Must Be Reconstructed.

B. B. Young and his company sang "Mr. Sampson of Omaha" to the Bostonians yesterday. Speaking about it Tom Karl said: "The music is very pretty and there are some bright lines in the libretto, but the whole thing would have to be reconstructed before we could use it. I must say for Mrs. Young that she has shown wonderful ability.

Young that she has shown wonderful ability. The love songs, the duets and choruses are beautiful, but the most important finales are very yeak."

Mr. McDonald expressed himself virtually in the same strain, adding: "For general use the opera would have to be entirely rewritten. It may do well enough for Omaha, but, in its present shape, would not be fit for the public."

Mr. Karl was very favorably impressed with some of the voices. He spoke particu-larly of Mrs. Cahn and Miss Bayliss, saying that their voices were extraordinarily good

I have used S. S. S. for debility resulting from chilis and fevor, and have found it to be the best tonic and appetizer that I ever took. It also prevented a return of the A.J. ANLIN, Eureka Springs, Ark.

CONFLICTING REPORTS.

A Switch Engine and Passenger Train Collide. Tuesday a passenger train on the Atliance

switch engine on the Union Pacific, at Grand Island, and a serious wreck resulted. According to the reports received at the Burlington headquarters from Superintendent Thompson, the train came to a stop and allowed a freight train on the Union Pacific to cross. The tracks at this point cross diag-onally. He states that the train was in charge of Conductor Rooney and Engineer Collier, and that after the freight train had cleared the crossing the engineer pulled out. A switch engine, No. 94, on the Union Pacific, in charge of Engineer Adam Johnson, came along, and aithough the the track was obalong, and although the the track was ob-structed by reason of the train not having yet cleared the crossing, the Union Pacific engineer dashed into the former train at a point between the smoker and the baggage car, derailing both cars and damaging the smoker so badly that it was rendered unfit

Engineer Johnson reported quite differ-ently to his company. He states that his engine was following the freight and that he signaled the Burlington trainmen so that they might so undersand. Owing to the clash occurring midway in the train, Superintendent Ressequie, of the Union Pacific, has ordered an investigation. No personal injuries resulted and the damage will not exceed

The Depot Plans. General Manager Kimbail of the Union Pacific, stated that the plans and proposition for the new union depot and viaduct to be submitted to the city council, had been finally agreed upon by both the Union Pacific and Burlington officials, and would be submitted to the council at its next session Tues-

Nebraska in the Lead. Arthur B. Smith, of the general passenger depatment of the Burlington, has returned from a trip to Cheyenne and western points. He states that Nebraska is leading everything from an agricultural standpoint, "Between Holdrege and Chevenne," said Mr. Smith, "where three years ago there were naught but sod houses, and but little agricultural improvements. I was surprised to see large and elegant farm houses, many of which would be a credit to a city, and fields of waying grain as far as the eye could reach. The change is simply marvelous."

It is reported that the Union Pacific is about to take steps toward the construction of a road from Portland to Alaska. General Manager Kimball, of the Union Pacific, stated that he knew nothing of any movement in that direction, and masmuch as the Union Pacific reached points on the Alaska coast with its own line of boats, he had reason to believe that the report was groundless. It is well known however, that the Union Pacific has given that section of the country considerable attention during the past six months. Also that President Adams, of the Union Pacific, will depart for Alaska as soon as he completes his business at the meeting of the railway presidents in Chicago. That a project of this kind will soon be brought to light is regarded a certainty in railroad circles.

Special Rates. The Trans-Missouri association, in session yesterday at Kansas City, established the following special rates: American Bankers' association at Kansas City, September 25 to 26, one and one-third fare for the round trip on the certificate plan, to apply within ail on the certificate plan, to apply within all points of the association territory. Woman's Christlan Temperance Union assembly at Norfolk, Neb., one and one-third fare for the round trip, certificate plan, from points within the state, September 28. Sioux City corn palace, one fare for the round trip within a radius of seventy-five miles of Sioux City; and on Monday, Wednesday and Friday of each week during the exhibition the fare will apply to points within a radius the fare will apply to points within a radius of 300 miles of Sioux City. The tickets to the Sieux City corn palace will be placed on sale September 27 to October 5, and will be limited to return to October 6.

Railroad Notes. A. E. Barney, for twenty years section foreman of the Union Pacific, and for a long time located at Duncan, on the Nebraska division, has been discharged. He allowed his hand car to be wrecked in some way, and for this he was suspended thirty days, but at the expiration of this time was informed of

Louis Webb, car repairer of the Union Pa-cific, has gone to Leadville to visit relations. General Manager Holdrege, of the Bur lington, has gove to Chicago to attend the meeting of the railway managers. I. O. A QUESTION OF HEALTH.

aid of baking powder, enter so largely into our daily food

that their debasement by the introduction of any inju-

rious or deteriorating substance is a matter of serious concern to the public health. What baking powder shall

we use to avoid the lime and alum now found in so many

leavening agents, and to insure pure, sweet and wholesome

bread, is a question, therefore, of direct importance to

ment chemists and the most prominent food analysts to be the only baking powder made that is entirely free from

lime, alum and other impurities, and absolutely pure. I

is made from cream of tartar refined for its exclusive us-

by patent processes by which the tartrate of lime is totally

eliminated. No other baking powder manufacturer uses

chemically pure cream of tartar, and hence the adulteration

of other brands. The "Royal" is, accordingly, the only

baking powder that will produce perfectly pure bread,

biscuit, cake, pastry, etc.; and these articles are now pro-

nounced more wholesome when raised by the Royal Baking

boking powder we shall use; and those who appreciate the

miseries of dyspepsia and other ailments that follow the

use of impure food will not hesitate to select the "Royal."

It is particularly a question of health, therefore, what

HIGH SCHOOL BOOKS.

They Cost as Much as Those of the Other Schools.

One of the questions that will demand the attention of the new board of education is that of furnishing free text books for the high school. Certain members of the board. in their desire for an economic administration, favor the establishment of a plan requiring the pupils of the high school to purchase their own text books. In this connec tion a statement of the number and cost of the books used in the high school department will be found interesting. During the past year there were 520 pupils enrolled. The city furnished for their use 4,765 text books, free of charge, the average cost of which is slightly in excess of \$1 per volume, or about \$5,000 for all. Of the total number in use 126 books were lost or destroyed and 443 are too old to be used another year. At this rate the life of the book is about ten years, the number of the book is about ten years, the num-ber of students remaining the same. The books in use in the high school are distribu-ted as follows: Nine text books and 732 volumes for the study of mathematics; ten text books and 771 volumes for the sciences; seven text books and 616 volumes for Latin; seven text books and 130 volumes for Greek; five text books and 423 volumes for German; five text books and 630 volumes for history; eleven text books and 877 volumes for literature, 355 rhetorics, fifty-four phonographers, 145 music books and fifty-eight maps and charts. The books range in price from forty-eight cents to \$3.20, the average being as above stated, a few cents more than a dollar per volume.

In the other schools of the city, the num ber of books for each pupil is less and the books are cheaper. It is estimated that out-side the high school there are about 9,000 books furnished in the various schoolsi the cost of which will not average more than 60 cents a volume or something more than \$5,000. The life of the books in the lower grades is of course much shorter than those of the books used in the high school and by

At this estimate which is based on the re ports of principals, the books furnished by the board of education cost something over \$10,000 and are kept replenished at an ex-pense of about \$1,000 per year, the high school books costing nearly as much as the books of all the other schools.

The Police and Fire Commission are to Punish Those Who Do Sell. The board of fire and police commissioners have started in to make it interesting for saon men who have sold or transferred their business since they received their licenses One of the commissioners interviewed on the subject, said: "The law forbids the transfer or sale of a license from one man to another A license is simply a commission. A notary public, under the law, cannot sell his comnission, nor can one saloon-keeper sell his

license to another. "The penalty? Well I'm not sure about that, but we can revoke the license, although both are equally to blame in the matter. The point is this. When a man is granted a license his character and qualifications are taken into account. He may sell out to an ir-responsible man and, if he fails to run the business according to law, the board cannot do anything with him, as he is simply an gent of the man who gets the license. the commission will take action in all cases where saloon men have transferred their
