

THE DAILY BEE.

B. ROSEWATER, Editor. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION. Daily (Morning Edition) including Sunday...

OFFICES. Omaha Office, 207 Broadway, N. W. Corner. Chicago Office, 107 Broadway Building.

CORRESPONDENCE. All communications relating to news and editorial matter should be addressed to the editor of the Bee.

THE BEE PUBLISHING COMPANY, PROPRIETORS. 207 Broadway, Omaha, Neb.

There is no excuse for a failure to get THE BEE on the trains. All newspapers have been notified to carry a full supply.

THE DAILY BEE.

Sworn Statement of Circulation.

Table with columns for dates (Monday, Tuesday, Wednesday, Thursday, Friday, Saturday) and circulation numbers. Total average circulation is 18,654.

Sworn to before me and subscribed to in my presence this 19th day of September, A. D. 1890. N. P. FEIL, Notary Public.

THE CEDAR BLOCK INVESTIGATION served to show that Chairman Balcombe is afflicted with a deep-seated aversion to Gray.

WHILE the office-seekers are hunting President Harrison at Deer Park, ex-President Cleveland is hunting deer in the Adirondacks.

THE Omaha police are on the lookout for the Council Bluffs murderer. This insures him the freedom of the city.

WITH Sam Cox dead and Sam Randall broken down in health, the democracy will be painfully deficient in experienced leadership in the next congress.

THE visit of Sidney Dillon to Omaha should be celebrated by presenting him with a silk-fringed photo of the cowshed with Dillonville in the background.

HORACE Boies, of Waterloo, is the Iowa democratic nominee for the governorship. The name of his own town no doubt has a sadly significant sound to his ears.

OMAHA's mayor might take some public action that would bring the proposed fat stock show to general notice.

CANADA'S strong desire to become a part of this country is indicated by the fact that huge masses of Cape Diamond are breaking away from Quebec and sliding toward the United States.

IT STILL requires a coin made of silver to pay the motor fare over the bridge line, instead of the popular pocket piece made of nickel, which should be sufficient to settle the bill.

IF Major Balcombe's standard for cedar paving blocks had been enforced two years ago, the firm of W. U. & Co., of which Jim Creighton was the head and front, would have gone into bankruptcy.

NEW YORK'S desire to secure the holding of the world's fair causes her to leave nothing undone that will raise the wind. Thus far, however, the "wind" fails to blow up the necessary "dust."

NOTWITHSTANDING the fact that the doctors of the Missouri valley are in session in this city, the general health of the people still remains good. What greater endorsement as a health resort can be asked for?

THE governor's challenge cup for the best drilled company of the Nebraska national guard was awarded to Company E, First regiment, of Fremont. It is needless to say that it was a cup full of happiness for the recipients.

THE war between the board of public works and paving inspectors on one side, and the contractors and material men on the other, is progressing right merrily. The opprobrious epithet period having passed, bloodshed may now be looked for unless Governor Thayer orders the militia up from the state of Beattie.

THE success of the late exposition emphasizes what THE BEE has claimed for years, that an annual exhibit of our industrial growth, properly managed, is the best possible advertisement of the city's progress.

A great deal of capital will be required to develop the resources of Wyoming. A vast expenditure for irrigation will be necessary to render her now almost worthless lands productive.

GEORGIA has passed a bill which provides that no person shall sell, furnish, give or provide any minor with cigarettes, tobacco, cigarette paper or any substitute therefor.

THE WOOL INTERESTS.

It seems inevitable that wool is to engage as much of the attention of the next congress as it did that of the last. The special meeting of the executive committee of the national association of wool manufacturers, held at Boston this week, was expected to formulate some sort of proposition to be presented to congress as representing the demands of the manufacturers, but it failed to do so.

There is no excuse for a failure to get THE BEE on the trains. All newspapers have been notified to carry a full supply.

THE success of the late exposition emphasizes what THE BEE has claimed for years, that an annual exhibit of our industrial growth, properly managed, is the best possible advertisement of the city's progress.

A great deal of capital will be required to develop the resources of Wyoming. A vast expenditure for irrigation will be necessary to render her now almost worthless lands productive.

GEORGIA has passed a bill which provides that no person shall sell, furnish, give or provide any minor with cigarettes, tobacco, cigarette paper or any substitute therefor.

there is a great future for Wyoming, and not only is it probable that within the next ten years the present territory will have become one of the populous states of the west, but it will also be one of the foremost in contributing to the national wealth. It is the contemplation of all this, says the Times correspondent, the security for future greatness that it holds out, that inspires Wyoming people with the desire to do so.

FEDERATION OF RAILWAY MEN. The federation of the different labor organizations on the Union Pacific system is the result of negotiations pending for nearly a year. The movement began before the final collapse of the Burlington strike, and was due to the failure of that struggle.

THE Burlington strike cost the organizations participating a large sum of money, but was not without its benefits and lessons. It demonstrated that the engineers could not carry on a strike for twenty-four hours without the hearty co-operation of the firemen.

THE wool growers have no doubt as to their attitude. So far as heard from they are unanimous in demanding not only that there shall be no reduction of the duties on wool, but that there shall be a restoration of the higher duties of 1867, as provided for in the senate tariff bill.

THE action of the engineers' convention in Denver next month will determine the life or death of the federation. If that body sustains the policy of Chief Arthur to hold aloof from all kindred organizations, the result is likely to be a split between the eastern and western factions, which will seriously cripple the brotherhood.

FOREST FIRES.

The destructive forest fires raging in sections of the northwestern states and territories have caused incalculable damage to the country. Thousands of acres of timber land have been swept by the flames and millions of feet of cut lumber and cordwood destroyed in Montana, Idaho, Washington and Oregon.

THE death penalty was abolished in Rhode Island nearly forty years ago, and imprisonment for life was substituted, since which, it is claimed, crimes of violence have been very rarely committed.

THE second hanging which has occurred in Minnesota since the law prohibiting extended newspaper accounts of public executions went into effect, occurred yesterday, and every detail of the event was given at length in the papers of that state.

IT is a long weary way from Arkansas to Canada at this season of the year, but J. Weiss of Texasland, it is supposed, has recently made the trip.

NO minor event of the year has evoked such widespread regret from the press as the failure of the footpads to squeeze "Old Hutch."

THE distressing news received from New Jersey that the apple crop is almost a total failure and that but little "applejack" will be made this year.

THE decrease in business noted in New York and Boston last week is due to the fact that their ball clubs are running neck and neck, and the people are too greatly interested in the outcome to pay any attention to ordinary trade topics.

THE grand ruffian of veterans which occurs at Lookout Mountain to-day will be one of the most notable gatherings of the year.

THE Yellow river of China has made another bad break and caused great damage. However, this irregularity is different from many "breaks" that are made, inasmuch as it occurred about one hundred miles from its mouth.

THE colored voters of Boston have declared that they want their share of the public offices. This is another evidence that they have reached about the same plane of political intelligence that their white brethren enjoy.

greatly embarrassed in finding a suitable person for the office. The president has entertained no such fear for an instant. He will have no trouble to find a worthy successor to Tanner. The telegraph stated that Major Merrill, of Boston, had been tendered the position, but he claims not to care for it.

IN 1846 the consumption of American cotton by Great Britain amounted to one million two hundred and thirty thousand bales, while the United States used only three hundred and ninety thousand bales of the product.

THE grand jury, which will convene in this city next Monday, has a great deal of important work on hand. The thorough investigation of the management of county affairs is by no means the only subject that is to come before it.

THE public debt was decreased twenty-five million six hundred and thirty-three thousand three hundred and sixty-two dollars during the first six months of Cleveland's administration, while under Harrison for the same time the amount was forty-four million five hundred and forty-eight thousand seven hundred and twenty-one dollars.

IT APPEARS that Kansas City has a number of swells in its clearing house business, which is not new, nor ever has been, practiced in this city.

THE meeting of the czarowitz and the kaiser, it appears, lost no warmth from having been so long delayed, and as the former is to visit the czar in Poland, it is not probable that he will be able to attend the latter.

THE second hanging which has occurred in Minnesota since the law prohibiting extended newspaper accounts of public executions went into effect, occurred yesterday, and every detail of the event was given at length in the papers of that state.

OTHER LANDS THAN OURS.

The general elections in France for members of the new chamber of deputies will take place to-morrow, and there is universal interest in the result. This will determine whether or not Boulanger is still an important factor in French politics.

THE anniversary of Mexico's independence has just been celebrated in all the chief cities of the republic, and the enthusiasm of the national holiday this year has been almost equal to that of the Fourth of July in the United States.

BRASIL is making steady progress toward a more liberal government. Latest advices in regard to the general elections held two weeks ago show that of the one hundred and twenty-five members of the house of representatives the liberal party has elected ninety-five, thus having an overwhelming majority.

SIAM is the latest of the countries to embrace the civilization which railroad men bring in their train. Surveys are now in progress for intended lines for Bangkok to the northern and eastern provinces of the land which is notorious for its claims to the possession of a white elephant, and it is believed that the laying of rails along the routes marked out by the engineers will be speedily followed by the formation of companies for developing the mineral wealth of the country on a large scale.

ONLY a Repealer's Dream. Everybody is glad to hear that the story of the financial ruin of Baltimore's pride, the Johns Hopkins university, was only the outgrowth of a New York journalist's feverish imagination.

NOT HIS NIGHT FOR POKER. Two footpads who held up "Old Hutch" the other night got 15 cents for their pains. The old gentleman must have had frightful luck on the draw.

THIS IS THE WORST. The Springfield, Mass., Republican declares that Tanager was "too unaccountably portentous." Just how perfectly awful it is to do such a thing as that we are unable to determine without a diagram.

THE AMENDE HONORABLE. We have distrusted Mr. Blaine for years, and have said many bitter things against him in times gone by; but it is difficult to account for the recent change of heart that he was ever a rascal in the full sense of the word, though he no doubt made many mistakes and did some mean and possibly some wrong things in the course of his life.

STATE POLITICAL GOSSIP. The Hastings Nebraska says that it is not likely after all that Judge Reese will have much, if any, opposition for re-nomination. The attempt to bring out other candidates thus far has not met with very much encouragement.

IT is generally understood, says the York Times, that Hon. E. L. King, of Osola, is a candidate for re-nomination for the senate. Mr. King is a conservative, intelligent and popular man, thoroughly educated and is in the prime of life.

UNDER the caption, "The Man for the Place," the Republican Valley News, referring to the vacancy caused by the death of James Laird, says: "The western people are all in a hurry to get a new man, and earning a scanty subsistence from the soil, needs to be on the alert. Already too few defenders of his peculiar interests are on the floors of congress. The growth and development of the west depends on a proper choice, and it is not a question of whom we would prefer, but rather a question of whose services can best foster and encourage the growth of western industries."

been confined to France or Italy, the continent, or Europe. They have stretched across oceans and ruined the prospects of families all over the civilized world. And all this evil has been allowed to flourish simply that a little family might be allowed to reign in Monaco without laying its own subjects under contribution.

IT is reported from Berlin that Count Herbert Bismarck recently made a secret visit to Italy for the purpose of consulting with Premier Crispien about the proposed meeting of the emperors of Germany and Austria with King Humbert at Naples. According to this account the emperor of Austria will decline to go to Naples unless the Italian government shall change its policy with respect to the pope and suppress such demonstrations as the recent unavailing of the statue of Giordano Bruno at Rome. It is said, moreover, that Germany and Austria, a Catholic and a Protestant country, can beat him into antagonism with the nineteenth century and the liberals of his own country in order to please a representative of the middle ages.

THE anniversary of Mexico's independence has just been celebrated in all the chief cities of the republic, and the enthusiasm of the national holiday this year has been almost equal to that of the Fourth of July in the United States. There is good reason for it. Mexico, which has so often suffered from internal disturbances, is now enjoying a long period of profound peace; her prosperity is increasing in a remarkable way; a new element is being added to her population by immigration from the United States, and there is unusual activity in the development of her vast resources.

BRASIL is making steady progress toward a more liberal government. Latest advices in regard to the general elections held two weeks ago show that of the one hundred and twenty-five members of the house of representatives the liberal party has elected ninety-five, thus having an overwhelming majority.

SIAM is the latest of the countries to embrace the civilization which railroad men bring in their train. several terms, one qualification that no other candidate on the list can claim. Mr. Webster was trained in a school that tried men's souls. For several years he was the private secretary of Secretary Seward, and enjoyed the confidence of the immortal Lincoln and his cabinet. In whom such men would confide and trust, this district has no occasion to fear to commit its interests. Our own county has elected delegates that will use all honorable means to secure Mr. Webster's nomination, and with the hearty support of men identified with and interested in the prosperity of the west, his nomination and election is assured.

"We see no reason," says the Auburn Post, "why Judge Reese of the supreme court should not be elected as his own successor. From a non-partisan standpoint, even the democratic papers are endorsing him. There exists no organized opposition to him, and in fact his record will bear the closest scrutiny, having discharged his duties for six years in a manner highly satisfactory to all, and all M. H. Reese is a judge in fact as well as in name."

In looking over the congressional situation the Seward Reporter concludes that "all the indications so far are very satisfactory, so far as the outlook is concerned, for Seward county's candidate, Senator R. S. Norval. His course has been such as to disarm criticism, and he is gaining friends every day. Neither Mr. Norval or his friends are making a fight on any other candidate, and their course throughout the fight will continue to be the same. The strife for the nomination, as far as Seward county is concerned, is a friendly one, and whoever may be nominated will receive the hearty support of the republicans of this county."

Says the Ashland Gazette: "In endorsing the Hon. M. P. Reese for supreme judge the republican county central committee expressed the sentiment of the republicans of the county. Judge Reese has discharged the very responsible duties with credit to himself and the people of this county and state, and it was but right and proper that the republicans of his home county should speak out their appreciation of his faithful service."

ON THE SIDE. And even in Milwaukee the closing of saloons on Sunday is being agitated. This is equivalent to saying that ducks should not swim on the Lord's day.

FOREPAIN'S circus train has met with another twenty thousand dollar accident in Iowa. The frequency with which mishaps are befalling such enterprises gives rise to the belief that the proprietors are preparing to close out the stock to the insurance companies.

A NEW YORK ex-convict has been sentenced to sixteen years' imprisonment at hard labor for robbing a man of 13 cents. It was a fortunate thing for the prisoner that his victim did not have more money.

THE Chicago police have suspected everyone who spent the summer in that city with complicity in the Cronin matter, are now adding to the number of those supposed to be implicated by arresting all who have been away from the summer coast since they returned.

IN a recent Mississippi fight one man with a knife killed two men armed with revolvers. Here's a pointer for the war department. Trade the guns for corn knives.

THE HORSE CAR'S ADVANTAGE. The cars with the grip will mostly skip. While I leisurely go on my way, But they can't make up time on a dead level track.

BECAUSE their ain't built that way. It has been authoritatively reported that Editor Dana has sailed to Egypt to solicit subscriptions to the New York world's fair fund and bring home the source of the Nile as a star attraction.

THIS is the unwholesome season of the year for prairie chickens. Nothing else more clearly shows the irresistible ravages of Time than the extent to which Lydia Pinkham's portrait has disappeared from the medical advertisement columns of numerous journals.

"THE earth is the Lord's," so it has been truly said. But the wire-stringing companies own everything overhead.

NEW YORK'S "proposed" enterprises loom up like a sectional chair of the state of Texas, but what she really accomplishes more nearly resembles Rhode Island as shown in a reduced map of the western hemisphere.

SOUTHERN Americans who are pursuing yellow-barked romances and cultivating a Jesse James style of character might be benefited by making a study of the life of Bob Younger, who recently died in the Stillwater (Minn.) penitentiary. Even the high-wayman has his off days.

THE rate at which Omaha is not winning games at the present time suggests the thought that the pennant may have been won by the Boston Red Sox.

A kind-hearted Nebraska farmer has sent several samples of premium corn to the office. No doubt he has mistaken this paper for a husking bee.

LETTER FROM A CLERGYMAN

Grateful Acknowledgment of Cures by the Cuticura Remedies.

A minister and his little boy, cured of the most obstinate and intractable skin disease by the Cuticura Remedies. Praised them everywhere—in the pulpit, home, and in the street.

For about thirteen years I have been troubled with eczema or some other cutaneous disease which all remedies failed to cure. Hearing of the Cuticura Remedies, I resolved to give them a trial, and purchased one bottle of CUTICURA SOAP, one box of CUTICURA OINTMENT, and one bottle of CUTICURA RESOLVENT. I followed the directions carefully, and it afforded me much pleasure to see the relief which I experienced. I had used CUTICURA SOAP, CUTICURA OINTMENT, and one bottle of CUTICURA RESOLVENT. I was entirely cured.

In addition to my own cure, my baby boy, when about five years of age, was afflicted with eczema, which was cured by the Cuticura Remedies. I have never used any other ointment or salve in my home since I bought the first of your CUTICURA SOAP. I would advise all who are afflicted with eczema or any other skin disease to speak well of and recommend your CUTICURA Remedies to everyone who is afflicted with eczema or any other skin disease, and to speak of it from the pulpit, in the home, and in the street, as a household
