

THE DAILY BEE.

E. ROSEWATER, Editor.

PUBLISHED EVERY MORNING.

TERMS OF SUBSCRIPTION. Daily (Morning Edition) including Sunday...

OFFICES. Omaha Office, Bee Building, N. W. Corner...

CORRESPONDENCE. All communications relating to news and editorial matter should be addressed to the Editor of the Bee.

BUSINESS LETTERS. All business letters and remittances should be addressed to the Business Manager of the Bee.

The Bee Publishing Company, Proprietors, 215 Building, Park and Seventeenth Streets.

The Bee on the Trains. There is no excuse for failure to get the Bee on the train.

THE DAILY BEE. Sworn Statement of Circulation.

Table with 2 columns: Date and Circulation figures. Includes weekly, monthly, and average circulation data.

Sworn to before me and subscribed to in my presence this 14th day of September, A. D. 1892.

State of Nebraska, County of Douglas, ss. George H. Teschke, being duly sworn, deposes and says that he is secretary of The Bee Publishing Company...

It LOOKS as if the county fathers won't miss the money before the till runs dry.

The Tenth street viaduct scheme promises to rival the Cronin affair in length, breadth and uselessness.

The senatorial committee on irrigation has reached Denver. Denver is a mighty good place for an irrigation committee to meet in.

The proper width of the proposed Tenth street viaduct is still exhausting all the mental resources of the city council committee.

Who would not be a policeman in Omaha so long as there is a chance to sleep in a silk lined coach at the exposition, with a reprieve as the only penalty.

The new capitol at Topeka, Kan., is about to take a tumble. This, together with the alarming decrease in the state's population, calls for the immediate attention of Hood St. John.

THE new registration law provides that the city council shall, during September of each year, appoint three supervisors of registration in every ward or precinct.

THERE is a scheme on foot to locate Swedish colonies on the abandoned farms of Vermont. If the city lands of the Green Mountain state can be made productive by anybody the Swedes are the people to do it.

IN A county campaign the early bird does not always masticate the worm. The number of candidates already abroad insures a blighting, blistering frost in October. The wise man reserves his strength for the home stretch.

IT is rumored that Illinois is likely to present a presidential candidate in 1892. What and hold the world's fair the same year? Isn't the Garden City and its state getting a large amount of hay down without an assurance that it will get it stacked safely?

DURING the extended preliminaries of the Cronin trial the question presents itself, "Is the American jury system a failure?" One fact seems to be getting abroad into the more clearly discernible foreground, and that is that the Chicago system of securing an American jury comes pretty near not being a success.

BISMARCK will soon be compelled to recall his embassy to the American hog, whom he has treated as a personal enemy. Twelve Germans have just died and eighteen others are lying at the point of death from eating diseased Prussian pork. The American hog is a nice, clean, corn-fed animal.

WHAT irrigation will do for the arid lands of the west is well illustrated in the case of Pasadena, Cal. Fifteen years ago land sold for seven dollars an acre which now brings from five hundred to one thousand dollars an acre for fruit raising purposes.

THERE is a painful scarcity of first-class timber to fill Judge Groff's shoes. A raft of names are mentioned in connection with the vacancy, and not a few alleged lawyers are ready to sacrifice themselves for the good of their creditors, but their appointment would only increase the vacancy and seriously embarrass the dispatch of business in an already crowded court.

THE German government has purchased the exclusive right to make and use the smokeless powder of its Austrian inventor—Karl Falkenstein. The invention has been thoroughly tested by experts and is pronounced a complete success. That old standard phrase which says something about the smoke of the battle clearing away may some day become obsolete.

THE CAMPAIGN IN MONTANA.

Our latest advices from Montana represent the prospects of republican success in the pending campaign as very doubtful. The republican campaign managers have, we are cordially informed, shown an unusual capacity for blundering. The most stupid of these blunders was the enactment of the cumbersome Australian election law.

The application of the Australian system to a sparsely settled country like Montana is the essence of absurdity. Had the law been limited to cities and towns the results might have been beneficial, but to carry it to country districts and hedge it with a system of registration which closes two weeks before the election, is an imposition on the people which deserves to be rebuked.

The needless and onerous innovations introduced by the republicans were not justified by existing conditions. The party achieved success last fall on the merits of its candidates and principles, and had party leaders possessed the sagacity to let well enough alone, their chances of success in the present campaign would have been materially increased.

JUDGE GROFF'S SUCCESSOR. It is now a foregone conclusion that Judge Groff will resign his position on the district bench. It will be very difficult to find as good a man as Judge Groff to fill the vacancy.

THE EMPHATIC expression in favor of a non-partisan judiciary which was given by the voters of this district two years ago when the present judges were elected should not go unheeded in the selection of Judge Groff's successor.

THE RACE WAR IN THE SOUTH. The Atlanta Constitution thus refers to the race question in the south: "It cannot be denied, that there is at present a more uneasy feeling in the south between the whites and blacks than has been known in twenty years."

THE SPOON AND THE EAGLE. In this country the English sparrow is increasing by millions every year while the American eagle has become almost extinct. How long will it be before the former is recognized as the national bird?

THE DEGREES OF DEMOCRACY. Ex-Senator Riddleberger is stamping Virginia for the democrats. Riddleberger's politics varies with his degrees of bibulousity.

ON THE SIDE. A Chicago museum advertises to hang a man at every performance. With such an abundance of excellent material on hand this cheerful little diversion ought to become a permanent attraction there.

THE BOHN MANUFACTURING COMPANY states in a petition, that it obtained a judgment against Samuel K. Peltor for \$165.75 which was duly filed in the district court and the execution was returned unsatisfied because the sheriff could find no property on which to levy.

AGOSTURA bitters says a long time suffered from indigestion, brought on by cured me. Sole manufacturers, Dr. J. G. H. Siegert & Sons. At all druggists.

THE MONTANA CAMPAIGN.

Some Phases of the Contest Preliminary to Statehood. Harmony Perched on Last Fall's Political Ruins—The Race Between Magninism and Carter—Reminiscences.

The Second Act of Statehood. BUTTE, M. T., Sept. 15.—Two of the three great acts in the drama of statehood have been performed in Montana. The first was the selection by the great parties of nominees for the various state offices, members of the legislature and for congress, together with a complete set of candidates for county offices.

The revolution which reared the democratic last fall was principally personal and factional. The great parties of the day in the democratic vote, because the sheep men and many of the ranchers were stamped by the republican camp by the effective cry of "free wool." Calm reflection and republican success have materially modified their fears, and practically destroyed the tariff as a shibboleth in the present campaign.

IN THE COURTS. Creditors Seeking Money from the Debtors. Ex-United States District Attorney Lambertson, of Lincoln, filed two important suits in the federal court yesterday.

ENTIRELY TOO SANGUINE. The Boston Herald observes that "it now looks as if they might get a Cronin jury some time about next Christmas."

THE SPOON AND THE EAGLE. In this country the English sparrow is increasing by millions every year while the American eagle has become almost extinct.

THE DEGREES OF DEMOCRACY. Ex-Senator Riddleberger is stamping Virginia for the democrats.
