COUNCIL PROMISES.

Mr. Coats says they have been broken several times. In order to facilitate the work on the new city hall, a stone crusher has been procured and placed in position near the northwest corner to break rocks that formerly had to be reduced by the slow process of hammering.

Catarrh

It is a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous mally. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla—the best of all blood purifiers. The sooner you begin the better; delay is dangerous.

Ayer's Sarsaparilla,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Price \$1; six bottles, \$5. Worth \$2 a bottle.

INSPECTING THE WEST.

Eastern Capitalists Looking at Their Western Securities.

Hon. Samuel E. Morwin, Mr. James D. Sewell, Mr. Charles S. Deane and Charles W. Scranton, prominent Connecticut capitalists, are chartered at the Paxton.

Mr. Morwin is lieutenant governor of his state, as well as president of the Yale National bank at New Haven, where he resides; Mr. Deane is vice president of the Security insurance company; Mr. Sewell is president of the Connecticut and Kansas Security insurance company, and the other of the Mechanics bank, while Mr. Scranton is a member of the firm of Bunnell & Scranton of New Haven.

"We are simply out on a tour of inspection and pleasure," said Governor Morwin, to which Mr. Scranton assented.

"Yes, our attention has been directed to an examination for ten days past to insurance and banking matters in the west, and we have come here, now, to look over Nebraska and will probably visit some of the other states before returning home."

"To see what you can't find a market for our nutmegs and basswood bark," interjected Mr. Deane, who appears to be the humorist of the party.

"Presumably then, you gentlemen have as the chief object of your visit, this way, the investment of more capital?"

"Representing as we do large insurance and banking interests, having more or less western securities already, we were anxious to ascertain from personal observation whether or not the investments of such kind in these western states were really profitable."

"We find the most substantial evidences, however, of the fact that the investments of such kind in these western states were really profitable."

"This far, our investigations have been more than satisfactory," said Mr. Deane. "We find the most substantial evidences, however, of the fact that the investments of such kind in these western states were really profitable."
