CALVIN BRICE is the rainbow of promise and poor performance for Democracy.

THE board of trade is in position to do a vast amount of good for the city by united and determined action.

PERHAPS Hayti is not aware of our murderous resources. Her antics are like those of a mosquito inviting a deadly slap.

THE time is rapidly approaching for the submission of the union depot project. Will the railroads keep their word?

THAT million dollar hotel is something more than this air. A few more fifty thousand dollar subscriptions and it will be a fixed reality.

THERE are five thousand and twenty-one miles of railroad taxed in the state. The number of miles of sidetrack omitted will never be known.

PRESIDENT HARRISON's order abolishing all Sunday duties for soldiers except the parade for personal inspection, is gratefully accepted by the rank and file.

GLADSTONE bears a charmed life. The intrigues of political enemies, the bullets of assassins, and the recklessness of cabmen, fail to beat him down, or disturb his mental strength.

INLAND towns in Nebraska and Iowa may well take a lesson from the burning of Seattle and Grinnell. It is poor policy to try to maintain proper fire protection without engines and water.

ARMAGH is the Mud Run of Ireland. The railroad disaster there, resulting in the loss of sixty-four lives, was a piece of criminal carelessness equaling the destructive wreck at Mud Run, Pa., last year.

If the Haytiens are determined to fight, the best thing this government can do is turn loose Rosser and Early. They have an abundance of jawbone with which to slaughter the tropical Philistines.

CHICAGO has just organized The American Execution company whose business will be to furnish untrained sheriffs with professional hangmen. This may be a grim business but Chicago is evidently well supplied with the necessary qualifications.

THE Sioux have dubbed Calico Charley the Brave-Whose-Jaw-Shoots-Far. Whatever be the result of the conference with the Indians, the Hon. Charles Foster, of Ohio, as member of the Sioux commission, will have no reason to complain of his reception.

THE county clerks of Iowa are holding a convention for the purpose of devising a system by which uniform methods of keeping court records will be used throughout the state. There is a suggestion here to the county clerks of Nebraska who can well profit by the result of this deliberation.

ONE million dollars has been advanced by the state treasurer, of Pennsylvania, for the relief of the Cone-maugh sufferers, and wealthy citizens will be called upon to sign the governor's bond for that amount. Let the paper be first passed around to the millionaire members of the South Fork Fishing club.

A COTTON mill in Nebraska is one of the possibilities of the near future. Well, why not? The spindle will spin and the loom will work just as well in Nebraska as in Massachusetts. And, as for climatic conditions best suited for cotton spinning, science may possibly overcome the advantage possessed by the New England coast in this particular.

MINNESOTA wants free intercourse with Canada and especially with her next door neighbor to the north for the purpose of grinding Manitoba's surplus wheat into flour despite the fact that Canadian wheat would come into competition with the home production. But when it comes to buying dressed beef from Nebraska, Kansas or Illinois, Minnesota draws the line in order to "protect" her own local cattle growers. Minnesota is a jewel of consistency.

THE FIRST CONVICTION. Less attention than it merits has been given to the first conviction on criminal indictment under the interstate commerce act.

A GOOD FOREIGN EXAMPLE. The wrecking of part of a railroad excursion train in Ireland on Wednesday, resulting in the death of a large number of children and others, led to the prompt arrest not only of the men in charge of the train, but also of the traffic managers and clerks.

THE republican governor of Connecticut, having followed the example of the democratic governor of New York in vetoing a ballot reform bill constructed after the Australian method, has been sharply criticized by republican journals and as warmly commended by democratic organs.

WARREN TO THE UNION PACIFIC. The enormous number of passengers handled promptly and safely by the bridge motor trains yesterday is strong proof of the benefits of cheap and convenient transit between Omaha and Council Bluffs.

A MONOPOLY DEFEAT. A case possessing general interest, because it resulted in the defeat of the greatest monopoly in the country, was recently decided by Judge Jackson, in the United States court at Nashville.

TRADE JOURNALS are pointing out the fact that while the construction of railroads for last year was only about one-half as much as in 1887, nevertheless more iron was used in 1888 than in the year previous. This is accounted for on the ground that iron has come into general use, especially in the building trades, where vast quantities are consumed.

WRECK ON THE R. & O. BALTIMORE, June 13.—A collision on the Baltimore and Ohio yesterday near Harro de Graca between two freight trains resulted in the death of a brakeman and the wrecking of several cars, two of which contained provisions for the Johnston sufferers.

HARBER M. ASSURES FOR ANARCHISTS. LONDON, June 13.—Rue de Commerce and Austria has sent an identical note to the Swiss government advising it to deal more severely with anarchists and socialists.

revolution that is as sure to come as that which followed the throwing overboard of a lot of tea in Boston harbor. Neither the power nor the vulgarity of capital can long rule the people.

THE movement for a week of attractive fall entertainments in the city should be vigorously pushed by our merchants. In the hands of competent, energetic men, with a liberal sum of money, thousands of people will be brought to Omaha, and all branches of business benefited.

RAILS have been distributed over the Eleventh street viaduct and South Eleventh street. The question is will they be left to rust and impede travel for months to come or will the street car companies build and operate their lines immediately as they have promised to do.

THERE are wheels within wheels in the paying contractor's combine and the unlucky taxpayer is in danger of being ground to atoms if he allows himself to be caught within their teeth.

NEW ORLEANS and the Sluggers. The report that a New Orleans syndicate is ready to subscribe a big purse to secure the Sullivan-Killean prize fight is denied. The denial is no discredit to New Orleans.

NOT HIS BRAINS, BUT HIS BAR!. Did it ever occur to Calvin S. Brice that Mr. Cleveland had him placed at the head of the Democratic National Campaign committee because Mr. Brice's check was good for a million dollars?

THE city ordinance requiring the street car companies to pay in advance for pavement taken up is needlessly burdensome and unjust. The companies are entitled to equal treatment with property owners on abutting streets.

THE garbage master makes the proposition to kill the superfluous dogs of Omaha by the charcoal pan. The humane society certainly can take no exception to this mode of execution. It commends itself to the society both

from the fact that it is painless and so thoroughly humane that it is positively romantic.

THE lady friends of Mrs. L. C. Backus gave her a very pleasant surprise to-day. During the forenoon a party of ten called on her at the home of her daughter, Mrs. H. Chapman, who lives at the corner of Fourteenth and T streets.

HON. THOMAS DARNELL will open a law office in the Richards block, in about thirty days, in connection with the Hon. H. O. Babcock, ex-state auditor.

Said Lill to Belle: "Oh! will you tell 'What makes your hands so white, 'So smooth and soft? 'I've wondered oft, 'For mine are such a sight!"

There are many white soaps, each represented to be "just as good as the Ivory" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory"! Soap and insist upon getting it.
