

THE DAILY BEE.

E. ROSEWATER, Editor. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION. Daily Morning Edition including Sunday...

Sworn Statement of Circulation. State of Nebraska, County of Douglas, ss. George B. Teschick, secretary of The Bee Publishing Company...

Sworn to before me and subscribed to in my presence this 17th day of August, A. D. 1889.

SINCE St. Joe has gravely announced itself a candidate for the world's exposition of 1892...

WHEN citizens make up their minds to tender the park commission suitable grounds for park purposes...

THE shattering baranques who infest the police court and prey upon prisoners have occasioned a great deal of adverse criticism upon the force.

OMAHA'S police judge, in a recent decision, declared that "Evon a king has no right to invade the sanctity of his most humble subject's home."

BOTH Norvin Green and Postmaster General Wanamaker are at Saratoga. When under the influence of Vichy and congress waters there should be no difficulty in adjusting the question of government rates over the telegraph lines of the Western Union.

A ST. PAUL paper has discovered that Minneapolis has packed its last city directory with the names of a large number of dogs.

THE third and last series of competitive drills in marksmanship at the government range at Bellevue will begin tomorrow and the contest will include soldiers and officers from all commands in the army.

WESTERN railroad men declare that the difficulty with which they will have to contend this autumn will be a scarcity of equipment.

NEBRASKA was the first state in the union to treat prize fighting as a felony and enforce the prohibition by sending one of the principals in a prize fight to the penitentiary.

PEOPLE who are afraid that Omaha is losing ground as a stock market had better examine the records.

GEORGE P. BEMIS has offered the park commissioners a tract of between five and ten acres of land situated at Thirty-fourth and Lard streets for park purposes.

IN a small way, it appears, Nebraska is represented at the Paris exposition. The state board of agriculture quietly prepared an exhibit of Nebraska's product, and the state has the honor of being the only one in the union which has a display of corn at Paris under the auspices of the American agricultural department.

WAS IT A CRIME? In commenting upon the killing of Judge Terry, THE BEE said that "notwithstanding his infamous character, his killing under the circumstances was a crime."

What would THE BEE have! Does it desire that a member of the highest legal tribunal of the land be open to the danger of assassination at the hands of a bloody-minded villain...

THE REPUBLICAN commented as follows: "This is a queer view to take of the case, in face of the fact that Terry's previous threats to kill Justice Field led to the employment of the deputy marshal to protect him in the discharge of his official duties."

THE action of the California authorities, and of the judge of the circuit court of the United States, is a sufficient vindication of the view taken by THE BEE as to the criminal character of the killing of Terry.

idea to arrange the stars of the flag in such a manner as to represent one large white star, made up of forty-two smaller ones. There is much to commend this conception.

heavy fire would be inflicted may be presumed, but for each mortar as there was in his possession he had credit. He will doubtless be an obedient and dutiful prisoner, and a year passed apart from temptations and corrupting associates will do him no harm.

COLORADO, with its varied mineral resources, promises to make an interesting exhibit at the approaching fall exposition at Chicago, which opens September 4 and continues six weeks.

DEATH OF JAMES LAIRD. The announcement of the death of Congressman James Laird did not come unexpectedly. While his political friends have sought to conceal the fact from the public that his malady was incurable and his recovery beyond the reach of human skill, his real condition had been an open secret for many months.

As a public man Mr. Laird had his ardent admirers and bitter opponents. He was cast in that mold that dispises a fight from behind ambush. His natural instincts and impulses were those of a brave, big-hearted man.

Two Sure Winners. Iowa republicans are enthusiastically in favor of Hutchison for governor and Chicago for the world's fair.

Its a Stand-Off. Opinion is divided as to whether Peoria, St. Louis or Bloomington should have the world's fair in case it don't go to Chicago or New York.

Enough of Jeff. Another letter from Jeff Davis, reiterating his confident sentiments, suggests the hope that in his case, at last, the Brown-Segard elker will not prove successful.

A Pacific Coast Illustration. The Canadian papers which are jumping up and down over the Brown-Segard matter appear to know as much about international law as an angle worm does about making apple butter.

A Hundred Years May Tell. Dr. Hammond says that it will take a hundred years of experimenting to prove the value of the elixir of life.

The Diamond Corner. Poor people must economize on diamonds during the coming winter. Prices have advanced 30 per cent, while the entire European and African output is in the hands of New York and Philadelphia syndicates.

A Let-Header For Grady. We observe with pleasure that those southern newspapers which are edited by men who proved their courage as soldiers during the war denounce these two fellows (the dualists) as miscreants and urge their punishment.

He Profited by the Example. Nebraska had no sooner undertaken a giant with his petrifed fist full of diamonds than Wisconsin comes to the front with a wonderful claim.

Mr. Boyd and the Majority. James E. Boyd, of Omaha, is as great a man as Benton J. Hall, now of Chicago, or Peter A. Day, still of Iowa.

Fertile Nebraska Intellects. Nebraska people are fertile in the matter of expedients. A man out there had his wife arrested on a charge of faithfulness, and when it didn't stick he found she wouldn't live with him.

Becoming Really Civilized. It is evidence of a marked change in public opinion with respect to dueling that the duel in Cherokee county Saturday last between two Georgians has excited so much comment throughout the state.

HITS AND MISSES. Mr. James Morgan, of Morgan county, Indiana, offers \$5,000 for a wife, who must be both young and pretty.

THE OMAHA ladies who danced with his majesty at the reception given him in this city several years ago, will undoubtedly feel grieved that time and a steady present of Gambrian has dealt so unkindly with his mental powers.

A young man in the south has invented a device which will do away with the umbrine and his dogmatism. The inventor figures that the calling of balls and strikes allows him to give the game to either club he pleases.

came will not then go to the nine whose pitcher can most outdo the umpire. The popularity of the russet leather shoes seems to be on the decline in Omaha. The coat is considerable, and rainy weather appears to act harshly with them.

COUNTRY BREEZES. One on Uncle Jimmy. Last Wednesday morning Uncle Jimmy Lynch milked his cow as usual, and instead of an hour she dropped one of the best calves of the season. This is fairly one on the old gentleman, and he has been setting up his cigars all who allied in consequence.

Editor Burr's Apology. This is how Editor Burr, of the Enterprise, gets out of a bad predicament: "We are assured by the mother and grandmother of the Sneperson baby that we made a mistake in designating it as red-headed. The grand-mother thinks that the hair is actually as golden. We stand corrected. The hair is any color they please. We are not such a fool as to dispute with a mother or grandmother about the color of a baby's hair; we only know that it is a pretty baby."

The Times Meant Well. The Times has lost a subscriber! It was all on account of trying to get those woods out down for the benefit of the ladies. He was an old and valued subscriber, too. One of the kind that grow dearer year after year by the value of unpaid subscriptions invested in him.

AS OTHERS SEE US. Through Jealous Eyes. The prominence which Omaha and Kansas are giving the Missouri river as a waterway demonstrates that their prestige as railway terminals is gone, and gone forever.

What Omaha Air Will Do. Explorer Stanley was once the Omaha correspondent of several eastern papers, and a man who was a chum of his at that time says that Henry M. was the readiest and most accomplished liar he ever knew.

Knock Out the Snakes. The sea serpent and snake stories incident to this season of the year have their monotony somewhat relieved by the reports of the finding of diamonds in Nebraska, pearls in Wisconsin and paying gold mines in Ohio.

He Profited by the Example. Nebraska had no sooner undertaken a giant with his petrifed fist full of diamonds than Wisconsin comes to the front with a wonderful claim.
