Work was commenced yesterday on the Boston street sewer from Broadway to the Indian creek bridge. A majority of the citizens are very much in favor of having the entire street sewered this fall and made ready for the coming winter.

The trial of William Niles, for brutally throttling his aunt, Mrs. Ragan, and her daughter, will take place at 2 o'clock to-day before Squier Schurz. Niles bears a hard name, and it is alleged that he broke Mrs. Ragan's nose in his latest squabble.  
Members of the fire department, complain of contractors, for failing to put out danger signals at night. While answering the alarm of fire Tuesday night several narrow escapes from accidents occurred. On Main street, while going to box 30, two reels and the patrol wagon came near colliding with building material. It is stated that several injunctions will be filed in a day or two unless proper signals are displayed.  
A tree tree is now one of the features of Haystack park. A wandering swarm took possession of one of the seven big trees, the squirrels, drove out the four-legged owners, and began storing their winter's supply of honey. They have filled the top and the surrounding area with holes in the top, and placed another box there. They are now at work filling that, and will soon be settling for the winter. The squirrels keep a respectable distance.

The Bee was in error yesterday in stating that the McClurg Crack company would close out its business here and in Omaha. The company has sold its Main street factory, as stated, simply to assist in closing up the estate of Mr. McClurg, sr., but another location will be secured near the center of the city, and the business continued as heretofore. It is pleasing to note that the company will remain here, and that the matter is settled to the satisfaction of all parties concerned to have had it verified.

## IN AND ABOUT THE BLUFFS.

### The Incendiary's Torch Makes Work For the Fire Fighters.

### AN UNPARALLELED DEMAND.

### Rev. D. M. Heimick, of Neola, Indicted for Murder in the Second Degree—General and Personal Notes.

### Fire Began at Work.

The fire bug was abroad Tuesday night and got in their despicable work in no less than four instances. The fire at Aylsworth's barn, on Pierce street, at 11:30 o'clock, was undoubtedly of incendiary origin, as no one was known to have been in the building for several hours previous to the outbreak of the fire, which was started in the middle of the barn. Before this fire was fairly extinguished another blaze broke out on the other side of the street, and a few doors to the east, in a small cottage. No one knows the origin of the fire, and it is supposed to have also been the work of an incendiary, as the flames burst from the rear of the building. It began to look as if an attempt was being made to clear out the nest of despicable thieves that have been inflicting the city since the fire of the "Rotten Row." If such had actually been the case, it is hardly probable that a single incendiary would have entered a word of protest, except to prevent the fire department from interfering in any way to save even a shingle.

But this was not the intention of the fire bugs, who were determined to burn property, regardless of its character or location. The department was again called out at about 1 o'clock by a blaze in the African Methodist church on North Main street. A large roll of cotton, saturated with oil, was burning in the center of the floor. Owing to its early discovery it was extinguished before any damage was done.

The boys had not had time to again get into the continued whistling of locomotives in the Rock Island yards before notice of another fire in the southern part of the city, and soon an alarm came in from box 30. A lively run took the department to the corner of Eighth street and Twelfth avenue, where the large storage warehouse of the Council Bluffs Fuel company was burning. The fire was almost entirely extinguished. The building is a total loss, being beyond the possibility of repair. The company had just expended about \$300 in repairs, putting on a new roof, etc. The total loss is about \$4,000, insurance \$1,200, of which \$500 is on stock and \$700 on building.

Another fact which serves to strengthen the incendiary theory, is that the fire was turned off from the mains Tuesday afternoon, and the work was completed late in the evening, and the pumping pressure turned on in the m. s., so that during all of the fire the full fire pressure was maintained. It is the general belief that the firebug knew that the water had been shut off, and took advantage of it to secure a chance to start a fire. The idea of the firebug is that smaller fires were started to give the incendiaries a good opportunity to start more disastrous fires in other parts of the city. The firemen were kept busy, and did the biggest night's work they have done for some time. During twenty-four hours there were no more fires during the preceding two months.

**Early Closing.**  
We shall close our stores at 6:30 p. m., except Saturdays and Mondays until further notice.

**Indicted for Murder.**  
The finding of a true bill by the grand jury against Rev. D. M. Heimick, of Neola, for murder in the second degree, occasioned some little surprise among the friends of that gentleman, who fondly hoped that such would not be the case. It will be remembered that Heimick killed Ed. Graham, a few days ago. The impression seemed to prevail that the jury, in view of the testimony introduced, would refuse to return an indictment, but that body preferred to let a full jury of twelve men pass upon the question of the defendant's guilt or innocence.

The court fixed the fine at \$5,000, which amount was quickly put up by his friends, and he is still enjoying his liberty. The defense asks for a speedy trial, and the court has granted it. The case will be tried in the morning. The counsel for the defense explains the finding of the indictment by saying that the jury was not prejudiced by the work at Neola, and that the opinion is given for what it is worth.

**Nailed on suspicion.**  
At an early hour yesterday morning Officers Kemp and Wood arrested young Omer Niles, and the third colored man, as they were emerging from an alley. The officers had been watching them and finally took them into custody. They gave their names as D. E. Little, Frank Hurd and Louis Barrow. The first named had a good-sized roll of wealth, gold watch and chain, a pair of gloves and a well dressed. The other two had nothing.

When arraigned before Justice Hendricks at 10 o'clock, Little pleaded guilty. He was committed to the city jail, and was in Omaha last evening, where he met his two companions and they visited this city to see the prison and look over the city. The state, Mr. Niles, was discharged.

Of the other two, Hurd said he had never been in the Bluffs before, but the police and reporters identified him as Charles Johnson, arrested July 11, with two other men for beating a board bill at the Bluff City restaurant. Barrow claimed to be from Crawford, Neb. The police are of the opinion that these three were in the city to commit the crime. They were released on condition they would leave the city.

**He Wanted a Woman.**  
A rather surprising condition of affairs developed Tuesday night, in connection with the E. E. Mayne attachment suits. It seems that there were five writs issued, amounting to about \$21,000. The leaves were made at the instance of William A. Paxton, J. A. McShane, Herman Kousner, Mr. Wiley, Mayne's former partner, and other Omaha capitalists. As stated in yesterday's Bee, the stationers seized, eight in number, including the great Osiris, the celebrated Saturn, sire of Cassini, McLeod, and a number of other noted flyers, were quarantined at Mayne's barn by the sheriff. Late at night Mayne and eight hired men, with the horses' bridles, came over from Omaha, moved up to

## HE IS WANTED IN DAKOTA.

### Three Indictments Hanging Over the Head of Kingsley's Slayer.

### AN IMPORTANT DAY IN THE TRIAL.

### Prosecution—Incorporation of the Loyal Legion—Car Shops Burned.

### The Billings Trial.

WATERLOO, Ia., Sept. 11.—[Special Telegram to The Bee.]—To-day has been quite an important one in the Billings trial. Counsel Attorney Monaghan, of Gary, Dak., made his appearance this morning. He claims that three indictments have been found against Billings, and that if he is cleared here he will at once be taken back there for trial. Gary was the place where Billings is said to have escaped from the trial. Monaghan will be one of the witnesses for the state. To-day the state undertook to prove that Billings had the revolver which was found near Kingsley's body. The witness was a young man named Biane. He had been a witness in the trial of the state at which time he did not mention the revolver. To-day he swore that before the killing of Kingsley he had cleared out the revolver, and found a revolver lying upon a shelf. Billings told him not to touch it, as he was going to have it repaired. He noticed there was a hole in the wall, and when shown the one found near Kingsley he identified it as Billings'. He also said that he was in a meat market across the street the night before the killing, and heard the late shot fired. He then went to the middle of the street and saw Theodore Pockels come down the stairs, and while coming down he shot. Pockels was on the street before Billings came down. This is a direct contradiction to Pockels' testimony. Witnesses were produced to prove that Billings had made threats against Kingsley, but in one instance the testimony was entirely different from that given at the former trial. The only other point brought out was by Major R. H. Sherman, brother of General Sherman, that a friend told him that he heard Billings cry out, "I am shot," very soon after he heard Kingsley fall. He conveyed the impression that Billings was on his knees, going down stairs when he made this outcry.

**The Mining Industry.**  
Des Moines, Ia., Sept. 10.—[Special Telegram to The Bee.]—The three mine inspectors for Iowa filed with the governor today their annual report. It shows that the mining interests of Iowa have reached considerable magnitude. The total output of coal during the fiscal year ending June 30, was 3,655,046 tons, valued at \$5,349,533. The average number of persons employed in the mining industry, both above and below ground, is 12,497. The amount paid for mining during the year was \$1,155,365. There were thirty-five fatal accidents during the year, destroying that number of lives.

**Loyal Legion Incorporation.**  
Des Moines, Ia., Sept. 11.—[Special Telegram to The Bee.]—The military order of the Loyal Legion commandery of Iowa, filed articles of incorporation today. The Iowa commandery was organized two years ago, but has not been active since. It includes some of the leading citizens of the state. Among the officers whose names are signed to the articles of incorporation are Major R. H. Sherman, brother of General Sherman; General Francis M. Drake, ex-Governor; Buren R. Sherman, State Treasurer; and Rev. Dr. A. L. Felt, pastor of the First Baptist church.

**The Railroad Commissioners.**  
Des Moines, Ia., Sept. 11.—[Special Telegram to The Bee.]—Representatives of the Chicago & Northwestern and the Sioux City & Northern appeared before the railroad commissioners today to argue the matter of a grade crossing near Maurice, Sioux county. Sioux City was represented by Senator Dow, Captain Goss and Mr. Garrison, of that place. Considerable testimony was taken both for and against a grade crossing, but the commissioners deferred their decision.

**Industrial School Reports.**  
Des Moines, Ia., Sept. 11.—[Special Telegram to The Bee.]—The September report of the Iowa industrial school was filed with the governor today. It shows the average number of inmates to have been 478, divided as follows: One hundred and thirty-seven boys at the Eldora school, and 111 girls at the Mitchellville school. The auditor issued a warrant for \$4,051 for the regular support of the school, and \$1,987.50 for improvements and repairs that have been made.

**Car Shops Burned.**  
GRAND JUNCTION, Ia., Sept. 11.—[Special Telegram to The Bee.]—The Rock Island car repair shops at this place burned to the ground at 2 o'clock this morning. Two box cars and a number of tool chests belonging to the carpenters were lost. The cause of the fire was an old one. The origin of the fire is unknown.

**The Veterans Assembling.**  
Boone, Ia., Sept. 11.—[Special Telegram to The Bee.]—The central Iowa veterans are coming in fast and thick, and the city is doing a good business. The veterans are coming in from all over the state, and are expected to stay here for some time. The city is doing a good business, and the veterans are expected to stay here for some time.

**Treasurers' Profits.**  
Chicago Will Make an Attempt to Cure Them.  
Chicago, Sept. 11.—[Special Telegram to The Bee.]—Chicago officials, who are proverbially noted for the promptness with which they look the stable door after the horse is stolen, are preparing for a repetition of these ludicrous proceedings. It has been the custom of the city treasurer for many years to realize immense profits out of the interest paid by the banks upon the city funds. It has always been a disputed question as to whether the city treasurer was responsible for the funds, or the city which was the possessor of the funds. The city treasurer has just been indicted for the same reason. The city treasurer has just been indicted for the same reason.

**A Transit House Episode.**  
"Prof. Lau Lau and wife, Chicago," was written last Saturday on the Transit House register by a prepossessing young man, accompanied by a comely young woman. His baggage did not come with them, and on the strength of the receiving the next morning he did not come to the hotel. Monday the baggage failed to appear and the proprietors began their inquiries. Prof. Lau Lau was also present at the hotel, and he never showed up. A guest of the hotel seeing the young woman recognized her.

**For Seeksiness.**  
Use Horford's Acid Phosphate.  
Dr. W. W. Blackman, Brooklyn, N. Y., says: "I am very much pleased with the results of the use of Horford's Acid Phosphate. Several cases have been brought to my attention where it afforded prompt relief."

**Children Cry for Pitcher's Castoria.**  
When Baby was sick, we gave her Castoria.  
When she was a Child, she cried for Castoria.  
When she became a Woman, she clung to Castoria.  
When she had Children, she gave them Castoria.

## A HARDWARE TRUST.

### Dealers Form a Combination to Put Up Prices.

### Pittsburg, Pa., Sept. 11.—[Special Telegram to The Bee.]—Another trust has been added to the list and people who have not yet had in a full stock of hardware will probably find before winter is over that such articles have slid upward a notch or two in the scale of prices. A number of wholesale hardware men from all the larger cities of the United States had a secret meeting at the Hotel Duquesne yesterday. They were all men as oysters and positively refused to divulge one word about their proceedings, but they would not deny that trust had been talked of. Instead, one gentleman who was present throughout the meeting intimated to a reporter that a trust had really been formed.

### Swallowed by English Capital.

### HOKENDAGUA, Pa., Sept. 11.—At the annual meeting yesterday of the stockholders of the Thomas Iron company, a proposition by an English syndicate to sell the company's plant, real estate, furnaces, railroads, mines and leases, for \$3,500,000 was accepted unanimously.

Is a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous malady. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla—the best of all blood purifiers. The sooner you begin the better; delay is dangerous.

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physicians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this troublesome complaint, and completely restored my health."—Jesse M. Boggs, Holman's Mills, N. C.

"When Ayer's Sarsaparilla was recommended to me for catarrh, I was inclined to doubt its efficacy. Having no other remedy, with little belief, I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend advised me to try Ayer's Sarsaparilla, and referred me to persons whom it had cured of catarrh. After taking half a dozen bottles of this medicine, I am convinced that the only sure way of treating this obstinate disease is through the blood."—Charles H. Maloney, 115 River st., Lowell, Mass.
