The fourth annual convention of the Nebraska State Federal Directors' association met at Odd Fejlows' hall, at 10 o'clock this morning, with an attendance of about seventy-five. The convention was called to order by President Reed, of Nebraska City, and opened by prayer by the Rev. H. T. Davis, paster of the Trinity M. E. church.

The following committees were appointed: Credentials-F. P. Doudna, Guide Rock; C. A. Tracy. Wood River; J. S. Shackelton, Wilber. General committee-George Brown, Superior; F. V. Taylor, Red Cloud; W. F.

Barker, Beatrice. President Reed then delivered the annual address, in which he congratulated the association on the progress made in the past year. He noted one death, that of B. F. Jones, of Tobias, who died October 1, 1888, and congratulated the state that this convention sat so soon after that of the druggists and the doctors, that they would be able to cover up all the mistakes made by those begins

The president then introduced the Hon. R. B. Graham, mayor of the city, who delivered the address of welcome. George Brown, of Superior, made a happy response to this address, to which Mayor Gasham replied, tendering the undertakers the freedom of the city. Prof. Shreve delivered a lecture on em-

ming, which was followed by a general If a body can be obtained there will be a demonstration of the embalming processto-day.

Traveling Men's Outing. The day was an informal one at the park. But little was doing aside from fixing the homes and preparing for the tournament, which commences to-morrow. Owing to a heavy rain at Plattsmouth this morning the excursion from that place was postponed until Friday, when the delegation will surely be on hand. The governors, Thayer and Mickeljohn, W. J. Bryan and Fred A. Wilson, will address the coys, and in this way contribute to the enjoyment of the day. There will also be vocal and instrumental music, as well as readings by some of Lin coin's best elecutionists. The German Military band and full orchestra has been en-gaged for the entire week and Sunday, the

Tartarex and Coronads. It seems that the contemplated Fourth of July celebration in Lincoln is attracting wide attention. It is reliably learned that the publishers of Frank Leslie's illustrated papers will send aketch artists to do the scenic parade and such other doings as may come under his notice. The Bar representative had the pleasure of reading a letter from the Leslie publishers written to Robert Mc-Reynolds, and can vouch for the truthfulness of this statement. Verily, the Fourth will be a great day in Lincoln's history, and those who miss the celebration will miss the opportunity of a lifetime.

Pease, Gilbert L. Pritenett, Warthy A. Pease, Ida M. Pritehett and Aultman Pease.

The Electric Street Railway. It is reported that Hon. John Fitzgerald is negotiating with eastern electricians with a view to putting electricity on his Twelfth street car line and extending it to the penitentiary, asylum and other suburban points. Mr. Fitzgerald, being a public spirited citizen of ample means, will undoubtedly carry out this idea. Electric lines are rapidly ab-sorbing horse lines of street railway, and it

will adopt the electric motor first. Speaking of Fitzgerald's enterprise reminds THE BEE man of another scheme by a wealthy Irish citizen. Mr. Sheedy's friends are urging him to build a theater on his lots on the corner of Twelfth and P streets, not a grand six-story building but one with the modern idea of having the audience on the ground floor, where climbing and descending

City News and Notes. Governor Thayer to-day appointed Dr. T. G. Test, of St. Paul, assistant physician at the hospital for the incurable insane, Hastings, to take place at once.

Hon, William Trenton, representative from Richardson county, and R. L. Norval, senator from Seward county, were in the city to-day, but both took occasion to say that poli-tics had nothing to do with their visit.

He is accompanied by his wife. In a short talk with the gentleman, he said: "This town surprises me more than I can tell you. Since I was here first, ten years ago, the change has been something wonderful."

"Are you at work on any new books?" "Yes, I have the material collected for two, but don't know which I shall write first. The scenes of what I expect will be my next and best story, are laid in America. The opening is to be in Arizona, and one of the most important scenes is laid on the Union Pacific road." N Street to be Closed to the Exchange. "Do you understand the conspiracy to rob N street property holders and render the property practically worthless!" asked a prominent business man to the representative of THE BEE as he pulled the elegant reportorial listener to the curbstone, and continuing, he said: "It is just this: The Syndicate Land company is about to close the Exchange crossing, and the N street business mon are greatly excited over the matter The scheme in full is just this: The Syndicate company has large blocks of land in the Fourth ward, west of the tracks, and north of the Exchange and has really little or no lands left on the east side. The L or no lands left on the east side. The Listreet viadnet is being pushed to completion with all haste, while the Q street viadnet is progressing along as slow as its enemies could desire. In a short time, about the time the L street viadnet will be completed, the crossing over the Union Pacific right of way and tracks going to the Exchange from Railroad avenue, will be closed to travel, thus requiring all traffic with the stock yards to go round by the L street viaduct. To appease the east side people a sop in the nature of a death-trap elevated walk will be built at the foot of N street across the tracks to the variance of the street across the tracks to the yardsmaster's office, and then will descend by steps to Exchange avenue. It is the duty of the mayer and city council at its first meeting to take steps to condemn the land in Lake Pivonka and extend N street west from Twenty-seventh street to the boulevard, west to Exchange building. If this be not done N street will be practically ruined for

THE SPECULATIVE MARKETS.

A Glorious Victory For the Bulls in the Wheat Pit.

CHICAGO PRODUCE MARKETS, 2

CRICAGO, June 25 .- [Special Telegram to THE BEE. |-Not for a long time have the bulls had such a glorious victory, glorious in the sense of the utter route of their competitors. But the glory is probably less apparent to the maimed and disabled bears, who are left licking deep wounds, wounds represented by a loss since yesterday of 2%c in July wheat. The market opened with a rush to buy at %c over the closing figure of the day before, and it did not rest until 1/2 more had been added to the initial price. June having then reached 78%c and December 78%c, the advance was temporarily stopped, but though the offerings were very heavy, the reaction produced was only about 1/c, and after playing around 78%e in an uncertain way, another deluge of buying orders gave the price a fresh start, and this second upturn was not stopped until July reached 79%c. The atmosphere was thick with news of a character to make the boldest bear shake in his shoes and quickly turn him from his alleglance to that side of the market. There were many additions to yesterday's news of crop damage in the northwest. Reports were in circulation that representatives of harvester and reaper manufacturing companies having many of the orders previously given them in Dakota cancelled. The most influential piece of "news," however, was that disseminated by leading commission houses, giving reports of their correspondents in Kansas, which showed a most unexpected state of affairs to be existing there. The magnificent promise of that wheat-growing state, according to these reports, has given place to a dismal failure. Rust and blight in the bottom lands of many important sections have cut down the previous, promise of 30 bushels per acre to a beggarly 10 or 15, and a similar lugubrious tale was told of the wheat fields of Maryland. Black rust and blight had there been busy also, and the present promise is reported to be no better for Maryland than Kansas. As if this would not suffice, the leading article from the Neue Freie Presse, of Vienna, was cabled, which confirmed the worst which had previously been told of the damegra to the Presse. confirmed the worst which had previously been told of the damage to the Russian and Hungarian crops. The regular cables to the board were of the same firm tone as the dispatches, and was added cause to the disquietude of the bears. Clearances from the Atlantic seaboard, however, were disappeintingly small, and the enthusiasm over the apparent bull situation did not appear, from what reports came to hand from pear, from what reports came to hand from New York, to have imparted much energy to exporters at the scaboard. Part of the apathy of buyers for foreign shipment was ascribed to the scarcity of freight room and partly to the buying limits having been ex-ceeded by the sudden advance here. He this as it may, there is evidently less alarm over the situation in Europe than here to-day After the price for July had reached 79% there was a pressure to seil which reacted to 794c, but the buyers appeared to be laying in wait for just such a chance, and the dulls recorded advancing figures until the price reached 804c, which, after a few minor fluctuations, were finally established as the closing figure. December, moving up more slowly, closed at 79%c. These prices show gains since yesterday of 2%c in July and 2%c

in December.

The corn market was quiet in the way of speculation, but the feeting was firm owing to the continued moderate receipts, back-ward condition of the crop and to sympathy with the sharp upturn in wheat. July sold at 35½@35%c, and closed at 35%c. The ship-ping demand was about as usual and engagements were reported for 204,000 bushels. The receipts to-day were 509 cars, of which 215 graded No. 2. At the close seller July was 1/c higher than at the close last nigh Oats were fairly active and firm, in sympathy with others. Any special tendency to

advance was checked, however, by free selling on the part of a prominent operator, particularly long futures. There was a fair trade in July at 23c, with September at 3cc discount and May offered at 263cc. The re-ceipts were large, with 49 out of 276 cars passing into contract grades. The posted withdrawals were much smaller than recently and a mild inquiry existed for No. 2 to go to store at 22%@22%c.

The provision trade showed more strength and activity. Cash buyers were again favored with large demestic and foreign or dere, and in a speculative way there was also more doing. The future trading, how-ever, was too local and professional to give entire satisfaction. The receipts of hogs scarcely reached expectations, and, encour aged by the stronger feeling in the grain pits. more confidence was displayed all around Higher prices was the rule, and as the close of the session approached something of a boom was witnessed. For the day the advance actually established amounted to 174c in pork, 5@74c in lard, and 74@124c in short ribe.

CHICAGO LIVE STOCK MARKET. CHICAGO, June 25 .- [Special Telegram to THE BEE. |- CATTLE. -Included in the receipts were 4,000 natives, 700 distillery-fed cattle and 2,200 Texans. The native cattle market ruled very slow, and sellers found considerable difficulty in working up an outlet. But when they did make a trade, they managed to squeeze strong prices, though under protest from the buyers. The "stiller" market dragged badly all day, and holders complained that the prices realized were unsatisfactory and lost them money on their investment. The Texas branch of the market, while not notably active or strong, developed sufficient strength to enable salesmen to obtain fully yesterday's figures, or 10@15c above Saturday's prices. Native cows, bulls and caives underwent but little if any change, and steady prices generally prevailed. The stocker and feeder trade ruled firm in price but limited in movement. Choice to heavy beeves, \$4.05@4.40; medium to good steers, 1350 to 1500 lbs, \$3.75@4.10; 1200 to 1350 lbs.\$3.68@4.00; 950 to 1200 lbs.\$3.30 (3.85; stockers and feeders, were dull and lower at \$2.00@3.30; cows, bulls and mixed were weak at \$1.25@3.00; bulk, \$2.00@2.40; stop-fed steers, \$3.65@3.95. Texas cattle closed weaker; steers sold at \$2.30@3.50; cows, \$1.75@2.25.

Hogs.—The market opened with an un-settled tone, sellers meeting with consideraable trouble in obtaining yesterday's closing prices. As the day passed, however, trade developed strength and the finish was a developed strength and the finish was a shade better than the windup of yesterday. Sales at the start to-day were largely at \$4.30 for packing grades and heavy mixed, \$4.32½(4.4.35 for shipping, heavy and selected medium weights. Later \$4.35 was marked for all good heavy grades. The proportion of light weights proved small, and as Tuesday is an off day for shipping demand, there was enough to go around. Sales of light was enough to go around. Sales of light mixed were largely at \$4.37\(\)(64.40, and assorted light principally at \$4.35\(\)(64.45.

FINANCIAL

NEW YORK, June 25 .- [Special Telegram to THE BEE. |-STOCKS.-The stock market opened with duliness in railroad stocks and a continuation of yesterday's unusual transactions in trusts. The talk of trade would indicate that this is likely to continue. Enthusiastic ones say that when the sugar trusts reach 150, Chicago Gas 75 and the lead trusts 50 there will be more general trading in them than now. In the early trading to-day Chicago sent a multitude of orders in trusts, mostly on the selling side. London came lower. It was rumored that the -banks this morning discriminated in loans of trusts stocks, and the prediction followed that this will check the boom. First figures were 16 6% per cent under the close last night, while

the trusts opened wild and irregular. The lead trust opened 1 per cent higher, and after a further advance to 35 it reacted to 33% and later moved upward a fraction. As on yesterday, sugar was most remarkable for its wide fluctuations, and opening at 123, last night's price, it rappily receded to 117%. and then, like lead, again moved up. Chi cago Gas was weak and dropped from 61 to 59% and failed to recover to any extent. In the regular list there was considerable irregularity, but the tone was generally firm and New England, Luckawanna, and Reading displayed some strength. Pacific Mail was specially weak, however, and after opening at 3314, against 3414 last evening, it declined to 31% on comparatively large business. There was a slight upturn in railroad stocks at 11 a. m., when the market was active and firm. During the hour to 12 o'clock there was very light business in regular stocks, with a falling off in dealings in trusts. In the regular list New England was exceptionally active and strong and went to 53 %. There was a slight improvement in grangers and coal stocks also. Later in the day there was some strength in Burlington and Rock Island, prices going to 1023% and 97 respectively. At the close New England was but % per cent up at 52%, Atchison % per cent lower for the day, Burlington and St. Paul M per cent higher and Rock Island M per cent higher. The greatest weakness was in trusts. Sugar trusts was very changeable and went off to 11614. 914 per cent below the top price of yesterpay, and closed at 117%, or over 5 points lower for the day. Lead trusts closed steady after a very active day. The hardening of the money market had a bearish effect. The following were the closing quotations:

OMAHA LIVE STOCK. Cattle.

Tuesday, June 25.

Contrary to expectations the demand today did not develope much activity, but on
the contrary the trade was slow, at prices
that could hardly be quoted higher than yesterday. Good corn fed native steers of heavy weights were plentiful, but tidy little tattle, which were the most sought after, were scarce, and the holders of such were enabled to obtain a little stronger prices. As usual of late, good stockers and feeders were scarce and the few in received little attention. Butchers stock was not plenty and sold at steady prices. The sales were mostly of odds and ends, a few head picked up in a place

barely steady or easier. Tin-Operations have been small, and sgain at lower values; although the opening on Monday was at an advance of 5s, from which prices grew yet firmer in the afternoon to £90 15s cash, and £91 7s 6d forward. From this point, quotations again relapsed, losing 10s at each 'change on Tuesday, and 2s 6d@5s at each one the next day. There was, however, but little further actual decline yesterday, though values were a trifle softer, and to-day were lowered 2s 6c more at each lebance cash leaving off at 685 and three 'change, cash leaving off at £89 and three months' prompts at £80 10s.

Corren.—Is still dealt in to a moderate ex-tent, and prices fluctuate but little; improv-proving 5s on Monday to £41 5s and £41 for cash and forward prompts respectively, and standing thereat unaltered until Wednesday forenoon, when an advance of 5s was again established. No further change was noted yesterday, but another slight gain to day brought the cash price up to £41 12s 6d, with forward prompts selling at £41 5s.

Antimony—Having now reached the exceptionally high figure of £60 10s for Hallett's, has made no further advance this week, but on the other hand maintains this value as last quoted.

Spelter—Relapsing again slightly during the week, to £18 for ordinary heards of Si.
