

THE SPECULATIVE MARKETS.

Wheat Fluctuates Within Excceedingly Narrow Bounds.

DULLNESS IN THE CORN PIT

Data Less Active With a Good Business Done—Nothing Out of the Ordinary Line in Provisions—Quotations.

CHICAGO PRODUCE MARKETS.

Chicago, Nov. 20.—[Special Telegram to The Bee.]—Wheat fluctuated within exceedingly narrow bounds to-day and the market rests at about yesterday's closing valuations. News of the kind calculated to stimulate business and excite action was lacking, and the situation is without important change. The receipts at Minneapolis and Duluth are still very heavy, but unless all signs fall there will be a big falling off in the movement in the near future. Cables were quiet and seaboard points have little to report in the way of new business. Philadelphia advices that nine boat loads were worked there today, and Duluth dispatches indicate that something is being done there for shipment. Three cargoes for export was also reported, and competition for cash property at that point was active at an advance over yesterday's figures—\$1 1/2 per bushel for cash, 50c for November and 50c for December. In the local market prices averaged very steady and firm at a shade under prices here yesterday. The market opened, however, ranging down to 80c and up to 81c, barely touching the outside, and holding at 80c, or 1-1/2c above or below most of the day. The demand for cash corn was active, and a determination to cling close to late outside figures nearly all the season, and closing at 33 1/2c. The strength of the market late in the day was attributed to the firmness in Duluth and Minneapolis. The market closed at 33 1/2c, marked up 1/2c about noon. Locally trading was on a restricted scale and of a scalping character.

This was a day in the corn pit. There was a thin attendance, and very little desire to trade, but there was a firm undertone, which received expression in the night. The advance in the active future market and continued rather weather helps to strengthen the hands of holders to a slight extent, but as the receipts are increasing and the demand just the same, the bears seem disposed to become alarmed. The foreign market was firm and Liverpool was quoted slightly higher in some sections. The demand for cash corn was slack, but this was in a great measure due to the difficulty of getting together for a cargo, shippers being adverse to getting caught with a fall in the price of many separate elevators. The closing prices show some gain on those of yesterday's date, November 20th, December 31st, 31 1/2c and May 31st, 33 1/2c.

Data were less active than yesterday, although a liberal speculative business was done in the active future market and continued rather weather helps to strengthen the hands of holders to a slight extent, but as the receipts are increasing and the demand just the same, the bears seem disposed to become alarmed. The foreign market was firm and Liverpool was quoted slightly higher in some sections. The demand for cash corn was slack, but this was in a great measure due to the difficulty of getting together for a cargo, shippers being adverse to getting caught with a fall in the price of many separate elevators. The closing prices show some gain on those of yesterday's date, November 20th, December 31st, 31 1/2c and May 31st, 33 1/2c.

eral upward movement took place, which was generally confined to fractional amounts, except Lockawana, which rose 1 per cent and Tennessee Coal and Denver, Texas & Fort Worth, which advanced 3 and 1/2 per cent respectively. Union Pacific and Rock Island led the rest of the list with advances of 3/4 per cent each. Paring the market to 13 1/2 per cent, other stocks came to the front as leaders in the advances. The gains were not remarkable, but very encouraging, including Grangers, Coal stocks, trusts and other active securities. Louisville moved up to 96, Lake Shore to 103 1/2, New England to 45, Northern Pacific preferred to 70, and Atchafon to 34 1/2. Burlington took the lead among the Grangers group, going to 100 1/2. Northern Pacific went up to 113, and Rock Island to 97 1/2. St. Paul sold 1 per cent over last night at 71 1/2. Missouri Pacific advanced to 70 and Union Pacific to 70 1/2. Tennessee Coal broke 3 points to 75 1/2 and Chicago Gas gained 1/2 to 50 1/2. The strength in stocks was well maintained to the close. A rumor regarding the probable action of the treasury in anticipating a disbursement had a bullish effect. Money ruled at 6 to 6 per cent. There was a raid in Reading, but the price soon recovered. Grangers showed the best gains. St. Paul and Union Pacific were each up 1/4. Burlington was up 1/4. Northern Pacific, 1/4, and Missouri Pacific 3/4. The total sales were 215,000 shares.
