Pierre is Capital.

No city or town in the world ever attracted as much attention and became so widely known in so short a time as Pierre. Since the capital question was settled she has been crowed way beyond her capacity, and real estate men, speculators and capitalists, are flocking there from all parts of the country The hotels are all crowded away beyond their capacity. Business of all kinds is being located, and would come in much faster if business places could be secured. Laboring men of all kinds are in great demand. Carpenters and brick masons are making their own terms.

Values in realty have almost trebled in the last ten days. This is no sur-prise, as it is a well known fact that property in Pierre has been held a about one-third the price asked in al the other aspirants for capital. The Capital City Investment Co. will sell'a few more lots at original prices at Pierre headquarters, Room 6, Continental Block.

Something New. Patrons of the Chicago & Northwestern railroad can now leave their order for a baggage wagon at the city office, 1401 Farnam street, and have their baggage checked direct from their hotel or residence to any point east, thus saving the annoyance of re-checking at the depot.
