A Slight Blaze.

A quantity of bedding and clothes in a closet of the house at 3622 Davenport street caught fire in some unknown way yesterday afternoon about 4 o'clock. The fire destroyed the scene in a few moments, and after throwing a little water to deaden the flames, pitched the burning material out of the window. The damage was slight, amounting to \$10 or \$15.

The Calhoun Picnic.

The plumbers, plasterers and bricklayers held a union picnic at Calhoun yesterday. Between 500 and 600 persons were present. Baseball, wrestling, foot racing and dancing were the features. The baseball game was decided in favor of the home team, the heating plumbers by a score of 5 to 4 in five innings. Appropriate prizes were given to the victors in the various competitions. The A. O. H. band supplied the music and at one note the band stopped. The music was a benefit for the heating plumbers, and netted them \$2,000. Aside from the picnic, Calhoun presented many points of interest, some of a historic character, which will be treated at length in THE BEE next Sunday.

REV. SCHNUR'S RESIGNATION.

The Matter Privately Considered by the Church Directors.

The little church at the corner of Twenty-first and Burdette streets presided over by Rev Schnur, was not overcrowded last night at the regular service. In fact, there were plenty of room for many more. The pastor announced the subject of his sermon as "Heavenly Joy," and took for his text the seventeenth verse of the fifteenth chapter of St. Luke. It was painfully evident that he was laboring under great excitement. He was nervous and fidgety and often hesitated and repeated his words. No reference was made in his remarks to the situation in which he has become involved. He laid particular stress upon the portion of his text, "There is more rejoicing in heaven over the one sinner who repents," and stated that many things which appear great here are regarded as insignificant in heaven, and that which appears important here is noticed in heaven. He also advanced the theory that character without love is dead, and stated that "If we are to be worth anything in this final life, we must see that we are not dead, except in the spirit." That only will the church and religion succeed. Let us so live that saints will rejoice over our actions."

Mr. Z. C. Heald, one of the board of directors of the church, who seen the services and asked what truth there was in the report that Mr. Schnur had been asked to resign. He stated rather reluctantly that the matter had been considered privately by the church directors, but that it had been taken on its merits. One of the members had given the minister warning of the impending action. On being pressed for the reason for this action by the directors, he admitted that it was on account of the objectionable manner in which the minister had conducted his joys and sorrows. He could give no definite objection, but stated that it was on social grounds—that the young lady did not suit him of some of the congenital defects. He also said that Mr. Schnur had sent his resignation of the pastorate of this church to the board of missions about three months ago.

The Second Heart Academy, for day pupils, situated on 11th and Mayne, and Twenty-seventh streets, is an institution devoted to the moral and intellectual education of young girls. The course includes everything from a preparatory department to a finished classical education. Besides the ordinary academical course, music, painting, drawing and the languages are taught. French is included in the ordinary course.

Difference of religion is no obstacle to the admission of pupils, provided they conform to the general regulation of the school. The scholastic term begins the first Tuesday of September. Classes commence at 9 a.m., and are dismissed at 3:30 p.m., an hour for recreation being allowed at noon.

THE MOTOR MOTES.

Everything Apparently Working to the Best of Satisfaction.

The people of Omaha yesterday received ocular proof that the motor railway was an assured fact. On Saturday a single motor car made a flying trip over the tracks, but yesterday a full train was run out about 3:30 p.m. and made a trip from the power house, out on Burt and Cuming streets to Walnut Hill, thence back down town, around the loop on Fourteenth and Howard streets, and back to Walnut Hill, afterward returning to the power house. The trip was closely contested and afforded much sport to the interested by-standers. The following are the members of the clubs:

SHOT AT THE DRIVER.

Two Men Attempt to Hold Up a Saunders Street Car.

As a horse car on the Saunders and Twentieth street line was coming down town about 11 o'clock last night, a man came into the car from the rear and asked the driver for some change. There were no passengers on the car at the time. The driver handed the man his change and at the same time he was accosted by another man, who jumped up at the front end of the car and demanded the money box. The driver declined to surrender his box, and at the same time picked up a hammer and struck at the robber. One of the men drew a revolver and fired at the driver, but fortunately missed him. They both fled before any assistance arrived.

The driver's name is Jack Grill. Great excitement prevailed over the affair, and the entire neighborhood turned out to help look for the robbers.

What Brandreth's Pills Do.

In BRANDRETH'S PILLS the true life medicine has been found, composed as they are of numerous vegetables so combined that each multiplies the virtues of the rest. They never can do any harm. Their action is always the same, no matter how long or in what doses they are taken. They cleanse the body, purify the blood, strengthen the system, renew the animal vigor and arrest the process of decay. They purify the blood. They stimulate the liver. They invigorate digestion. They open the pores. They make the bowels do the work of the kidneys, thus giving those organs an oft-times needed rest. One or two at night for a week will demonstrate their power and is generally sufficient to cure ordinary diseases.

SCIENCE OF CHRISTIANITY.

Bishop Newman's Sermon at the First Methodist Church.

Bishop Newman preached to a very large congregation at the First Methodist church yesterday morning. His sermon, devoted to the science of Christianity, was profoundly interesting, and one of the most elegant ever heard in Omaha. In substance, he maintained that from the beginning all great events for good, all wonderful discoveries, all revolutions are the result of God's superintending power, through the instrumentality of man and woman. John G. Calhoun did more than any other man, he said, to bring about the late civil war and leave our generation a fragment. At the beginning of that trouble it appeared that Calhoun was ready to crumble and fall, and the loyal people, in their fear and agony, cried out for a leader. God heard their prayers and was secretly at work. Away off in the west, on a broad prairie, he said, he discovered the man whose principles would lead the people to victory. Abraham Lincoln, he said, was consecrated to the cause of the Almighty.

For the last two hours he kept saying, "I have met a man who will not be beaten, a whispering gallery, but not until a Christian Morse came and heard the spirit was its voice headed. The carbon which nations trampled underfoot had a spirit that kept saying, 'I can take your night into day, I can make you appear, but you will be beaten.'"

SOUTH OMAHA NEWS.

Toughs at a Dance.

About midnight Saturday night a gang of roughs, who were at the dance at the St. Charles hotel, raised a row and practiced their "manly art" on some women. Mrs. Anna Hess was struck on the cheek and knocked down, getting up with a terrible black eye, while Mrs. C. Bechtel was struck and kicked. One of the roughs named Burke was arrested and the police have obtained the names of the others and are ready to arrest them as soon as warrants can be issued. In the melee Con Hourigan received a battering blow.

SUNDAY BASE BALL.

The Blue Stars, of Omaha, came down Sunday and defeated the Swifts by a score of 25 to 18. Immediately after the Blue Stars-Swifts game the Wood Laws, of Omaha, and the Sabotokers played, resulting in a score of 19 to 2, in favor of the Sabotokers. At the close of the game a genuine ball ward was started, in which base ball bats were used as freely as the unlimbered profanity. No serious damage was done.

Bells in a Church Bell.

The sexton of the chapel at Budd's Lake N. Y. was badly stung by bees while ringing the bell. The stung limb was ringing on a Sunday evening sometime ago the bolt which held it to the frame-work broke and the bell clattered down to the ground. The next day it was found to be right side up and uninjured. Later, when the sexton tried it over to one side, preparatory to having it raised by a derrick, hundreds of honey bees flew out, surrounded him and drove him into the lake, whence he was rescued when nearly drowned. His hands and arms were severely bitten. The bell was found to be nearly filled with honey. The bees had obtained ingress and egress through a small hole in the top.

Mr. W. A. Tibbs is a printer in the office of the Jackson Miss. Clarion-Ledger. He does not practice medicine, but has a bad blood, which deprives him of health and threatened serious consequences. He further says that he took S. S. S., and it cured him.

Fishing for Chickens.

South Omaha boys have recently caught many chickens from farmers in a new way, having fished them with a grain of corn on a small hook. Some chickens that tore loose from the hooks were so badly injured that they died.

A hook in one chicken's throat revealed the rascality.

To-day only the Burt street and Walnut Hill line will be operated, as only six trains have arrived. Twenty-six more trains are on the road, and as fast as they arrive they will be put into service, so that the rail lines will probably be in operation in a week or ten days.

The Life of Rose Parks.

It is said that the life of rose plants greatly varies. Some of the hardiest kind will bloom for thirty years, while others die off after several seasons.

Catarrh.

It is a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous malady. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla—the best of all blood purifiers. The sooner you begin the better; delay is dangerous.

I was treated with catarrh for over two years. I tried many remedies, and was treated by a number of physicians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this terrible disease, restored my health, and completely restored me to a normal life.
