THE SPECULATIVE MARKETS.

Wheat Tries to Show Strength But a Break Occurs.

GOOD CASH DEMAND FOR CORN.

The Provision Pit Made Interesting By a Bear Raid on Pork—Cattle Business Slow From Start to Finish.

CHICAGO PRODUCE MARKETS.

CHICAGO, July 10.—[Special Telegram to THE BEE.]—Wheat market broke to-day. It opened up strong and advanced with a show of buoyancy. The improvement was only fractional, however, and the market hesitated and acted toppy at a slight advance. It then turned down and not once thereafter did it make a decided stand. It ruled heavy most of the session and closed weak around the inside figures of the day. Early cables were exceptionally strong, and domestic news relating to crops and business did not point to any important change. In the cash wheat market a degree of activity above the average was reported from all quarters, and the same was true in the flour trade. Minneapolis advised of at least one very heavy trade in flour on foreign account at a good advance, and local agents were immersed to their ears in negotiations. The trouble with the local speculative market seemed to be that there were too many long and a scarcity of alarmed shorts. The shorts have been the largest buyers for the past two days, and with the supplying of their wants and the non-appearance on a generous scale of the great outside public, the advance stopped. Had the public rallied to the support of the market, as it sometimes does, a further advance would have been extremely probable, but, under the circumstances, the professional element felt that they had reason to believe that for the present at least the boom was spent, and this morning when prices turned down, they were there to help the thing along. The result was a very active and a very weak market. An advance right at the beginning of the movement of the new winter wheat crop struck the crowd as being about all they had any right to expect, especially in view of the general belief that the government report as to the condition of spring wheat would not confirm the worst reports from the northwest. As usual, the advance tips as to the government estimates were in circulation. One that obtained the dignity of a hearing was that the condition of winter wheat would be given at 96c and spring at 87c. December opened at 82½c. It hitched up ½c on strong cables, but turned down very soon and declined steadily to 81¾c. A reaction put the price to 81¾c and another dip brought it down to 80¾c. During the last half hour it several times got to 81c and once or twice "split" above, but at the close the market again got weak and the final quotation was 80¾c, a net loss of 1⅝c as compared with yesterday. A moderately active trade was done in September, which opened at 80¾c, sold up to 81¾c, and worked down to 79½c, where it closed. The loss on the day was 1¾c. July was the firmest month on the list. It opened at 85c, for quite a time ranged at 84½@85c, and then broke in sympathy with the deferred deliveries to 83¾c, closing, however, at 83¾c. Only a light aggregate business was done in July.

The cash demand for corn was unabated and caused a firmness observable in the speculative branch of business also. The receipts are running light for this time of the year, and at the prevailing moderate price the consumption of American corn at home and abroad is enormous. The foreign markets were firm and the export demand was good. New York was very firm for July, and the demand for cash corn in that market appeared to equal the situation here. The clearances from Atlantic ports was small and the quantity on ocean passage for Great Britain and the continent of Europe increased during the week 880,000 bushels. Later the weakness in wheat sympathetically affected corn and caused some reaction in the end from the top prices of the day. Fluctuations were neither numerous nor marked. The range was, as usual in recent dealings, narrow, and trading was confined for a greater portion of the time to a very small gathering of the usual operators. Prices at the close did not materially differ from yesterday's final figures, being: July 36¼c, September 36½c and October 36¼c.

In oats a moderate trade was recorded on the regular market, with prices averaging a shade firmer. Receipts were only moderate and withdrawals from local stocks for shipment were increased to the liberal aggregate of 63,574, mostly No. 3 white. Sellers were not urgent, with some business noted in the way of changing August and September into May, the latter improving ⅛c to 25⅝c, with September at 22½@22¼c. Inquiry for car lots to go to store was light, with No. 2 quotable at 22¼c in the regular way.

Provisions were made somewhat interesting by a bear raid on pork. Cudahy, Baldwin and other traders of more or less importance inaugurated, shortly after the opening, a sharp hammering movement in the article named. Finding the market practically unprotected and the shorts even smaller buyers than usual on the weak turn, they took hold with vigor and in a short time sent pork down 32½@35c, with no rebound worth mentioning. Traders had it all their own way and carried their point without meeting with any opposition. Lard and shortribs, however, held up quite well under the circumstances, though the average for both showed a little decline from yesterday's level. Trading all around was only fair and without special feature. As might be expected, the drop in pork demoralized the outside holders, many of whom sold freely. Toward adjournment pork steadied up and recovered about 10c of the raiders' depression. It closed, however, with an actual decline of 17½@20c. Lard rested at the same prices as yesterday to only 2½c lower and short ribs 2½@5c off.

CHICAGO LIVE STOCK MARKET.

CHICAGO, July 10.—[Special Telegram to THE BEE.]—CATTLE.—Business was slow from the opening to the close in the native branch of the trade, some salesmen quoting a decline of 10c on everything except prime light and fancy steers. A slow market is always a shade lower. There were about 5,000 Texans in the run, the bulk of which sold about 10c lower, making a decline of nearly 25c for the week so far, while natives are only about 10 lower than at the close last Friday. Native butchers' stock has had to follow the down turn in Texans, especially common cows and canners. Nice heifers and prime fat cows are yet selling about the same as last week. Veal calves are in lighter supply than for some weeks past, hence are making better prices, especially natives. The stocker and feeder trade was unchanged. Choice to extra beeves, $4.00@4.25; medium to good steers, 1350 to 1500 lbs, $3.80@4.20; 1200 to 1350 lbs, $3.65@4.40; 950 to 1200 lbs, $3.40@3.80; stockers and feeders, $2.25@3.30; cows, bulls and mixed, $1.90@3.20; bulls, $2.40@2.75; slop-fed steers, $3.70@3.90; Texas steers, $2.50@3.30; cows, $1.90@2.40.

HOGS—Active, but prices a strong nickel lower than yesterday, the bulk of mixed going out at $4.35@4.40; a few fancy and butchers' weight at $4.42½@4.45; light sorts, $4.50@4.65.

FINANCIAL.

NEW YORK, July 10.—[Special Telegram to THE BEE.]—STOCKS—The action of the stock market early could not have been much improved if the Chicago meeting of presidents had already declared peace among the western lines. That this will be the result before they adjourn is almost a conviction among leading operators. It was current this morning that the Fairbank-Armour following has been taking St. Paul and Northwestern and an upward movement is looked for. Holders of trusts are unshaken by criticism and point to the fact that those who know the most about industrial shares are the principal investors. The more hopeful feeling over the western railroad situation, which made its appearance yesterday afternoon, was still prominent this morning, and resulted in higher figures for most of the list, though the weakness of the London market made some of the London favorites lower here, the most important being Lake Shore and Erie, which were ⅝ and ¼ per cent lower respectively. The gains in the remainder, however, extended to ¼ per cent. The demand for stocks continued through the early dealings and there was an active market, with a well distributed business, among the leading shares, resulting in further fractional advances. Chicago, Burlington & Quincy was the most conspicuous in this rise, and touched par with a gain of ⅝ per cent. Northwestern followed with ⅝, Atchison and St. Paul with ⅜ per cent, and others with smaller fraction. The market then reacted from the best figures and about half of the improvement was lost. The early buying of stocks was so well followed up and the market moved up so buoyantly that the shorts became alarmed and turned buyers, also helping the strength. Action in the grangers was the controlling one in the market. The best prices of the day were touched about noon, with special activity and strength in Burlington, Northwestern and St. Paul. Burlington, after touching par early, reacted to 99¼, went to 100¾ and closed strong at 1¼ per cent over last night at 100½. Northwestern also showed a net gain of 1¼ per cent. St. Paul was next with a gain of 1⅛ per cent. Other gains for the day ranged from ⅛ to 1 per cent, with a 2 per cent gain in sugar trusts. The total sales of stocks were 226,137 shares, including 38,000 of St. Paul, 27,000 Burlington and 16,000 Northwestern.

OMAHA LIVE STOCK.

Cattle.

Wednesday, July 10.

The market is in a very weak condition and beef steers showed a decline of 5@10c again to-day from yesterday's prices. The market was dull and dragging. Steers sold to-day largely at $3.60@3.75. Choice fat cows and heifers are scarce and are bringing steady prices. Thin grassy butcher stock is slow and weak at former quotations.

Hogs.

The hog market opened about steady, at which basis about one-third of the receipts were sold. The market weakened and the balance of the number sold 5c lower, nearly everything going at $4.10. The close was steady at the decline.
