Coming Champions. Manager Frank Selee and the Omaha team got in from St. Joe yesterday after the most successful trip of the season, the boys having won six straight games, three at Denver and three at St. Joe.

Manager Selee says the team never was in

finer shape, and that they are putting up a really phenomenal game of ball. There is not a sore or stiff man in the team, and they look like a gang of thoroughbred race horses. Clarke and Nichots are in exceptionally good trim, and both are pitching better than ever. Clarke did much the greater portion of the work on the late trip, which has, as a consequence, left Nichols in an extraordinarily good condition. He pitched Sunday at St. Joe, and the boys all concur in the verdict that they never beheld greater speed or better curves. There no denying it, in Clarke and ois Omaha has a team of twirlers as strong as any pair in the country, and they are worth every penny of \$10,000 to the club. Last night the team left for Sioux City for

a series of games, returning here next Fri-day for four games with the Denvers, one on Friday and Saturday and two on Sunday. The latter two will be played in the after-noon, but one admission being charged to For the opening game on Friday next, the management intend to make a little extra demonstration in honor of the team's great work. It will be ladies' day also, and a band will be engaged to give an open air concert will be engaged to give an open air concert on the grounds just previous to the game. There is no doubt but that an overwheiming crowd will turn out to welcome the champions home, and with Dave Rowe's sluggers they promise us a rattling good game.

The last games on the home grounds this season will be three transferred from Des Moines here, on September 21, 22 and 23. On the 24th the team leaves on its final trip of

the 24th the team leaves on its final trip of the season, playing the last game at Milwau-kee on Thursday, the 29th. They will then return to Omaha for a series of exhibition games, and among the clubs that will prob-ably be here within the following two weeks are the Cincinnatis and Kansas Citys, of the American association, and the Clevethe American association, and the Cleve-lands and Indianapolis, of the National

The boys have now the pennant practically won, as it would require fifteen defeats out of the nineteen games yet to play, to deprive them of this honor. So on next Friday, when witnessing the conflict between the Sox and the Mountaineers, the fans can congratulate themselves that they are looking upon the champions of 1890

#### SOLID ROCK GROWS FRISKY. A Wisconsin Paper Mill Gets a Shaking Up.

APPLETON, Wis., Sept. 9.—There was a remarkable occurrence at the mills of the Combined Locks Paper company, at Combined Locks, five miles below Appleton, Saturday. From some unknown cause there was an upheaval of the rock upon which the mills are located, throwing the mill out of plumb, cracking the great wall of stone and cement twenty feet thick and making a saddle-back several hundred feet long and six luches high in the bedrock beneath—the mill. An artesian well 200 feet away on a bluff has tle-back several hundred feet long dried up. The damage to the mill and and chinery amounts to several thousand dollars. Troops at Fort Robinson Will Practice the Art of War.

WHOLE WEEK TO BE OCCUPIED.

The Second District Congressional Convention Called For October 14 - Beatrice's New Depot Located-Nebraska News.

Busy Scenes at Camp Crook. FORT ROBINSON, Neb., Sept. 9.- [Special Telegram to Tue Ree |- It was a busy Sunday in camp. The rumble of wagons and rattle of wheels resounded all day through the garrison as supplies and ammunition for the expedition of to-day have peen collected at Camp Crook preparatory to the morning's breaking of camp. Fourteen thousand rations were added and eighty thousand rounds of ammunition issued. Forty pack mules from Cheybrayed melodiously, and twice enne that number of officers swore as stentoriously over what they call "monkey business war." The prospect of seven days in the field dodging barned wire fences and bombarding farm houses with blank cartrid ges, while the rear guards are cautioned against attacks which they do not fear, to protect the wagons for which they have no use, has cast a dampener over the spirits of an overworked camp. Still orders are orders, and officers and men busied themselves to carry out instructions to the letter. The camp is now deserted for

a week in charge of a single captain with 150 men under him. The remaining twenty odd hundred men are tramping through the dust to essay war with three skeleton brigades and the department commander as actors and a host of grangers as interested spectators. The command broke camp in three bri-

gades, the first moving at 7, the second at 9 and the third at 11 in the morning. The cavalry and artiflery were divided among the brigades as in division drills. The first brigade, General Kautz, commanding, took up its march up Soldier creek, acting as if a retreating army, with the cavalry forming a rear guard. The remaining brigades, as pursuers, followed after and will attempt to intercept and flank the first brigade if they can. After a long and dusty march all the commands will go into camp, when the programme will proba-bly be reversed on the next day, changed upon the next succeeding, metamorphosed on the fourth, amended on the fifth, and so on until the seventh.

It is not surprising that after two weeks of dust, dirt and sun the amount of enthusiasm manifested in the command of the coming week's performance is not visible to the naked eye. Pay day closed Saturday night by order of the department commander. All the stores in the immediate neigh-borhood of the camp were closed early in the evening. The result was an exodus of 600 soldiers to Crawford, where the night was made hideous until the morning stars gave place to the sun, and scores of dismantled doughboys and troopers were lugged home in wagons and hacks from the town, while the crack of revolvers and the yells of the inmates indicated that the neighboring home ranches were doing a land office business. There were a good number of hats put on with shoe horns this morning, of sore heads and of barked shins among the tramping General Crook, with a party of thirty, left this morning on a tour of observation in the Big Horn mountains. The party will direct most of their attention to observing whether the game in the country is yet extinct. Sixty mules and pack animals will form part of the caravan, and two army officers, three guests and thirty-five enlisted men, teamsters, indians, squaws and papooses, will complete the expedition. The Elkhorn Valley road kindly furnishes transportation to Casper, Wyo. Large military results are anticipated in consequence of the trip.

Set For October 14. HASTINGS, Neb., Sept. 9 .- [Special Telegram to THE BEE. |-The congressional cenral committee met in this city at 8 o'clock this evening to call a convention for the purpose of nominating a successor to James Laird. Every county in the district was represented except Gosper. There was a small show of contest over the time of holding the convention, some wanting it on September 30, others after the state convention. After some discussion the convention was called for October 14, at 5 o'clock p. m. Resolutions on the death of Congressman Laird were unanimous adopted. The several candidates for congressional honors were here in force. Laws, Norval, Jensen, Mc-Pheely and Gallman were here in person, while several other candidates were repre-

sented by friends. The Depot Located at Last. BEATRICE, Neb., Sept. 9.-[Special Tele gram to THE BEE |-The question of locating the new Kansas City & Beatrice passenger depot was definitely settled this afternoon. The point decided upon is the present site of the Rock Island depot, on South Sixth street. The Kansas City & Beatrice, and the Rock Island roads will use the building jointly. The location is not what was generally desired, but it is freely admitted that it is the best location, all things considered, that could be chosen. The location of the depot there has effectually killed the union depot scheme, although four roads enering the city parallel here not a dozen rods apart.

### THE CHEYENNE CONVENTION. A Resolution Favoring the Australian

Ballot Introduced. CHEYENNE, Wyo., Sept. 9 .- [Special Telegram to THE BEE |- The constitutional convention met at 2 o'clock this afternoon.

paid \$1,100 and Dr. Spalding moved that the report be amended to increase the salary to \$1,100. The motion was lost.

Mr. Wehrer wanted to know how much the committee proposed to pay Mr. Buman, the teacher of manual training. The report showed \$1,200, an increase of \$50 over last year's salary. Wehrer strongly objected to any increase, and said that Buman was not worth over \$500 per year. He thought a much more competent man could be employed for less money. His idea would be to employ a mechanic to have charge of this department.

Dr. Saville stated that they had taken great care to find out whether Mr. Buman was a competent man, and they had received numerous testimonials from competent judges who were of the opinion that Buman was a first class man.

It was moved to increase Buman's salary

to \$1,300, but the motion was lost.

Dr. Spalding moved to make Mrs. Robertson's saiary \$1,000. This wills lost. Dr. Spalding then moved to make all sal-iries the same as last year. Lost. Mr. McConneil then moved to amend by making Buman's salary \$1,150, the same as last year. Mr. Clark thought the board was not in position to expend any money for this purpose, and moved that it be referred to the committee on finance. The motion was lost.

The committee on claims then presented the bill of Auton Kment for \$115 for moving the buildings on the Paul street site. Or-The committee on supplies recommended

Mr. Poppleton wanted the matter de referred to the committee or

The motion of Coburn then carried.

Mr. Coburn then placed in nomination the following names: Miss Thompson, Miss Flaherty, Miss Burkitt, Miss Utzler, Miss Bigger, Miss Woolcot, Miss Hobart. Mr. Rees suggested the name of Miss omers. Misses Thompson and Flaherty were
