THE SPECULATIVE MARKETS.

All Efforts to Break the Market Prove Ineffectual.

HUTCHINSON A LARGE SELLER.

An Increased General Business on the Buying Side—No Offerings of Russian and Indian Wheat—Corn Neglected.

CHICAGO PRODUCE MARKETS.

CHICAGO, Sept. 24.—[Special Telegram to THE BEE.]—The majority of traders in the wheat pit operated to-day on the theory that there had been advance enough for the present and that a reaction was in order. The volume of outside business was so large, however, that the offerings were absorbed, and efforts to break the market and keep it down proved ineffectual. Several little bearish flurries occurred during the session, but the market recovered with the buoyancy of cork, and lost ground was regained without straining. In contrast to the general strength of futures, September worked off slowly from the outset, going from 80⅜c at the opening to 79⅞c, but closing at 80⅝c. The amount of long wheat that was sold out to-day was large enough to have swamped the market ordinarily. Dunham & Co., Milmine, Bodman, Baxter, Lindbloom and the whole list of important commission houses had realizing orders and pointed out wheat all day. Hutchinson was also a seller on a huge scale. The feature noticed, however, was a largely increased general business on the buying side, and the next was the earnest and conspicuous buying to fill outstanding contracts for the local accounts. Partridge, John Quincy Adams, Phillips and St. Louis bears were credited with an extensive covering. During the middle of the session they appeared again as sellers, but on a sharp bulge toward the last of the session they once more helped prices up by their hustling for cover. Cables were strong and higher, with private advices noting an absence of offerings of Russian and Indian wheat at the quotations. The American markets, as a rule, ressoond somewhat reluctantly to the advance here, and New York is trying to encourage the revulsive sentiment. Foreigners are investing moderately in futures on the improvement, and they are taking all the hard wheat in Duluth they can get their hands on. Orders were in the hands of several Duluth parties for cash wheat. Towards the end of the session it leaked out that quite a little line was worked in New York also. The lightness of the out-movement from the seaboard for the past couple of weeks was reflected to-day in one passage statement, which showed a decrease of 1,048,000 bushels. This goes a long way to disprove the reports of free shipments of Russian, Indian and California wheat. The movement of wheat in the west is not changing in character or volume. December wheat opened at 81c, sold up to 81¾c and off to 80⅞c. This was the bottom, and an advance which started from that point carried the price to 81⅞c. Realizing and renewed selling for the "short" account sent the market back to 81⅜c, but a second bulge lifted it to 81¾@81⅞c. The market worked slowly down to 81⅛c, and about half past 12 o'clock it started up once more, and didn't stop until 82⅛c was reached. A big battle was fought at 82c and the last quotation was 81¾c, or 1 cent better than yesterday. A "whaling" big trade was done in May. This delivery opened at 84¼c, sold down to 83⅝@83¾c advanced to 84¼c on the first turn and to 84⅛@84⅜c on the second. Hutchinson sold enormously for the May delivery, and it was largely on account of his sales that this month did not keep in line with December. As it was, last prices were 84⅛@84¼c, or ¼@⅜c better than yesterday. The closing figures show a difference of only 2¼@2⅝c between December and May. September got through declining at 79¾c and advanced to 80⅜c, closing there, or ⅛c better than yesterday.

The corn market was in a measure neglected by speculators for the superior attractions presented by the activity in wheat. Dealings were chiefly on local account and the tendency appeared toward still lower prices except when temporarily supported by the strength and activity of wheat. September opened at 31⅜c, sold at 31⅜c and at 32c, and closed at 31⅜c. or ⅛c lower than on yesterday, and October declined ⅛c.

Oats were at no time active, ruling easy, and aside from a moderate business in May the speculative trading was light. The month named opened steady at 22⅜c and subsequently sold down to 22⅝c, with that constantly bid and sales chiefly at a split. Near months were dull and about ⅛c lower, after a quiet and steady tone, early. While the offerings were but moderate, the buying support was meagre and the short interest was pronounced unimportant. Receipts and shipments were only fair and a light trade was recorded in No. 2 oats to go in store at 19¼c, with the cash business chiefly by sample.

In provisions there was a little revival of the old time interest. The continued bull movement in wheat evidently influenced other speculative lines more or less. It made parties short in the different markets feel somewhat uneasy and in provisions at least developed a decided disposition to cover. This inclination when started was also further encouraged by lighter offerings of property than were anticipated, and an upward turn in the price of hogs, the receipts of which fell short of expectations. The professional bears bought quite freely to-day against their outstanding contracts, and the trade from the start commanded considerable attention. The movement also favored holders, and with a single exception of October pork, which was held at $10.95, closings all around showed a substantial advance. In September and October lard the advance made was 7½c, in September short ribs 12½c, in October short ribs 15c, in November pork 22½c, in January lard and short ribs 7½c, and in January pork 17½c.

CHICAGO LIVE STOCK.

CHICAGO, Sept. 24.—[Special Telegram to THE BEE.]—CATTLE—The increase of 5,000 head in two days is beginning to tell on prices as outside of prime export steers values ruled rather easier. Receipts were divided at about 6,000 natives, 2,000 Texans, and 2,000 rangers. Export buyers wanted about all the good native steers, quite a few going at $4.60. Buyers for dressed beef operators held back until late in the forenoon and regular buyers for shipment east were slow to get to work. The market on natives was not in good shape at the close and salesmen that had medium and plain cattle were quoting prices a shade lower. Texans also sold a shade easier making a decline of 10@15c for the week. Rangers were about the same as last week. Native butchers' stock were steady. There was only a light business in stockers and feeders at the low prices that have prevailed all summer. Choice to extra beeves, $4.40@4.65; medium to good steers, 1350 to 1500 lbs, $3.80@4.30; 1200 to 1350 lbs, $3.40@4.20; 950 to 1200 lbs, $3.50@3.75; stockers and feeders, $1.80@3.10; cows, bulls and mixed, lower, $1.00@2.85; bulk, $1.75@2.10; Texas steers, $2.15@3.10; cows, $1.50@2.00; western rangers, $2.30@3.85; cows, $2.00@2.25; wintered Texans, $2.40@3.85.

HOGS—Business was active an at advance of 5@10c, the upturn being largely on packing grades, although the best heavy sold at strong prices, but there was little or no change on light. Packers paid $3.30@4.10; shippers, $4.05@4.20; fancy butcher weights, $4.15@4.45; light sorts sold largely at $4.50.

FINANCIAL.

NEW YORK, Sept. 24.—[Special Telegram to THE BEE.]—STOCKS—There appears to be any amount of bull talk in stocks, but bull action is lacking. Leaders of the bull party now concede that things may be feverish and unsettled for a few days, but by the last of the week they feel assured that railroad stocks will take their natural course upward. The buying of Louisville by Jones, of Chicago, is thought to be for the pool account and fancy figures for those shares yesterday calls out much comment. The market started stagnant this morning relieved only by the action in Northern Pacific preferred and sugar trusts. Grangers were neglected and Louisville steady on lighter business with coal stocks firm. Sugar trusts became very active immediately and the weakness of yesterday was renewed and, after opening at 101⅝, it quickly dropped to 100, against 102⅜ last evening. Stocks of the regular list sympathized somewhat and prices where there was any dealings shaded off slightly. Northern Pacific preferred soon developed marked strength, rising ⅝ to 75¾, though a portion of the improvement was afterward lost. During the hour to 12 o'clock the general list was little changed while Louisville dropped 1 point from last night to 78. New England lost ⅜ to 49¾. Sugar trusts went off on stop orders to 97¼ without materially affecting other shares. A surprise in stocks came after noon when money was manipulated to 7 per cent and had the desired effect of causing a break in stocks. Louisville fell to 77¼, New England to 49¼, and Northern Pacific preferred to 74¾, while the entire granger group lost from ⅜ to 1 per cent, Burlington touching 108, Northwestern 113, Rock Island 102½, and St. Paul 72¾. Coalers weakened also, Lackawanna selling off to 147 and Reading to 46⅜. Before the close money was offered freely at 5 per cent and prices of stocks rallied ¼ to ⅝ from the bottom figures. Sugar closed at 99, Tennessee coal and iron was an exception, moving up 3 per cent to 52¼ at the close. The total sales were light, 169,000 shares.

English Metal Market.

A London cable to the American metal market dated Sept. 20, reports the following:

Market remains generally quiet with spasmodic revivals of trade, and shows but slight changes in value on the week.

Tin.—Bear influences have been working against the market, but have not made much impression on values, although unusually heavy sales have been made of forward prompts, the prices of which have, therefore, gone lower as compared with cash tin. This ruled steady on Monday at £90 5s @£90 10s, three months being worth 12s 6 d more. Forward held its relative position on a 10s decline the next day, half of which was recovered in the last dealings; but flattened out on Wednesday under the persistent attack of operators for a fall, to only 7s 6d premium, cash gaining 5s@10s while forward was unchanged. Less was doing yesterday and rates were a trifle lower; but three months held steady to-day at £90 15s, cash tin closing £90 7s 6d, a moderate improvement over the morning's prices, when an easier feeling was apparent.

Copper—Continues to be a little more than nominally quoted, and though firmly held, in slack speculative demand. As the result of this, there has again been hardly any change in prices, the general tendency being, however, a hardening one; under which cash has gained about 5s on the week, closing to-day at £43 2s 6d, while forward is 10s higher at £42.

Antimony—Business remaining at a standstill, there is nothing to note beyond a repitition of the nominal quotations for Halletts, £67@68.

Spelter—Holds at £22 10s for Silesian, with less spirit to the market.

Lead—Entirely unchanged throughout the week at £12 12s 6d for soft Spanish pigs.

English Pig Iron—Began to move upward again on Monday, gaining a penny or two to 43s 9d, and ruling firmer on both Tuesday and Wednesday, touched 44s on the latter day, holding there throughout both yesterday and to-day.

Bessemer Pig—Improved sixpence on the week to 50s 6d.

Steel Rails—Trade is still active and prices firm at £5 2s 6d@£5 5s f. o. b. for heavy sections.

Old Rails—Quiet but fully steady at 75s for T's, 80s for D. H. c. i. f., N. Y.

Scrap Iron—Rather firmer under moderate inquiry at 47s 6d@50s f. o. b.

GLASGOW, Sept. 20.—Scotch Warrants—Appear to be in for a further rise, having already gained a shilling on the week, threepence of which was made at each board on Monday. Prices worked up twopence more on Tuesday to 47s 4d, and closed steady thereat the next day after a reaction in the forenoon. Some irregularity yesterday was again succeeded by a firm closing at a penny advance net for the day, and this forenoon prices got up twopence more, which being held in the late dealings, the final quotation was 47s 7d; still relatively low as compared with the great strength of special brands, which have again made an average gain of over a shilling on the week.

Makers' quotations are for Coltness, alongside, Glasgow, 61s, 9d; Gartsherrie, alongside, Glasgow, 63s; Summerlee, alongside, Glasgow, 63s, 6d; Langloan, alongside, Glasgow, 64s, 3d; Carnbroe, alongside, Glasgow, 51s, 6d; Glengarnock, alongside, Ardrossan, 56s, 6d; Eglinton, alongside, Ardrossan, 49s, 6d; Dalmellington, alongside, Ardrossan, 51s.

Lighterage, Ardrossan to Glasgow, 1s ton.

OMAHA LIVE STOCK.

Cattle

Tuesday, Sept. 24.

The cattle market was steady again to-day and was fairly active on all grades of cattle, beeves, butchers' stock, feeders and stockers.

The receipts of cattle, though not very heavy for a Tuesday, show a decided gain over the corresponding day of last week. Among the offerings there was quite a sprinkling of natives and some very desirable beeves. Native steers sold at $3.15@4.27½, the latter price being paid for a very choice bunch of 1,528 lb beeves. Butchers' stock was in pretty fair supply and was about all sold. The quality of the cow stuff was nothing extra on an average, good fat cows being scarce. Native cows sold at $1.25@2.25. The offerings of feeders were large and there were plenty on sale, both natives and westerns. The supply, however, was none too large for the demand as there were a good many buyers here. The market was active and the sales were large. The prices were about the same as yesterday. A big string of natives went at prices ranging from $2.20@2.90 and a good many westerns sold at $2.50@2.75.

Hogs.

To-day's general hog market was 5@10c higher. The packers were strong buyers of heavy hogs, as well as the shippers, and the bulk of the offerings were soon picked up largely at $3.85@3.93. The supply of light hogs was small, and, although there was a good shipping demand, the buyers found it difficult to fill orders. There were so few lights in the loads that it would not pay sellers to sort, and they could sell the loads mixed to better advantage. Good mixed hogs sold readily at $3.90@4.00. A few lights were sorted up in second hands $4.05, which did not show so much advance, light sorts selling on last Saturday up to $4.02½.

Sheep.

There were a good many sheep here again to-day and there was considerable trading at about steady prices.
