Prices in the Wheat Pit Show a Downward Tendency.

CORN DULL AND FEATURELESS.

A Good Showing of Strength Witnessed in Provision Trading-Au Active Demand For Good Cattle-Quotations.

CHICAGO PRODUCE MARKETS.

CHICAGO, August 9.- [Special Telegram to THE BEE. |-Wheat prices inclined down-ward to-day, though the decline was not important, viewed from a purely mathematical stand point, only amounting to 1/@%c. The news was bullish for the most part. The foreign markets were quoted as strong and higher on unfavorable harvest weather, and advices from the spring wheat country chronicled too much rain there. The demand for cash wheat is still urgent, but the table of receipts and shipments at principal points is beginning to tell the story of accumuluting supplies at the principal centers. This circumstance had a depressing effect on the market, as it also had on speculation as to the contents of the government report due to-morrow. The prevailing opinion was that the government bulletin would be exceptionally favorable, not only to wheat, but other crops as well, all foreshadowing a year of extraordinary agricultural prosperity. The usual story was affoat that a digest of the agricultural department's finding had been obtained by a Wall street house with intimate Chicago connection, but this could not be verified in any particular, and was voted a canard. The Farmer's Review's 165,000,000 bushel spring wheat esti mate, though a trifle stale, came for more unfavorable criticism, and the verdict reached on that matter was that the Review's statistician was a more idle guesser working on insufficient data. Then a wild rumor held the floor for a while that some indefinite authority had discovered that the threshing returns clearly indicated a winter wheat crop fully twice as large as had been commonly figured. This was filed away like the other news tid bits and forgotten. Not so the reports that circulated among the best informed men on the board that foreigners were buying heavily in Chicago, St. Louis and Duluth for August and September shipment. This was one of the important news features of the day, but owing to its limited circulation, chiefly among the non-speculative classes, but little effect was produced on prices. How much has already been bought for foreigners there is no present means of knowing, but large orders continue to come in daily to buy Au-gust or September "for shipment." Possibly it is this knowledge that keeps Hutchinson a bull when nearly all the speculative element is bearish or weak in their friendship for wheat. Open-ing trades were on a basis of 70% 20% of for or weak in their friendship for wheat. Open-ing trades were on a basis of 76½@76½@ 76 August, 76½@70½c for September, 78½c for December, and 84¾c for May. August worked up to 76%c, December to 78%c (just touched), and May to 82%c. Thereafter until nearly the close the market dragged and drooped, and but for Hutchinson's sup-port of December at and under 78c the whole list would have most probably gone consid-erable lower. As it was, August got to 76 %c. list would have most probably gone consid-erable lower. As it was, August got to 70½c, September to 76c, December to 77½c, and May to 82½c. There was a fractional recov-ery at the end, August closing at 70½c, Sep-tember at 76½c, and December at 78c. May left off at the bottom-82½c. The corn market was dull and featureless, but leaning slightly towards lower prices. Fluctuations were narrow and outside busi-pess scarce. The main support to the mar-ket was as it has been for some time back-as good demand from shippers for the cash

good demand from shippers for the cash offerings. Cables, which have almost uni-formly for months favored the bulls, were discouraging to-day. Scalpers were the chief

sending prices fully up to this market and buying orders in St. Paul, Union Pacific and Lake Shore. There was a moderate business. which, however, was fairly well distributed, and no marked animation was shown in any portion of the list, although Missouri Pacific, Northern Pacific preferred, Reading and Atchison still led in the dealings, with Lake Erie & Western preferred, and Chesapeake & Ohio following. There was little change in prices, only a drooping tendency from the first figures. Burlington & Quincy, Northern Pacific, Chesapeake & Ohio, and Lake Erie & Western preferred moved up from 14 to 14 per cent. The others afterward generally regained the slight losses of the early dealings. Trusts were not active, and Chicago Gas lost 16 to %, and sugar 1 to 113. There was a period in the duliness of stocks after 11 o'clock, relieved only by the activity

in Missouri Pacific, Northern Pacific preferred, and Union Pacific. Still later the activity and strength spread throughout the list, and prices moved up all around. Lake Shore went to 104%, Atchison to 38%, Burington to 1041, Rock Island to 98%, St Paul to 72%. Missouri Pacific up 1% to 78%, Union Pacific up 1% to 67%, Oregon Transcontinental 11% to 34%, and the others in smaller fractions. Late in the day sugar trusts went to pieces, going off nearly 5 points to 109%.

This demoralized the list, and the prices of railroad shares declined sharply. Not all the advance was lost, and closing prices were generally 14 to 14 per cent better than on Thursday. Rock Island closed 16 under at 98. Chicago Gas 36 lower at 5836. The total sales were 220,524 shares. The following were the closing quotations: U. S. 4s regular. 128 U. S. 4s coupons. 128 U. · Cattle.

'Cattle. Friday, August 9. The market was abont as dull and unsatis-factory as could well be imagined. The re-ceipts were very light, only forty-five fresh loads being in the yards, but late in the af-ternoon, after the market had closed, a B. & M. train which had been delayed arrived, swelling the total considerably above that. The buyers were very indifferent and did not appear to care whether they secured any beeves or not, even at a decline. Still there was some trading in cattle that did not look any lower than yesterday, and some natives sold at \$4.10, and there were a few loads at \$3.90. There was one small bunch good \$3.90. There was one small bunch good enough to bring \$4.25. Cow stuff moved slowly, and only a few head changed hands. To-day's supply of feeders and stockers con-sisted largely of seventeen cars of westerns and a few native holdovers. The demand was pretty fair, and a good share of the of-forings were cleaned up before the close.

OMAHA LIVE STOCK.

Hogs. Hogs. Light and medium weight hogs were in good demand and the market was active and a shade stronger. A large proportion of the light hogs sold at \$4.15, with a fow at \$4.12}4. The shippers were the principal buyers of the light and medium weights. They did not want the heavy weights, and all the reg-ular packers would offer was \$4.00, or 5c lower than yesterday. Salesmen did not feel justified in giving up that much, and after all the other hogs had been sold the heavies still hung fire, and it was late before they were hung fire, and it was late before they were all sold. The receipts of hogs were light for the same reason that there were only a few cattle here, the B. & M. trains did not arrive in time for the market.

AN ATTEMPT TO CRAWFISH.

Attorney Casey Modifies His Proposition to General Leese.

OFFICIAL ROSTER OF OHIO.

A Gang of Toughs "in' Custody-The Rate Question to the National G. A. R. Encampment - New State Banks-City Items.

LINCOLN HURBAU OF THE OMARA BER, 1029 P STREET, LINCOLN, August 9.

John R. Casey, general counsellor of the Chicago, Milwaukee & St. Paul Railroad company, is seemingly inclined to crawfish, It is doubtless still in mind that he wrote to Attorney General Leese a letter, quite recently, stating that the company he represents would abandon the grade between Niobrara, Knox county, and Atkinson, Holt county, without necessitating legal action and asked for stipulations tending thereto. Under date of August 6, Mr. Casey again writes:

"I note in my letter of August 3, that I state 'we hereby do abandon the grade made by this company in your state,' but I desire to withdraw that statement and my letter would then read: This company has abandoned the idea of constructing the road once contemplated from Niobrara, in your state, and is willing to abandon the grade made by ""." But he goes on to state that stipulations are desirable and that the board of directors will pass upon any reasonable demands that may be made. The inference is that the action of the board will be favorable providing the stipulations are within reasonable-ness from the standpoint of the interests of the road. It is learned that the company is not a domesticated institution, having failed by law. The attorney general apprehends no difficulty, however, but his stipulations will ask that the bed of the road shall not only be abandoned, but that the lands and grants shall revert back to the proper own-Brs.

The Ohio Rester.

It may be of interest to Ohio soldiers now residing in Nebraska to state that the adjutant general has recently received the official roster of the state of Ohio, the fruit of seven years' labor and research, and that it can be seen at his office at the state house. It is in nine volumes and shows the name. company and regiment of every soldier that Ohio furnished for the war, besides other valuable information. This announcement is of double interest owing to the fact that this state has a roster of resident citizens that Ohio furnished. Old soldiers can find other items of historical interest at the capitol, and the fact is becoming so well known that visitors, old soldiers, while away many idle hours looking over the rapidly accumulat-ing archives in the adjutant general's of-fice.

The Why of It.

HEADQUARTERS, DEPARTMENT NEBRASKA, GRAND ARMY OF THE REPUBLIC. · OFFICE OF ASSISTANT ADJUTANT GENERAL, LINCOLN, Neb., July 31, 1889 .--- Comrades: The time for the annual meeting of the twenty-third national encampment of the Grand Army of the Republic is fast approaching. When at the last national encampment, held at Columbus, O., it was decided to hold the eneampment for this year at Milwaukee, every assurance was given that transportation rates, and accommodations, and preparations generally, should equal, if not surpass and eclipse, any that had preceded. At our last annual meeting of the national encampment a rate of 1 cent per mue was granted, and this rate was confidently expected to be made for this year, thereby making it possible, by thus bringing the expense of transortation down, for many of our old soldiers of limited means to greet their old comrades once more around the blazing camp-fire, and again renew the strong ties of friendship that a guarter of a

The ladies of Albright never do any thing less than in the most pleasing way. Thurs-day evening a score of couples gathered at the depot and proceeded to invade the de-lightful home of Mr. and Mrs. George Athow to have an old-time surprise and warm up friendship. It was a success. The house was soon as full of vocal music as was each soul full of the music of joy, and a happier lot never met to congratulate friends nor parted better pleased. With her vsual tact Mrs. Atthow managed the surprise so that Mr. Atthow could only say, "you did it."

FINANCIAL.

NEW YORK, August 9 .- |Special Telegram Tun BEE.]-STOCKS-The bears did all in their power last night to convince the trade and the public, by dispatches, that the bulge in railway stocks was the result of manipulation for the purpose of fixing the market to sell on, and was not due to the action of the shorts, as it appeared at the time. They also figured that further gold shipments are probable because of the advance of the Bank of England rate and the with Srawal of bullion to France. This argument did not change the sentiment much, and Bough of the strength of Thursday was carried over to cause a strong opening. The first prices were steady to 16 per cent lower than the close. century ago were welded in the fire of bat-tle. The denial of this 1 cent per mile rate was the cause of much disappointment and dissatisfaction, and with a view of securing commanders was held at Chicago, July 2, 1889, at which were present commanders from Indiana, Illinois, Iowa, Kentucky, Michigan, Missouri, Minnesota and Ne-braska. They called upon the representa-tives of the railroad companies to fix the rate at 1 cent per mile on or before the 10th inst. assuring them that if they failed so to do the department commanders, then assem bled, would officially recommend to posts and comrades of their several departme only members and representatives of the na tional encampment attend at Milwaukee Your department commander united in thi movement in the firm belief that it was rea sonable and just, and was actuated solely with the honest desire to best subserve the interests of the comrades of this department The time having passed, and our requests not having been granted, your commander, in accordance with his agreement with the other department commanders, recommends the attendance only of the delegates and official members at the Milwaukee encampment cial members at the Milwaukee encampment. This request is made with deepest regrets, knowing it will cause disappointment to many, especially the old Wisconsin veterans now living in this department; but a proper respect for myself, and my pledge of good faith to my associate commanders, thus makes me unable to repay the comrades and citizens of Milwaukee who have done and ere still doing so much towards making the re still doing so much towards making the encampment a success. Some of the reporters must have 'it in' for Mr. Meday." Supt. Foster on the Quarantine. Reading Governor Thayer's communication diseased cattle, Superintendent A. C. Foster, of Swift & Co.'s packing houses, said: "The few cattle shipped here from Kansas City do not amount to anything as far as the nacking interests are concerned. If there be Texas fever in the Kansas City yard it is in-finitely better for all to have the quarantine established than to disease or even endanger the stock of this state, but I think the quar-antine has been established on light foundation, but perhaps the governor was influenced by interests not generally known.
