

THE CONDITION OF TRADE.

Money is Easy and No Change in Demand Rates.

ANTICIPATING A BANK FAILURE.

The Effect of an Open Winter—The Values of Goods in General Only Steady—New Business Coming to Omaha.

An Increase Noted in Clearings.

The clearings for the week were \$4,178,737.85, an increase of 6 1/2 per cent.

Jobbers say that trade is pretty quiet and inclined to languish, though in some lines there is a fair excess over 1888, and we find some who have done less this year than last.

The cool, unseasonable weather following the open dry winter necessarily made a heavy demand for articles of wearing apparel.

Collections are fair to middling, though there is the usual complaint on city accounts, and the city authorities are savagely denounced by retailers for the delay in letting and starting city work.

Prices held steady. Butter is decidedly firmer, and packers have advanced prices 1/2c per pound for good factory makes.

Referencing to the stoppage of stock quotations, the New York Times says that it "has been reserved to the press to discover that a public market in a private club, and business is increased by destroying the facilities for doing it."

Coffee is not so active as formerly, and the upward tendency is checked by the statistical showing.

There were 629,624 bushels of Brazilian coffee at New York, Baltimore and New Orleans and on the way to these ports, against only 274,177 bushels a year ago.

London cables state that there was considerable stir in the Clyde sugar market yesterday, and prices advanced 3d on reports that America had bought 20,000 tons of sugar.

Sugar remains in a firm position with the total stocks in all the principal countries estimated at 1,074,163 tons a year ago.

The general inquiry for wheat there is no where as active as it was some time ago.

The stocks of wheat and corn at twenty-one leading interior and seaboard markets east of the Rocky mountains are 1,742,000 bushels.

The wheat crop in the West is placed in round figures at 39,000,000 acres, including 34,500,000 acres of winter wheat and 4,500,000 acres of spring wheat.

The average 13 bushels the bushel, the yield should amount to 507,000,000 bushels.

Mr. Bishop, of Dawson & Bishop, Weeping Water, came in with a load of hogs.

Henry Koch and P. M. Colby, Bradshaw, came in to look after the sale of three cars of hogs.

George Varney, Missouri Valley, came down with a load of hogs.

W. G. Robbins, T. J. Reynolds and W. Lee were on the market with cattle from Lincoln.

G. H. Kribbs, of McPaul, Ia., was on the market with cattle and hogs.

On top heaves a year ago \$5.50.

One year ago to-day hogs sold at a range of 60c.

Lincoln reports a surplus of 2,000 hogs of hams.

Several important deals made during the week.

The past week has been an active one in real estate circles.

A healthy advance over buildings of two months ago.

The noticeable feature of these deals has been that the purchasers are in almost every case home seekers.

The supply of money in the bank and loan companies is large, with the interest rates decidedly reasonable.

The largest deal of the week was the purchase by Mr. Fred Ames, of Boston, of the M. & M. property, on Farnam street, and the business man on Sixteenth street, both adjoining the Commercial National bank, now in process of erection.

THE PHANTOM SHIP AGAIN.

It Has Been Repeatedly Seen in the Vicinity of Block Island.

For the first time this year the phantom ship has been sighted off Block Island, says the Cape Ann Advertiser.

The peculiarity of this appearance consists in its always being seen at night.

Land plaster is a constituent of soils. It is found in clover and some of the grasses.

If you purchase dressing from the city or from the country, it is up and it is hot!

J. L. Rose, of Los Angeles, Cal., has recently sold five cars for \$14,000.

WEELY BUSINESS REVIEW.

The Bankers Complain of the Secrecy of Borrowers.

INFLUENCE OF GOLD EXPORTS.

Produce Markets Considered Fair Under Existing Circumstances—The Export Movement in Grain is a Little Improved.

Cutting Off Quotations Renewed.

Chicago, June 8.—[Special Telegram to The Bee.]—The advent of summer finds the monetary situation the same as usual at the commencement of the usual dull season.

There is, in fact, nothing in the way of legitimate trade, industries or speculative pursuits to stimulate the demand for money.
