The heaviest damage was on Seventh avenue, near Pierce, where the paving was washed out for 100 feet and from two to ten feet from the curb. This will be repaired by the water works company, as it was caused by the carrying of water to the curb.

A shepherd dog belonging to Mr. T. Z. Bond, at 2516 Davenport street, jumped on Jennie Gish, a little girl about twelve years old, and bit and scratched her severely. They came immediately to this city where each enjoys a wide circle of acquaintance. A pleasing incident occurred at the Murray, in the meeting, by chance, of Senator Paddock, Mr. and Mrs. C. B. Sprague, of Glen Falls, N. Y.; Mr. and Mrs. A. C. Smith and Miss Hiley; and Mr. and Mrs. M. A. Metzger, Red Cloud. All are bound together by relationship ties, and as the meeting was entirely unexpected, was doubly pleasant.

REMOVED.

The editorial rooms, on the seventh floor, will not be accessible to the public until the formal opening of the building, which will take place on June 19. Until then communications for the editorial department will be received at the counting room.

TELEPHONE NUMBERS OF THE EDITORIAL AND COUNTING ROOMS WILL REMAIN UNCHANGED.

ANOTHER FLOOD.

It Deluges Officer Vaughn at a Saloon Back Door. Detective Vaughn is very angry over the detention he got while watching the back door to Seber's saloon, Sunday, to see if any liquor was being sold there. He complains that Councilman Ford appeared on the scene and called him a "d--d hoosier, a d--d tramp," said that no one would act as he did but a d--d sneak. Vaughn says that, while parleying with him, a large crowd gathered, and a woman, upstairs, emptied a tub of dirty water on him. The crowd laughed over the officer's misfortune. The latter had to wade to the nearest box and called the city patrol wagon, whereupon Ford skipped.

THE CONTRACTORS' ANSWER.

They Question the Justice of Mr. Coots' Criticisms. Ryan & Walsh, contractors of the new county hospital, have filed with the board of commissioners a reply to Superintendent Coots' report, in which they deny every charge made by him. They take the ground that he was actuated by ulterior motives--probably a desire to destroy competition, or to raise the architect from an unenviable position which he has placed himself in by his vacillating conduct relative to the hospital.

ANOTHER CABLE LINE.

A New Road Costing \$650,000 to Dundee Place. A reporter for THE BEE had a talk with W. K. Kurtz, manager of the Patrick Land company, regarding the cable line which it is proposed to run to that part of the city. "We are almost ready," said he, "to commence work immediately. In fact before the end of next week we shall be able to give employment to a large force of men on our line which will be pushed with all possible speed.

Other Extensions.

A meeting of the directors of the Omaha Street railway was held last Saturday, at which an appropriation of \$400,000 was set apart to invest in an extension of the Thirtieth street line, from Vinton to South Omaha, as well as other new additions. A contract will be let this week for building the power house at Nicholas and N. street; the steam plant is ordered, and fifty-three motor outfits, which means trains of two cars each, are now being fitted out by the Sprague Manufacturing company of Trenton, N. J. They will begin to arrive within ten days. It is now proposed to discard horse cars on the principal streets as soon as it can be done.

School Money for Douglas.

County Superintendent Evans has received a statement from the state superintendent of public instruction informing him that the school fund this year amounts to \$317,019.23. From this amount must be deducted \$4,843.47 for bonds purchased. Douglas county's proportion is \$21,709.34, which will be divided among the school districts. Douglas county has 24,643 children to share its benefit. The apportionment will not be made until district officers shall have turned in their annual report, which they are requested to do within ten days after the schools close.

To and From the Poor House.

Daniel Haron, who claims to be an edge toolmaker, and who has worked fourteen years for Frederick & Ames, Boston, says that six weeks ago he was taken ill with fever and was sent to the county hospital, where he has remained since. This morning he was discharged from the poor house by Mr. Mahoney on the order of Dr. Taggart. On his way to THE BEE building he fainted and was cared for by strangers. He claims that he is sick with fever, is unfit to be out, and so told Mr. Mahoney, and also told Mr. Mahoney that he had no tramp.

He rode to the editorial floor and after telling his story again, asked a coat and vest. Regory has disappeared. Davies Bros' store, at the southwest corner of Eighteenth and Chicago, was given a midnight visit by thieves, who effected an entrance by taking out a pane of glass in a window in the rear of the basement and cutting a hole in the door opening from the cellar into the store and thereby turning the key in the lock. After all their trouble they secured only about \$10 from the money drawer.

A Batch of Burglaries.

Thieves broke into Mr. Merriam's new house at Twenty-fifth and Dodge street and stole a lot of brass knuckles, a set of lead pipe, four brass traps, two Raymond pearls and one hundred and fifty pounds of solder. John Burk, who lives at 1717 Chicago, complains that one F. K. Regory, who works in a restaurant on Farnam near Fifteenth, broke into his room, stole a coat and vest. Regory has disappeared.

How the Little Ones Spent it at Brownell Hall.

Yesterday was juniors day at Brownell hall, and the morning was pleasantly passed with the art exhibition and essays and instrumental music by the pupils. There was a fair attendance of parents and friends, and after devotional exercises the morning's programme opened with a recitation by Miss May Her, entitled the "Four-Leaf Clover." It was a pretty bit of sentiment and admirably rendered.

THE GIRL GRADUATE.

Miss Edith Dorsey made a hit with her somewhat lengthy dissertation on "The Game of Base Ball," an interesting paper on this popular national sport showed most effectively what a hold it has on young America, both male and female. There was no little humor in Miss Dorsey's dissertation, either, because she told how the bright-eyed, rosy-cheeked elves of Brownell hall are to be seen at the stadium, in the shades of evening, and indulge in a game themselves, which generally, however, breaks up in a row all night and beautiful cars have been ordered, which means trains of two cars each, are now being fitted out by the Sprague Manufacturing company of Trenton, N. J. They will begin to arrive within ten days. It is now proposed to discard horse cars on the principal streets as soon as it can be done.

THE MONARCH OF THE GLEN.

"The Monarch of the Glen," a crayon, and "The Old Mill" and "Mid-Winter," charcoal sketches, by Miss Hannah Hochstrasser, are excellent studies, displaying considerable merit. A couple of figure pieces, an ideal face and a marine scene, by Mable Putnam, are much admired.
