To the merchants and manufacturers, who have signed for space to exhibit in the coming exposition to be held at the Coliseum from September 2 to 14 inclusive: I wish to inform you that I have succeeded in selling every space, which are 8x12 feet in size; also that I have sold upwards of 20,000 tickets and the building is all draughted off and the names of the different exhibitors written on the floor in their spaces, and I wish them to commence at once placing their exhibits, so as to be on time at the opening, as it is the wish of the directors to be good and ready and not to be fixing exhibits on the opening day, which is the 2d of September.

There has been a fine musical program prepared, both vocal and instrumental, which will take place on the grand new platform in the center of the building every day and evening.

The building will be lighted with electricity of twenty big arc lights, 400 incandescent lights, also 200 gas lights, which will make the mammoth building as light as day. Hoping our exhibitors will kindly respond to this promptly, yours, JOHN S. PIERRE, Manager.

Underground electric wires are now being successfully operated in Kansas City. The Edison electric light company has two and one-fourth miles of underground conductors in the block between Sixth, Delaware, Seventh and Wyandotte streets. They have been put underground at a cost of about \$18,000. The conductor is about two and a quarter inches in diameter. It is in the form of a pipe filled with an insulating composition through which the wires are run. The wires are in two sets of three each, the wires of one set being about one-half inch in diameter, the wires of the other set being about one-eighth of an inch in diameter. The Grand Army Encampment at Milwaukee.

It is estimated that fully 120,000 people will pass through Chicago en route to Milwaukee to attend the Grand Army Encampment. As there are but two railway lines between the two cities, and this immense number of people will have to be transported in two or three days, it is apparent that the resources will be taxed to the utmost.

Parties desiring to get from points in Nebraska, will, by taking the Chicago, Milwaukee & St. Paul railway from Council Bluffs (which is the only direct line to Milwaukee from Council Bluffs), avoid the great crowd and rush at Chicago, and be sure of the best accommodations in the way of free Chair Cars, Sleeping and Dining Cars through to destination, and will have the privilege of returning via Steamboat from Milwaukee to Chicago, as they so desire.

Half fare tickets made good for returning. Children between five and twelve years of age, half of the excursion rate. For further information apply to F. A. Nash, General Agent, C. M. & St. P. R'y., 1501 Farnam St., Omaha, Neb.
