THE SPECULATIVE MARKETS.

Wheat Starts the Week With a Stronger and Better Tone.

CORN DULL AND FEATURELESS.

The Provision Pit Undergoes a Slow and Lazy Day-The Hog and Cattle Business Active-General Quotations.

CHICAGO PRODUCE MARKETS. CHICAGO, July 15 .- [Special Telegram to THE BEE. |-The wheat market had a stroner and better tone to-day and values underwent some appreciation. In the first place the receipts of wheat at St. Louis and elsewhere where less than anticipated. St. Louis expected 300,000 bushels and got 143,000 bushels. The arrivals here amounted to 105 cars. Local shipments were 46,000 bushels, or, at most, as much as the receipts. Then it was argued that the general storms that have visited the winter wheat districts during the last forty-eight hours will cause a further delay in movements from farmers' hands. The weather indications are still threatening. In the second place the visible supply decreased more than has been figured on, the reduction amounting to 1,235,000 bushels. This brings the total down to 12,711, 139 bushels, against 22,418,393 bushels a year ago and 31,517,734 bushels two years go. The exports for last week proved to be 1,266,050 bushels in wheat and flour from Atlantic ports. Furthermore, cables, while for the most part quoting the old world markets as weak, produced the impression that foreigners are merely pausing to see how far raiders on this side can depress values. Some new business was reported in New York, and Baker quoted a sale of eight boat loads for direct export from Chicago to Giascow and another to a United Kingdom port at an advance over Saturday's closing price. A letter from Mannheim, Germany, received by Irwin, Green & Co., indicates a well settled belief in that locality that on account of the deficiency in the Russian and Hungarian wheat and rye crops, Germany will want considerable quantities of American grain from this year's crop. Altogether, the foreign situation, viewed in a broad way, can not be said to be encouraging to American holders of wheat. On the other hand, reports from the winter wheat countries, particularly the

southwest, and that district south of the

Ohio & Mississippi road, are of the most en-

couraging kind. The crop is turning out

finely as to quantity and quality. Some

stories of remarkable yield are told in good

faith. Ewald, of St. Louis, was on 'change

this morning with a story about a 400-acre

tract in Missouri that averaged 50 bushels to

the acre. Around Belle Plaine, Kan., the returns show an average of 20 and 25 bushels

and every mail brings advices of a satisfactory harvest record. But still the big move-

ment is late in getting started. The forego

ing summary embraces the main influences that were at work to-day. The local scain-ing crowd and their outside brethren came

down to business very bearish. The market nevertheless opened higher, with July

quoted at 77c, August at 75%c, September at 76%c and December at 78%c. December, the most popular future, fluctuated for an hour

most popular future, fluctuated for an hour or more between 78%c high and 77%c low, touching the latter point only once. The market looked weak around 78c, and Linn, Hutchinson and other professionals sold freely at that figure. The market proved to be oversold, however, and on the first sign of a failure to break prices it started up with a jerk. December sailed to 87%c, which hours was the top, though it was touched no

point was the top, though it was touched no less than three times. From 78%c it worked back to 78c again during the last half hour. On the up-turn September went from 76c 20 78%c, and July from 77c to 78c. The closings were as follows: July 77%c; August 78%c. September 78%c. 75%c, September 76%c; December 78%c. This shows a small but healthy recovery from Saturday's last figures. The volume of trade was just fair and the market free from especial excitement. Corn was dull and featureless. There was Corn was dull and featureless. There was nothing in the situation differing materially from its condition at the close of the past week except the heavy rain which fell in the interval, which rather favored firmness, as an excess of moisture has already been the principal drawback to a successful cultivation of the plant. The visible supply, again showing a decrease, was favorably regarded by holders, and the firmness of wheat also lent some sympathetic force to corn. The stocks in sight are now 8,943,829 busiels, which is a decrease for the week of 149,619 bushels. Local stocks, however, have increased 317,830 bushels, amounting here now or used 317,830 bushels, amounting here now to 2,214,372 bushels. The changes from Sat-urday's closing prices were not very marked. July gained 14c and September 1-16c, while

The final quotations were: July, 35140; September, 35% @35140; October, 35% @35140; May, 37%c. Vessels were chartered here for 278,000 bushels. Oats attracted fair attention on the regular market, averaging fully steady, with liberal inquiry for May at figures around 25%c. The big decrease in the visible supply for the week of 618,164 bushels exerted little or no influence on the market, as local stocks were reduced but 17,500 bushels during that time. September sold early well at \$114,0214Cc and after ovening from at 2214. stocks were reduced but 17,000 busness dur-ing that time. September sold early well at 21½@21½c, and after opening firm at 22½c. July went to 22½@22½c, a receiving house being a heavy seller, probably for early de-livery. No. 2 oats to go to store were weak

at 22½(@22½c.

Provisions were slow. In the language of an old trader, it was a "lazy day." Cash buyers took hold only moderately for this season, and, in a speculative way, there was a "lazy day." In occasion any comment. The average of prices, however, was a little higher than that of Saturday. The hog receipts were under expectations and that, in con-nection with an indifference upon the part of the bears to indulge in their favorite pasthe bears to include in their favorite pas-time of hammering, strengthened the mar-ket, hence the closing showed a net advance for the day of 5c for pork, 7½c for lard and 2½ @5c for short ribs. Lard sold for mmediate delivery at \$6.30@6.32½ and 16-ib. green hams at 8½c. The sales of cash cured meats reported were all made on pri-vate terms. Speculative interest was con-fined mainly to September, which sold at \$11.30@11.50 for pork, \$6.37½@6.45 for lard and \$5.72½@5.80 for short ribs. Short ribs and lard for the same month closed at the best prices guoted and pork at \$11.40. Aubest prices quoted and pork at \$11.40. August ranged about 5c under September in pork, 16c in lard and 5c in short ribs. Next winter's deliveries commanded less attention than last week. Pork for January sold at \$10.03% and lard for the same month at \$6.05.

CHICAGO LIVE STOCK MARKET.

CHICAGO, July 15 .- [Special Telegram to THE BEE. |- CATTLE. - Estimated receipts 13,000; last Monday, 12,656. The demand was active for anything that suited the shipping and export trade, with prime handy steers selling at an advance of 10c, and about everything sold at an early hour. On the other hand, medium and fair natives, or such as had to compete with Texans, ruled slow and neglected. Native butcher stock sold lower for common and canners, and about the same as last week. The stocker and feeder trade ruled more than ordinarily dull with feeders almost unsaleable, except at rumously low prices. Texans ruled a shade lower, and were 25@40c lower than a week ago. The first consignment of Montana rangers, consisting of nine cars of stock and six cars of cows, arrived to-day. Choice to extra beeves, \$4.00@4.35; medium to good steers, 1350 to 1500 lbs, \$3.80@4.25; 1200 to 1350 lbs, \$3.60@4.15; 950 to 1200 lbs, \$3.40@3.90; stockers and feeders, \$2.25@3.90;

\$3.40@3.00; stockers and feeders, \$2.25@3.20; cows, bulks and mixed, \$1.50@3.20; bulk, \$2.40@2.75; slop-fed steers, \$3.70@4.20; Texas steers, \$2.40@3.30; cows, \$2.00@2.40; western rangers, \$3.60@4.20.

Hogs-Estimated receipts, 15,000; last Monday, 17,611. Business was active all along the line, with an upturn of a strong 5c on the best heavy, and about everything sold at the close. There was a scramble for light sorts, and the same being scarce, prices went skyward, but at the same time irregu-

lar and uncertain, ranging between \$4.50 and \$4.75, with a rumored sale of singe sort at \$4.80. Light mixedsold freely at \$4.60@ 4.65.

FINANCIAL.

NEW YORK, July 15 .- Special Telegram

to THE BEE. !- STOCKS-The feeling among the trade after the close was of a hopeful, bullish character and gave that tone to advices sent out by many leading commission houses. There was no disappointment, therefore, when the market opened firm and buoyant, with first figures 3 @36 per cent higher, with one or two exceptional gains of nearly I per cent. The opening was helped by London sending higher figures. The strength in Gould properties and Vanderbilt lines was noticeable. The trading toward the end of the bour was not as brisk as early, and after slight gains from first figures the prices of all actine stocks declined small fractions, but still held a good fraction over the close of last week, There was some animation among trusts, but the business done, except in Lead, was not large. Lead opened up 1/4 better at 25 1/4 and advanced to 26%, but reacted 1 per cent. Cotton Oil opened up 1/4 better at 551/4, and Sugar 11/4 at 112, but neither made any movement. In the hour to 12 o'clock there was a return of the early strength and railroad stocks and trusts moved up good fractions, the former under the lead of Burlington 1001/4 to 1011/4 and the latter, Chicago Gas, 571/4 to 581/6. Rock Island went to 851/4 and Missouri Pacific showed 11/4 net gain at 701/4. At noon the market was duli, but at the best prices of the day. Some of the best prices were touched after 12 o'clock, when Lake Shore was held at 102, New England at 5114, Northern Pacific preferred at 65%, Lackawanna at 146%, Chicago Gas at 59 and Lead trusts at 26%. Later hours brought heavy realizing sales and prices declined throughout the entire list. Before the close the last prices were slightly irregular and little different from those of Saturday, most of the morning advance being lost. The closing prices were: Jersey Central, ex-dividend, 1173; Louisville, 60%; Lake Shore, 101%; New England, 551/6; Northern Pacific, preferred, 64%; Atchison, 38%; Burlington, 100%; Northwestern, 1003/; Rock Island 841/4; St. Paul, 601/4; Missouri Pacific, 49%; Union Pacific, 58%; Chicago Gas trust, 58; Sugar trust, 112; Lead trust,

Cattle. Monday, July 15.

The market on beef and shipping steers took a turn for the better this morning, and trading for the first time in many days was quite active. The tone of the general marthe twist stronger and handy beeves were picked up readily. Two loads of fine heavy native steers sold at \$3.92%. The market on butchers' cattle was no better, if as good, as on Saturday. There was an over-supply of thin grassy stock, and as a result prices are wask and lower.

Owing to the very light receipts the hog market ruled active and 5@10c higher to-day, and a full clearance was made early, with the market closing steady at the ad-

There were about 700 head, mostly west-erns, here. A bunch of Colorado westerns, averaging upwards of 100 lbs per head, brought \$3.8736. The market is quoted

Live Stock Notes.

Hog market higher. Very light receipts of hogs. Cattle market firm on handy stock. Thin, grassy stock in abundant supply and Inspector Howark killed three lumpy-jaws

to-day. Shippers are cautioned not to send these cattle here. Al Dexter and Smith & Maher, of Blair, marketed hogs this morning. J. B. Neff, of York, was here with cattle. James Martin, the commission man, was at

Lincoln yesterday.

R. Gilchrest, of Gilchrest & Hanna, re turned from Red Oak, Ia., this morning. Jack Forrest, bookkeeper for Clay, Robinson & Co., is at Grand Haven, Mich., spending his vacation. Stuart Brown, of Chicago, is doing Jack's work during the former's ab-

J. S. Irnan, a prominent shipper located at Osceola, was in with two cars of cattle. W. C. Swartz, Silver City, Iowa's well known dealer, was here with four cars of

cattle. A. W. Trumbull came in from Gilmore with a shipment of hogs.

T. W. Dean, of Arcadia, was here with two R. G. Carr, an Arcadia dealer, was in with two loads of cattle.

G. W. Mitchell, of the firm of Mitchell & Powers, Henderson, was here to-day with a car each of hogs and cattle. Mr. Mitchell enters a vigorous protest concerning the practice of commission men in wiring farmers, who have only a small amount of stock to market, as it works to the disadvantage of the regular shipper. Andy Finnesay, with Nels Morris, Chi-

cago, was looking over the yards to-day. Ira Johnson, of the Kearney Horse com-pany, and A. L. Jamison, of Wapello, Ia., were at the yards with nine loads of Idaho horses, which they were taking to Mr. Jamison's home, he having purchased six car loads of the lot. Russell Gates, of the Gates Live Stock

company, Ravenna, was on the market with ten cars of corn-fed western steers that sold here. Mr. Gates tried other markets, but found he could do better here. E. H. Shaw, of the firm of Duyer & Shaw Ravenna, was here with a shipment of hors W. N. Richardson, of Red Cloud, was here with three cars of cattle. Mr. Richardson is one of the largest shippers in the state and has shipped all his cattle to this market in preference to all others.

There are two brick and three frame buildings with sixteen rooms. Superintendent A. A. Munroe reports 1,459 pupils, 731 males and 728 females; 704 being between eight and fourteen years of age. Of these 426 attend school. In the primary department 782 are enrolled, 298 in the intermediate, 83 in the grammar and nine in the high school, being a total of 1,172, of whom 583 are male and 590 females. There were fifteen teachers last year averaging forty are male and 590 females. There were fif-teen teachers last year averaging forty pupils each, and an average daily attendance of 590. The superintendent receives \$1,200 per year, and the salaries of teachers run from \$35 to \$65 per month, the average being \$49. Superintendent Munroe has been re-elected for next year and his salary fixed at \$1,200, and seventeen teachers have been elected and two more at least will be for the coming school year.

North Star Scandinavian Society. The North Star Scandinavian society met Saturday evening in knights of labor hall and elected the following officers for the ensuing term of six months. President, Nels A. Lundgren; vice president, Edward Soderberg: secretary, Adolph

Anderson; financial secretary, Charles Karlquist; treasurer, J. A. Nelson; inside squire, Charles Borggren; outside squire, John Anderson; trustee, Andrew Stroud. Advice to Mothers. Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens

KENT'S RED TAPE.

Two Day's Will Elapse Before He Can Repair Flood Damages. Major Balcombe, chairman of the board of public works, was abroad early and had a force of men at work repairing the break at

the corner of Parnam and Tenth streets, A question has arisen as to where the responsibility rests for the repairing of such breaks as those made by the storm of Saturday night. Mr. Balcombe, speaking of this phase of

the situation, said that the board of public works controlled only the streets that are payed, and upon these he already had s force of men employed making repairs Street Commissioner Kent, he said, had om Street Commissioner Kent, he said, had om-nipotent jurisdiction over the unpaved thor-oughfares, and positively refused to act upon any suggestions he might make unless they were first ordered by the council and approved by the mayor. When the board of public works make any repairs, such as it is now making at the corner of Farnam and Tenth streets, it does so entirely at its own risk and under the supposition at its own risk and under the supposition that the council will approve of the expendi

ture.

Nothing was done for the relief the people affected by the storm, simply on account of the provision of the charter which makes the street commissioner independent of the board of public works.

Speaking of the necessity of a larger sewer on Thirteenth street, Major Balcombe said that, in his opinion, the proper way to drain that territory would be by laying sixteen-inch sewers on Eleventh and Twelfth streets. This, he thought, would be more effectual than enlarging the sewer in Thirteenth street. The cost would be about \$2 a foot for each sewer. Some im provement, he thinks, should be made at

Major Fury, of the board, was also seen.
"We tried," said he, "to correct the present condition of affairs at the last meeting of the legislature, but were defeated by the council. The street commissioner should certainly be under the control of the board of public works, and what object can be obtained in making him an independent officer, I cannot see. The board of public works now has no power to relieve the people, and, upon my word, I sometimes wish to heaven I was not a member of that organization. In Chicago, the gentleman who represents the board is authorized to expend \$1,000 in a case of emergency, without the consent of the council, but here if he authorize the ex penditure of a dollar the action is questioned Major Balcombe gives the city a bond of \$25,000 and Mr. Kierstad and I each give bonds of \$10,000, and considering this fact, why shouldn't the council authorize us to spend, say \$200 in case of an emergency!" The members of the board were unable to

estimate the damage done by the storm.
"It is a reprehensible system," said
another official. "All day Sunday and Sunday hight there were washouts in which human lives could have been lost, and yet neither street commissioner nor any other officer raises a hand to protect the people from losing their lives by falling into

An Absolute Cure. The ORIGINAL ABIETINE OINTMENT is only put up in large two-ounce tin boxes, and is an absolute cure for old sores, burns, wounds, chapped hands, and all skin erup, tions.
