

BURIED UNDER TONS OF ROCK.

Two Hundred Bodies Still in the Quebec Ruins.

RESCUERS HARD AT WORK.

They Make Slow Progress on Account of Numerous Accidents—Thirteen People Injured at Missionary Ridge.

The Quebec Horror.

QUEBEC, Sept. 20.—This morning the work of excavating still goes on at the scene of the terrible landslide. Among those who are still thought to be beneath the ruins are Charles Allen and wife, Mrs. Stevens, Mrs. Henry Kitchin, Ed. Maybarn and wife, Mrs. R. L. Rawson, R. Kemp and family, Michael R. Leahy and a number of children.

The loss sustained by the surviving victims of the disaster is very great. Some of the workmen who are deprived of their homes lose all their earnings, and others, their summer earnings. Many are left virtually penniless.

The injured have been nearly all removed to the Hotel Quebec. William Powers, a child and wife, were saved by the men of the battery who, aided by a detachment of the cavalry school, effected a number of rescues.

The latest party to be rescued was Miss Mary Caldwell, Thomas Harrigan, a boy named Barrigan and Mrs. Black. All are badly bruised. Mrs. Black states that her husband was killed at the door of her house and that his body is still in the debris.

It is known that at least 300 dead bodies still remain under the pile of rock and debris. The names of the dead so far recovered are: Thomas Farrell and two children, Charles Poir, and Miss Mary Caldwell, James Edwards, L. Edwards, Alphonse Trudeau, H. Wright, Napoleon Trudeau and O. E. Neville.

Rescuers are hard at work, but are meeting with accidents, as huge masses of rock still continue to fall from the cliff. The list of killed as far as ascertained is as follows:

Thomas Farrell and three children. One child named Bradley, aged five, and Child of P. Fitzgerald. Mrs. Bracken. Mrs. Stephen Burke. Mrs. Black. William Black. Thomas Nolan. Mrs. Leahy.

The wounded whose names are to be had number fifty-five. Dead and wounded are still being taken out of the ruins, but their names have not been ascertained. Work of rescuing the victims is going on vigorously.

The members of the Black family were buried twenty feet below the surface of the debris. All escaped death except Mr. Black. When those who were not killed were taken from the ruins it was found that they had injuries more or less serious, one man being so disfigured that his friends could hardly recognize him.

Over 100 of the terrible disaster is being visited by thousands who block Single street, making it difficult to move anywhere. A large number of the rescued are in the work of searching the ruins, but the work is not under any head, and consequently not much headway is made. The shipping office at Quebec is working on the building has been turned into a temporary morgue and over twenty bodies are lying in it. It is difficult to identify some bodies, much as they have been disfigured and crushed. Several persons reported missing have turned up, but it is thought there will be ten or more victims to be added to the list.

The city council is now holding a special meeting to consider the best course of action to be taken in the work of recovering the remaining bodies. It is feared a large part of the rock adjoining the site of the slide will come down, as the crevices are filling with rain and rain is still falling. People are moving out of the threatened houses. The citizens are sending in money to relieve any immediate distress among the homeless women and children.

The site of the landslide of last night is almost identical with the one which occurred in 1841, when eight hundred people were crushed and thirty-two persons killed. The houses destroyed last night all stood on the other side of the rock, and it is thought to be in danger, but the mass of rock swept clear across the roadway and over the brick buildings, demolishing them. Roughly speaking, the mass of rock and rocks which moved last night had a frontage of 600 feet by eighty feet in depth. Some of the pieces of rock were as large as a house, and there are so many huge blocks that it makes the work of clearing very difficult.

The working parties this afternoon are better organized and are working in a more systematic way. In addition to the list of killed given, the bodies of Richard Leahy, Mrs. Leahy and Miss Lane have been recovered from the ruins.

Preparations are being made for the funeral of the killed, who will be buried at the joint expense of the citizens and the local government.

Among those buried by the rocks are a young couple named Nolan, who were married a few weeks ago. Nolan could not be rescued, but he lost his life trying to get his wife out of the house. King's bastion on the citadel will have to be removed, as it is now near the edge of the rock with unsafe crevices in front of it. As a precautionary measure all communications with the bastion have been cut off and the morning and evening guns will no longer fire from it.

About 30,000 persons have visited the scene of the disaster during the day. Thousands crowded into the morgue and seized on every point inside and outside of the building where a corpse could be seen. The bodies of the victims. Many women who obtained an entrance had to be removed in a fainting condition, the mangled bodies being a sight to try the nerves of a young woman.

It has been decided to use small charges of powder to break up the huge boulders covering the roadway, and there can be no living beneath them.

While the workers were busy cleaning away the debris of the crumpled buildings, faint groans were heard from beneath the under the huge piles of rocks. The efforts of the volunteers were concentrated to that point, and after three hours' work the body of Joe Kemp was extracted from the mass of rock. The man is in a most pitiable condition. Both of his legs are broken at the knees, his left arm fractured above the elbow and several ribs fractured. He cannot live many hours. Two hours after his wife's body was taken out of the wreck. Her head was almost severed from her body. Partner away another hideous spectacle was offered to the sight by the corpse of a young woman (Lasson), who had been admitted in life for her beauty. Her body had been crushed almost flat. Her abdomen had been ripped open and her entrails were protruding. Shortly after viewing her remains her husband became a raving maniac. It is doubtful if he will recover.

A man named Michael Bradley who had gone almost crazy when told that all his family had perished discovered while working over the wreck of his house his five-year-old daughter still alive. His joy was indescribable. It is thought the child will live.

Up to this time the number of corpses found is twenty-five, and the number of wounded eighteen.

Thirteen People Injured.

CHATTANOOGA, Tenn., Sept. 20.—An car on the electric railroad up Missionary ridge slipped on the side of the hill, the track being covered with snow. The car was heavily loaded, and the passengers, including the conductor, jumped off. The parties injured were all visitors in attendance at the reunion of Wilder's brigade.

The following is a list of the injured: Mrs. Mary Adams, Casey, Ill., injured internally,

WARNER GOES TO DEER PARK

It Is Believed He Will Be Urged to Reconsider His Declination.

MERRILL'S PROSPECTS BASTED.

The Boston Man Talked Too Much—An Assault on the Civil Service Law—No Action in the Fletcher Case Yet.

WASHINGTON BUREAU, THE OMAHA BEE, 513 FOURTEENTH STREET, WASHINGTON, D. C., Sept. 20.

The situation respecting the commission of pensions took a peculiar turn to-day. Major Warner was due to leave here at half-past eleven o'clock for his home. Just before that hour he received information from some direction that he was wanted at Deer Park, where the president is located. When he finally left half-past three o'clock it was his intention to stop off at Deer Park over night. He refused to say to your correspondent what he intended to do about the reported special plea of the president that he should reconsider his declination. He expressed himself by saying: "My hands are so tied that I cannot make any sort of observation on the commission of pensions."

It was reported in congressional and political circles that the president would tonight make another effort to get Major Warner to change his decision and accept the commission, and that the prospects pointed toward success.

Among Boston men it is predicted that Major Merrill of Massachusetts will not be appointed, although it is stated positively that his commission was last night mailed to the president by the secretary of the interior. Major Merrill has been talking for some time to accept his present position. He has written and it is said that he has probably talked himself out of the position.

Attacking the Civil Service. Ex-postmaster General Patton, in to-day's Post, leads what threatens to be a formidable fight against the civil service law with the following, which is given prominence in the editorial columns of the paper: "There is method in the attacks of mugwump papers on Mr. Clarkson and in their persistent efforts to make people believe that he is to retire from his present position. Mr. Clarkson is a consistent and persistent party man. He believes that capable and honest men should be promoted on the basis of merit. He believes that party promises made before the election should be fulfilled after the victory is won. So does every other decent and honest man. He is not a mugwump. Mr. Clarkson is conspicuously the man connected with the administration who is always glad to see the party in power. He is not a mugwump. He is not a party man. He is not a party man. He is not a party man."

Where the Cotton Cornerer Will Find Himself.

Copyright 1889 by James Gordon Bennett, Jr. MANCHESTER, Sept. 20.—[New York Herald Cable.]—Special Agent in Charge of the cotton cornering in the cotton industry to defeat the Liverpool corner which has succeeded in buying up the great bulk of the cotton which will be on the market at the end of September, as the new crop in any quantity will not be here until the middle of October. The cornerer, who is a Dutch Jew, will be the sharpest and most successful, and if his price is successful he will be able to run prices to his own figures. Both employers and employees have agreed on joint action in order to defeat the ring. Two thirds of the mill owners have decided to run on short time and the remaining third will be unable to work at all, as the operatives of the union will not do any work until the strike is over. The strike is not over. This will enable the masters to make their present stock last until the new cotton comes into the market, and so leave the cornerer with the whole purchase on his hands.

REPORTERS DID IT.

The Blood-Soaked Cotton in Carlson's Cottage a Hoax. CHICAGO, Sept. 20.—The Journal this afternoon prints a story to the effect that the blood-soaked cotton found in the Carlson cottage basement was put there by two reporters of that paper who had been sent there when it first became rumored that Cronin had been murdered in the house. Fearing the rumors might be true, the reporters obtained cotton, basting and smeared it with beef blood and put it in the Carlson cottage basement. The story is a hoax and is held as part of the evidence against the prisoners. It is also said the defense has some of it; that they have had it analyzed, the analysis showing it to be beef blood, and that they are calculating to spring the fact on the prosecution as a surprise.

ABOLISHING FORT MEADE.

Rumor That Secretary Proctor Will Remove All But One Company. WASHINGTON, Sept. 20.—[Special Telegram to THE BEE.]—The information was received in this city to-day from Washington that the secretary of war had determined to abolish the military post of Fort Meade, or, virtually so, by the removal of the garrison to the new fort at northern Montana. This news is given considerable credence from the fact that in a recent statement the secretary of war had announced to reduce western military posts by one-half.

South Dakota Episcopalian.

CHAMBERLAIN, S. D., Sept. 20.—[Special Telegram to THE BEE.]—The annual Episcopalian convention of the western diocese of the missionary district of South Dakota is now in session at Crow Creek agency. The convention is being held at the residence of the bishop, who is here. The diocese includes the Crow, Rosebud and Lower Brule agencies and is the largest in the west. The meeting will last three days.

Huron's Capital Work.

HERON, S. D., Sept. 20.—[Special Telegram to THE BEE.]—Brookings county representatives here give assurances that that county will give Huron full support for the capital. Sixteen of the county's representatives are here, and a number of the Woodcock investment company here yesterday.

The Proposed Bridge at Pierre.

PIERRE, S. D., Sept. 20.—[Special Telegram to THE BEE.]—The rumor of a bridge being built across the Missouri at Pierre is assuming definite shape, though it is not known whether the Northwestern or the Great Northern is to build it. The bridge is to be a suspension bridge, and is to be built on the site of the old bridge. The bridge is to be built on the site of the old bridge. The bridge is to be built on the site of the old bridge.

IT WAS A BLOODLESS FRAY.

Incidents of the Great Sham Battle at Beatrice.

SOME OF THEM DIED VERY HARD.

The Encampment Ended—Saunders' Strong Republican Ticket—The County Fairs—Crimes and Casualties—State News.

Breaking Camp.

BEATRICE, Neb., Sept. 20.—[Special Telegram to THE BEE.]—The Nebraska National guards encampment is drawing to a close and none will regret the departure of the gallant soldier boys more than the citizens of Beatrice. They have made many warm friends during their stay here, and have conducted themselves in such a manner as to win the respect and esteem of the city and all who have been associated with or visited them during the encampment.

The sham battle of yesterday was, of course, the great event of the week. It passed off pleasantly, and it is a pleasure to record that no accident resulted therefrom. The movements in some instances were not in exact accord with real battle tactics. For instance, the cavalry attacking the battery mounted, or the general officers riding in front of the charging lines, especially when they were close together. It was also a little incongruous for the regular corps to gather up the dead to get up onto their feet and run away from the cavalry and then lay down and die again. Nevertheless the spectacle was a grand one and possessed many realistic effects, especially when some of the aides, horses would run away with them and tumble them head over heels into a bunch of soldiers. Without the sham battle was a thrilling success, and will afford material for many a future reminiscence to the participants.

In the competitive field of the Second regiment companies yesterday for the portrait of Colonel Sweet. Company H, of Tekamah, carried off the honors. As the holder of the governor's challenge cup, and having won its company D, yesterday, it was a matter of honor in the contest. The judges were Lieutenant Wilson, Adjutant Stacy and Lieutenant Barker.

The following order, relating to the breaking up of the camp, was read at brigade camp this evening: The First and Second regiments of infantry, Company D, will break camp at 4 a. m. September 21. Troop A, cavalry, will break camp at 4 p. m. September 21. The company D, cavalry, will break camp at 4 p. m. September 21. The company D, cavalry, will break camp at 4 p. m. September 21.

The widow of the policeman who arrested Guieau, President Garfield's assassin, was to-day granted a pension of \$20 a month by the War Department. The pension is for life, and is to be paid to her until she is sixty years of age. (The Patrick Kearney) was placed on the list of policemen, a year ago, and died a few days ago.

The major of the Washington police in his annual report to-day asks for \$77,575 to pay the salaries of his force for the next year. There are fifty-four officers and clerks, 401 private, and about fifty laborers on the force.

While discussing in Baltimore the project of a grand boulevard to connect that city with Washington, in connection with the proposed extension of the Baltimore and Annapolis railway, a communication was received from the city of Washington, stating that the project was not the last one that is to be fought.

For him the faithful party worker has no terrors. "Such a man the political harlequin hath as always will abuse," Mr. Clarkson does not accept his present position either for the honor or the emoluments. He made a sacrifice for his party. Men who go to duty sacrifice their personal position, and if they are not to be paid, they are not to be paid. Mr. Clarkson is a consistent and persistent party man. He believes that capable and honest men should be promoted on the basis of merit. He believes that party promises made before the election should be fulfilled after the victory is won. So does every other decent and honest man. He is not a mugwump. Mr. Clarkson is conspicuously the man connected with the administration who is always glad to see the party in power. He is not a mugwump. He is not a party man. He is not a party man.

A BIG DAMAGE SUIT.

A New York Jewelry Firm Was a Little Too Hasty. CHICAGO, Sept. 20.—[Special Telegram to THE BEE.]—Mrs. Annie L. Helfenstein brought suit for \$100,000 damages in the superior court yesterday for the loss of the jewelry of her husband, Henry Aloith, of the New York jewelry firm of Ury & Aloith. The charge against Mr. Aloith is assault.

The complainant is the wife of Charles B. Helfenstein, a traveling salesman. Since last May he has been employed by Ury & Aloith, manufacturing jewelers of New York City. For some reason he was sent to Chicago to look after the jewelry of the firm. He was accompanied by several men, and a search warrant, had gone to Helfenstein's home for the jewelry. Mrs. Helfenstein took hold of Aloith's arm and ordered him out of her house. Mr. Aloith, who was accompanied by several men, returned the jewelry yesterday morning, and his wife to-day brought suit against Aloith for \$100,000 damages for assault.

SEEN IN NEW YORK.

John A. Greenlee, of Kearney, Who Mysteriously Disappeared in May. NEW YORK, Sept. 20.—Masonic circles throughout the country are greatly excited over the mysterious disappearance of one of the foremost members of the order in the west, and to-day an alarm was sent out from police headquarters for a missing man.

The wanderer is John A. Greenlee, of Kearney, Neb. On May 6, last, he left Belle Plaine, Ia., for Des Moines, intending to go to his home in Kearney, Neb. Since he left Des Moines he has disappeared and all traces of him are lost. All the lodges in this city were notified. Mr. Helfenstein, who was the secretary of the lodge at Belle Plaine, Ia., has been notified by the secretary of Robert Morris lodge No. 16, of Kearney, Neb.

Mr. Greenlee, 433 Bowers, saw one of the circulars and photographs. He recognized the man as one who called on him September 16, in ragged clothes and asked for 5 cents to pay for his lodging. The stranger said: "I would tell you more, but I don't know how to speak. I am a very strong man. When speaking, the stranger continually pressed his hand to his forehead. He said he had come from a foreign country and his pocket was empty. He had a great deal of money, but he had lost it. He had a great deal of money, but he had lost it. He had a great deal of money, but he had lost it."

The Creeks an Independent Nation.

WASHINGTON, Sept. 20.—[The Evening Star says:] The attorney general has rendered an opinion in the matter of the fees paid by the delegates of the Creek nation to their attorneys, aggregating \$25,000. The attorney general has rendered an opinion in the matter of the fees paid by the delegates of the Creek nation to their attorneys, aggregating \$25,000. The attorney general has rendered an opinion in the matter of the fees paid by the delegates of the Creek nation to their attorneys, aggregating \$25,000.

Reduced to a Skeleton.

DAKOTA CITY, Neb., Sept. 20.—[Special Telegram to THE BEE.]—A case that is interesting prominent physicians was transferred to Chicago to-day. The patient is a young man about twenty-eight years old, and until about a year ago he was as strong and healthy a man as could be found. About two years ago, while he was working in a saw mill, his foot slipped and he fell against the circular saw, which cut a horrible gash under his left shoulder. The cut sealed up to all outward appearance, and did not bother him any more until last summer, when he began to complain of pains in his back and hips, and the old wound opened. He rapidly grew worse, until last spring he became so emaciated and weak that he was no longer able to walk. Since May 19 he has not left his bed except by the help of his attendants. When in health he weighed 186 to 190

REduce THE DIFFERENTIAL.

Chairman Walker's Dictum in the Case of Salt.

A HAIR-SPRING ADJUSTMENT.

The Rate Friction Manifests Itself in Two Places—Familiarity's Two Prices—As to Mr. Braisted's Rags.

A Delicate Adjustment.

CHICAGO, Sept. 20.—[Special Telegram to THE BEE.]—The long existing friction between lines east and west bound from Chicago and St. Louis broke out in two places to-day. As illustrative of the hair-spring adjustment, the following decision made to-day by Chairman Walker, of the Inter-state Commerce Railway association, is extremely interesting: "At a meeting of the Western Freight association on July 11, the question of a readjustment of the existing differential upon shipments of salt from Chicago and St. Louis to Missouri river points and beyond was considered, and was referred to the managers of the Inter-state Commerce Railway association. At a meeting of the managers on July 15 the subject was discussed and a difference of opinion was developed which resulted in a disagreement, and the matter was referred to Chairman Walker with instructions to investigate, and to make a report to the association. The following shall be in the rates between the two points. A notice of hearing was issued for July 30, at which time several of the lines were present and presented their claims. Absent lines were requested to make statements in writing. After all the parties interested had been heard from, considerable difference was found in the stationary rates. The following shall be in the rates between the two points. A notice of hearing was issued for July 30, at which time several of the lines were present and presented their claims. Absent lines were requested to make statements in writing. After all the parties interested had been heard from, considerable difference was found in the stationary rates.
