THE SPECULATIVE MARKETS.

An Increase in the Visible Forces Wheat Prices Down.

CORN ACTIVE AND FIRMER EARLY.

Heavy Receipts Indicated for the Future Cause a Reaction-Provision Interest Confined to Pork-Hogs Lower.

CHICAGO PRODUCE MARKETS.

CHICAGO, Sept. 3.—[Special Telegram to THE BEE,]—Wheat opened up strong at %@34c advance from last night's closing price on anticipation of a decrease in the visible supply. The final returns showed an increase of 90,000 bushels. Small as the increase was, it created a change of sentiment in the trading crowd and the heavy offerings speedily forced prices down. The dectine was small measured by the actual fractions, but as indicative of a change in tendency the depreciation can not be said to be altogether important. Initial trading was on as basis of 781/c for September, 791/c for December and 8334c for May. December sold at 70%c and May at 83%c. This was the top. The more important subsequent fluctuations in December were from 79%c down to 79%@79%c, up to 79%@79%e, down to 79%c, up to 79%c, down to 79c, up to 79%c, the closing being 79%c. May ranged at 83%@83%c and closed at 83%c. September sold down from 781/c to 773/c and closed at 1714c. Operations were on a fairly liberal scale throughout the session, no exciting news was affoat, and the day's business was undisturbed by sensational episodes of any description. The commission houses with New York and northwestern connec tions were good buyers during the early part of the session, and, indeed, most of the day on soft spots. New York sent bearish advices, Nightengale, as usual, heading the list of bear chroniclers. His telegraphic tolls to Chicago must have been \$50 or \$60 to-day, which is considerable money to spend in the gratuitous distribution of opinion in quarters where no return is ever made. Nightengule's intense interest in the market at this juncture is explained by Chicago people on the theory that he is heavily short to foreigners and is therefore desirous of getting his wheat to ship as cheap as possible. The market here has about ceased to be influenced by bearish New York reports emphating from distinctly interested sources. The northwest is bearish on crop news, but prices do not square with bulletins of weakish tenor. Minneapolis millers are openly and almost unanimously bearish for the confessed reason that they want to lay in sup plies as low down as prices can be forced, but no sooner is wheat beginning to slip past them than they advance their buying limits. Sin ultaneously comes the news that there is an active demand for wheat at Minneapolis at %c advance over yesterday's prices.

The corn market early was firmer and active. The weather was still cool in the far west, but the corn belt was enjoying weather suited to the maturing of grain. The Liverpool market was quoted strong and advancing, but clearances yesterday from the Atlantic seaboard were light. There was an active inquiry for cash corn, but a good deal of the offerings of No. 3 were bought on the of the offerings of No. 2 were bought on the account of a heavy local speculator, who paid more money than the regular shippers were inclined to give. A heavy increase in the visible supply, amounting to 2,270,000 bushels, was a weakening feature and brought about a reaction from the opening firmness, the temper of the local speculative element being in favor of the bear view of future values. The opening figures on Senfuture values. The opening figures on Sentember and October were 33½c and 33½c, respectively, being ½c better than Monday's closing figures, but after advancing about 3c a more weaker feeling prevailed and brought about a drop of 1c. October closing finally at 33%@333c and September at 33%c. Oats were quiet within a narrow range, May remaining fully steady, while near futures ruled 1c lower. There was no pressure to sell May, though it is believed on pressure to sell May, though it is believed on some sides that the short interest in that month is nearly satisfied, as considerable covering has been done in the past few days and there is an undertone of mild weakness.— Oats for this and next month were offered with considerable freedom by headers and

with considerable freedom by headers and the buying support was light, with September sagging to 193c and October at 3c/3c/c premium. No. 2 cats to go to store sold chiefly at 193c, or 3c lower. No. 2 white for September sold at 213c.

In the provision pit almost all the interest developed was confined to pork. Hutchinson removed the mystery surrounding the October deal and assumed control. His brokers were in the market and the "Old Man" was, during a good portion of the day, within conduring a good portion of the day, within convenient distance of the pit, declaring his contempt for the construction placed upon the rule by Judge Smith—the board's venient distance of the pit, declaring his contempt for the construction placed upon the rule by Judge Smith—the board's attorney—governing the delivery of pork made in October on contracts. Judge Smith, it appears, has had the question under consideration and has decided the point as follows: "Pork packed in barrels on and after October I and placed in approved ice storage and prepared and packed as required by the regulations relating to barreled mess pork, is regular and deliverable on contracts, and it is not necessary that such pork shall remain on ice storage for thirty days or any number of days before it can be delivered." Judge Smith's solution of the knotty point met of course with the approval of the October shorts, but in the general trade a good many sided with Hutchinson. The latter declared that the attorney of the board was blased in his views, and that unmerchantable property—property not suitable for use or shipment—could not be considered proper and legal delivery. At all events, the interest taken in the matter overshadowed everything connected with the trade. Speculation was generally a little slow, and even in pork the operations made a rather poor showing. Traders were inclined to desert the near deliveries, and if the wrangle over the delivery of October-made pork is maintained January promises to become the favorite month. The outstanding short interest in October pork is unquestionably large and the settlements of the same are likely to be attended with more or less trouble. In to-day's market prices showed wide and irregular changes. Based on yesterday's final quotations the closings indicated an advance of 15c on September pork, 714c on September short ribs and 10c on October pork. September lard suffered a decline of 24c, October lard of 714c, January lard of 5c and January pork and short ribs of 24c.

CHICAGO LIVE STOCK.

CHICAGO, Sept. 3.—|Special Telegram to THE BEE. |—CATTLE—The fresh arrivals were larger than expectations, but the proportion of natives was only fair-about one-third of the arrivals. The quality was good, though there were no real prime beeves offered. The general market for natives was about stendy. Home dealers reported "good" natives a shade lower, while common to fair cattle were steadier, and in some cases dealers reported them a shade higher. Dressed ef men bought 1064 to 1643-1b steers at \$3.00@4.50, and bulk at \$3.65@4.10. Some 1643-ib steers sold at \$4.40, some 1316-lb steers at \$4.45, some 1637-1b steers at \$4.50, some 1250 lb Nebraskus at \$8.95 and some 1233 lb

1250 lb Nebraskas at \$3.95 and some 1233-lb natives at \$4.25. Forty-three head of 1,244-lb Nebraskas soid at \$3.00. Shippers and experters bought 1,120 to 1,574-lb steers at \$3.15@4.60, and bulk at \$3.90@4.35. Four loads of 1,475-lb Nebraska steers sold at \$4.60, some 1,390-lb Nebraska steers sold at \$4.40, some 1,390-lb natives at \$4.55 and some 1,325-lb steers at \$3.55.

Hogs—There was another down turn of 10c, and probably would average more than 10c or all classes of heavy, prices being now nearly down again to the low-water mark of a week ago. Packing sorts sold down to \$3.65@3.75 for common to fair, and \$3.80@\$3.90 for good heavy, with best selected heavy at \$3.95@4.10. Light sorts sold at \$4.45@4.55.

short holiday, and the opening this morning was most auspicious for the bulls. While there was unusual action on a few shares, the whole market kept broad and strong up to the end of the hour. First prices were generally from % to % per cent higher than Saturday's closing figures. Northern Pacific preferred and Delaware & Hudson were exceptional with gains of 3 and 1 per cent respectively. The most remarkable move ments were in Northern Pacific preferred and Chicago, Burlington & Quincy. The former, after opening up 3/2 per cent at 753/4. rose rapidly to 77, reacted to 753/4, but afterward rose again to 7714. Burlington opened up % per cent at 10714, rose to 109% and de clined to 10814, from which it railied a fraction. Other marked movements were advances of 11/4 per cent in Oregon Transcontinental to 3714, Missouri Pacific 1 per cent, Chicago, St. Louis & Pittsburg preferred 1 per cent, Northern Pacific and Rock Island % per cent and Hocking Valley 1% per cent to 13914. The general list was comparatively quiet and advanced only small frac tions, while a few stocks, among which Atchison was the most conspicuous, were sluggish and inclined to droop. The strength in stocks continued to increase until near the close, when there was some realizing, which caused the closing prices to fall from 1/2 to 1 per cent. The best prices were touched after 12 o'clock. New England came to the front and moved up 1 per cent. Northern Pacific common touched 36%, closing at 3514, and preferred 78%, 4 points over the close of last week, closing at 77%. Burlington, after touching 100%, closed at 108%. for the day were 379,000 shares.

Rock Island touched 103. The total sales The following were the closing quotations The following were the closing quotations:

OMAHA LIVE STOCK.

Cattle. Tuesday, Sept. 3.
With over 2,000 fresh receipts of cattle the
buyers were able to be a little bearish. A
few of the best native beeves sold at about yesterday's prices, but aside from them the buyers were generally talking lower from the start. Instead of getting better if anything it got worse, and it would be safe to quote the market 5@10c lower. In some inthe market office lower. In some instances buyers asserted that they got a reduction of 10c on some pretty fair natives. The prices paid for native beeves ranged from \$3.70 to \$4.35. A good many salesmen thought that butchers' stock was selling lower, but the buyers claimed that they were realting a more common grade of case. lower, but the buyers claimed that they were getting a more common grade of cows. Some little heifers brought \$1.55@1.75, and a good share of the cows went at \$1.40@1.75. Some good cows and heifers brought \$1.80@2.10. A few western cows changed hands at \$1.50@1.95. There is a good demand for bulls for distillery feeding and anything suitable for that purpose is selling mostly at \$1.50@2.00. A few head of range bulls sold at \$1.15@1.50. There were not many fresh stock cattle or feeders in the yards, but there was a good deal of inquiry for cattle of that description and there were severa heavy buyers. The prices paid were about steady with yesterday. A few loads of western feeders sold at \$2.45 and some natives at \$2.60.

The market went in the buyers' direction again to-day and a 10c decline was recorded. The receipts were the heaviest of any day since July 2, when over 7,000 hogs were received. That fact, together with the heavy run and lower markets at eastern points, enabled the buyers to gain a very considerable concession. The light hog men were able to buy light sorts at \$3.85 which sold at \$3.95@ 4.00 on yesterday, but as high as \$3.50 was paid for a very choice light load. Good heavy hogs sold largely at \$3.70@3.75, but it was hard work to get over \$3.65 for some of the late arrivals. The pieces of loads and heavy ends sold at \$3.50@3.60.

There were a few sheep here and a pretty fair bunch sold at \$3.80, which was about a steady market.

Receipts. Cattle.. 2,100 Hogs...... 6,800

Prevailing Prices. The following is a table of prices paid in this market for the grades of stock mentioned: Prime steers, 1300 to 1600 lbs. \$3.90 @4.35 Good steers, 1250 to 1450 lbs... 3.51 @4.25 Good steers, 1050 to 1300 lbs... 3.25 @4.00 Common canners. 1.00 @1.50 Ordinary to fair cows. 1.40 @1.75 Fair to good cows. 1.75 (#1.90 Good to choice cows 1.03 (#2.20 Choice to funcy cows, heifers 2.23 (#2.50 Fair to good bulls 1.50 (#2.20 Good to choice bulls 2.03 (#2.20 Light stockers and feeders 2.25 (#2.60 Choice for the fee

OMAHA Medical and Surgical Institute,

N. W. Cor. 13th and Dodge Sts., Omaha, Neb.

THE LARGEST MEDICAL INSTITUTE IN THE WEST FOR THE TREATMENT OF ALL

Chronic and Surgical Diseases and Diseases of the Eve and Ear.

PARTICULAR ATTENTION PAID TO DEFORMITIES, DISEASES OF WOMEN, DISEASES OF THE URINARY AND SEXUAL ORGANS, PRIVATE DISEASES, DISEASES OF THE NERVOUS SYSTEM, LUNG AND THROAT DISEASES, SURGICAL OPERATIONS, EPILEPSY OR FITS, PILES, CANCERS, TUMORS, Etc.

J. W. McMENAMY, M. D., President, And Consulting Physician and Surgeon.

Organized with a full staff of Skilled Physicians, Surgeons and Trained Nurses. This establishment is a permanent medical institution, conducted by thoroughly This establishment is a permanent medical institution, conducted by thoroughly educated physicians and surgeons of acknowledged skill and experience. The Institute buidings, situated on the northwest corner of Thirteenth and Dodge streets, is composed of two large three-story brick buidings of over ninety rooms, containing our Medical, Surgical and Consultation Rooms, Drug Store, Laboratory, Offices, Manufactory of Surgical Appliances and braces, and the Boarding Department for Patients, in charge of competent persons, constituting the largest and the most thoroughly equipped Medical and Surgical Establishment in the West, one of the three largest in the United States, and second to none.

We have superior advantages and facilities for treating diseases, performing surgical operations, boarding and nursing patients, which, combined with our acknowledged ability, experience, responsibility and reputation, should make the Omaha Medical and Surgical Institute the first choice.

You can come direct to the Institute, day or night, as we have hotel accommo-

You can come direct to the Institute the first choice.

You can come direct to the Institute, day or night, as we have hotel accommodations as good and as cheap as any in the city.

We make this explanation for the benefit of persons who may feel inclined to go further east for medical or surgical treatment and do not appreciate the fact that Omaha possesses the largest and most complete Medical and Surgical Institute west of New York, with a capital of over \$100,000.

DEFORMITIES OF THE HUMAN BODY.

Best Facilities, Apparatus and Remedies for Successful Treatment of every form of Disease requiring MEDICAL or SURGICAL TREATMENT.

In this department we are especially successful. Our claims of superiority over all others are based upon the fact that this is the only medical establishment manufacturing surgical braces and appliances for each individual case. We have three skilled instrument makers in our employ, with improved machinery, and have all the latest inventions, as well as our own patents and improvements, the result of twenty years' experience. the result of twenty years' experience.

ELECTRICAL TREATMENT.

The treatment of diseases by electricity has undergone great changes within the pest few years, and electricity is now acknowledged by all schools of medicine as the great remedy in all chronic, special and nerve diseases, for nervous debility, paralysis, rheumatism, diseases of women, etc., and in many eye and ear diseases it

is the most valuable of all remedies. In order to obtain its full virtues, it is absolutely necessary to have the proper spparatus. We have lately purchased three of the largest and most complete batteries manufactured, so constructed as to give the most gentle as well as the most powerful current. Persons treated at this Institute by electricity recognize at once the difference between our expensive and complete electrical apparatus and the common, cheap batteries, in use by many physicians. Over 3,000 dollars invested in electrical apparatus.

'invested in electrical apparatus. PRIVATE, SPECIAL, NERVOUS AND BLOOD DISEASES.

We claim to be the only reliable, responsible establishment in the west making a specialty of this class of diseases. Dr. McMenamy was one of the first thoroughly educated physicians to make a special study of this class of diseases, and his methods and inventions have been adopted by specialists in Europe and America. He is the inventor of the Clamp Compress Suspensory, acknowledged the best in use. All others are copied after his invention. By means of a simple operation, painless and safe, recently brought into use, we cure many cases that have been given up as incurable by medical treatment. (Read our book to men, sent free to any

DISEASES OF EYE AND EAR. We have had wonderful success in this department in the

past year, and have made many improvements in our facilities for treatment, operations, artificial eyes, etc. CASES TREATED BY LETTER. We have greatly improved our facilities and methods of treating cases by correspondence, and are having better success in this depart

ment than ever before.

We are fully up to the times in all the latest inventions in medical and surgical operations, appliances and instruments. Our institution is open for investiga-tion to any persons, patients or physicians. We invite all to correspond with or visit us before taking treatment elsewhere, believing that a visit or consultation will convince any intelligent person that it is to their advantage to place them-

Since this advertisement first appeared, many boasting pretenders and frauds have come and gone and many more will come and go, remembered only by their unfortunate

"A wise man investigates first and decides afterwards,
A fool decides first, then investigates."

The Omaha Medical and Surgical Institute is indorsed by the people and the press.
More capital invested, more skilled physicians employed, more modern appliances, instruments and apparatus in use, more cases treated and cured, more successful surgical operations performed, than in all other medical establishments in the West combined.

144 PAGE BOOK (Illustrated) SENT FREE TO ANY ADDRESS (SEALED).
