At Camp Crook.

CAMP GROUNDS, (via Fort Robinson, Neb.) Sept. 7.—[Special Telegram to THE BEE.]—Autumn weather has taken the place of the torrid heat which has prevailed at Camp George Crook, and double blankets at night and overcoats by day furnish grateful warmth. For two days past Major Whipple and Baker have been rapidly making up the necessary arrangements of the command, and this morning all had received their monthly compensation. In spite of the usual concomitants of camp life there has been absolutely no disturbance, and empty guard houses and a quiet command are witnesses to discipline and self-control.

The maneuvers in the field of the past week have included practice marches, protection of convoys, advances by brigades, as if in the face of an enemy, and several division drills, witnessed in person by General Crook. Late last evening orders were issued by General Brooks directing the command to make immediate preparations for a march to the field with seven days' rations, a minimum of baggage and an abundance of fixed ammunition. On Monday or Tuesday twenty-five hundred men will break camp and begin a week's campaign in the surrounding country. There will be three brigades operating, with cavalry, infantry and artillery engaged. Two hundred men only, including the bands, will be left to guard the camp, under the charge of Captain Garrity, of the Seventeenth infantry. The week's maneuvers in grand tactics in the open country will complete the work in the encampment.

General Crook will leave on Tuesday for the west on an extended hunting trip.

General Brockreider, inspector general, left this afternoon for the department of Dakota.

Sports at Fort Robinson.

Fort Robinson, Neb., Sept. 7.—[Special Telegram to THE BEE.]—This being a holiday, the forenoon sports began with a game of ball between the cavalry and infantry of the 10th, the latter winning. Through the energy of Lieutenant Taylor everything was in readiness. The grand stand was occupied by all the ladies of the post and the stand by the division and department commanders, the chief quartermaster of the department, Colonel Randall, Major Kenzie and W. E. Annin. Major Paddock, Major Kane and Captain Cusack were the judges and Dr. Kempson timer. Lieutenant Taylor and Dr. McDonald were the starters. The weather was beautiful, the races good and everybody excited. The afternoon session Colonel Hughes left for Omaha on this morning's train.

STRAUK OIL.

FREMONT, Neb., Sept. 7.—[Special to THE BEE.]—Information has just been received here by the officers of the Consolidated Oil and Pipe Line company that the well now being sunk by the company in the Kettle Creek district of the eastern Wyoming oil fields has struck oil. The officers and stockholders are elated over the information. Reports are also to the effect that the people of that section of the territory and down as far as Chadron are greatly excited over the discovery. This is the first successful well which has been sunk east of the Lander district. The manager, D. W. Moffatt, who is the ground superintendent of the work of sinking the well, writes that after penetrating the oil rock but ten feet the oil came to the top of the well. The fact that the company has good pumping well is already ascertained, but it is likely to prove a gusher. Mr. Moffatt says: "The well has ninety-five chances out of 100 for a 300-barrel gusher." The headquarters of the company are at Fremont, and the principal stockholders are H. J. Harrington, Charles W. Mendenhall, H. Munger, J. W. Love, L. D. Richards, E. B. Harrison, of Fremont; F. L. Foss, ex-Governor Davis and other prominent citizens. The company is expected to leave in a day or two to inspect the well.

Help manufacture.

FREMONT, Neb., Sept. 7.—[Special to THE BEE.]—The Fremont Hemp & Twine company began to-day to manufacture into tow this year's crop of hemp, and turned out as the work of the first day \$100 worth of the product. The company has 700 acres of the crop, all of which will show a magnificent yield. About 100 acres is now in a fine condition for manufacture, which is from 100 to 200 tons ahead of that in the principal hemp-growing districts of the country. The company is very highly pleased with the experiments in the cultivation and manufacture of the product, which began last year. The industry bids fair to become one of the leading ones of the eastern Wyoming oil fields, and the farmers who grow the plant and average about \$15 an acre, with less care and hard work than is required in raising corn. The tow can be turned out at a cost of 40 cents per ton, and can be sold at 4. In all probability the company will this year add a twine factory to its plant.
