Wheat Ruled by Many Fluctuations and Very Unreliable.

CORN ONLY FIRM AT OPENING.

Only a Moderate Volume of Business Transacted in the Provision Pit - Cattle Dull - Hogs Bather Active.

CRICAGO PRODUCE MARKETS.

CHICAGO, Nov.L .- | Special Telegram to THE BEE.]-To-day's wheat market was manysided and unreliable. It had fits of strength, followed by periods of weakness, which carried prices over the whole gamut of the day's range more than once, so that when the bulls were rejoicing in its strength it would incontinently turn and take strong sides with their opponents. The early influence of no wheat being delivered out to-day on November contracts-one little 5,000 bushel warehouse receipt being unworthy of serious noticewas to give firmness to the first transactions, but the lack of bull news on the blackboards, leaving out a Liverpool cablegram, was not encouraging to any pronounced strength. The feature of the day was the reported buying of fifteen boat loads at New York for export to Great Britain and 20,000 bushels at Baltimore on Liverpool account. The influence of this piece of news was seen in the advance of December 80%c from around 80%c, where it had been playing for about an hour. On the way up heavy buying on account of some prominent shorts kept the fizz a-going, and it was not till near the close that the effervescence subsided to any great extent. It became apparent toward the end that wheat bought on the early advance (except so much of it as was required to settle short deals), was all for sale around 80%c, and being in the hands of local talent, which, without outside support, quickly dumps its load, getting from under was the principal feature of the last ten minutes of trading. December wheat opened at 80% c sold down to 80% c early, then advanced and played for some time around 8014@8034c. A further advance to 8054c took place, which was the high point for the day, and the subsequent point of contention was around 8034c, with a final break to 8034c, at which price old the market closed. Continued wet weather and the fact that no corn was delivered out on November contracts during the hour allowed for the transaction of business, gave the market for that cereal a firm opening. The good demand for each offerings also good demand for each onerings are tended to cause uneasiness to the shorts, whose purchases more than buying for long account has been a factor in the recent advance. The firm opening did not hold very long, offerings becoming freer, and recent purchasers took advantage of the opening strength to unload. The foreign markets were firm, exports from the Atlantic coast liberal, and the eastern movement from this point was free, as has been the case during the entire season. The closing prices

were 33%c for November, being 14003%c lower than on yesterday, but December closed at 136, which is a decline of 16c, and May lost 4%c. the late tone of strength that pervaded the oats market was absent to-day, with a notable tendency to heaviness the rule, owing to a lack of support. Some recent buy-ers turned sellers, even though the receipts continued small, and trading was chiefly in May at 2234@2234c early, down to 2134c, or a decline of 34@14c from yesterday's closings. Deliveries on November contracts were not Deliveries on November contracts were not important, with this month offered at 19c. Withdrawals for shipment were unusually large, aggregating 220,499 bushels. No. 2 regular was 19c early, and cash sales were chiefly by sample.

Just a moderate volume of business was

transacted in the various lines of provisions to-day and fluctuations in speculative values were less violent. The opening figures were slightly above yesterday's closing range on the entire list and in early dealings consequently an easier feeling prevailed, but there was not enough bear pressure to ser iously disturb valves. There were no de liveries on November contracts and the elique did nothing to enlighten the crowd in the least as to their intentions. About all that the clique brokers were engaged in openly was buying November and selling year pork. On the morning call Robert Warren sold considerable pork and during the regular considerable pork and during the regular session Hutchinson was a fair buyer of January at \$9.25. The extreme range paid for that future was \$9.22\(\xi_0(0.30)\) and at the close \$9.25\(\text{ was the market, being 5c higher for the day. There was a fair miscellaneous trade in this article, but it was almost entirely local, there being an appalling degree of duliness in the outside order trade. Lard also attracted a fair amount of attention between local professionals, while ribs ruled quiet and without feature. Both lard and rib futures closed substantially the same as on the day before. In November pork there was a shrinkage of 750 and in year pork of 5c.

CHICAGO LIVE STOCK.

CHICAGO, Nov. 1.—[Special Telegram to THE BEE.]—CATTLE—The receipts were divided at about 5,000 natives and 4,000 Texans and rangers, but only a few cars of the latter. Business was duil and scarcely anything wanted but a few exports, such selling steady to strong and all other classes dragging along all day in the rain and mud. The turn in prices was rather lower than otherwise. Texans ruled slow and dull and today were yarded in every division, the quarantine period expiring on the 31st of October. The few rangers on the market sold about the same as yesterday. Rain fell nearly all the forenoon, somewhat interfering with the stocker and feeder trade, hence the amount of business transacted was limited. Choice to extra beeves, \$4.60 @5.05; medium to good steers, 1350 to 1500 lbs, \$4.00@4.50; 1200 to 1350 lbs, \$3.50@ 4.25; \$70 to 1200 lbs, \$2.80@3.75. Stockers and feeders, \$1.90@2.90; cows, bulls and mixed, \$1.00@2.70; bulk, \$1.60@2.00, Texas steers, \$2.10@2.60; cows, \$1.50@2.00. Western rangers, \$2.40@3.60. Wintered Texans, \$2.50@3.40.

Hoos-Business was rather active, with a slight up turn on best packers and prime, but common stock sold nearly as low as yes-terday. The advance was in prime medium weight lots that showed a large per cent of weight lots that showed a large per cent of barrows. Light sorts sold about a nickel higher. Packers paid \$3.75@3.99, largely \$1.95. A few fancy but choice weights sold at \$4.00 @4.10. The general market closed steady.

FINANCIAL.

New York, Nov. 1 .- | Special Telegram to THE BEE. |-STOCKS-The feature of the stock market for the forenoon was a further break in trusts, including Sugar, Cotton, Oil, Lead, and Chicago Gas. Throughout the railroad list shares generally presented a strong front, while the bulk of the trading was in Cotton Oil, nearly 50,000 shares of 1 changing hands in the first half hour, while it declined to considerably lower figures than it reached yesterday. Opening at 3614, 134 per cent lower than its closing figure yesterday, it declined to 34% remained in the neighborhood of 35 for the rest of the hour. In the regular list there was little animation outside of Union Pacific and Tennessee Coal, the latter being the strong feature. It opened at 59 and rose to 63, retaining most of the improvement. The opening prices were generally from 16 to 16 per cent higher than last night's figures, and further fractional advances were made throughout the list, Lackawanna, Union Pacific and Iowa Central preferred being the most prominent for the advances made. Trusts were at first inclined to follow the general list, but Lead afterward gave way and scored a decline of 1½ per cent. During the hour to 13 o'clock interest centered still more in trusts. Chicago Gas went off 3½ under last night to 53½ and recovered to market stronger; heavy, \$3.80@4.00; packing, \$3.70@3.90; light, \$3.85@4.00. and scored a decline of 114 per cent. During

THE SPECULATIVE MARKETS | 5494. Cotton Oil became still more demoralized and broke to 3214c, nearly 6 points under iast night and 4 points under the opening figure. Sugar was less weak, touching 7136 and recovering to 73, Tennessee Coal lost most of its early advance, declining to 5914. Railroad stocks were but little affected by the eccentric action of trusts. The losses up to noon from the best figures of the morning ranged from 14 to 15 per cent. Union Pacific sold at 6814 and off to 6734. Vanderbilt shares were strong all through. The closing hours of the stock market were even more interesting than the morning. The rate for money was again bid up to 12 per cent, and in connection with the shaky condition of trusts everything possible was done to break the railroad list. A special drive was made at all western stocks, which resulted in a loss of %@% per cent in most of the Grangers, 1 per cent in Burlington to 10514. and 214 in Missouri Pacific, which was pressed to 6314. Atchison closed steady at 31. Vanderbilt shares yielded slightly also. Union Pacific closed 1/2 per cent lower at 67%. The losses in trusts ranged at about 23% for Chicago Gas and 5 points in Sugar,

while Sugar closed about steady. The following were the closing quotations: S. 4s regular. 127 Northern Pacific. 31 S. 4s coupons. 127 do preferred. 727 S. 4(s) regular. 1943 C. & N. W. 1113 S. 4(s) regular. 1943 C. & N. W. 1113 U. S. 4) (s regular. 1942 C. & N. W.

OMAHA LIVE STOCK.

Cattle. Friday, Nov. 1. Friday, Nov. 1.

To-day's trading in cattle was very unsatisfactory. There was a heavy fall of snow, lesting all day, which made the cattle look at their worst and caused every one who could to remain indoors. The early receipts consisted of only about twenty-three cars, but later trains brought up the total to over a thousand head. Reports from eastern account was to the country of the demand a thousand head. Reports from eastern points were not encouraging and the demand was very light, the packers not seeming to want many cattle and the speculators did not care to buy with the prospect of holding in such a storm. A few lucky salesmen who happened to have just what was wanted thought they got yesterday's prices, but as a rule operators were reporting the market flat and lower. This was especially true of the medium and half fat natives, of which there has been an over supply of late. Native steers sold at \$3.50@1.03. The same thing could be said of butchers' stock; it was very slow and in many cases salesmen thought slow and in many cases salesmen thought they were offered less money. Natives brought \$1.80@2.75, and the westerns \$2.00. Feeders and stockers sold more freely than the other kinds of cattle, but at a decline of

about 10c. A large proportion of the cattle on sale were cleaned up. Hogs. The receipts of hogs were light and the market opened strong to 5c higher on heavy and mixed, and some light sorts sold perhaps 10c higher. While the market remained in that state the trade was quite active, but the heaviest packers were in no hurry to buy, and as the later trains came in the market dropped back to where it was yesterday. The packers wanted the heavy and mixed the packers wanted the neavy and mixed hogs that were left at \$3.65. As every one wanted about the morning prices the trade was very slow. The market dragged the re-mander of the forenoon, and at midday there were still a number of loads unsold. The market closed with the morning's advance

The bulk of the sheep were feeders and consigned through.

Receipts. Cattle...... 1.050 Hogs 9.500 Sheep 8.340 Prevaiung Prices. The following is a table of prices paid in this market for the grades of stock mentioned: Prime steers, 1300 to 1600 lbs.,\$4.10 @4.50
