Messrs. Manderson, Paddock

Dorsey Confer and Adjourn. Senator Manderson, Senator Paddock and Congressman George W. E. Dorsey had a conference at the Millard hotel Monday afternoon over proposed federal appointments for Nebraska. The session was not productive of great results.

"There is nothing in the situation," said Mr. Manderson, "that can be made public. Of course we have a sort of general understanding as to recommendations for various places, but no vacancies have occurred re-cently to call for an appointment, and I don't

know when there will be any." Senator Paddock and Mr. Dorsey left the city Monday night for their respective homes. A Fremont gentleman was heard to inquire of another what he thought of Dorsey resign-

ing. "I hear some talk among the congress-man's more intimate friends," continued the inquirer, "that he may retire, but I don't take much stock in it. As I have been led to understand this matter, George Richards, chairman of the state central committee, is very anxious to be a candidate for governor, but while Dorsey is in congress he fears that his chances, because of location, are not as good as they might be if the congressman resided in some other part of the district." ' Senator Manderson was asked what he thought of the matter, and in reply said; "Why it is absurd. Dorsey has no more intention of resigning than I have. I don't think he ever thought of such a thing. I have heard that Richards is one of the num-erous gentlemen who would like to be governor, but that is no reason why Dorsey should give up his seat in congress."

NOT DEAD. Johns Hopkins University to Reopen

in October. From a student who has attended Johns Hopkins university, it was learned that the telegram sent from Baitimore Monday announcing that institution's virtual bankruptcy, contained nothing new. For two years there has been a pruning of salaries and trimming of expenses. The tuition has been raised from \$75 to \$125; the laboratory fees have been doubled, but with little re sult. The whole trouble arose from peculiar circumstances.

Johns Hopkins, the wealthy Quaker, left his fortune, at his death, in trust, for the foundation of two public institutions. To provide a hospital for his native city, he set aside a number of he set aside a number of valuable buildings and lots, wharfage property and other securities whose value property and other securities whose value aggregated \$3,500,000. To the university he left a like amount, but of this, not all ren-dered an income available. It consisted of the university grounds, his country seat, some rent-bearing property, and \$1,500,000 in B. & M. stock. To show his confidence in the latter, he requested the trustees to be-stow especial care upon it. And they did. They held it while quoted at a high premium; they held it while quoted at a high premium; they held it upon a falling market; they hold it now when it is quoted in the seventies and eighties, and they now feel a vacancy in the reasury caused by the cessation of divi-lends. And the sole reason that the stock

dends. And the sole reason that the stock does not fall lower is that such large blocks of it, held by the university and wealthy citizens of Baltimore, are kept off the mar-ket from purely private reasons. But the university is not entirely bank-rupt. At its thirteenth anniversary, the 22nd of February last, President Gilman an-nounced that a subscription of \$100,000 had been raised among the citizens of Baltimore been raised among the citizens of Baltimore to defray the running expenses. Not only that, but the great estate at Clifton, which

that, but the great estate at Chitton, which has now become a suburb of the city, has been platted and is being sold. This will turn into available funds a valuable prop-erty which was bringing no income. A gen-tleman recently gave \$20,000 for the erection of a college hall, and it is now reported that \$100,000 has been bequeathed by the will of another friend. STRUCK ILE.

The Cheering News to Stockholders in Wyoming Oil Lands.

Parties interested in the Wyoming oil fields have become very much excited within the past two days over the news of oil having been reached in the wells and stock is going up rapidly. The Central Wyoming pipe-line company, composed principally of prominent citizens, held a meeting Monday and advanced the market price of their stock

from 25 to 50 cents. On Saturday W. R. Wilson paid E. H. Horne \$8,000 for \$10,000 worth of shares, and on Monday sold them to Omaha parties for \$1,400. Horne still holds one thirtieth of the entire capital stock, which he offered to Ray Nye for \$55,000 and the latter took an option on it. The central com-pany seemed to have struck a gushing ven of oil 945 feet below the surface, and will soon be ready to commence pumping. They are now figuring on the cost of putting down a pipe line from their plant to the terminus of the Fremont, Elkhorn & Missouri Valley road, fifty miles distant, but the officials of this corporation declare that if the strike is genuine they will have their road built to the camp within thirty dats. "It is hard to tell," said Mr. Horne, "just what we will do. I am inclined to think the Standard Oil company will buy us out. They have had two agents on the ground for a month."

#### A Forger Asks For Mercy.

A movement is on foot to secure the pardon of E. D. Bradley, who is serving a term in the state penitentiary for forgery. Bradley has written a letter to Lee Estelle, who pros ecuted him, asking his aid in the movement. Bradley was sent up from Blair four years ago for forgery, and sentenced by Judge Neville to ten years in the penitentiary. His scheme was to secure the signatures of farmers in Washington and Dodge counties to orders for fruit trees and then forge notes over the signatures. He and two partners, Paul and Herry Newman, secured \$1,300 in this manner in two months. Most of the notes were cashed by Charley McMenamy, of Blair. Newman escaped punishment. Mr. Estelle will sign Bradley's application for a pardon.

#### Employment for Youth.

A meeting of the Omaha branch of the Boys and Girl's National Aid association was held in the Y. M. C. A. rooms Monday night. A constitution was adopted and it was decided to open an employment office to secure positions for deserving young boys and girls. For the present the office will be located in the rooms of Dr. Leisenring, 1608 Capitol avenue, and anyone wishing to secure the services of boys and girls can do so by ap-plying at the office. Another meeting will be held Monday evening, when every one in-terested in the work is asked to be present

There are in this city va-rious places of business, such as grocery stores, drug stores and saloons, that keep, for the sake of deceiving the public, one or two boxes of union-made goods, to ten times that number of inferior non-union-made goods.

goods. We therefore appeal to your body to insist on all practicing such nefarious schemes to desist; if they refuse, forfeit to them your patronage until such time as they show their willingness to handle none but union-made cigars, and we especially desire that each individual who has the interest of honest labor at heart, will see that every box bears the blue labor when purchasing a cigar, and goods the blue label when purchasing a cigar, and thereby strike a blow at inferior scab, coolid or prison-made goods. Hitt Hit Hart. A brief but very exciting pugilistic encounter, between H. C. Hitt and A. J. Hart, members of the legal fraternity, was witnessed yesterday morning in the court house corridor leading to Judge Shields' apartments. Monday night, while under the influence of

stale beer and other stimulants, Hitt smashed one of the windows in Hart's office over Raymond's jewelry store. This enraged Hart, who complained to his landlord about it. When Hitt and Hart met they commenced wrangling, called each other hard names and squared off. Hitt planted his large fist heavily against the butt of Hart's left ear and felled him to the floor. Jantor Lahey then rushed in and separated them, whereupon peace was restored.

## Catarrh

S a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous malady. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla - the best of all blood purifiers. The sooner you begin the better ; delay is dangerous.

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physi-cians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this troublesome complaint and com-pletely restored my health."-Jesse M. Boggs, Holman's Mills, N. C.

Boggs, Holman's Mills, N. C. "When Ayer's Sarsaparilla was rec-ommended to me for catarrh, I was in-clined to doubt its efficacy. Having tried so many remedies, with little ben-efit, I had no faith that anything would cure me. I became emaciated from loss of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was kadly deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparil'a, and re-ferred me to persons whom it had cured of catarrh. After taking half a dozen hottles of this medicine, I am convinced that the only sure way of treating this obstinate disease is through the blood." — Charles H.
