THE DAILY BEE.

Sworn Statement of Circulation. State of Nebraska, County of Douglas, George B. Tzschuck, Secretary of The Bee Publishing Company...

Average. 18,703. GEORGE B. TZSCHUCK.

Sworn to before me and subscribed to in my presence this 10th day of June, A. D. 1890. N. P. FEIL, Notary Public.

George B. Tzschuck, being duly sworn, deposes and says that he is secretary of The Bee Publishing Company...

KILMAIN has won the toss to decide the place of battle with Sullivan. It is not likely to be in the vicinity of Boston.

The excitement over Oklahoma having died out, Kansas is now attracting attention to her natural resources in cyclones and lynchings.

It has come down to a point of veracity between the Kansas City Paving company and the Union Pacific as to the price of delivering Colorado stone in Omaha.

ALREADY the people of Seattle with true American pluck and enterprise are clearing away the debris preparatory to rebuilding the burnt district...

It is immaterial what influences brought about the opposition of the Republicans to cedar blocks; their charges are strong and indisputable.

Is our educational system a failure? Down in Lincoln they have discovered several prominent citizens totally ignorant of their business affairs.

The collapsed "Bank of Omaha" bears no more relation to the financial affairs of this city than a pawnshop does to its mercantile interests.

The break-neck wooden aprons that look as if they had passed through a cyclone should be repaired or removed.

The building of large additions to the packing house plants at South Omaha is indicative of the success of the pork packing industry at this point.

Whatever way the wind may blow, the board of public works will hold onto the check for two thousand dollars deposited as evidence of good faith by the paving firm.

Last week's rains extended over the vast area of grain-growing country between the Missouri Valley and the Atlantic seaboard.

There is every indication that the work of surveying the arid regions of Colorado and the territories will be pushed forward at an early day.

THE BREACH MADE. All doubt regarding the course of the Chicago & Alton road in the matter of reducing lumber rates between Chicago and the Missouri river, has been removed.

How New York Trade is Governed. The obvious lesson for the Empire state is that it will have to choose between government by the liquor saloons and government by the people.

Nebraska Jottings. Hall did extensive damage to crops near Ulysses, Friday night.

The Earth Gave Way. A gentleman who lives near the corner of Jackson and Seventeenth avenue, while crossing the latter street yesterday afternoon, fell through a thin crust of earth to the bottom of a washout.

WYOMING OIL FIELDS.

There is no longer any doubt of the existence of oil in paying quantities in Wyoming. The faith of moneyed men in the discoveries is shown by the number of companies recently organized to secure a share of the new fields.

The credit of this important discovery belongs to Omaha citizens. Their energy and perseverance extending over a period of ten years demonstrated that a second Pennsylvania in mineral resources exists on our western border.

This fact gives Nebraskans superior advantages in the development of an industry of paramount importance to the west. Will they continue in control? Will Omaha and the state realize the full benefit of the discovery?

Such a transfer would be a misfortune to the city, and yet it can hardly be avoided, under existing conditions, because the companies do not control sufficient capital to profitably handle the oil.

Local control of the oil fields means that Omaha will be the Cleveland of the west. It means the construction of a pipe line from the oil fields to this city.

It is the death of Leonard Sweet, Illinois loses one of her most eminent citizens. He was for years the law partner of Lincoln, and won distinction as an orator in nominating the martyr president in Chicago in 1860.

The Quakers may sometimes be downed at base ball, but on charity they are certainly the heaviest team in the country.

Mr. Halstead Has His Eye Open. No New York, Lima, Dayton, Hamilton, Democratic, Standard Oil, Gubernatorial, Presidential, boodle combination is going to work in this state this year.

A Spellbound Spellbinder. Spellbinder Mahlon Chance, one of the most able and popular campaign orators who ever advocated protection to American industries, has taken unto himself a wife.

An American Pope. Some of us are protestants and some Roman Catholics, but we are all Americans. Put an American pope in Leo's chair and we'll celebrate from Maine to California.

So Like Reward. Great men have their weaknesses. Beverly Tucker it seems, was chagrined. When President Harrison, who did not know much about Beverly Tucker anyway, heard of this, it is not at all probable that his displeasure over the appointment of Beverly Tucker was mitigated.

THE OMAHA GUARDS CONCERT. The second concert given by the Omaha Guards' band, at Hanscom park, yesterday afternoon, was well worth hearing, and was listened to by fully a thousand people who had gathered there from all parts of the city.

THE EARTH GAVE WAY. A gentleman who lives near the corner of Jackson and Seventeenth avenue, while crossing the latter street yesterday afternoon, fell through a thin crust of earth to the bottom of a washout.

NEBRASKA JOTTINGS. Hall did extensive damage to crops near Ulysses, Friday night.
