IN AND ABOUT THE BLUFFS.

Mayor Rohrer's Unique Inventory of the City's Property.

A BUILDING INSPECTOR WANTED.

Meeting of the City Council—Death of Dillon Johnson—Enlarging the Motor Plant—General and Personal.

A Municipal Bureaucracy.

In the official reports of Council Bluffs, published in pamphlet form by Mayor Rohrer, appears the following unique inventory of the city's property to be found in the "police station jail":
Two stoves, two ovens, five chairs, one lamp. In the room up stairs there is a lot of old city records and city ordinance books.
This might seem to a stranger to be satire. It is a truthful inventory, however, so far as the old city records and city ordinances are concerned. One would naturally suppose that the city records would be kept in some vault, safe from the devastations of fire and the pilferings of plunderers. They are, however, recklessly dumped into a room, like waste paper. The excuse is that the city has not a sufficient vault room, and that these old records are no account anyway. One would naturally suppose that any documents or books, worthy of being called city records, would be valuable enough to preserve.
This is in the case of the city hall. Of the need of a new city hall, Council Bluffs at present has nothing but an old feed store which has been changed over and desks put in the place of the bins. For a city of this size the building is not only wholly inadequate, but is a disgrace. It is a farce to attempt the question, "Where is the city hall?" by pointing to this old feed store. It is better and more truthful to tell the stranger that Council Bluffs has no city hall.

For sale—One Gar-Scott ten-horse portable engine, in good repair. Apply to Weir-Shu-kart Co.

Where is the Building Inspector?

William Moore, one of the proprietors of the Pacific house, is anxious to have that building carefully inspected by a competent architect or building inspector, and if found to be in an unsafe condition, condemned and ordered pulled down. Said he, in stating the case: "I do not advocate this because the property is not profitable, for it is paying us fully 30 per cent on our investment, and we can not complain about that. But suppose that it should fall down and kill or injure several people, and suits for \$50,000 or \$100,000 damages were instituted against us, then the outlook wouldn't be quite so nice. Even if we won the suits, the matter would not be very pleasant. Look at that accident in Omaha a few months ago, when the Max Meyer wall was blown down. He couldn't help that gust of wind, but there are suits for about \$50,000 damages pending against him today. Now then, I don't care whether the council condemns the building or not. What I want them to do is to take some action concerning it."
"I other want them to say that it is all right or that it is not. If they think it is all right it will have to come down, and if they say it is, and anything happens, it will take the responsibility off from the owners. There is too much of this happy-go-lucky business to suit me. There is no building inspector, and the city is no protection, and nothing to be done. This guessing and conjecturing is altogether too risky, and I want some assurance that everything is all right."

Council Proceedings.

The council met in adjourned session last evening with all the members present.

A resolution was adopted ordering Fifth avenue from Eighth street to the Northwest-
ern railroad to be paved with brick.

A resolution was adopted ordering the fol-
lowing streets and avenues curbed: Eighth
avenue from Eighth to Twelfth streets;
Tenth street from Broadway to Ninth;
Second avenue from Ninth to Tenth streets,
and First avenue from Eighth street to
Tenth street.

The waterway problem in the alley be-
tween Main and Hancock streets came up
for consideration. A report of the special
committee to whom it was referred at the
regular meeting. The report was to the ef-
fect that temporary relief had been afforded,
and the city was in a position to raise the
grade to the necessary height to run the
water out on Willow avenue. Alderman
Lacy moved that the contractor, C. Hosen,
who is grading Mr. Evans' new building,
be notified that the city would not be respon-
sible for all the damage that might arise from the stop-
page of the waterway through the
meters lot to Main street. The mayor re-
ported that he had, with the assistance of
the city attorney, looked up the waterway
disputed, and found the city had a good claim if not a vested title to eight feet
of the lot. The contract with Mr. Hosen, as
embodied in the council proceedings of August
11th, 1882, was presented. The whole matter
was referred to the committee and city at-
torney for further consideration, and the city
engineer was instructed to ascertain and
mark the required grades.

The reports of city clerk and city auditor
for July were presented and submitted to
finance committee.

A number of streets and avenues were
ordered graded.

Several blocks were out of grading con-
tract of C. R. Mitchell.

A petition from all the property owners on
Fairmount and Graham avenues was pre-
sented, asking for a change of grade on that
street and submitting a profile of the desired
grade. Referred to committee of the whole
for examination.

The city engineer submitted plans for
bridge over Indian creek on Twenty-third
avenue, Eighth street and Mynter avenue.
The mayor reported that the bridge on
Pierce street, complained of as a nuisance,
had been abated, and asked for the estab-
lishment of three additional street lamps on
that street.

Ovid Vien was ordered to number his
house according to the findings of the city
engineer.

The engineer reported an ordinance for the
establishment of grade on Ridge street, from
Pierce south. Referred to committee of the
whole.

Wanted, one or two good teams as first
payment on house and lot. Sufficient time
given on deferred payments. A. A. Clark &

Death of Dillon Johnson.

Dillon, son of Mrs. J. W. Johnson, died
yesterday morning at 4:30 o'clock. He was
11 years, 7 months and 3 days old.

Last January he was taken sick with in-
fluenza, and he has been a constant
sufferer since that time. The immediate
cause of his death was dropsy, induced
by heart trouble caused by the rheumatism.
Dillon in life was always considerate of the
welfare of others, and the patients with
which he bore his long suffering was most
noticeable and a fitting testimony to his
beautiful character.

The funeral will take place at 4 o'clock
this afternoon from the residence, 1025 Se-
venth avenue. Friends of the family invited
to attend.

Enlarging the Motor Plant.

Work on the addition to the power house
of the Electric Motor company is progressing
rapidly and will soon be completed. Six new
boilers are being set, which will increase the
number to ten, making one of the largest
batteries of boilers in this part of the coun-

try. They are each of 75 horse power, mak-
ing a total of 750 horse power with 90 pounds
pressure, or over 1,000 horse power with 125
pounds pressure. There are now two en-
gines in operation of 100 and 125 horse power
respectively, and these will be altogether too
small to furnish the power for the numerous
extensions now under way. The 100 horse
power engine will be taken out, and three
new ones of 200 horse power each will be put
in, increasing the power to 750 horse power.
There are two 50 and one 40 horse power dy-
namo, and four new ones will be added, mak-
ing a total of 574 horse power. When completed
it will be one of the largest, and most per-
fectly equipped lines west of the Mississippi,
and well worth a visit of miles to see. A new
car house is being built to accommodate
fifteen cars, as fifteen new motors and twelve
new cars have been ordered, and are almost
constructed. The changes being made are
on a large scale, and indicate the intentions
of the company as to better service and in-
creased facilities.

A Wolf Chase.

A party consisting of W. H. Ware, Billy
Malony, Colonel D. B. Dalley and Tom Mc-
Dermott left the city at 4 o'clock yesterday
morning, with a dozen fox hounds, to indulge
in the sport of a genuine wolf chase. They
started for Ben Mark's farm, south of Ma-
awa, but were hardly outside the city before
a wolf was started and the chase began. The
wolf was about three hundred yards ahead
of the dogs, and the latter ran by scent.
The chase lasted about an hour and a half,
during which time the wolf was the liveliest
excitement. McDermott, who would have
given his black hound and ten years of his
life to have caught the wolf, managed to get
it cornered and rode over it a couple of
times, but the quarry succeeded in getting
away before the dogs arrived, and finally
managed to get into the willows, but he had
not gone twenty feet before his horse was
stuck in the brush and could not move a
step. Ware dismounted and with the help
of the rest of the party succeeded in pulling
him out. Then I began to take Ayer's
Pills, and soon the bowels recovered their
natural and regular action, so that
now I feel as well as ever. —S. L.

Constipation,

If not remedied in season, is liable to
become habitual and chronic. Drastic
purgatives, by weakening the bowels,
confirm, rather than cure, the evil.
Ayer's Pills, being mild, effective, and
strengthening in their action, are gener-
ally recommended by the faculty as the
best of aperients.

"Having been subject, for years, to
constipation, without being able to find
much relief, I at last tried Ayer's Pills.

to testify that I have derived great ben-
efit from their use. For over two years
