Omaha

Discovery of Elixir of Life.

The medical world is excited by the statement of Dr. Brown-Sequard, the great French specialist in nervous diseases who declared before the Biologi-cal society of Paris, of which he is the president, that after twenty years of experimenting he had discovered a true elixir of life, a substance that would rejuvenate the old and make strong the feeble, says the New York World. He contended that if the living cells of a young and vigorous being could be in-jected into another where the vital spark was low his organism must vibrate in unison with the fresh life. Many years ago the doctor advanced views of the same character in a lecture before the medical faculty of Paris, and has since been engaged in experimenting on the subject of treating old and wornout animals. Finally, as he states, he reached such perfection that he tried his elixir upon himself with

startling results. The doctor is now seventy-two years old, and presumably is subject to the weaknesses and infirmities of age. His revitalizing substance, he explained, was derived from certain organs or glands taken, still quivering, from live animals and reduced at once to a pulp in a mortar with distilled water. From this compound he extracts an essence which he uses as a hypodermic injec-

tion. The doctor administered to himself a cubic centimetre with a hpyodermia syringe, just as morphine is injected. He declares that the day following this experiment, after two injections of this vital essence, he folt himself trans-formed. Up to that time half an hour's work standing up in his laboratory ex-hausted him. Now he declares he can study three hours uninterruptedly with-ous the least repose. His appetite is increased, his sleep is sweet and refreshing, his stomach performs its func-tions admirably, and his inteflectual labor is performed with wonderful case and clearness. His feelings also have been youthful. Dr. Brown-Sequard declared that the dose he took was equiv-

alent to ten years' rejuvenation. Medical men in New York are skenti-cal about the doctor's alleged discovery, and smile incredulously when asked what they think of it. While they ad-mit that all things are possible, they are far from ready to give oredence to the story as it comes from France, or to accept the statement without further

proof than has as yet come to hand. Dr. Edward F. Spitzka, himself a specialist in nervous diseases, said last night that he could not believe the great French doctor had yet descended to mere nerve quackery, though the

announcement sounded strangely like it. "Dr. Brown Sequard is a wonderful man," he continued, "and it is possible that he has made some discovery that will be useful to science and the world."

"It is certain that changes occur in animal tissue at the moment of death that are of a subtle, chemical character, and are accompanied by the formation of chemical bodies which, undoubtedly, would have a powerful effect on the nervous system of another person if introduced into his circulation. Certain emotional conditions produce changes in the secretions. Auger, for instance, produces such a change in the saliva as to render it venomous.

Dr. A. J. Meuer was as incredulous as the others, but admitted the story was an interesting one.

10:35 "We are as anxious in this nineteenth century," he said, "to find the Fountain of Youth, or its substitute, as ever Ponce 11:27 P. M. 12:27 1:21 2:27 2:27 3:35 de Leon was. I am not one of those who believe there is any special virtue in a quivering gland. It will be a great day for the world when the wonderful pana-4:35 cea comes that will do away with so many human ills, only I fear new troubles will come to take the place of the old." 5:35

Dr. Landon Carter Gray was skeptical as to the discovery and feit more like laughing at the story than accepting it seriously just yet. Though he was ready to be convinced, he would not be inter-viewed on what he thought might be merely a piece of French nonsense.

"When Ayer's Sarsaparilla was rec-ommended to me for catarrh, I was in-clined to doubt its efficacy. Having tried so many remedies, with little ben-efit, I had no faith that anything would efit, I had no faith that anything would cure me. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and re-ferred me to persons whom it had cured of catarrh.
