Confusion in Paving Estimates Liable to Cost the City Dearly.

THE CITY DADS IN A DILEMMA.

Developments in the Kibbe Murder Case Show the Existence of a Society For Protection Against Thieves.

Trouble Over Paving Bonds. BEATRICE, Neb., Oct. 24. - | Special Telegram to Tuz Buz. |-A considerable sensation was created this evening by the discovery that the city had been muleted in the sum of \$29,000 for excess bonds in paving district No. 1. The discrepancy occarred through an error in calculation and the confusion of two different estimates. In the first estimate \$99,000 bonds were voted in the district on the basis of a ten-foot sidewalk along the street to be paved. The bonds were issued and sold on this basis and the money received here for them. When the paving was to begin the council passed an ordinance establishing fifteen feet as the width of the sidewalks in the district and the contract was let and work completed on that estimate. It now developes that the total cost of the paving is but a trifle over \$70,000, whereas \$99,000 are on hand to pay for the same. The city authorities are try-ing to wiggle out of the dilemma by hoping induce the holders of the bonds in the east to surrender them and accept an equival amount of bonds in paving districts No. 2 and 3 when they shall have been issued. The outcome is awaited with considerable

The Kibbe Mu der Case. CREIGHTON, Neb., Oct. 24 .- | Special to THE BRE !- At the examination held yesterday County Attorney Rice discovered much that went to clear up the Joseph Kibbe murder, It appears that a large number of farmers in this and adjoining counties have banded together in some kind of an organization for the protection of their property from thieves. One grand lodge and a subordinate lodge of this organization are in the west part of this county and had to do with this murder. The lodge with headquarters near where the shooting occurred had had notice that Sharp's granary must be watched on last Sunday night, and a party of six was made up to do so. According to the testimony of all the six men they met at the house of one Read, about a half mue north, and walked south through a cornfield towards the gran-ary about 11 o'clock Sunday night. As they came up within a few rods of the building and were still in the corn, three pistol shots cracked in rapid succession and they saw distinctly the flash of the revolver. Before they reached the building they saw several men running and shouted to them, asking if they had caught them—meaning the thieves.
"Two of them got away, but we got one
d-n————. It was J. Kibbe I guess,"
was the answer, and they quickly disap-

peared in the darkness.
Without waiting to investigate, the men who had just come up turned and went back to Read's. In the morning the body was found, as already described, lying in the oat

Prosecutor Rice made a diligent search for a clue as to who fired the shots, and although it was in all probability one of a party from some lodge in that vicinity, it was impossible to find the man. The case will not end here, however, and it is only a question of time before the murderer will be run to earth.

Kearney's City Hall Defective.

KEARNEY, Neb., Oct. 24.-[Special Telegram to THE BEE. !- An important brick pillar in the new city hall here, which is in course of construction, split to-day on account of the great weight it supported. Builders generally condemn the structure because of its inferior architecture. The contractor is ready to put on the slate roof and the building committee fears that the weight will crush the structure, because of the long flat arches over the windows and entrances and weak supports. It is begi ning to assume the proportions of a white

"In North Dakota," said he, "there are

three counties and in South Dakota four others besides my own which are in a destitute state. There are in Faulk county alone nearly five thousand inhabitants, the majority being farmers, and as in all new countries, men of small means. They are now with a long cold winter before them. Many are without means to purchase fuel Many are without means to purchase fucl, provisions, clothing or any of the absolute necessities of life, and unless help from the outside can be procured there must of necessity be great suffering between now and spring. We have done all that men and women can do, our misfortune is certainly no fault of ours, and we can not but believe that our noble heartest countrymen in the districts favored. hearted countrymen in the districts favored with plenty of rain and prosperity will stand by us in our trouble and that we will not be left to freeze or starve, for want of the bare necessities of life."

SPORTING NEWS.

New York 11, Brooklyn 3. NEW YORK, Oct. 24.-|Special Telegram to THE BEE.]-The fifth game in world's championship series was played at Washington park, Brooklyn, this afternoon, The weather was cold and windy. Caruthers, who was in the box for the Brooklyns, received the hardest pounding of any pitcher so far in the series. On the other hand, Crane was on his mettle. The hits secured off him were mostly of the "scratch" order. The Giants took the lead in the third inning, when they made four runs. After this inning Caruthers was an easy mark. The fielding by Smith, Collins, Whitney and Pinckney was the principal feature. Score NEW YORK. | BROOKLYN.

Kennedy Must Die.

DUBUQUE, Ia., Oct. 24.—Barney Kennedy. the wife murderer, must hang unless the governor interferes, the supreme court having sustained the lower tribunal in refusing to grant a new trial. The crime for which Kennedy has been condemned to hang was the most brutal on record in lowa. Mary Kennedy, his wife, was found lying dead near the Maquoketa creek, a few miles above Dubuque and some distance from Kennedy's home, April 23, 1887. Her appearance indicated that she had been butchered. She had disappeared a few days before. The evidence showed clearly to the minds of the jurymen that Kennedy wayaid and killed his wife, and, as his childre testified, arrived home covered with blood. In June of that year he was convicted of murder in the first degree, and Judge Couch fixed the punishment at death. A new trial was granted on the ground that one of the jur-ors had never been naturalized. In January, 1888 the case was again tried a change venue having been denied. A verdict of guilty was returned, and Judge Ney prescribed the death penalty, to be executed in March, 1888. Kennedy moved for a new trial, on the grounds that the court erred in not granting a change of venue and that one of the jurors was drunk. This motion was denied, and an appeal was taken to the su-preme court, which sustained the decision. The defeuse then filed the petition for rehearing, and meanwhile sentence was suspended. Kennedy's crime had about it no redeeming features. His wife was well connected, and when be married her was one of the most popular young women in Du buge. She was a mere giri in years, being only sixteen years of age, and Kennedy, in-stead of surrounding her with those home comforts his industry could have procured became dissolute and shiftless, and so com pletely destroyed her ambition and pridthat she retired from society, and accuncomplainingly a life of drudgery. own efforts largely she raised and cared for the rapidly increasing family, while Kennedy passed much of his time in idleness and drunkenness. Then, for some reason unknown, after having driven her from the house, he waylaid her in a lenely ravine she was hiding from his wrath, and brutally kilted her.

LOCAL POLITICS.

Julius Werdin Vents His Rage on Reporter.

The meeting of the Second ward demo crats, held in Mics' hall last night, was well attended. Mr. Spoerl addressed the meeting, stating that only two days were left for registration, and that all democrats should register, and when election comes do their duty and vote for the democratic ticket.

E. Bicker said that candidates were never present at the meetings, and insisted that something be done to induce them to appear. At this time Julius Werdin, who called the Snyder meeting in the Seventh ward last Wednesday, gave way to his feelings in a very loud manner, and, stating that he noticed a Bez reporter present, proceeded to use the most insulting and abusive language toward him. He stated that he had been employed by Adam Snyder to call the meeting last Wednesday, and heaped abuse upon the reporter for stating the real facts in connection with the meeting.

J. C. Riebe was the next speaker,

after denouncing the republican party, stated that he was a democrat, and it was the duty of every good democrat to vote for the can-didate of the democratic ticket. Adam Snyder. There was no mention made of either of the other candidates.

Then there was a wrangle about where the next meeting should be held. Both saloon men wanted it, and when the meeting adjourned it was agreed that the next festiva should be held in Dodam's hall, which is located a few blocks below Cates' place.

CLARKSON'S NOMINATION.

The Attempt to Show He Was Only Endorsed. The managers of Joseph Clarkson's cam paign held a meeting at 11 o'clock yesterday

morning and determined upon plans for work. Hon. A. J. Poppleton, C. S. Montgomery, W. H. Eller of Blair, I. E. Congdon and several others were present.

They decided upon the publication and distribution of campaign literature setting forth the situation of affairs and especially destroying the false impression that Mr.

Clarkson was not nominated by the demo-cratic district convention.

Mr. Elier, who was secretary of that con-vention, says his minutes will show, if anyvention, says his minutes will show, if anybody wishes to examine them, that he was
nominated. "Mr. Populetoa," he contioued, "made the nomination. It was put
to a vote, and Clarkson had a majority.
Somebody then moved to make his nomination unanimous, whereupon Frank Morrissey

NEW UNION PACIFIC DEAL

An Alliance With the Chicago & Northwestern Effected.

A SCHEME OF THE VANDERBILTS

It Will be Far-Reaching in its Re sults and Will Attract Attention on Both Sides of the Atlantic.

Two Great Systems in Harmony. NEW YORK, Oct. 24 .- | Special Telegram to

THE BEE |- The World says: A new and important movement in the railroad world just made will attract attention on both sides of the Atlantic. It is nothing less than an alliance between two of the most extensive railway systems of this country-the Chicago & Northwestern and the Union Pacific. The World can announce positively that these roads will henceforth be operated in com plete harmony and with the view of each giving the other all the traffic the agents can secure for points on either line.

There is, however, a far deeper signifi cance in this, if the statements of trustworthy persons are correct, than appears upon the surface. The Chicago & Northwestern, as is well known, is under of the Vanderbilts control its board of directors includes several gentlemen closely allied with their interests. The Vanderbilts have for several years been solidifying their lines east of Chicago and have expended vast sums of money in improvements which some other companies, having less conservative man agements, would have paid out in dividends Now, with their close affiliation with the Union Pacific, the Vanderbilts will, in al probability, branch out toward the Pacific ocean. This could very readily be done by continuing the line of the Union Pacific from Frisco, Utah, southwesterly to one of the southern California scaports in proximity to Los Angeies. The fact that the Chicago, Milwaukee & St. Paul has within a year gone through a process of evolution which brings this line also close to the Vanderbilt interests, would make the combination just outlined all the stronger.

What gives color to the rumored intention of the Vanderbilts is the steady absorption of Union Pacific shares for some time, supposed to be for their account. As already stated, that part of the programme which brings the Union Pacific and Chicago & Northwestern into close harmony is definitely settled. Those who ought to know declare that it will not be long before a Van-derbilt through line, extending from ocean to ocean, will also be an accomplished fact The Chicago, St. Paul, Minneapolis & Omaha railroad company, the majority of whose stock is owned by the Chicago & Northwestern company, is a party to the contract. That gives the Union Pacific a direct line to St. Paul, to Minneapolis, and to Duluth. The Union Pacific is thus enabled to compete at every important center east of the Missouri river that is touched by the Northern Pacific-Wisconsin Central combination.

The Report Confirmed.

Boston, Oct. 24 .- The report of a traffic agreement between the Union Pacific and the Chicago & Northwestern railways was confirmed at the Union Pacific office here

to-day. The agreement is for ten years. There is a longer one between the Omaha & Republi can Valley and the Chicago, St. Paul, Min-neapolis & Omaha roads. The joint line via Sioux City is to be known as the Lake Superior, St. Paul & Union Pacific line. The agreement between the Northwestern and the Union Pacific establishes a line vir Council Bluffs to be known as the Chicago Union Pacific & Northwestern line. The entire systems are parties to the contract except in the case of the Kansas division of the Union Pacific, which at no point connects with the Northwestern. The nowhere goes east of Chicago. The agreement It is thought here that it can mean nothing less than a through line from ocean to ocean

by way of Boston and Albany and the Van-derbilt lines.

A Talk With Depew. New York, Oct. 24.-President Depew, of the New York Central railroad, said to-day, referring to the statement in a morning paper, that there had been an alliance be Union Pacific railways whereby both roads will be operated in harmony with a view to improving their traffic advantages, said "The statement is correct. There has a traffic arrangement between the roads, but nothing further has been done and I have nothing to add.'

Vice President Sykes Explains. New York, Oct. 24.-The traffic agree ment between the Northwestern and the Union Pacific has created a great deal of discussion among railread officials in this city. Vice President Sykes, of the North western road, said to-night that the contract is not an exclusive arrangement between both roads in the sense of either road refus ing to handle the business of other compet itors. The Rock Island and Burlington have western connections of their own, and the alliance between the Northwestern and Union Pacific is simply in the line of similar arrangements already made with other systems. The arrangement does not go east o Chicago, and Vice President Sykes said he had no knowledge that the allied lines in-

tended to make eastern connections. The Opinion In Chicago. CHICAGO, Oct. 24.—|Special Telegram to The Bee.]—No official utterance could be obtained in Chicago to-day retative to the alliance between the Union Pacific and the Northwestern. President Hughitt is in the east, Vice-President Newman is on a tour of the road, and none of the other officials were informed on the subject. It was the general belief that an alliance had been formed, but that it would not extend further than close traffic arrangement. All sorts opinions were expressed on the subject, and from the different officials opinions could be gained varying from a belief that it would e a good thing for both roads, to an equili positive belief that both lines would traffic by the deal. Should the deal actually be made it will be interesting to note whether the Pullman or Wagner company will control the sleeping

car privileges. Wagner coacses now ru-Union Pacific The main reasons why the report is so readily believed in Chicago are the numerous recent changes in the officials of the Union Pacific and the appointment of Mr. Newman to the third vice presidency of the Northwestern. The very air is tingling with rumors of consolidations, and no one doubts that the lightning will strike in numerous places.

Railway men agree that there must soo

be two or more gigantic consolidations, headed respectively by the Vanderbilts and the Goulds. The numerous fake consolidations recently said to have been formed have, by the denial of their formation, only added fuel to the flame of conjecture. What is Said at Headquarters.

Vice President Holcomb, when shown the report, said: "Yes, the Union Pacific and the Chicago & Northwestern have entered into a close traffic arrangement, and the deal will take effect as soon as minor details can be arranged. Under this agreement the Union Pacific will turn over all of its uncon signed business to the Northwestern, a Omaha. In return the Northwestern will turn over all of its unconsigned business to

"Does the deal involve the Elknorn and the St. Paul & Omaha?" "Yes. The north-bound business will be routed over the Omaha & St. Paul. Sloux City will be the port of entry and delivery for north bound business. The traffic ar-

for north bound business. The traffic ar-rangements also imply the Elkhora and its business.
"We will also in all probability run through daily trains from the Pasific coast to Chicago. The through service will be centered at Portland on the west. The through service will not terminate at Chicago. On the other hand the arrangements call for a direct connection with the Vanderbit lines.

at Chicago for New York and Boston. The substance of the agreement is that the Union Pacific has aliced itself with the Vanderbitt Pacific has allied itself with the Vanderbitt system, thereby forming a direct and unbroken route across the continent—New York on the east and Portland on the west, We were compelled to take this move. The Northern Pacific and San Fe have direct lines to Chicago and this necessitated a move such as we have just made. The prespect of the Baltimore & Ohio combining with the Northern Pacific thereby forming, a direct line to Saltimore & Obio combining with the North-ern Pacific, thereby forming a direct line to the coast and between the two oceans, re-quired the extension of the territory covered by the agreement which we made, and for this reason the Vanderbilt system east of Chicago is included. Yes, this undertaking is a certainty and an important one, too. It not only gives us a direct line across the con-tinent but it also affords as direct communitinent but it also affords us direct commun cation with Lake Superior ports through the Northwestern's branch lines."
"Is the Manitoba to be included in the

"Thus far it has not been taken in, but such a thing might be consummated. A matter of this kinds remains unsettled, and it may result in the Manitoba being taken

into the agreement."
The combination is a gigantic one when i is taken into consideration that nearly thirty-two thousand miles of railroad are involved. The unconsigned portion of the traffic of a road aggregates, it is said, about S5 per cent of the entire traffic.

To Prevent Rate Manipulation. CHICAGO, Oct. 24.- [Special Telegram to THE BEE. |- The auditors of the central traffic and trunk lines and the chairmen of the various western railroad associations are engaged on a plan which will effectually stop a large share of the present ways of manipulating rates. In effect, the plan partially agreed on is a method of billing traffic by which in all cases the way bill will read from the point of origin to the ultimate destination. For instance, at present the plan on a shipment of cattle from the Indian territory to Boston would be to bill locally to the Mississippi, thence it would be rebilled to Boston, or perhaps to Chicago, and then to Boston. Every rebilling has been a loophole which has been eagerly seized for fraudulent billing of various kinds. The manipulations of this class have grown to such serious proportions as to materially affect the earning power of many of the roads. The inspection bureaus are clogged with just such cases, and the expense of tracing the fraudulent billing is becoming a serious tax. The practice is so universal as to allow no one road any advantage, and the practical throwing away of money is to be stopped by the system of through billing.
