

TANNER'S ORDERS REVERSED.

Acting Commissioner Smith Reverses Two Rulings.

DEMOCRATS WILL FILIBUSTER.

Barum on the Winter Outlook in Congress—Mrs. Logan Rides the Idea of Making Her Pension Commissioner.

WASHINGTON, Sept. 17.—(Special Telegram to THE BEE.)—The Democratic caucus in the House of Representatives today reversed the order directing that pensioners receiving a less rate than \$4 per month can, upon application, be examined for re-rating.

The Evening Star says on the subject: The acting commissioner, when asked to-day about the reversal of these orders of Mr. Tanner, refused to say whether he had done so or not. A reporter learned from other sources that the orders had been signed by Mr. Smith. The latter, however, it is understood, has the fear of Mr. Tanner's fate before his eyes and he therefore deems it the part of wisdom to be silent.

Commenting on the reversal of these orders, which is considered an important step, this evening's Capital says: Just why the evidence of an officer should possess double the value of that of a private soldier is not clear to the mind of the plain average taxpayer. The privates who enlisted in the war of the rebellion were not the same and both all who might get in the army in peace times, but were the flower of the land. It is not a maxim at all, generally, that shoulder straps bring a truthful tongue. It is held by the ordinary citizen that the man who carried a musket in the war of the rebellion was a man who carried a sword, and no distinction is made between the evidence of an ex-lieutenant and an ex-private in the courts of justice.

Several congressmen arrived to-day. Among them are Judge Kelly and General Heald, of Pennsylvania; Snyder, of West Virginia; and Catchings, of Mississippi. Catchings is getting up his brief in the election contest brought against him. Most of the members now in Washington have come to secure quarters for the session and to place their children in school.

Mr. Barum, the democratic representative of the Indianapolis district, has been several days, and talking about the outlook for legislation this winter he said this morning: "I think there will be nothing much done. It is a very gloomy outlook, but I believe time from the start. We have a lot to worry the republicans about and we will be very apt to make it impossible for them to do anything they will do anything with the tariff."

"How about the rules?" "They cannot touch the rules so as to avoid the constitutional provision that a majority of all the votes shall be necessary to constitute a quorum, and with but one or at least two members present all they can do is to adjourn. They cannot hope to have enough members present at any time to carry through any measure. Of course, they cannot do anything with the organization of the house, but they cannot do anything that our party is determined they shall not do."

Mr. Barum has a pessimistic view of a majority of the democrats in the house. It is the intention to filibuster against organization, the adoption of a new constitution, every step taken by republicans having in view the legislation demanded by the country. Then in the next campaign the democrats will be expected to fulfill the promise made at Chicago in 1888.

MRS. LOGAN NOT A CANDIDATE. An enthusiastic admirer of the late General John A. Logan, who has been in the city yesterday that Mrs. Logan would make a good commissioner of pensions. The suggestion was reported so many times that she was seriously displeased. Several of her friends to say despite the impossibility of a woman holding the position. A reporter who called on Mrs. Logan and broached the subject was told this:

"I would not consider such an idea for a moment and do not think that the president in any way would be likely to consent to think of it for a moment even if the place were proffered me, which is absurdly improbable. I think the office of commissioner of pensions is a position of great importance. In my opinion it requires a man of marked ability to fill it. I do not think there will be any difficulty in finding good men for the place."

FLOWING IN WASHINGTON. Rain has fallen almost constantly in the district of Columbia since Monday night and nights. The water courses are not greatly swollen, on account of the long continued dry weather during the summer and autumn.

A novelty was introduced to-day in the work of re-paving the Pennsylvania avenue for the Knickerbocker hotel. It was, of course, the old asphalt had to be torn up first, and to expedite matters the paving was done by steam instead of with four big horses, as before. The contractor used a traction engine, and the way it ripped up the asphalt amazed the thousands who stood about and watched the work. A long heavy chain was fastened to the back end of the traction engine, and a big pulley was hitched to the other end of the chain. Then a hole was bored in the asphalt surface, the point of the pulley put in it, and the engine began to puff and roll up furrows of asphalt.

A CAUSTIC CONTROVERSY. The civil service reform controversy which has been going on for some time through the columns of the Washington Post between ex-Pensioner General Frank Hatton and Civil Service Commissioner Lyman, to-day assumed a caustic tone. Mr. Lyman has always been credited with framing the original civil service law, and having been at the head of the commission from its inception, is held responsible for most things that have happened. He has given prominence to-day to these observations along with others of a similar character:

"When you were the only commissioner after O'Leary and Edwards had been removed, when you alone were spreading your majestic wings, and in solitude trying to cover the reform nest, you did not promote your brother-in-law, one Campbell, from a \$1,000 place without requiring him to pass a civil service examination. Please explain to me, if you can, how you make the mistake of thinking it is none of the public's business? One greater than you once said, 'I will not allow any public man to be kind enough to tell me there is a single clerk now employed with your commission who was required to pass the same tests which your august body insists shall be applied to clerks in other departments.'"

ARMY MATTER.

The leave of absence granted Captain Charles Potter, Eighth infantry, August 21, Department of the Platte, is extended two months on surgeon's certificate of disability.

Private William Martin, Company F, Seventh infantry, now at Fort B. A. Husell, Wyoming, Private George W. Abbott, light battery, Fifth artillery, now with his battery, and Private Henry White, troop L, Ninth cavalry are discharged from the army.

MISCELLANEOUS.

Commissioner Tanner has been called upon by the state committee of Ohio to go to that state to make campaign speeches for Foraker. He has accepted the honor.

Washington claims to have made more improvements per capita during the past year than any city east of the Mississippi river. If the census is correct, the national capital is being rapidly metamorphosed. Building Inspector Estwistle to-day submitted to the commissioner his report for the year. It shows that during the year there were 1,723 brick dwellings erected at a value of \$4,310,350, 270 frame dwellings costing \$769,000, and 1,000 other dwellings at a cost of \$54,000. In all there were 4,043 permits of all kinds issued at a total value of \$9,105,715. The fees from public and private contracts for the year were \$1,400,000, and from water privileges to \$2,083. During the year there were 2,011 dwellings erected, and 2,192 buildings of all classes. There are 212 dwellings and 22 additions and repairs in excess, but in value \$104,275 less than the preceding year.

Republicans are preparing for a determined effort to elect a republican successor to the late S. S. Cox in the Ninth New York congressional district. They are confident that the republican party will be able to put up rival candidates who can elect their man.

Following Nebraska postmasters were appointed: Bladen, Webster county, James Burdette; Steele City, Jefferson county, D. A. Huggins; Leeb, Lincoln county, J. B. Ebbitt; George R. Holt, Burlington, Iowa, is in the city.

Mr. Padlock went to New York to-day. He expects to be at his home in Beatrice in a few days.

PERLY S. HEATH.

THE ODD FELLOWS.

The proposition to lower the age of eligibility to 18. The most important matter considered to-day by the sovereign grand lodge of Odd Fellows was the proposition to change the age of eligibility to membership from twenty-one to eighteen. After discussion it was defeated. Representative Crocker, of Illinois, offered a resolution authorizing lodges in cities of 35,000 or more population to assess on their members a fee of one cent, to be used to keep up the employment bureau and public libraries organized in the order. It was referred to the committee on resolutions.

The first of the completed drills of the patriarchs militant was held this afternoon. The committee of judges consisted of officers of the state troops of patriarchs, military and civil. The drill was held at the Catonsville Occidental No. 1 of Chicago and Monumental No. 30 of Baltimore went through the drill. The day closed with a dress parade.

BOSTON'S POLICE SCARED.

Sluggish Sullivan on a Big Drunk and Smashing Things. Boston, Sept. 17.—(Special Telegram to THE BEE.)—John L. Sullivan has been on a tear again. The slizzer seems to have both courage and police courage. He was seen, feeling secure from the acts of the police. Such things in any western or southern city or town would lead to his being shot by the victim. Yesterday he got away from his friends and showed up alone in Clark's hotel on Tremont street, went into the barber shop demanded that whisky be served him in the chair of the bootblack, and became so drunk that he fell into the water. He was rescued by a policeman, threw one man out of his seat, caught two others and violently bumped them together, and when an alarm for the police was given he ran into the street, and the man who had been in the chair, cleaned out the office and compelled the bar to be hastily closed up and deserted. Efforts to prevent the slizzer from leaving the city were finally got away by his companions. A great crowd blocked the street, but not a man was allowed to arrest the fighter.

A DEFAULTER.

William Webb, Secretary of Montana, Under Arrest. St. Paul, Sept. 17.—(Special Telegram to THE BEE.)—William B. Webb was arrested to-day on a warrant sworn out by the United States district attorney charging him with embezzling funds of the United States while acting as secretary of the territory. Webb was appointed secretary of Montana in 1885 by President Cleveland and held the office until removed by President Harrison last April. An examination of Webb's books after he was arrested, showed a deficit of \$4,000, and it is estimated that the total amount of his embezzlement will amount to \$5,000 or \$5,000. Webb appeared this afternoon before the United States commissioner and was placed under \$5,000 bonds to appear on October 4.

HEIRS TO FIVE MILLIONS.

Ten Colored People Who May Yet Roll in Luxury. PITTSBURGH, Sept. 17.—(Special Telegram to THE BEE.)—A special from Lima, O., says: Hank Morville Talbot, a well known colored barber of this city is thought to be one of the missing heirs to a fortune of \$5,000,000. The property was originally owned by his father and comes from the estate of the late John Talbot, of Indiana, who died in 1850. Talbot, Ind., is located by his employer and counsel to prove his claims. The other heirs, ten children in all, have already employed ex-Congressman Hill, of Delaware, O., to prosecute their claims.

WRATH OF THE CAMP TRADER.

Depleted of His Stores He Threatens Vengeance Dire.

GOVERNOR THAYER RODE AHEAD.

But the War Horse of Grant is no Respector of Persons and Refused to Accompany Him.

At Camp Grant. BEATRICE, Sept. 17.—(Special Telegram to THE BEE.)—Camp Grant still maintains the even tenor of its way and the brave militia boys are holding their level. The ground here is valuable and while Camp Grant is supposed to contain most of the soldiers, there is a large number of the blue coat boys in the streets of Beatrice. A patrol guard was parading the streets last evening and to-day to gather such as were out on French leave.

Some evil genius has succeeded in inoculating the Nebraska volunteer with the conviction that anything in the provender line that is not under lock and key, inside the camp limits is the legitimate prey for the soldier, if he can get it. Hence the camp trader's store and refreshment stand had to suffer. A pile of two or three hundred water melons has mysteriously dwindled down to comparative nothingness. Canned "vittles" have disappeared from the shelves of the sutler store, and there is no record of any supplies being received there. The trader threatens to sue the state for a million or more dollars' damage, and let the camp starve to death if he is not paid. The trader is a very elderly ounce of sardine, salmon, sardines, eggs, elder or tobacco. There is an insupportable sadness about the case and General Colby is considering the propriety of calling a council of war to be composed exclusively of chaplains to see what can be done about the matter.

There is no dearth of non-commissioned officers in the camp. In fact, there are more chevrons than chevrons. The insignia of rank include everything in the non-commissioned line, from a lance-corporal's bunkie to an officer's "dog-rover." Some of the chevrons are entirely new to old soldiers, and some are old soldiers' chevrons. A warrant officer's insignia at least. Sixteen different non-commissioned officers' chevrons were counted to-day. The trader, however, where ten different ranks of non-commissioned officers have only been known heretofore and authorized by the United States army.

General orders No. 3 was issued to-day, and bears specifically on the competition drill which occurred at the military school. The officers are announced as the judges of the drill: Colonel Aaron S. Dazert, United States army; Captain C. M. Murdoch, Co. Light artillery; Captain J. H. Culver, troop A, cavalry.

The second regiment had serenaded Mrs. Senator Padlock at her residence on the evening last. The serenaders were entertained by the distinguished lady. The grand parade and review this afternoon was a great success. Governor Thayer marched at the head of the procession. He was billeted to ride Linden Tree, General Colby's horse, but gave it up after one or two attempts to mount the animal, and fell upon a stallion horse that had more respect for the Nebraska governor. The governor rode to the fair at Imperial.

Lieutenant Colonel McCann, of the second regiment, has tendered his resignation, which is accepted by the governor, and Adjutant General Cole has just issued an order directing the resignation of the resigning officers to choose Colonel McCann's successor.

Political Probabilities.

GRANT, Neb., Sept. 17.—(Special to THE BEE.)—Mr. Laws and Mr. Harlan seem to be in greatest favor for congress and the probabilities are that one of these two will be successful. Mr. Harlan is making a personal canvass of the district. He was seen by your correspondent Saturday and expressed himself as being very satisfied with the outlook. He is very strong in his own neighborhood, York county, whose delegation will be for him solid and to the last minute. In adjoining counties his chances are said to be better than those of Mr. Laws. He is especially strong in Chase, Hayes, Frontier and Gosper counties, and especially in the latter.

GRANT, Neb., Sept. 17.—(Special to THE BEE.)—The district of York county, which has a great many personal friends in this section of the state who are interesting themselves in his success, who will make a gallant fight for his success.

From Friend.

FRIEND, Neb., Sept. 17.—(Special to THE BEE.)—The district of York county, which has a great many personal friends in this section of the state who are interesting themselves in his success, who will make a gallant fight for his success.

A Bride is Coming.

PENDER, Neb., Sept. 17.—(Special to THE BEE.)—Herman Froese, a son of the late H. P. Froese, and Miss Stella Graves, daughter of T. H. Graves, and sister of Guy Graves, county attorney of this county, will be married to-morrow morning at 8 o'clock, and will leave on the 10 o'clock train for Omaha.

Good Races Expected.

AINSWORTH, Neb., Sept. 17.—(Special Telegram to THE BEE.)—Brown county fair opens to-morrow. The weather is fine and an immense crowd is expected. There will be some fine racing.

A FROST PREDICTED.

Corn Thought to Be Out of Danger in Most Localities. CHICAGO, Sept. 17.—The local signal bureau has received a dispatch from the headquarters in Washington saying frost will occur to-night in Wisconsin, Illinois, Indiana, northwestern Kentucky and northern Missouri.

How It Would Affect Corn.

CHICAGO, Sept. 17.—The editor of the Farmers' Review, being interviewed this evening as to what damage to the corn crop would probably follow frost at this date, one having been predicted by the signal service, gave it as his opinion that as a general thing the crop is out of the way of frost. The frost would undoubtedly seriously injure the late planted corn of the low lands, where a superabundance of moisture tends to make it rank and green. In northern Wisconsin, where drought has prevailed, the corn is already past and past injury. In the dairy districts of the state it is probable a good deal of damage will be done. In Illinois and Indiana corn is usually cut early out of danger, except along the rivers on what are known as bottom lands. In northwestern Kentucky, where Missouri is, the frost will probably not do any material damage. The tomato crop will in many localities be severely damaged and a frost of any severity come at this date.

Piano and Organ Men Organize.

NEW YORK, Sept. 17.—A convention of the prominent piano and organ manufacturers of the United States was held this afternoon for the purpose of forming a protective organization. A committee was appointed to consider and perfect an organization and induce members to join. The convention then adjourned until October 3.

Favor Woman Suffrage.

CHERRY, Neb., Sept. 17.—In the constitutional convention the suffrage committee reported in favor of universal suffrage. Campbell, of Laramie, submitted an amendment that the woman suffrage plank be submitted separately to a vote of the people. This was lost.

THE WESTERN ROADS AHEAD.

Prorating Via Chicago an Established Fact Today.

A BITTER CONTROVERSY ENDED.

The B. & N. Gives Notice That It Has Secured the Co-operation of the Eastern Lines in Publishing a Through Tariff.

A Great Reduction. CHICAGO, Ill., Sept. 17.—(Special Telegram to THE BEE.)—Prorating via Chicago will be an established fact to-morrow morning. This subject has been the cause of one of the bitterest contentions ever known between the eastern and western roads, and the western roads have won.

As foretold in these dispatches yesterday, the Burlington and Northern this morning gave notice that it had secured the co-operation of the eastern lines in publishing a through tariff to St. Paul. From New York the Erie Dispatch, running over the Erie and Chicago & Atlantic, proclaims with it. The Erie Dispatch receives as its proportion its full tariff rate to Chicago, and the Burlington & Northern takes the traffic to St. Paul on a basis of 15 cents a 100 first class. As already shown, this is a reduction in the existing rate of 75 per cent.

From Cincinnati the Burlington & Northern also issues a through tariff applying over the Cincinnati, Hamilton, Dayton and the Missouri & Chicago. For traffic received from this source the Burlington & Northern's proportion is 30 cents a hundred, but the other two roads also receive their tariff over a higher rate. Resolutions were passed by the association this morning. As the 75 per cent cut in the through rate is a decrease of 33 1/3 per cent cut on local business, the other roads concluded to take the tail with the hide and also quote the reduced through rate. Application for permission to do so was made to Chairman Fairbairn by all the roads and it is expected that consent will be given to-morrow.

Through rates via Chicago is detrimental to her, as it reduces her in many respects to the level of a way station. The Chicago committee of the Central Traffic Association will extend the protesting to the Wisconsin lines, however, the following resolution being passed to-day: "Resolved, That the Wisconsin lines already have established divisions are not willing to agree to any reduction in those rates which will result in a loss to them. It is not a tariff to this territory must not have less than the divisions now effect via the lines which have established divisions. It is resolved that the chairman transmit to Chairman Keyes the objections made to the proposition made by the Wisconsin lines as a proof of the proposed divisions of each individual eastern road and that each road announce to Chairman Shaw what new territory they desire to include in the new tariff."

An Immense Mortgage. NEW YORK, Sept. 17.—The official announcement of the details of the new financial scheme of the Northern Pacific railroad was made to-day. It provides for a blanket mortgage of \$100,000,000, which the branch line bonds will require \$30,000,000, tributary road \$100,000,000 and the total settlement \$4,000,000. The most important feature is a provision to pay a cash dividend of 1 per cent on preferred stock on January 1, 1890, and a dividend of 2 per cent thereafter at the rate of 1 per cent per quarter.

The Union Pacific Statement. BOSTON, Sept. 17.—The statement of the Union Pacific road for the seven months ended July 31 shows the gross earnings to be \$20,012,421, net \$7,016,257. This is a decrease from last year of \$4,913,399 in gross earnings and \$1,717,100 in net earnings. The net profit for July shows an increase in the net earnings of \$273,324.

Withdrawal of Its Threat.

CHICAGO, Sept. 17.—At the Western association freight meeting here to-day the Iowa Central recalled its threat to adopt the new basis of rates from Peoria to the northwest via Marshalltown, and will maintain the present rates on that route. The situation and obligates the necessity of a reduction in the Iowa rates. The Chicago, St. Paul & Kansas City will be compelled to apply the 40 cent rate on that route, and a lower rate will keep out of Iowa with reduced rates, so the local rates in that state need not be reduced.

THE IVES TRIAL.

Woodruff, the Private Secretary, Has a Convenient Memory. NEW YORK, Sept. 17.—In the Ives case to-day Woodruff testified that after he had been with Ives about five months the latter told him he was a partner in the business. He understood he was to get 15 per cent of the profits. All he had to do was "to obey Mr. Ives."

THE COUNCIL MEET.

NEBRASKA CITY, Neb., Sept. 17.—(Special Telegram to THE BEE.)—Some time ago the city council refused the street company permission to lay tracks on one side of the Fifteenth street bridge and the track was put where ordered by the council. The latter then changed its mind and ordered the company to remove the tracks where they were laid, and the city ordered the track torn up, which was done. The company to-day brought suit against the city for \$1000 damages.

THE COUNCIL MEET.

THE MEXICAN CONGRESS.

President Diaz Addresses the Assembled Deputies and Senators.

CITY OF MEXICO, Sept. 17.—The chamber of deputies was assembled to-day evening in a hall of the city government in witnessing the opening of the Mexican congress. President Diaz was announced to have arisen to their feet and remained standing until he had been conducted to the speaker's platform and began his address to the deputies and senators. The president spoke in a grateful manner of the order and tranquility existing throughout the land, and stated that the amicable relations with foreign countries had not been altered. He mentioned the treaty concluded February 18, 1889, extending for a five years term, for a new delimitation of the boundary line between Mexico and the United States west of the Rio Bravo, which had been to Washington for exchange of ratification. Invitations to the president in the international conference an assembly of representatives of the nations of the American continent at Washington in October had been accepted by the delegates appointed. He went on to say: "The delay experienced in the administration of justice in some places in Texas, gave rise to just complaints from our countrymen resident in that state against the neighboring republic. In virtue of this I have recommended to the president of the United States that he should take steps necessary to remove these ills."

The president devoted considerable space in his message to showing the growth of the postal service and pointing out its needs, and closed with a financial statement showing marked improvement in the treasury. The anniversary of Mexico's independence was celebrated throughout the country, seven thousand regulars and rural guards taking part in the pageant.

A COLORED CONFERENCE.

A Fair Share of the Offices and Equality Before the Law Demanded. BOSTON, Sept. 17.—A body of colored men met to-day pursuant to a call inviting a conference between the leading colored men to assist in the organization of a movement to secure from the "political party of our affiliation fair shares in its responsibilities, opportunities and honors." Resolutions were adopted declaring that they ask for no favors that are withheld from other citizens or to which they are not entitled, but "we do ask for that civil and political homogeneity which invades no man's private social life, and which is the foundation of national unity. We do not believe that all our grievances can be cured by politics. We counsel against the formation of a political party in lieu of entering other fields of industry. We emphasize the importance of acquiring homes and personal property, and urge the people to do so. We urge the people to defend the schools and churches, and defendless men are not prevented by the strong arm of the law, the patience, long suffering and forbearance characteristic of the colored man, from striking out in self-defense. We pray to be permitted to live within the law, but if we are driven to do otherwise the blame will be on the law."

A permanent committee was appointed to carry out the purpose outlined in the call.

WOOL MANUFACTURERS MEET.

They Will Probably Ask for More Tariff Protection. BOSTON, Sept. 17.—(Special Telegram to THE BEE.)—The woolen manufacturing industry is in distress. A high tariff on raw wool has kept the domestic clip at such a high price that the mills are run at a dead loss that buy at such figures and try to compete with foreign manufacturers. The National Association of Wool Manufacturers, representing the industry throughout the United States, with some prominent manufacturers invited to consult, met here in accordance with a circular issued August 16, to consider what action can be taken towards securing relief through legislation. The meeting was well advertised although supposed to be secret. The gathering was called to order by President Whitman this morning.

The members read papers which narrowed things down to two alternatives, viz: A lower tariff on raw wool, and a lower tariff on the finished goods. Both sides were eagerly debated. The tariff smashes held that the country would not submit to higher prices for cloth, and the protectionists declared that a lower tariff on wool would ruin the native industry. The matter was finally referred to a sub-committee to report on the matter. A number of the wool growers' association and drew up suitable resolutions to congress, which may be taken to imply that the wool growers are of the opinion that the tariff will be increased on cloth.

THERE'S A FORTUNE IN IT.

Josiah Heimer Wants Some Valuable Chicago Realty. CHICAGO, Sept. 15.—(Special Telegram to THE BEE.)—Josiah H. Heimer, of Lockport, R. I., began suit in the circuit court against Adam S. Glos, to redeem some Chicago property which was sold for taxes in 1878. Mr. Heimer loses his right to a redemption of the land upon various grounds. The land was sold by the county for taxes of the state, and the county was not a party to the sale in 1878 and 1874. Glos purchased under the tax sale. Heimer says that most of the sum for which the sale was made was for city taxes of 1875. Heimer says that the sale was illegal by the supreme court. He thinks he is therefore entitled to be allowed to redeem the property, and a decree restoring the land to him on the basis of the alleged tax sales. The property in question has in ten years grown to be of immense value.

A Pennsylvania Dam Breaks.

WESTCHESTER, Pa., Sept. 17.—The break of the large dam located at Highborough burst this morning and a tremendous amount of water rushed down the Hardyville river, overflowing the banks and sweeping everything before it. A large bridge below the dam was swept away and several frame buildings carried down to Coatesville. Several of the streets of Coatesville are four feet under water. So far as is known no lives have been lost. In places the meadows are covered to a depth of eight and ten feet.

The Crown Jury Hunt.

CHICAGO, Sept. 17.—The Crown trial was resumed this evening. At the time of adjournment this morning there were four men in the box against whom no legal disqualifications have been discovered and who had been tendered to the state by the defense. The prosecution asked the judge to sweep to consider these persons and it is not improbable that some or even all of them may be ultimately sworn in.

Mrs. Hamilton Still Sick.

MAYS LANDING, Sept. 17.—(Special Telegram to THE BEE.)—Mrs. Hamilton's condition is not improved. The president of the board of directors of the Erie Dispatch, who is in charge of the case, says that the case is not improved. The president of the board of directors of the Erie Dispatch, who is in charge of the case, says that the case is not improved.
