THE CITY.

The pay roll for the police force for the month of September is \$5,786.97. The Dodge Light Guards, of Council Bluffs, are contemplating a dance in

the near future. Mr. Chas. J. Johnson is rejoicing over the arrival of a fine bouncing boy at his home last Monday evening.

Charley Connoyer jumped from an engine near the Tenth street crossing yesterday, and struck a switch, nearly throwing him under the cars. He was severely bruised.

Bicyclist Prince says should the bicycle tournament at London, England, come to a focus, he will go to participate and also take Ned Reading, the soldier bicyclist.

Manager Prince says that on the \$22,-000 invested by stock-holders, that the exposition paid 22; per cent on investments, and had the entire stock of \$50,-000 been disposed of it would have paid about 10 per cent.

Paul Vandervoort received two very handsome Grand Army badges of the Woman's Relief Corps division, yesterday, from Mrs. Charity Rusk Craigg. They are mementoes of the late national reunion at Milwaukee.

Jimmy Lindsay says it is not true that he wants McHale to train down to 133 pounds, while he himself is to weigh 148. He says he will have the purse \$500 as stated and that he only wants McHale to train down under 150 pounds. The Seventh ward democratic club

will meet in Cates' hall, at Twenty-sixth and Walnut streets, or at Sheeley station, next Friday evening. This will be the first meeting of the club this year and a rousing time is expected. Lemuel W. Doten died at his resi-cence, at Thirty-sixth and Leaven-

worth streets, yesterday, of pneumonia. The deceased was forty-seven years of age, and leaves a wife and two child-ren. The funeral will take place tomorrow at 3 p. m. The board of trade committee has given up its effort to bring an excursion

of bankers from Kansas City. There is an understanding, however, that the Omaha bankers who go to the convention shall invite as many as they please to visit this city, and those who come will be given every possible attention. Yesterday was horse day for Garbage-master Goldsmith. He shot three of

them. One of Fred Krug's heavy draft horses broke a leg and had to be killed; another animal owned by Stevens at Twenty-seventh and Cuming streets, was fatally injured in a runaway, and a glandered horse was discovered at Seventeenth and Vinton streets.

Yesterday forenoon Nels Axleson went into a store at No. 402 North Sixteenth street and endeavored to clean out the place. The policeman on that beat was notified and placed the man under ar rest. It was discovered at central police station that the man was insane, and after an examination by the city physician, Aexison was turned over to the commissioners on imbeciles.

THE STENOGRAPHERS.

Meeting Tuesday Night and Speed Tests Made. regular monthly meeting of the Omaha Stenographers' association was held Tuesday evening at the rooms of the Standard shorthand school in the Ware building. Be-

tween forty and fifty persons were present Several new members joined the association and the treasurer's report showed a good inancial condition . It was decided that hereafter two meet-

ngs shall be held each month, the first to be purely a business meeting and the other will be devoted to an exchange of ideas and a general good time. The meetings will be held on the first and third Thursdays of the

The members present were then enter-tained by an address by Prof. L. J. Blake, Practical thoughts suggested showed that much care and preparation had been given the subject.

The exhibition of speedy typewriting from dictation, given by Mr. W. S. Heiler, was a feature which proved highly interesting to

the many writers present. An average of seventy-five words per minute was made for three minutes in the first trial. In the second sixty-seven words for five minutes were written. Eight years ago there were only about half a dozen stenographers in the city of Omaha, to-day there is an army of them.

With the large increase in their numbers there has been a great decrease in their remuneration. Good salaries, however, are carned by men competent to do court work, and those who have the business ability and experience to act as private secretaries to men of large business interests. There are many women in Omaha, who be-

sides being excellent stenographers, have considerable business ability, and are capable of earning more money at their craft than is usually earned by their sisters in other lines of business.

It is not generally known that Omaha pos-sesses the most rapid stenographer in the west, and that there are very few in the country who can do better work. T. P. Wilson, Judge Groff's stenographer and court reporter, has the remarkable record of writing 273 words a minute, read from mat-ter which he had not previously seen, on a

test.

Five years ago Mr. Wilson was office boy in the Union Pacific general ticket office and took up the study of shorthand by himself, aided, when necessary, by the regular stenographers in the office. By the greatest persistence and perseverence he has, in the short time clapsing, so mastered the art that to-day he stands at the head of his profession in the west.
Omaha also possesses the swiftest type-

writer manipulator in the west in the person of G. L. Piowman, who has a record of 157 words per minute. These gentlemen are both hard to beat in their profession. They are both examples of what can be accomplished by hard work and steady application. It is hardly worth while to say that their feilow craftsmen in Omaha are proud of them.

Board of Public Works. F. J. Peterson, who has the contract for grading Thirty-second avenue, from the southwestern corner of Hanscom park south to the city limits, has taken advantage of a clerical error giving him a cent more per cubic yard on the first monthly estimate and is now very much disgruntled because the error has been detected, and the amount overpaid deducted from the second payment made to him. He was given the contract of removing the dirt at 10 8-10 cents per cubic yard, but Secretary Wappich, who was helving Bud Balcombe, private secretary of the chairman of the board of public works, filled out the contract and made a works, filled out the contract and made a clerical error, making the payment 11 8-16 cents per cubic yard instead of 10 8-10. The first month Peterson removed 9,320 cubic yards and presented a bill for \$1,092, figuring at the false rate. The bill passed through the hands of the city engineer, was approved by the board of public works and the city council and was signed by the chairman of the council and the mayor. The next month Peterson removed 22,400 yards and again presented a bill at the false rate of 11 8-10 cents, but when it fell into the hands of Secretary Wappich he discovered the error and retary Wappich he discovered the error and Peterson's bill was not only reduced to the proper rate, but \$110 was also taken from at the make up for the excess on the first bill.

At the proper rate Peterson will receive \$8,863 for the job, but at the false rate would 88,863 for the job, but at the laise late which have received \$9,683 for it. He has attempted to make the city pay at the rate specified. This mistake is said to have been the first yet made by Secretary Wappich.

Improvements at the Smelter. The work on the large addition to the smel ter of the Omaha & Grant plant is in an advanced state, and the framework is being enclosed with corrugated iron. In a month or six weeks at most the structure will be completed. The new smoke stack, which will be 100 feet nigh, is already built up

A new Corliss engine of 200-horse power A new Corliss engine of 200-norse power has been put in the engine room to meet the doubled capacity of the smelter. The new engine is an exact counterpart of the old one. The latter has run for three years and in that time has been idle only nineteen hours—an almost un-precedented record. The shutting down of the engine for one day would entail a loss to the company of \$1,000, and the new engine will save that enormous expense in case of any unforeseen emergency.

The new electric plant of the smelter, which is being put in by Mr. McConnell, will

be finished in about ten days. For beauty, for comfort, for improvemenof the complexion, use only Pozzoni's Pow der; there is nothing equal to it.

Arrested for Selling Lottery Tickets. Mrs. E. Smith of No. 315 South Fifteenth street, and F. Dohlman, a bartender for P. H. Green, on St. Mary's avenue, were arrested yesterday for seiling Louisiana lottery James Mills filed the complaints Both the defendants gave ball in the sum of \$100 each, and the hearing of the case was putover until to-day.

Robbed His Benefactor. August Fischer, a bewhiskered gentleman wno lives at 413 South Sixteenth street, swore out a warrant Tuesday afternoon for the arrest of one Charles Young, on the

charge of larceny. Young arrived in Omana several days ago

across Fischer who followed the Biblical quotation, "I was stranger and you took me in," and for three days fed and lodged him. On the third day Fischer left his pocket-book containing \$5 on the escretoire while he went out to buy a chuck steak for breakfast. When he returned Young and the \$5 were gone. Hence the warrant. Young was arrested at 4 p. m.

BUSION CAPITALISTS.

They Will Be Invited By the Board of Trade to Visit Omaha. The people of Sioux City have invited a large party of Boston capitalists to visit their corn palace and exposition, and the party will arrive in Sioux City on October 2. At the last meeting of the board of trade a committee was appointed to make arrangements for inviting the Boston people to visit Omaha. This committee has duly consid ered the matter and announce that, in its judgment, it would be a very wise move to invite the party here and to entertain them in a fitting style. The plan suggested is to arrange for a daylight ride to Omaha in order to show the agricultural developments to the best advantage, and, after arriving in the city, to escort the visitors over the city. viewing the several manufacturing establish ments, etc., and finishing with a banquet in the evening. In order to carry out this programme successfully considerable of an out-lay will be required, and the committee is of the opinion that a part, at least, of this expense should be borne by the citizens, as the city at large will derive the benefit resulting

MORE DELAY.

Work on the City Hall Stopped Again Last Night.

Messrs. Wheeler, Counsman and Chaffee, the members of the building committee of the council, are still at war among themselves as to the kind of stone to be used in building the new city hall. As a consequence the contract with J. F. Coots & Son, the lowest bidders, has not yet been signed. The prospective contractors have already torn down about half of the walls, and there is yet about two weeks work ahead. As satisfactory, and as there might be considerable trouble in such a case of getting pay for the work done before that time, Coots & Son decided to stop work last evening and do nothing more until the contract is signed. The main dispute among the members of the building committee is whether they will use syenite granite with Portage red trimmings or Berea sandstone with Dob in granite trimmings. The syenite granite was used in the Paxton block at Sixteenth and Farnam, while the Portage red granite can be seen in the new pillars and arch at the doorway of the Omaba National bank. The Commercial National bank, now being erected at Sixteenth and Farnam, is built of Berea sandstone. There are no specimens of the Doblin granite in the buildings of the city, but it is described as being of a dull

Evidence Not Sufficient to Hold Him For Shooting Masterman. The case of the state against John Vander sloot for assaulting Constable Masterman

with intent to kill, was heard before Justice Wade yesterday afternoon. Several wit nesses testified that it was so dark when the fracas occurred that they could not see anyone kicking or striking. They also testified that they did not see a revolver in the bands of Masterman and could not say who did the shooting. The court held that there was not sufficient evidence to warrant binding the man over to the district court and he was therefore acquitted.
Edward Hoolihan, another of the men who was snot by Masterman, was arrested in Justice Wade's court room on the charge of

assaulting Masterman, and was released on He Was an Insurance Man. "I'm no suspicious character or vagrant, judge," said a thin smooth faced man, as he responded to a call from the police judge yes-

terday morning. "What were you doing out at 3 o'clock yesterday morning!" asked the court. "Well, I'll tell you. My real name is John Tyler, my home is in Fremont and I am respectable. I came to Omaha Tuesday to see, an old friend and also to seek employment. I am an insurance agent. After re-tiring at night I was so restless that I could not sleep and got up. While walking around

the block I was arrested by a policeman to whom I endeavored to explain but ne would not have it and was locked up. I am married and can prove my identity. Tyler was discharged.

Failed to Materialize. Somebody advertised a few days ago that there would be a meeting last night in the police court rooms of the Independent Political Progressive Club of Omaha, They announced that certain prominent colored speakers would be present. A reporter for THE BEE waited until after 9 o'clock, and no person reached the hall except J. W. S. Banks, a colored waiter at the Murray hotel, and F. L. Barnette, a man who gives it out that he will soon start a newspan the interests of the colored population to be known as the Progress.
