The proposition of the council to advertise for bids for lighting the city is already attracting attention from abroad. A letter has been received from the Edison company, of Chicago, and from other companies, asking about the situation, and it is certain that there will be a large number of bidders in the field. As was anticipated, the Nonparell yester-

After being twice postponed, the Gypsy encampment was held on Judge James' lawn last evening, and called out quite a good at-tendance. It was not a fair trial and the entertainment did not receive the patronage it merited, owing to the many disadvantages which it encountered. The lawn was hand-somely illuminated with Chinese lanterns, and every effort made to entertain the guests. The affair netted the Social Union about \$25.

The building permit, No. 319, was issued July 19, and calls for a \$3,000 building of galvanized iron and slate roof. The construction of the building has caused considerable comment, from the fact that it s located on a lot, a part of which is claime by the city for a waterway. The south wall of the building was started with studding after the manner of an ordinary fram structure, with no fire wall between it an the adjoining building. The attention of the chief of the fire department was called to it, and he filed the information that led to the arrest above referred to. Contractor Bosen should be done until the matter was settled, and the defendants were accordingly re-leased. The case will be tried Monday. The owner of the property, T. J. Evans, is out of the city. The contractor states that the building will be of corrugated iron and brick and in compliance with the ordinance. chief of the fire department says that the building was being built in violation of the ordinance, but he took no action in the mat-ter because the contractor told him that there would be a brick fire wall erected on

The joint committees of the board of trade and the horticultural association held a meeting at the court house yesterday afternoon to perfect their arrangements for the Pottawattamie exhibit to be made at the Blue Grass palace at Creston. It was decided to send Mr. L. A. Caspar to Creston to-morrow to see what space has been reserved for this county and how large an exhibit can be shown to advantage, as well as the arrangement of the exhibit. Mr. Caspar will report at another meeting to be held next Saturday. Mr. Caspar and a number of other gentle men will be sent down a week from Tuesday with the articles to arrange the exhibit and put it in shape, besides arranging the floral decorations. It was decided to have all except the perishable articles left at the Merock next Saturday, the 17th inst., instead of the 19th, as previously announced. The change was made to accommodate the farmers, who find it much more convenient to come to the city on Saturday than on Monday. The canvassing committee reported that they had met with splendid success through the county, and that the display would be one worthy of the largest and best county in the state. A number of details were arranged, after which the meeting ad-

The party consisted of Dr. C. H. Pinney, Colonel D. B. Dailey, Dr. J. C. Waterman and W. H. Ware, esq. The wolf was started on Dr. Pinney's farm, four miles east of the city, and chased about four miles east of the city, and chased about thirty-five miles, all within a radius of three miles before the bounds finally caught and killed it. Coroner Waterman's services were not called into requisition. Several more chases are planned for the near future. Invitations have already been received from farmers in various parts of the county, asking the club to come out and kill a few of the wolves that are nightly raiding their poultry houses.
