

THE DAILY BEE.

E. ROSEWATER, Editor. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION: Daily and Sunday, One Year, \$10.00...

GENERAL REPUBLICAN VICTORY.

The result of the elections in the new states will be satisfactory to republicans generally. It is all that the most sanguine expected, and much better than the great majority of intelligent republican observers had counted on.

SEND IN YOUR COMPLAINTS.

Frequent complaints reach THE BEE from passengers on trains and from residents of towns in this section, that it is impossible to get a copy of THE BEE from resident news agents and train newsboys.

THE CONSTITUTIONS ADOPTED.

In all the new states the constitutions were adopted by overwhelming majorities. It will be interesting to again refer to the most prominent features of the organic laws of these new commonwealths.

GRINDING THEIR AXES.

Every time an election is in sight political demagogues go on hand with loud talk in favor of the wage-worker. The other day Councilman Boyd introduced a resolution directing the committee in charge of the city hall building to insert in the contract a provision that only union labor should be employed.

RETURNERS FROM MONTANA INDICATE THAT THE MISSOURIANS CARRIED THE DAY.

It is now in order to annex the new state to St. Louis.

THE WICHITA, KAN., CITY COUNCIL RECENTLY REDUCED SALOON LICENSES IN THAT CITY FROM \$100 TO \$50.

For a strictly prohibition state that figure is not very bad.

DEMOCRATIC NEWSPAPERS HAVE DISCOVERED THAT "OTHER REPUBLICAN LEADERS ARE KISSING FORAKER."

This is a sure sign of an increased republican majority in Ohio.

THE DEEP WATER CONVENTION IS MOVING ALONG SWIMMINGLY IN KANSAS.

There are so many concerns in deep water in that section that the convention feels perfectly at home.

BOSTON HAS FOUR HUNDRED AND FIFTEEN THOUSAND, THREE HUNDRED AND FOUR POPULATION, NOT COUNTING HER FAVORITE SON, PROFESSOR JOHN L. SULLIVAN, WHO WILL SOON DEPART FOR THE MISSISSIPPI PENITENTIARY.

IT REMOVES COUNCILMAN BOYD TO MOVE ANOTHER RESOLUTION.

He cannot afford at this stage of the campaign to abdicate his grip on the labor vote to such veteran workmen as Hascall and O'Connor.

UNION PACIFIC EMPLOYEES, WHO ARE ASSESSED FORTY CENTS A MONTH FOR A COMPANY HOSPITAL FUND, INTIMATE THAT THE MONEY IS USED FOR OTHER PURPOSES THAN THAT WHICH IT IS DESIGNED FOR.

The figures are called for.

IT IS GRATIFYING TO NOTE THAT A RECENT REVIVAL OF THE CODE IN LOUISIANA RESULTED IN TWO FUNERALS.

If such success could be guaranteed at future meetings of offended southerners, the country would cheerfully overlook the melancholy incidents.

THE GRAND JURY SHOULD BY ALL MEANS VISIT THE COUNTY HOSPITAL IN A BODY.

If upon their return they do not indict the men who built it and the men who were in collusion with this job, they would be willing to witness the burglary of the county treasury without as much as lifting a finger to prevent the crime.

THE ROCK ISLAND COMPANY SHOWS COMMENDABLE PROMPTITUDE IN MAKING AMENDS, AS FAR AS MONEY CAN DO IT, FOR THE DEPLORABLE ACCIDENT NEAR CHICAGO.

The payment of the full amount of the claims as fast as presented will tend to diminish the odium brought upon the management and intoxicated employe-

the American union, and the constitution of the United States is the supreme law of the land. Another peculiar feature of the bill of rights is the declaration that it is the right of a citizen to obtain employment wherever possible, and punishment is provided for any interference with this right by blacklisting, boycotting, or otherwise.

Furthermore, disgruntled contractors might work up a strike against the builder and ruin him. No fair-minded business man would impose such conditions, or, otherwise, would demagogues and political muckrakers who have axes to grind with workmen will resort to such bunk.

CONGRESSMAN PARQUHAR, of New York, will introduce in congress two bills designed to utilize the merchant marine of this country. One will provide for the payment of a bounty of thirty cents per ton for every thousand miles traveled by vessels of American register. The other will provide for the admission, duty free, of all raw materials imported in ships of American register.

It is absurd to say that the Douglas county bar's recommendation for a candidate for the district bench is final. The selection of Mr. Clarkson was an endorsement of that gentleman's qualifications for the position. It does not abridge the right of parties to nominate candidates, nor does it in any way interfere with or forestall the final decision of the voters.

THE council has firmly refused to use anything but Dodlin granite for the base of the city hall building. Conceding, for argument's sake, that a light-colored granite is preferable to dark-colored for the base, can anybody in or out of the council tell our citizens why Dodlin granite should have the preference?

EVERY civilized country is erecting barriers against the hordes of China, Ecuador and Australia have followed the example of the United States by enacting stringent exclusion laws, and the temper of the people is such that technicalities and legal subterfuges will not be tolerated. The law in this country has been practically nullified by the courts and lawyers of San Francisco.

QUEEN Victoria, a London gossip hears, now weighs 194 pounds. The royal colonel is quite a heavy draught. Amelia Rives, who won an unenviable reputation by her kissing novel, "The Quick or the Dead?" has an ungraceful figure crowned by a beautiful face.

THE immense amount of English gold pouring into the United States for investment threatens to seriously disturb the monetary condition of England. As an offset the Bank of England has advanced the discount to five per cent, the highest known for years.

obliged to employ only union men, the natural result would be a combination of union workmen to compel him to pay any wages, at the risk of forfeiting his bond.

CONGRESSMAN PARQUHAR, of New York, will introduce in congress two bills designed to utilize the merchant marine of this country. One will provide for the payment of a bounty of thirty cents per ton for every thousand miles traveled by vessels of American register.

SHIPS cost no more to build in America than in any other country, and with some needed legislation the United States flag may soon be seen on the water highways of the world as frequently as the Union Jack of England.

IT is absurd to say that the Douglas county bar's recommendation for a candidate for the district bench is final. The selection of Mr. Clarkson was an endorsement of that gentleman's qualifications for the position.

A FELLOW Feeling. Louisville Courier-Journal. All the Koffs of Russia sympathize with the czar in his recent acquired cold.

So is Uncle Sam. Chicago Times. Francis Murphy says he and Mr. Moody are tired of "saalskin sinners." So are the citizens of the United States en masse, and if those Canadians do not stop poaching on our preserves, there may be trouble.

THE Annexation Policy. Louisville Courier-Journal. When a country ceases to be burdensome it may always anticipate annexation. How are great cities to be formed if suburbs are not absorbed? Every city would be dwarfed if it were to be confined to its first or second or third limits.

What a Grand Jury Can Do. St. Louis Post-Dispatch. It looks as if the only chance of municipal reform in this city lies with the grand jury. That investigating body of citizens can make itself exceedingly useful by turning its attention to places needing investigation.

It Would Encourage the Robbers. Boston Globe. The business of train-robbing is looking up again in the south, and the daring rascals are prospecting their guests in trials. It has been suggested that all train hands be sworn in as special police and be empowered to act accordingly, but probably a policeman's badge and billy would not give them any extra courage.

a concession in money and land from the Mexican government and are already offering the poor colored man "forty acres and a mule" to migrate to Vera Cruz. The soil and climate possess unsurpassed advantages as a graveyard. Favors and tarantulas grow luxuriantly, and the colored man who ventures there is assured of a lively and interesting time keeping above the soil.

THE sugar trust displays remarkable ability in skinning the public. Having thoroughly squeezed the consumer, it is now putting the screws to the gudgeons who invested in trust certificates. The robbing career of this odious combination strengthens the demand for a stringent law making it a penitentiary offense for any man or men to combine to advance the prices of the necessities of life.

THE train wrecker is on hand again, propelled by the engineers who have several times succeeded in ditching the republican party in this county. This time they persist in forcing a partisan contest over the vacant judgeship and if they are contented in this effort by the county convention, a nomination on the ticket will mean disaster and defeat.

JEFF DAVIS is again working his mouth for the edification of the south. As long as he confines his gingham grievances to his constituents there will be no great objection, but when he invades the north with his jawbone in sight, steps should be taken to suppress a back number nuisance.

THE gallant men of Washington, with few exceptions, displayed proper regard for the opposite sex by accepting all ballots offered and depositing them in dainty perfumed boxes for future consideration. It was a mournful duty cheerfully performed at the grave of woman suffrage.

A Fellow Feeling. Louisville Courier-Journal. All the Koffs of Russia sympathize with the czar in his recent acquired cold. So is Uncle Sam. Chicago Times. Francis Murphy says he and Mr. Moody are tired of "saalskin sinners."

WRIT OF MANDAMUS SOUGHT

Sutherland in Earnest on the Freight Reduction Order. A Peculiar Complaint From Sioux City, Iowa—Kearney Phonograph Enterprise—Supreme Court Matters—City News.

THE controversy on the Sutherland-Mandamus case and findings is fast reaching a head, as the following letter, written by J. R. Sutherland, of Tekamah, to Attorney General Leese, under date of September 30, will indicate.

Dear Sir:—In the matter of the complaint before the state board of transportation of J. R. Sutherland vs. the Chicago, St. Paul, Minneapolis & Omaha railroad company, relative to coal and live stock rates of transportation between stations in Nebraska, it is my understanding that the board found the rates of the respondent for the transportation of coal to be unjust and unreasonable, and under date of August 6, 1889, issued and served an order upon the respondent requiring that it should, within thirty days thereafter, promulgate a tariff of rates under which coal in car loads might be shipped a distance of fifty miles at the rate of 80 cents per ton, in place of \$1.40 per ton, the tariff rate then in effect—rates for other distances showing a reduction in similar proportion.

A number of the friends of Judge Norval, of the Sixth judicial district, were in Lincoln to-day, quietly inquiring into the temper of the Lancaster delegation as to personal preference for the supreme judgeship. The fact seems to have been forgotten that the delegation from this county was instructed for Judge Reese. It is said, however, that this delegation was not very much averse to Judge Norval's candidacy in the event that it became apparent that Reese can not make it.

Attorney General Leese received a peculiar letter from Sioux City, Ia., to-day, written September 29, and bearing the signature of George P. Palms, committee on the writer, however, gave his name as an evidence of good faith, and he is a prominent and well known citizen of that city. He recites that, with six others, citizens of Covington or Stanton, Dakota Territory, this state, he has been called upon to investigate the most flagrant abuses of law and decency applicable to the lawless conduct of the delegation from this county was instructed for Judge Reese. It is said, however, that this delegation was not very much averse to Judge Norval's candidacy in the event that it became apparent that Reese can not make it.

THE banking department received notice to-day that the bank of Emerson, of Dakota county, had suspended business. No "assets" have been reported by the bank depositors dollar for dollar. The Central Nebraska Phonograph company filed articles of incorporation to-day. Kearney, Buffalo county, filed upon the principle of the plan for the transaction of business. Business existence dates from October 1, 1889, to September 30, 1890. Capital stock \$25,000. Incorporators, W. H. Hanson, Fred T. Robertson and George R. Sherwood.

THE following cases were argued and submitted: Baird vs. Todd, Jameson vs. Dickson, Hartford vs. Shultz, Greenwald vs. Craig, motion to quash. The following case was filed for trial: Baxter Bros. et al vs. Miller Shultz, by his next friend, John Shuman, error from the district court of Lancaster county.

THE following cases were argued and submitted: Baird vs. Todd, Jameson vs. Dickson, Hartford vs. Shultz, Greenwald vs. Craig, motion to quash. The following case was filed for trial: Baxter Bros. et al vs. Miller Shultz, by his next friend, John Shuman, error from the district court of Lancaster county.

HOW MY SIDE ACHES! Aching Sides and Back, Hip, Kiltney and Throat Pains, Rheumatic, Sciatic, Neuralgic, Head and Shooting Pains, Headaches, Stomach and Bowel Complaints, Catarrhal, and all other ailments, relieved by the use of Dr. Williams' Pink Pills for Pale People. At all druggists.

Children Fed for Pitcher's Castoria.

When Baby was sick, we gave her Castoria. When she was a Child, she clung to Castoria. When she became a Man, she cried for Castoria. When she had Children, she gave them Castoria.
