Lots 1 and 5, of Jacobs' addition, lying on Nineteenth street, between Leavenworth street and St. Mary's avenue, are in litigation. The land is held at \$28,000, and was sold for that sum by the defendant to the plaintiff. It was understood that a strip was to be taken from the tract for the extension of Jones street, the seller representing to the nurchaser that the seller representing to the purchaser that this strip had been duly appraised at \$7,000. It was further represented to the purchaser that this money would be paid him by the city. The plantiff claims that this was a false representation and that the tract had not been thus appraised.

THE TELL-TALE PUNCH. It Records Courtisan Fines Paid to

Captain Wood.
Comptroller Goodrich concluded his investigation into the alleged inaccurate reports of courtesans' fines by Captain Wood, clerk of the police court. The examination extended up to the end of May. In this work he was assisted by the committee on finance of the council.

It is estimated that 300 receipts were issued to sporting women during the month, but of this number only about one hundred and twenty-five could be procured Some of the missing ones had been dethe railway world. stroyed or the recipients had left town.

On only twenty of the first forty receipts discovered had Captain Woods, it is alleged. reported. The total amount on all the re-ceipts of May which the captain, it is said failed to report, is over \$200. This, with the discrepancy of the months of March and April, amounts to nearly \$400." "How did you discover the captain's fail-ure to make correct reports?" was asked a member of the finance committee.

"Well," he said, "I have a little to do with the finances of the city, and in looking into them, it occurred to me that the police court ought to be self-sustaining."

"Yes, but I mean there ought to be a reve-"How! Do not the fines of abandonod women go to the school fund?"
"The fines do, but the costs go to the

"How much are the costs in each case?"
"Something over \$3."
"Well, why suspect the clerk?"
"Because the revenue from prostitutes'
fines to the city is no greater than it was several years ago, although the number of abandoned women has doubled. The only way to inquire into the business way to inquire into the business was to hunt up the receipts among the women, and we have done it. Here are some of them. There is no chance for being mistaken. All these fines must be receipted in the name of Judge Berka. When he receives a fine, he acknowledges it over his own signature. When Wood receipts for a fine he is under instructions from Judge Berka to use a rubber stamp bearing that official's name. Besides this, Wood, when he used the stamp, perforated the receipt with a private punch, and there it is you see. There is no use in his saying there is a mis-

take about this. His punch shows he received this money.

"I see by The Bee that Wood attacks
Seavey, holding him, as also Judge Berka,
responsible for this attack, as
being inspired by malicious motives.
Seavey knew nothing about this and did

"Are you inquiring into the accounts of any other city officer?"

"I can't tell you."
"Are you not investigating the meat and

milk inspection!" "Well, you know they do not receive any fines or fees. But there is one thing I shall nsist upon, and that is that they shall make more regular and more specific reports. When they condemn milk, meat and vegetables, they must tell to whom those articles be-longed so that if the same parties are found selling bad food more than once we can make them squirm for it."
"Are you not inquiring into the finances of

the board of education. "We have no jurisdiction over that body, but the comptroller has. At the last legisla-ture a bill was passed authorizing him to, anboard. They have not been checked up for two years. When Omaha was a city of the first class, those accounts used to be checked by the auditor, but that checked by the auditor, but that office was abolished under the charter for a metropolitan city, but power was given to no other officer to inquire into this school board's books. Last winter, as I say, the comptroiler was authorized, and at to-morney night's meeting of the council he will row night's meeting of the council he will ask for a man to aid in the work. He can not do it without assistance."

"What do you expect to find?"
"I don't know, but they do say that the old auditor's office was fearfully and wonder-

Captain T. T. Wood, clork of the police court, walked into the court room as usual yesterday, deposited his hat and cane as usual in their customary places, and was soon buried in his record of the misdoings of

sundry people.

No indication of any mental perturbance the same as he has morning after morning during his two years' service as clerk of the courts. To a Bee reporter the captain said that the charges against him were prompted by the police because he was eliderity for by the police because he was solid with Col onel Floyd of the Diamond. Beyond this, the captain would not say anything, giving as his reasons the fact that his Masonic friends had advised him to say nothing about the matter and not even read what the local papers have to say about him and the alleged

But Captain Wood has practically been removed, and he will no longer preside over the big book which contains the record of the sins and woes of sundry residents of Omaha.

The council committee on finance has made its report to the mayor, finding Captain Wood involved for upwards of four hundred dollars, as mentioned above.

It is said that the captain was not only a frequenter of the Diamond pool room, but has really been in the pay of that house, and as a confidant of the police has given Colonel Floyd certain tips relative to the con-templated arrest of gamblers, which has been of value to the fraternity. The captain will be immediately removed, it is claimed, the mayor only hesitating as

to whether he shall ask for the officer's resignation or summarily dismiss him." But the end is not yet. The council committee on finance is still working upon the case, and in accordance with instructions from the mayor will investigate the doings during their term of office of License Inspector Turnbull, as well as the other inspectors mentioned above. The latter receive no fees, but it is inti-mated that they might have been sugared by

It appears that on Saturday, Smith having eaten a very hearty dinner, caused Lyons to remark that it would have been better for him (Smith) if he had kept some of it for a poor fellow being who should come along in quest of food. Whereupon, Smith seized a butcher knife and plunged into Lyons' body in the region of the heart. The former then

Up to a late hour yesterday afternoon no response had been received from President Adams by the grievance committee of the Brotherhood of Locomotive Engineers.

The members of the grievance committee expressed themselves as confident that the expressed themselves as confident that the matter would be adjudicated without any desperate issue being made, and that the demand that the agreement be lived up to would be respected. They state that the stand taken against a reduction will be adhered to at all hazards, and that no other proposition of settlement than the restoratian of the established scale of wages on the Kansas City Central has been made.

AN ADVERSE OPINION.

What Effect it Would Have on City

Railway Extension. The delay occasioned in withholding their decision on the Thirtieth street injunction case, which involves a question of constitutional 'rights, relative to the consolidation of the Omaha Horse Railway and the Cable Tramway companies, is causing some annoyance. The members of this Omaha Street Railway company, the name of the consolidated company, earnestly desire to proceed with their proposed extensions, but dislike taking any risks until the question of the legality of the consolidation has been settled.

Said one of them: "Judge Doane has ruled against us so often and in nearly all our cases with the motor people, that we expect to be knocked out again. I can say that, if he does decide our consolidation unconstitutional, he will samply stop the expenditure for improvements in Omaha this year, of \$400,000 cash money."

Caught a "Bird."

It now transpires that Howard, the man arrested by Officer Keyser, Saturday, is no other than the shark who, for months, captured unwary strangers on their way from the Webster street depot to the business part of the city, and despoiled them of their money with bogus checks. He also carried on his business on the dummy and on the trains between Lincoln and Omaha. For weeks the papers contained accountt of his exploits.

Bushey Rapidly Improving. W. M. Bushey, who was seriously injured by a fall from an elevator in the Bee building, Saturday, is supposed to be out of dan ger, and his physician, Dr. Grossman, hopes to bring him around all right in a few days Bushey was able to sit up yesterday, much to the surprise of his friends, for his wounds at first appeared to be fatal.

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discemfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months, and am pleased to state that it has effected a complete cure. I have since had no return of the disease."—Mrs. R. Irving Dodge, 110 West 125th st., New York.

"One year ago I was taken ill with inflammatory rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. THE SALE OF THE SEASON

Our extraordinary sale of Summer Coats and Vests will be continued this week. This is beyond a doubt the most remarkable sale of the season, as the goods are almost slaughtered. We can unhesitatingly say that never before was such an opportunity offered to buy at one-half their value seasonable goods just at the time when you need them most.

Our 70c Coats and Vests are "all the rage." We have added this week several new patterns and you can choose now from six different styles, every one of them as neat and tasty a Coat and Vest as you ever bought for \$1.50.

Another Coat and Vest which excites the admiration of every customer is the fine Mohair at \$2. Such a Coat and Vest has never been offered for less than \$4.

In addition to these we have received during the past few days several lots of very fine grades of thin Coats and Vests. These are from the same purchase, but were delayed on the road through the Pennsylvania flood. We have marked these goods at correspondingly low prices and offer:

Several lots of very fine Pongee Silk Coats and Vests at \$3. These are garments for which other houses would charge \$6.

Extra fine Drap d'Ete Coats and Vests in four beautiful shades at \$3,75. These goods are the finest that can be had, are cut and made in the best of manner and fit elegantly. Fine clothing houses charge for same Coats and Vests about \$7.

One of our Douglas street windows is full of these goods and is just now the most attractive place in the city. In connection with the above we offer to day:

200 very fine blue Serge Suits, elegantly trimmed and made, at \$8.90. We warrant this to be one of the finest Serges made and of fast color. We sold the same goods early in the season at \$12.50. This makes an elegant Summer Suit.

SUMMER NECKWEAR.

We are again on hand with the most complete line of Summer Neckwear ever shown. The fact that this Department is the largest of its kind in the city insures the largest choice of styles, while the values speak for themselves. Our customers will remember the extraordinary values we gave in this Department in former seasons. We can assure them that we will do still better this season. Our stock is larger, styles are nicer and prices still lower.
