During the time the Paxton building was undergoing construction only the lot upon which it is built was assessed. The same way in the case of the United States National bank property, the Camge property, the Commer-cial National bank property, and I could enumerate many other cases where build-ings have not been assessed while under-going construction, and there are cases where no assessment has been levied until the building was all but completed. Last year lots 7 and 8, in block 9 wave second at \$80,000 and a clariblock 3, were assessed at \$6,000, and a cleri-cal error made it \$60,000. For some unaccountable reason the error escaped the no-tice of the tax auditor of the Union Pacific as well, and the company paid taxes on a \$60,000 assessment. The lots in question have no improvements, aside from a switch house and switch tracks. The assessment this year was \$48,000, the opinion of the board being that the assessor adhered to the \$60,000 assessment and disregarded the actual value. PENNSYLVANIA IS OBDURATE.

The Appeal of the Chicago Committee in Vain.

CHICAGO, July 6 .- [Special Telegram to THE BEE.]-The Chicago committee of the Central Traffic association failed in the attempt this morning to induce the Pennsylvania to forego the reduction on wheat and corn rates. Every possible argument was brought to bear, but in vain. The Pennsylvania not only insisted on making the reduction, but extended the territory over which the reduced rates apply. The Baltimore & Ohio reduced wheat rates to Baltimore and Philadelphia to 17 and 18 cents respectively. The Pennsylvania not only meets these rates, but also reduces the New York rate proportionally to 20 cents. The reduction to 1236 cents to Pittsburg and Allegheny has already been noted. This extension of the reductions to new territory was carried out further by the Pennsylvania m applying the reduced rates to St. Louis and common territory. Energetic objection was made to this, but it availed nothing. The Pennsylvania took the bit between its teeth and was only with difficulty dissuaded from applying the reduced rate to all classes of grain and flour.

More than one official of the Central Traffic roads has expressed the belief that before July 15 the reduced rates will extend to all Central Traffic and trunk line points and include all flour, grain and perhaps provis-

ions. A report was circulated to-day and gained universal credance, that the Union Pacific would give notice of its withdrawal at next Wednesday's meeting from the Inter-State Commerce Railway association. Foundation was found for the report in the fact that the Union Pacific had joined in the fact that the Union Pacific had joined in the alleged reduction of passenger rates both ways between Chicago and Denver from \$30.65 to \$26. Said one of the members of the association when asked about the situa-

The corner stone of the president's associa-tion is the maintenance of rates. That is practically its only mission. President Adams, of the Union Pacific, was mainly instrumental in forming the association, and now he is one of the first to entirely ignore its purpose. To say the least he has placed himself in an extremely unfortunate position even if he intends to withdraw. His proper course would have been to give notice of withdrawal as

Discussing Rules at Bismarck.

BISMARCK, N. Dak., July9 .- | Special Telegram to THE BEE. |-The most of to-day in the constitutional convention was consumed in the discussion of the report of the committee on rules, action upon, which was finally postponed until Monday. Some excitement was caused by M. N. Johnson, the defeated Farmers' alliance candidate for the presidency of the convention, who introduced a resolution excluding Marshall McClure, editor of the Devil's Lake Capitol, from the

floor. McClure's provocation was an editorial in which he called Johnson a crank and accused his brother, who has been helping him fight his political battles, of being an anarchist. Johnson made a flery speech against McClure. The resolution was voted down by a large majority, and McClure declared eternal war on Johnson. It is rumored to-day that the dissatisfied republicans have entered into an agreement with the democrats to take the power of ap-poin ting committees from the president and naming them by a majority vote of the con-

vention. Several railroad representatives are already on the ground watching the movements of the convention with much inhard fight to protect their interests against radical farmer measures. The organization of the convention was completed to-day after an exciting session of balloting. The republicans captured every office, and the liquor men are beginning to appear and the prohibition question will soon begin to take shape. As an issue it is already evident that the \$20,000 appropriated by congress will not be sufficient to defray the expenses of the convention, and a call may be made for more. If this is net done

In 1866 five-eighths of the people owned their homes, and only three-eighths were the prey of landlordism, says the National Economist: In 1886 only three-eighths owned their own homes and five-eighths were reduced to the ranks of tenants. Since

that time the confiscation of homes by the money power has gone on at an increased ratio, and it cannot be a great while before the final result will be reached, and the en-tire industrial population become homeless and landless.

Two Men Killed in a Wreck Near Jamestown, N. Y.

JAMESTOWN, N. Y., July 6 .- Early this morning the east-bound passenger train on the New York. Pennsylvania & Ohio railroad and a freight train on the Erie near Kennedy collided. Both engines were completely demolished, the freight cars piled up, and the smoker of the passenger train was forced clear through the baggage car. Chas. Wentz, baggage master, were killed, and both firemen were injured. The only passenger hurt suffered a sprained ankle. The blame is said to be on the engineer of the freight, who should have waited at Kennedy for the passenger train.

A BIG GRAIN DEAL.

That is Why the B. & O. Cut Rates On Corn.

ST. LOUIS, July 6.-The Republic gives the following as the reason for the recent cut in corn rates by the Baltimore & Ohio road: "There has been some speculation as to the causes which induced the Baltimore & Ohio people to make the cut, and it is believed by some of the freight men, who have obtained their information from local representatives of their road throughout Kansas and Iowa and Nebraska, that a big deal in grain for export Neoraska, that a big deal in grain for export is being engineered by Gill & Fisher, of Bal-timore. Word comes from grain points throughout these states that buyers for this firm nave been busy for some weeks pur-chasing all the grain they could get and that the Baltimore & Ohio road had been taken into the schemes and now held been taken into the scheme; and now being ready to move the grain announced a tariff in accord-ance with the arrangements heretofore made."
