Wheat Rules Active and Lower With Decreasing Receipts.

FAIRLY LARGE BUSINESS DONE.

The Recent Good Demand For Corn Undergoes a Collapse-Provisions Rather Unsettled-An Advance in Heavy Hogs.

CHICAGO PRODUCE MARKETS.

CHICAGO, August 2 .- [Special Telegram to THE BEE. |- Wheat was active and lower today. A very pronounced bear feeling has been generating in the pit for the past day or two and to-day there was a grand "letting go of holts." The shipping movement from all western points is unusually heavy, but receipts, instead of falling off after the first of the month, are increasing. Private cables were for the most part bearish, but several of them quoted higher prices at the close, and the board's special cablegram was to the same effect. Baltimore wired that exporters were reselling and New York parties made a similar contribution to the information fund, and the facts so far developed seem to be somewhat at variance on the foreign situation and on foreign temper. In explanation of the changed expressions of the New York exporting class, it was suggested by a broker that perhaps they were trying to depress the market to "limits" that would enable them to fill a foreign order. They sometimes do things that way in New York. The gossip mill ground out a large sized grist to-day. For instance, it was given out that the "official" estimate of the French crop had been issued. On inquiry it was learned that this official estimate was from a stray paragraph in a Liverpool paper, in which it was stated that an unnamed "contemporary writer" had said that he provisionally and with many whereases, ifs and ands, estimated the French crops at 325,000,000 or 340,000,000 bushels, etc., etc. Bradstreet issued a speculative bulletin to-day representing that the domestic stock of wheat had increased 1,000,000 bushels during the month of July, a 4,000,000 busness auring the month of July, a 4,000,000 decrease east of the Rockies and 5,000,000 increase west. This produced no effect whatever on account of the notorious unreliability of the grain department of that journal and the evident selfish purpose of these advance tips of forthcoming publications. Of far greater weight than atthical selections the estimate of 125 than anything else was the estimate of 325 cars of wheat for Chicago to-morrow. In this connection it might be well to state that receivers have to report the arrival of con-siderable new wheats in poor condition on account of the unfavorable weather. The account of the unfavorable weather. The inspection sheet shows that less than 40 per cent of the arrivals were of contract grade. Some of the wheat is coming in badly sprouted. It is too early yet to make an intelligent estimate as to the extent of the damage from rainy weather. The prevailing impression is, however, that the injury that has resulted thus far is only skinden, as it were and that the only skin deep, as it were, and that the great mass of wheat will come out all right. December wheat opened at 79c, sold down to 78%, hung around that figure for an hour or more and then slipped off suddenly to or more and then supped on suderly to 78\%@78\%c. The price got back to 78\%@ 8\%c and about half past 12 o'clock it sold down to 78\%@78\%c. During the last half hour a firmer feeling prevailed in the market when the fact became generally known about large charters. The close was at 78\%c. Sectember or sold at 77\%c. granged at 77\%c. large charters. The close was at 78%c. September opened at 77%c, ranged at 77%c, 76%c and closed at 76%c. August ranged at 77%c%c and closed at 76%c, with cash wheat at a premium over August. The feeling at the close was decidedly less bearish than at any time during the day. The activity in the export and interior shipping demand is proving very clearly that wheat is wanted around present prices, and the bears are deprived of their principal weapon. In the aggregate a fairly large speculative trade was done in the pit.

rge speculative trade was done in the pit. The active demand for corn at the recently prevailing prices collapsed to-day and offer-ings for future delivery largely exceeded the buying orders on the market. Liverpool cables quoted a firm market in Liverpool, with stocks there of only 495,000 bushels, against 1,000,000 at the same time a year ago. Receipts here were only 30 cars more than year terday's catculation, and for to-morrow 640 cars were predicted. This increase was one of the causes which led to the decline, be ides which the export clearances were phe nomenally small yesterday. Futures were pre-relatively weaker then the spot article, all deliveries up to January losing from %c to %c of yesterday's closing value, but May was comparatively steady, closing at 37% c sellers, which is virtually unchanged from

the day before. Oats were much more active than on pre-vious days of the week, with prices declining about 14@%c. A good many stop orders appeared, and September, under the free selling, went up to 2114c, while large lines of May were sold short at 25 c down to 24%c, later ruling slightly steader. Receipts were materially larger, with an increasing proportion of new cats. Out of a total of 24% cars received 60 were new. Withdrawals were haugnificant and car lots of No. 2 chiefly to go to store sold liberally at 21%c, or %c cline. A good business was done in No white, with August at 25 4c and September

at 25% c.
In the provision trade the feeling was somewhat unsettled. Advices from the stock yards reporting light receipts and better prices for hogs, opened the trading with segood showing of strength. For a brief time the market all around averaged higher than the level of yesterday. The closing and than the level of yesterday. The closing and early sales were quite encouraging to the buils. Later, however, a changed condition of affairs was developed. It was ascertained that packers, induced possibly by the monthly stock statement, which showed a much larger amount of meats on hand than was anticipated, were free sellers of short ribs. Offerings of the article named became excessive, and, as the market for the same excessive, and, as the market for the same weakened, the entire deal was affected. Traders of all classes lost confidence, the desire to realize increased, and prices took downward course. During the last haif or so on 'change the tendency was bearish, and the lowest figures quoted were very generally made at or near the close, in pork the day's actual decline, compared with esterday's last prices, was 10@15c, and in thort ribs 10@12%c. Lard closed unchanged

CHICAGO LIVE STOCK.

CHICAGO, August 2.—[Special Telegram to THE BEE. !- CATTLE. -Business was the same as for the past four or five days. Prime suitable weight steers were in good demand and steady. Heavy "oxenish" sort of steers were not selling so well to-day. Exporters were not operating to any great extent, yet about all the stock on sale in the way of fat cattle found buyers, but the general market closed rather easier than yesterday or the day before. There were no terday or the day before. There were no range cattle in sight and none wanted. Pratt & Ferris' steers averaged 1155 lbs and sold for \$3.00. Texans were quoted steady to strong. Native butchers' stock was in fair demand and steady. Choice to extra beeves, \$4.50@4.65; medium to good steers, 1350 to 1500 lbs., \$3.80@4.20; 950 to 1200 lbs., \$3.60@4.20; 950 to 1200 lbs., \$3.60@4.20; stockers and feeders. \$2.25@3.15; cows, bulls and mixed, \$1.25@3.00; bulk, \$2.00@2.40; slopfed steers, \$2.25@3.15; cows, \$1.50@2.10. Common sold at \$4.15@4.50.

FINANCIAL.

NEW YORK, August 2 .- | Special Telegram to THE BEL. |- STOCKS-The action of the stock market turned out so disappointing be fore the close yesterday that there was a scarcity of gossip at resorts last night. Opin ion is divided on the Big Four as to whether the advances are due to the hopes of increased dividends or because the stock is very closely held, and for that reason moves up easily on light buying. The taking of

Burlington shares by George Gould was the subject of comment. Jay Gould's railroad clearing house scheme is again attracting some attention. There was no disappointment when the market opened dull to-day. Prices were changed even less than usual over night. During the first hour London did little, and Chicago and Boston were waiting. Local scalpers were selling, while commission houses abound with bull arguments. First prices were, on the whole, steady. The action was slight in the Grangers, with an upturn of 1/4 in Atchison, 1/4 in St. Paul and Northwest and % per cent in Missouri Pacific. Reading moved up 1/4 before noon to 44% and Chicago gas 1% per cent from last night to 5814. Sugar trust moved up 3 points and Lead 1. Big Four gained a point to 71% and Chesapeake & Onlo first preferred 114 per cent to 67. There was no backset in prices up to noon. There was no decided change in stocks after midday. The firm, even strength in standard railroad shares continued until the close. Trusts also held up pretty well. Sugar touched 113, closing at 112%. Lead held a 1 per cent advance at 23%. In the Grangers Burlington & Qumcy was the favorite and closed strong at 101%. Northwestern weakened a little, closing lower. Other gains were 1/4 to 1/4 per cent. Big Four made a net

gain of % and Chesapeake & Ohio first pre-
ferred 1% per cent at 66%. The total sales were 76,888 shares.

Cattle.

Friday, August 2.

The market on desirable beef cattle continued on the up grade to-day, an advance of 5@10c being recorded. In quality there was a big improvement over yesterday, the bulk of the cattle to-day being natives, but there

was nothing strictly prime. Beeves sold from \$3.35@4.15, but largely at \$3.80@4.05. Cow stuff is selling about the lowest of any during the past week or ten days. The general run of the cow stuff sold at \$1.90@2.40, with some few head of very choice corn-fed cows as high as \$3.50. There were not enough stockers or feeders on the market to cut much of a figure.

The bog market opened with good prospects and the bulk of the offerings were taken at prices strong to 5c higher. The close was not so good, the buyers being strongly in-clined to sit down on the market after the most urgent orders were filled. The quality of the hogs was much better than yesterday.

Sheep.

No sheep were received and there was nothing to make a market. Receipts.

Cremation in Italy. The practice of cremation is spread-

ing rapidly in Italy. In forty-two com-

munities it has been adopted to the ex-clusion of every other method of dis-posing of dead human bodies. In twenty-one communities furnaces have been in operation for several years. In nineteen communities the authorities are trying to raise money for the erecTHE REALTY MARKET.

How the Ladies Killed the Weasel. A weasel came down the hill and went into the sitting room of Edward Arronsmith, in Easton, a couple of days ago. No men being handy, seven women of the neighborhood armed themselves with pokers, canes, etc., and entered the room. There was a faint squeak in the corner, and seven women jumped on chairs and screamed. Their screams so terrified the weasel that it ran out of doors and was killed by a sick dog that was lying in the sun.

Captured Six Bison. Two ranchmen named Wilson re-cently captured six bison out of a herd of fifty or more on Red Desert, Wy. T. They were offered \$500 each for the animals, but demanded more.
