stocks. We can NOW buy goods from the best houses in the country AT PRICES MUCH LOWER THAN WE COULD MANUFACTURE THEM OURSELVES. Our buyer is always on hand. When a manufacturer or wholesaler needs money, he comes to us. We set the price on his goods, and the manufacturer's loss is our customers' gain. Hence it is that we can sell Suits now for \$15.00 for which other houses charge \$25.00.

The goods we received last week have compelled us to make a big cut on the prices of suits left from the early purchase, so as to be uniform with the low prices of the new goods.

Our stock of Men's and Boy's Clothing is now much larger than at the beginning of the season. Come and see and judge. Suits are things you must look at to judge of their value. It is easy enough to describe them, but description doesn't show them. Our new suits are a sight to see, and a few minutes inspection will show you THE GREAT ADVANTAGE OF BUYING NOW. It is not a saving of one or two dollars that we are speaking about this time. IT IS A SAVING OF TEN DOLLARS OR MORE ON A STRICTLY FIRST-CLASS SUIT, and if this saving is any object to you, you will buy NOW. We are showing this week a line of sack suits in Worsteds, Corkscrews and Cheviots marked \$14.75, and Cutaway suits marked \$15.00. These suits are positively as good as you can get in any store in Omaha for \$25.00.

In the furnishing Department we have opened today several new cases of Underwear at prices about 25 per cent less than the same goods could be bought for a few weeks ago. Lisle Ribbed Shirts and Drawers at 45c, worth 75c. Fancy Bal briggan Shirts and Drawers at 55c; these are indeed surprising value. Nothing less than \$2.00 per suit would buy such goods at any other place.

IMPORTANT.

We have just closed a deal on a manufacturer's entire stock of Summer Clothing. The price at which we bought these goods will enable us to offer thin Coats and Vests at about 50c on the dollar. We expect to paralyze the clothing trade. The goods will be open Monday or Tuesday.
