Wheat Heavy and Lower With the Longs D.sposing of It.

CORN SOLD AT THE OPENING.

No Unusual Stir in Provisions and Iraders of All Classes Conservative-Cattle Prices About Steady.

CHICAGO PRODUCE MARKETS.

CHICAGO, Sept. 6.- Special Telegram to THE BEE.]-The wheat market was heavy and lower to-day. The predominant feature was the selling out of 'long" wheat, the declining tendency being emphasized by a renewal of speculative offerings on a liberal scale, principally for local account. Cables were sick, and buying orders in this and other American markets were in many iustances sharply reduced. Soveral houses had buying orders for foreign account only, slightly below the market at its lowest point, however. The edge of the foreign demand for American wheat at current prices seems to have been dulled for the moment. The interior milling demand is also reported to be less urgent, but as farmers in the winter wheat growing states will be occupied in the near future in seeding, it is not expected that the forward movement of winter wheat will show any increase. On the contrary, popular expectation is the other way, and a falling off in receipts at primary winter wheat markets is counted on. The northwestern movement is decidedly on the increase, and it promises to keep at flood tide for a long time aheal, unless the weather should become so bad as to check deliveries. The temper of the trading crowd was bearish for the start to-day. December opened at 78%c, with sales immediately at 78%c. The market touched 78%c before the decline was checked. It rallied to 75%c and then turned down again, going to 78c. Johnson undertook to peg the market at 78% c and was the biggest buyer in the pit. His brokers bought all day, but they could not or did not stem the tide. Slight ratiles were frequent, but the tone of the market was heavy throughout the session. December closed at 78@78%c. May opened at 82%c, ranged at 82%(@82%c and closed at 82c September, which was far from active, opened at 765/c, ranged at 77@76% c and closed at 76% c. The net decline was about 1c. The market was active early, very dull during the middle of the session and quite active again during the last three-quarters of an hour of trading. The northwest was exceedingly bearish in its advices and sent selling orders, New York, for a wonder, seemed inclined to pull back when the decline set in here. That place soon got in line, however, and toward the last supplemented the western weakness by a budget of bear telegrams reflecting foreign bearishness. Scaboard exporters were slow, but they came in on the home stretch with even more than their customary vigor. Something of a commotion was caused by the publication of certain millers' con-clusions as to the total crop, based on increased productiveness of new wheat viewed from a manufacturer's standpoint. The theory is not new, but the results mentioned

struck the buils as extravagant. There was a general rush to sell corn at the opening. Reports from the threatened districts in the corn beit relieved the fears of the bears, for, although freezing temperabut where was reported from a few scattered points, there was said to be scarcely enough to injure the tomato vine. This was the chief cause assigned for the selling raid at the opening, and until October touched 33% of there was no desire to buy. At this point, however, a good damand from the shorts and there was no desire to buy. At this point, however, a good demand from the shorts set in, which carried the price back to about the opening quotations, but only to fall back to a still lower figure later in the day. Septem-ber delivery brought be premium over next month, principally through the efforts of Hutchinson's brokers, who were active buy-ers for the present month. The demand for each core was understally active and May

THE SPECULATIVE MARKETS. and steadily rose 13 per cent to 25. The general list followed, and the early losses general list followed, and the early losses were about made up. Among the inactive shares Texas Land Trust was especially strong and rose 1 per cent to 17. At the end of the hour Grangers were 14@14 per cent lower, except Burlington, which recovered to the closing figure last night at 108%. Trusts were dull. During the hour to noon business in the stock market was largely monopolized by St. Paul, Louisvule, Northern Pacific and Reading. The list continued irregular. During the closing hours there was heavy realizing by many and waiting by those who had already taken profits and held off for a reaction. At the close the list was irregular, with many stocks just where they closed last night, while Coal stocks showed good gains on large business. Jersey Central went up to 120%, closing at 120. Big Four lost 1g and Louisville and Lake Shore gained % dif per cent each. Northern Pacific common closed % per cent lower and preferred steady. In western stocks Burlington and Missouri Pacific alone showed gains of 14003 per cent. Delaware & Hudson gained 1 to 156, Lackawanna 16 to 150% and Reading 36 per cent to 4736. The total sales were 326,000 shares.

cash corn was moderately active and May delivery received considerable attention also, but both shared in the general down-

ward trend. The closing prices were from %c to %c under yesterday, September rest-ing at 33%c and October at 32@33%c. In oats a moderate speculative business was recorded, though at slightly lower prices. May was the favorite, with prices prices. May was the favorite, with prices about $\frac{1}{3}$ c lower, while fair quantities of long September oats came out, causing near fu-tures to sag $\frac{1}{3}$ (\underline{m}) this month touching 19c. The general weakness was due to the heaviness in corn and good weather, while the receipts and estimates for to-morrow were below recent average. No. 2 regular sold at 19c, with car lots in special locations at the customary slight premium. No. 3 white sold at 21% of for September and 22c

for October. In provisions there was no unusual stir. Traders of all classes were somwhat con-servatively inclined in their opera-tions and the day's trading was devoid of special feature. Hog receipts at western points again made a good show-ing, and as the outlook now promises a large corn crop and an abundant supply of hogs this coming year, the underlying sentiment of the trade was bearish. Pork for October is still looked after by Hutchinson and prices is still looked after by Hutchinson and prices to-day for the same averaged higher than those of yesterday. It also closed at an ad-vance of 12% c. The closings of January pork showed a decline of 7% c for January hard of 2% c for September short ribs of 2% c, for October short ribs of 10c and for January short ribs of 5c.

CHICAGO LIVE STOCK.

Chickgo, Sept. 6 .- | Special Telegram to THE BRE.] -CATTLE -Business opened slow, but prices ruled about steady. Some salesmen that had exactly stock that suited may have sold at a better advantage than yesterday, but in a general way there was very little change. The receipts were divided at 1,500 Texans. 2,000 rangers and the remainder natives. Texans sold about steady as compared with yesterday and rangers a shade petter than any day this week, and the quality was also better. Native butchers' stock was selling somewhat better on ac count of the light run of Texans and an advance on the same. The stocker and feeder trade presented no new features. Common and light little things are not wanted and best heavy are a shade higher than last week Choice to extra beeves, \$4,50(2)(4,80); medium to good steers, 1350 to 1500 lbs., \$3,80(2)(40); 1200 to 1350 lbs., \$3,40(2)(40); 950 to to 1350 lbs. \$340(a4.00; 950 to 1,200 lbs. \$300(a3.70; stockers and feeders. \$1.80(a3.10; cows. bulls and mixed. \$1.00(a3.10; bulk, \$1.75(a2.10; Texas

mixed, \$1.000c(3.10; bulk, \$1.75@2.10; Texas steers, \$2.00@3.00; cows, \$1.50@3.00. Hoos-Business was brisk and prices steady to strong on prime heavy and un-changed on packers and other classes. Rough and commou sold at \$3.70/23.75 and best packers at \$3.80@3.30. The best heavy sold at \$3.95@4.05, a few fancy heavy at \$4.10cc4.15, light sorts at \$1.45@4.50 and singe sort at \$4.70.

FINANCIAL

NEW YORK, Sept. 6 .- | Special Telegram to THE BRE. |-STOCKS-The business of Thursday in stocks showed more clearly than before that the public has begun to take hold of high-priced shares. The testimony of commission houses is to this effect also, Advocates of still higher prices feel encouraged over this feature of the market. The impression prevails that no violent reaction of any extent will take place. One assurance is the fact that each small break in prices is followed by dullness, while activity is followed by an advance. At the opening to-day there was considerable pressure upon Nouthern Pacific preferred, and Atchison and the former rose 1/2 per cent, which influence spread to the rest of the list, and the market, while active, was very feverish in the first fifteen minutes' trading, most stocks shading off slightly from first prices. The most marked feature in the list, however, was Richmond & West Point, which developed unusual activity for that stock

Best Facilities, Apparatus and Remedies for Successful Treatment of every form of Disease requiring MEDICAL or SURGICAL TREATMENT.

In this department we are especially successful. Our claims of superiority over all others are based upon the fact that this is the only medical establishment man-ufacturing surgical braces and appliances for each individual case. We have three skilled instrument makers in our employ, with improved machinery, and have all the latest inventions, as well as our own patents and improvements, the result of twenty years' experience.

ELECTRICAL TREATMENT.

The treatment of diseases by electricity has undergone great changes within the p+st few years, and electricity is now acknowledged by all schools of medicine as the great remedy in all chronic, special and nerve diseases, for nervous debility, parlysis, rheumatism, diseases of women, etc., and in many eye and ear diseases it s the most valuable of all remedies.

In order to obtain its full virtues, it is absolutely necessary to have the proper apparatus. We have lately purchased three of the largest and most complete batteries manufactured, so constructed as to give the most gentle as well as the most powerful current. Persons treated at this Institute by electricity recognize at once the difference between our expensive and complete electrical apparatus and the common, cheap batteries, in use by many physicians. Over 3,000 dollars invested in electrical apparatus.

PRIVATE, SPECIAL, NERVOUS AND BLOOD DISEASES.

We claim to be the only reliable, responsible establishment in the west making a specialty of this class of diseases. Dr. McMenamy was one of the first thorough-ly educated physicians to make a special study of this class of diseases, and his methods and inventions have been adopted by specialists in Europe and America. He is the inventor of the Clamp Compress Suspensory, acknowledged the best in use. All others are copied after his invention. By means of a simple operation, we want the there was a start but have been adopted by the start of the theory is the the start of the start painless and safe, recently brought into use, we cure many cases that have been given up as incurable by medical treatment. (Read our book to men, sent free to any address.)

We have had wonderful success in this department in the past year, and have made many improvements in our facilities for treatment, operations, artificial eyes, etc.

CASES TREATED BY LETTER.

We have greatly improved our facilities and methods of treating cases by correspondence, and are having better success in this department than ever before.

We are fully up to the times in all the latest inventions in medical and surgical operations, appliances and instruments. Our institution is open for investiga-tion to any persons, patients or physicians. We invite all to correspond with or visit us before taking treatment elsewhere, believing that a visit or consultation will convince any intelligent person that it is to their advantage to place themselves under our care.

Since this advertisement first appeared, many boasting pretenders and frauds have come and gone and many more will come and go, remembered only by their unfortunate and foolish victims.

"A wise man investigates first and decides afterwards,

A fool decides first, then investigates." The Omaha Medical and Surgical Institute is indorsed by the people and the press. More capital invested, more skilled physicians employed, more modern appliances, instru-ments and apparatus in use, more cases treated and cured, more successful surgical operations performed, than in all other medical establishments in the West combined.

144 PAGE BOOK (Illustrated) SENT FREE TO ANY ADDRESS (SEALED). CONTENTS:
