The Wheat Pit Excited With Higher Quotations.

HUTCHINSON A SELLER OF MAY.

A Big Business All Day-December's Erratic Behav.or - Corn a Shade Easier-Interesting to Provision Traders.

### CHICAGO PRODUCE MARKETS.

CHICAGO, Sept. 25 .- [Special Telegram to THE BEE.]-Wheat was excited and higher to-day and the market as yet shows no open signs of reaction. On the last bulge of yesterday considerable wheat was bought by room traders and carried over in anticipation of a strong and higher market. Disappointed in this particular the scalping class of holders let go their property and a reaction of nearly 1c in December was the result. Heavy buying by houses with foreign connections soon strengthened the market and turned it up. The recovery was slow until the session was well advanced and in the face of strong opposition on the part of Lann and several other local heavy weights. As en yesterday, Hutchinson seemed to be selling May largely, but his hand was not shown in December. Dunn, Warren and Schwartz Dupee led in the buying. Decemberopened at 81%c, sold down to 81%@81%c railied to 821/c, sold off to 81/4c, but during the last half hour advanced to 82%c and closed there. May opened at 84 4c, worked down to 83%c, while December was losing % and recovered to 84%c. A reaction of We followed and the price again went to 8414@84%c and later to 851/c, the last quototion was 85%c. September ranged from 8014c, at the opening, to 80c, up to 8014c, back to 8014c and closed at 81c. A big business was done in the pit throughout the entire session, the periods of quietude being infrequent. News was bearish as a general thing but the boom could not be "fazed" and the buying fever is apparently far from being exhausted. The volume of general outside trade is seemingly larger than it has been since the advance started. Outside markets are slow in following the lead of Chicago and have only established a small improvement while Chicago has been making its 3@4c gain. December, the month in which the boom has centered, has scored a disproportionate advance. This is a feature that neither the bulls nor the bears exactly The bulls in particular would like to see a more uniform improvement in several active futures in the various markets at home and abroad.

The corn market averaged a shade easier,

and trading was not very active. Receipts were in the neighborhood of yesterday's estimates and for to-morrow 600 cars were predicted. The outward movement from Atlantic ports was heavier than for the past few days, and the shipping demand here is good. There were 20,000 bushels cleared yesterday from New Orleans, and the out inspection was indicative of a free movement. There was no significance in the trading except perhaps no significance in the trading except perhaps free purchasing of December by the leading operator. There appeared to be plenty of May corn for sale at 33%c. Prices closed as follows: September 31%c, October 31%c, and May 33%c, which is a decline of about 1%c since yesterday.

Outs were dull to-day with fluctuations within the narrowest limits. There were few-transactions except in near futures and

few-transactions except in near futures and few-transactions except in near futures and at no time was especial activity noticeable in May, the principal speculative delivery. May opened at 22% @23% and the range was at "split" and 22% call day. At the outside the demand was supplied by Hutchinson, who has been a steady seller for two weeks. Trading in September was on a basis of 1936@1946, in October at 1946, in November at 1956, and December at 1956.

Provision traders were again favored with a reasonably interesting day. A couple of houses short of October pork, having requested the directors of the board of trade to blish a marginal the market claimed considerable attention. Manipulators of October pork were good buyers of the same article for November and among the shorts a generally increased disposition was shown to cover. In all lines of product the buying against outstanding con-tracts was a leading feature, and with moderate offerings a strong feeling prevailed ate offerings a strong rectang rule closed prices averaged higher and as a rule closed at a substantial advance. In September lard the improvement established was 173cc, in September short ribs 5c. in October lard in September short ribs 5c, in October lard and shortribs 7½c, in January lard 5c and in January pork and short ribs 2½c. November pork sold higher, though the closing was the same as yesterday, October pork was advanced 20c by parties in control, resting at

## CHICAGO LIVE STOCK.

CHICAGO, Sept. 25 .- | Special Telegram to THE BEE. |-CATTLE-Cattle of high and low degree, principally of the latter, poured in from all quarters this morning, divided at 9,000 natives, 6,000 Texans and 2,000 rangers, The trade opened slow and rather late on account of the time taken up to yard this big run and the late arrival of trains. Receipts now show an increase of 9,000 over the same time last week, the increase being largely in Texans and rangers, yet each day natives have formed about half the supply, and today more than half the natives were of that half tat, almost unsalable class. A salesman said: "It required the skill and labor of a man and two boys to sell a load of this half native stock today, and the durned stuff is 10@15c lower than last week at that."
Prime export steers and good dressed beef stock were barely steady. Some salesmen were quoting second class exporters as slow at a slight decline. Texans were also slow and prices weak at a decline of 10 @15c that set in on Monday and is yet in force. Rangers underwent little or no change, and prime native butchers' stock continu to sell at about the same as last week. Yard speculators reported a fair business in stockspeculators reported a fair outliness in stock-ers and feeders. NEW YORK, Sept. 25 .- | Special Telegram to THE BEE. !- STOCKS-The opening in stocks this morning was active and prices were irregular. This was expected from the views expressed at the Windsor and other resorts last night. Many who have talked and worked for higher prices are tired of waiting for the promised bull market. The list is now about 2 points off from the best figures of the month and there is quite a disposition among operators to let prices go off a couple of points further, believing that the rebound will give the big advance expected. The leaders still talk of great opportunities for profits on the rise of 5 per cent on standard stocks, but there is a disposition to wait for the removal of the tight money bugbear and for fresh influences of some sort. The duliness of the previous days was upon the list, except an animation in Louisville & Nashville, Sugar Trusts and Tennesses Coal, while the last named was the only one which displayed any motion of importance

THE SPECULATIVE MARKETS. | 9834 and further retired to 9734, between which figure and 9834 it fluctuated violently. Tennessee Coal was remarkably strong, and after opening up 1/4 at 521/4, rose steadily to 5414. Before noon Grangers and coal stocks generally weakened 14 to 34 per cent, but showed a slight recovery from the bottom figures before 12 o'clock. There was quite a fair rally throughout the stock list before the close. Union Pacific moved up to 64% on the favorable roport. Grangers moved up so as to show a net gain at the close of 14 to % for all, while Missouri Pacific gained % per cent. Reading climbed to 47, a gain of %, Manitoba went up to 115, closing ¾ better at 11414. Louisville, after a good day, was 1 point up at 7816. The taking of \$15,000,000 in bonds by the government late in the day was regarded very favorably. The total sales for the day were 168,341

native steers. The westerns were not very good on an average, and a very considerable number of them could be classed as feeders. Some of the natives were pretty fair, but there was nothing to compare with the \$4.27½ cattle yesterday. Some native steers sold at \$3.70@3.95. The market was rather slow and the number of cattle sold was con-siderably less than yesterday. Butchers stock, such as fair to good cows, sold at about yesterday's prices. Cows sold all the way from \$1.00 to \$3.00, but \$1.40@2.50 bought the most of them. The supply of feeders was large and there were a good many would-be buyers in the yards, but they spent the most of the way the work of the work of the way they would be buyers in the yards, but they spent the most of the work of the work of the way they would be buyers in the yards, but they spent the way they would be buyers in the way they would be buyers in the yards, but they spent the way they way the the morning mostly in looking around, the trade being slow. In the end quite a good many were sold. Values did not show any essential change. Natives brought \$2.45@ 2.80 and westerns \$2.35@2.90.

To-day's hog market opened strong to 5c higher, and was active at the advance, but the close was weak and the late arrivals had to sell at about yesterday's prices. Both packers and shippers were active buyers of heavy ers and shippers were active buyers of heavy bogs, which sold largely at \$3.90@3.95 as against \$3.85@3.90 yesterday. Boston was a large buyer, paying \$3.90@3.95 for the best heavy weights. Light hogs were also in good demand, and as high as \$4.10 was paid for good light. Like yesterday sellers were not disposed to sort up their loads, preferring to let them go mixed, and the buyers were compelled to look to second hands for their sorts. Shippers were required \$4.10 for their sorts. Shippers were paying \$4.10 for their sorts, which was 5c higher than they paid yesterday. The market on mixed packers did not show much change from yesterday, the advance being mostly on the best grades of light and heavy.

A General Banking Business Fransacted. A WONDERFUL CITY.

Thirty Thousand People, With Neith: Shop, Artisan Nor Trade.

Lying between Asam and Burmah is the remote little hill state of Manipur lately visited by Indian officers, one of whom, writing on the forest of the state in Indian Forests, gives an extraordinary account of Imphail, the capital says the London Times. It is situated in what appears a dense forest. "Neither spires nor chimneys cut the blue sky nor is smoke observed to ascend from the sylvan scene of the capital. Noth ing, in fact, bespeaks the busy home of 30,000 to 40,000 people, and yet hidden away among these trees is the palace of the rajah, and hard by are the houses of his favorites, each family having a large inclosure around the homestead. Imphail may thus be described as a city of villages, or rather suburban resilences, around the palace. Straight, wide roads lined with trees, frequently intersecting each other at right angles afford the means of communication. but neither shop, artisan, nor wheeled conveyance exists in the city. Industry and skill occur only in the distant rural

The people of the capital are the promoted favorites of the ruler, who has had assigned to them plots of ground near the palace, and live by pressing upon the persecuted agriculurists of the state.

The capital of Manipur is a royal residence dedicated to luxury and amuse-ment. All are happy. The streets are crowded with smiling, healthy faces, of which few bear the marks of toil and labor. There are no schools in the state, and court favor and promotion are secured by success at polo. Comage is unknown, and the men are not al lowed to trade. Imports and exports except in certain articles that yield a royal revenue, are practically prohi

bited. The women from the distant villages repair on a certain day to the capital or to other recognized centers. Each carries on her head a neatly made square basket, in which had been placed the surplus stock of the homestead, the labors of her industrial skill or of her husband's agricultural knowledge. On reaching the market place the contents of these baskets are exposed and bartered, when each returns again to her family, carrying off the proceeds.

On market days the long, straight road from Bishenpur to Imphail is crowded by groups of women hurrying to and fro. Each wears an elegantly striped dress in bright colors, made of silk and cotton. The stripes run along the length, and the top and bottom are neatly embroidered. A long piece of of cloth is cleverly carried across the breasts and just under the armpits, in-stead of round the waist, and is firmly tucked up, so that the top embroidered edge falls forward, adding an additional fold to the garment, while the bottom edge reaches a little below the knees. The legs and arms are left exposed The women are the only traders in the whole state.
