#### CHICAGO PRODUCE MARKETS.

CHICAGO, July 16 .- [Special Telegram to THE BEE.]-The sensation in the wheat market to-day was a special cablegram published this morning in New York and in the Chicago Times, giving the main points in the crop and market article in the London Times. The salient features of the articles were statements that the latest advices from Bombay show that India will have little or no wheat for shipmont; that Russia, Australia, Roumania and eastern Germany will not raise more than enough to feed themselves; that western Europe and the United Kingdom will raise 50,000,000 bushels more than last year; and that the Odessa graineries are almost empty, etc. The article concludes with the statement that the great importing countries of Europe will be more at the mercy of America this year than usual. During the morning a variety of attempts were made to break the force of this summary of the situation, but the conciusions were nearly in accord with the ideas of the best informed members-that no serious impression was made in the discrediting. The news of the next greatest importance was the further disappointment in receipts of wheat here and at all southwest ern points. Rainy we ather in the Ohio valley, Kansas and Missouri may account for this in a great measure, but it is none the less certain that the bears are greatly disgruntled over none of the realization of their high hopes, based on the belief that there was surely going to be a huge early movement. Wheat was grown and will come into sight some time, but the bears are losing the moral effect of the big early movement counted on with such confidence. The market was weak and lower "in offices" yesterday, but this morning opened 1/6/1/c day, but this morning opened 4(6)/16 up, with July quoted at 77%c. September at 76%c, and December at 78%c. December advanced to 79%c and September to 77%c. July, too, showed its horns and advanced to 78%c, and then, on a second spurt, to 79%c. The big break in July had its effect in discovered to the second spurt of 10%c. once more displayed nerve. July wheat was a scarce article to-day. This may be due in part to the demand for cash wheat, which was quite urgent at times, and a reduction in the estimated arrivals for to-morrow from the results of the second 140 to 90 cars also had its effect. The cash wheat situation may be quoted as strong everywhere to-day. December wheat reeverywhere to-day. December wheat re-acted from 79½ to 7834c, but the market re-covered later and the ground lost was all regained, though it was not entirely held. The last quotations on the wheat list were as follows: July, 79%c; August, 76%c; September, 77c; December, 78%@79. These prices mark a general advance as compared with systerday, ranging from %c on the long futures to 24c for July. The volume of trade was large in the aggregate, A gratifying increase in outside orders was re-ported by commission merchants and trade seems to be "limbering up" somewhat. Local professionals seem to be about evenly divided as to the merits of wheat, though the market acts as though it might be still considerably oversold. Local engagements of lake freignt room for 80,000 bushels are reported to-day. St. Louis received 83,000 bushels to-day. Foreigners were liberal buyers here and at New York to-day, and yet, singular to relate, kept plugging this market with bear dispatches up to the very

There was a general disposition to sell corn in view of the heavy outside movement from here and the ready man ner in which all offerings in cash corn are absorbed. The late rains have likewise retarded the growth, although the prospect at present presented by the growing crop is encouraging for a good yield in the absence of further accident. The unward tindency of the wheat market encouraged the ouls in corn, and the price in the end was established at a 40 advance over yesterday's closing figures. July rested at 35%c, and September at 35%@35%c.
Outs averaged firmer on the regular market, though at no time was there any special

activity, and the unimportant improvement was chiefly on account of fair outside buying orders and no pressure to sell. The strength in wheat and corn exerted a slight unfluence on oats. Trade centered in September and May, with the former at 213@22c. May touched 223c, or %c advance, but the strength was not sustained. For July 224c was bid, with a trade or two finally at 22% c. No. 2 regular sold at 22% to arrive. The re-ceipts were large and withdrawals increased

to 73,000 bushels.

In provisions the bear side had the call. The feeling was weak, and for property of all kinds prices were considerably lower. Trading, however, was narrow and without special features. Hogs were easier, but they failed to stimulate business in any direction. Operators were conservatively inclined and indisposed to do much more than an occa-sional scalp. The leaders showed decided indifference toward the market, and from outside sources the demand was compara-tively insignificant, orders of all descrip-tions being under an average in number. In tions being under an average in number. In pork the day's actual decline amounted to 17½ (20c, in short ribs to 10@12½ cand in lard to 7½c. Lard was relatively stronger than either of its companion articles, selling for shipment to the extent of 2,550 tierces at \$6.32½ (20.35. The demand for cash meats was only moderate and the few sales reported were made on private terms. For 16-pound green hams 8½c was the public asking price. The favorite future delivery was again September, which sold at \$11.20(21.45) for pork, \$6.37½ (20.6.2½) for lard, and \$5.67½ (25.80) for short ribs. Pork for September closed at \$11.22½, lard at \$6.37½, and short ribs at \$5.67½ bid. August ranged 7½c under September for pork, 10c for lard, and 5.27½c for short ribs. The product for next winter's delivery was quiet. ter's delivery was quiet.

# CHICAGO LIVE STOCK MARKET.

Cmicago, July 16 .- [Special Telegram to THE BEE. |- CATTLE.-Estimated receipts, 11, 00; last Tuesday, 9,214; week so far. 23,091; same time last week, 21,780. The recelpts were divided into about 6,000 natives and 5,000 Texans. The market was about the same as yesterday, suitable natives selling strong, with commor and medium slow and neglected. What is intended to convey to the distant reader is that natives that are no better and perhaps not equal to good Texans were not wanted to-day. Buyers passed them by or else made bids so that salesmen could not entertain them. The run of Texans keeps up at a rushing clip-4,000 yesterday and 5,000 to-day-9,000 in two days, and, as a consequence, prices have fallen like the mercury under a northern blizzard, sales showing another decline of 10c, making a decrease of 30@50c in the past eight or ten days. This unsatisfactory condition of the Texas trade has a depressing effect on all classes of low grade natives, more especially on butchers' stock, which has had to follow the down turn in Texans, canning cows and other rough stock selling at about as low a price as rough stock selling at about as low a price as at any low obb, scarcely sufficient business going on to make a market. Good feeders are not making much over \$2.50. Choice to extra beeves, \$4.00@4.35; medium to good steers, 1350 to 1500 lbs, \$3.80@4.15; 1200 to 1850 lbs, \$3.70@4.50; 950 to 1200 lbs, \$3.50@3.10; stockers and feeders, \$2.25@4.00; cows, bulls and mixed, \$1.50@3.10; bulk, \$2.15; Texans closing 10@15c lower.

stock market to-day was about in keeping with the apathy and conflicting views which abounded in stock circles last night. A certain element charged the weakness before the close yesterday to Cammack's manipulations. The bulls were relying on the great crops to be moved, and the bears pointed to the indifference of the public and the fact that too many lines had to share the business in sight. There is contention over Chicago's attitude, the bears contending that western traders changed from last Friday. Commission houses are not decisive and play for quick turns. Trusts are supported by inside parties. In railroad stocks conservative houses claim that the short interest of last week is still out and liable to help on the first good upturn. The activity this morning was confined to a few stocks, including St. Paul, Atchison and Northern Pacific preferred, followed by the other grangers and coal stocks. First prices were irregular and generally within 16 per cent of last night. There were some fair advances before the end of the hour. Northern Pacific preferred was 11/4 per cent up from the opening to 65%, Missouri Pacific % over last night to 70%. and Chicago gas up 1 point to 59. The market held firm at 11 a. m. at the best prices. The stock market reached its best point bafore mid-day and there was a slow decline to the close, leaving prices about steady for grangers, with C., C., C. & f. up 2 points to 72 and Northern Pacific common and preferred strong and higher on talk of a dividend on the latter. Lake Shore touched 10214. It was an unimportant day and leaves the market in condition for a sharp turn either way on important developments. The total sales were light-120,678 shares.

three months prompts.

Copper—Although fluctuations are still narrow, G. M. C.'s are quite irregular on the unsatisfactory news from America. The sharpest decline was noted on Monday forenoon, when cash bars opened 10s down a £41 7s 61 and forward at £40 15s, cash stif feeling later in the day, but going off again at next day's early change, and closing at £41 5s. Three months continued to rule on this and the two following days at £40 15s, but £41 was touched for eash early on Wednesday, from which there was an improvement to £41 5s in the late dealings afternoon, but to-day prices have graduall softened again and close at £41 cash, £40 to

foward. ANTIMONY-Has been advancing from £62 to £65 for Hallett's during the week and is now firm at the latter figure. SPELTER—Improved still further this week to £195s for ordinary brands of Silesian. LEAD-Shows no change from the old figure of £12 7s 6d for soft Spanish pigs, as

reported a week ago. English Pig Inon-Stood at 39s, the same as last Friday, until Wednesday of this week, when an advance of 3d was reported, a further advance of the same amount to day bringing the closing price to BESSEMER Pig-Continues to be quoted
